LOSES 3 GAMES BUT WINS HIGH PRAISE

Tecumseh's community play night volleyball team lost the majority of the games played with Adrian Y. M. C. A. business men's team at the local high school gymnasium Saturday night but won the praise of their more experienced opponents for the excellent showing made after having had so little practice. A return series of contests is to be played at Adrian in the near future.

There were four games played Saturday night, the visitors taking three of them. This was expected, as the Adrian men have been active along this line for some time, while the members of the local team are only just learning the game. Rev. W. R. Curtis, one of the members, sustained an injury to his arm early in the evening and this helped to put the Tecumsehites at a greater disadvantage, the Baptist pastor being more experienced in the fine points of the game than most of the others on the local team. The contests were all close and when the victors learned how little practice the home men had had they highly complimented the vanquished.

The [illegible] nights continue to gain in attendance, there being an especially large gathering of children on Saturday evening.

W. F. M. S. OF M. E. CHURCH HAS INTERESTING MEET

Mrs. C. M. Thomson was hostess to the W. F. M. S. of the Methodist Episcopal church Thursday afternoon, January 8. The meeting was opened with a song, followed by devotions conducted by Mrs. Willett.

Mrs. John McIntyre presided over the business session.

Mrs. Willett was program leader. There was an impressive short memorial service for the late president, Mrs. A J. Bigelow. Mrs. Ed Harper played the "Valse Styrienne" on the piano, while all concentrated their thoughts in loving memory of Mrs. Bigelow. The following poem was read by Mrs. Conklin:

Away.

I cannot say and I will not say
That she is dead—she is just away!
With cheery smile and a wave of the hand,
She has wandered into an unknown land,
And left us dreaming how very fair
It needs must be, since she lingers there.
And you, O you, who the wildest yearn
For the old time step and the glad return,
Think of her faring on, so dear
In the love of There as the love of Here.
Mild and gentle as she was brave,
When the sweetest love of her life she gave
To simple things;
The touches of her hand have strayed
As reverently as her lips have prayed;
Think of her still as the same, I say;
She is not dead—she is just away.

Resolutions will be spread in the minutes and sent to Mrs. F. S. Turner in appreciation of Mrs. Bigelow's work in the organization and thoughtfulness of her gift of $50 to the W. F. M. S.

Mrs. Swift read the report of the secretary at the Boston Jubilee meeting.

Two magazine articles, "Hitherto Hence" and "Backward-Beyond," were reviewed by Mrs. Brown and Mrs. Wilfred Waldron. Mrs. George Field (in costume) read of the women of India.

Mrs. J. O. Eaton had charge of the mystery box.

Refreshments were enjoyed and the meeting adjourned.

Sheriff's Force Is Granted Increase

Resolution Presented by John F. Schreder Unanimously Adopted—Board Ends Session.

Through the efforts of Tecumseh's representative on the Lenawee county board of supervisors, John F. Schreder, that body has voted to raise the per diem salary of Sheriff Fred Nutten and his deputies from $3 to $4 a day. The action of the supervisors is gratifying to John B. Smith of this city, who is one of the deputies to benefit by the pay boost.

The vote in favor of the advance in the per diem was unanimous, it following the report of the judiciary committee that such an increase could be legally granted. The rate of pay which has prevailed up to the present was considered inadequate in view of the high cost of living, and the new schedule is to remain in force until action to the contrary is taken. The higher salary shall date from January 1, 1920, according to the resolution presented by Supervisor Schreder.

According to the report of the treasurer, [illegible] cash balance of $19,253.14 on January 1, 1920.

Before ending their January session Saturday morning the supervisors voted to raise the salaries of Deputy Drain Commissioner Bruce Wotring and of Mrs. Daisy Storer, deputy school commissioner.

The next session of the board will begin the second Monday in March.

OFFICERS INSTALLED BY TECUMSEH GRANGE

The members of Tecumseh Grange had a very enjoyable time at their hall last Friday. Not a very large attendance was present because of the storm. The following officers for 1920 were installed:

Master—Norman E. McConnell.
Overseer—J. O. Eaton.
Lecturer—W. R. Curtis.
Steward—Floyd Bryan.
Assistant Steward—Ted McConnell.
Chaplain—Mrs. J. L. Howe.
Treasurer—Jared D. VanVleet.
Secretary—Dr. O. O. Mater.
Gatekeeper—John Carson.
Ceres—Mrs. J. O. Eaton.
Pomona—Edith Smith.
Flora—Fern DePuy.
Lady Assistant Steward—Mrs. Leota McConnell.

Past Master George Sanford and Mrs. Sanford were the installing officers, assisted by the assistant steward and lady assistant steward, Mr. and Mrs. Ted McConnell. The work was exceptionally well done and the installing officers and their able assistants received a hearty vote of thanks from the Grange.

The outlook for Tecumseh Grange is very encouraging. The young people are taking hold and they are the ones to make it go. If they will follow Ted McConnell's lead they will surely get somewhere.

The exceedingly cold winter of 1916-17, the war and the flu combined to make hard sledding for the Grange for the last three years. The members of the "old guard" feel that they are entitled to some credit, because they "kept on keeping on" when they knew they could not accomplish much. The foundations are solid for the new administration to build upon.

One of the active Grangers in summing up the situation said:

"We have a fine new set of officers and we are expecting great things from them. But, say, sister and brother Patrons, we who are privates in the ranks need to remember that the greatest war in the world's history was not won by the officers. All honor to the brave privates, who in the training camps and in the trenches and in the thick of the fight everywhere, made it possible for the allies to win the war.

"From the day when Adam made his hasty exit from the garden of Eden until today there never was a time when the tillers of the soil need to organize and stand together as they do now. The farmer has not a word to say as to the price he must pay for anything he buys, from a paper of pins to a windmill. He pays the dealer's price or he leaves it. Neither has he any voice in determining what he shall receive for anything he brings to market. He accepts what the dealer offers or he takes his produce home again. He is being exploited on all sides and is made the goat for everything that goes wrong. Are the farmers of Lenawee prosperous, contented and happy? For your answer notice the number of farm auction sales. Verily the farmers must all hang together or they will all hang separately."

Tecumseh Farmers,
You Can Do Better!

The department of journalism at South Dakota State college wrote nearly 100 farmers asking their experience with advertising.

One replied that advertising of seed grain had been so successful that next year a new grainery was to be built, a new truck bought, and equipment for cleaning and handling grain added.

Another replied that his success in selling little pigs had been so great through local papers that he had been unable to meet the demand.

A third replied that a small ad in the home paper sold all his settings of eggs.

These typical replies point once more to the potential value of using the columns of the local paper (in Tecumseh and vicinity The Herald) to inform others of what you have to sell.

A committee, composed of Rev. J. G. Widdifield, Perry Satterthwaite and Lester Rogers, represented St. Peter's vestry in a meeting with such a committee from St. John's parish in Clinton Tuesday evening, discussing the candidacy of Rev. Host to Employes At a Jolly Affair

Webster Anderson Co. Serves Chicken Dinner, Then All Enjoy Dancing.

The employes of the Webster Anderson Co. and their families, to the number of about 20, enjoyed a jolly party in the basement of the store Monday evening. The manager, R. W. Puffer, congratulated himself that his force is so congenial and these parties are no small factor in the harmony which exists in the store.

The group, when they gathered, found a long table beautifully laid. Baskets of roses and yellow candles in crystal holders lent color and beauty with the pretty china and white napery. The walls of the room were hung in white with [illegible] trailing vines as [illegible].

A three-course chicken dinner was served and afterward the tables were pushed back and a victrola made its appearance and then all danced, quadrilles being special favorites, with Earl Updyke caller.

The cooks were Mrs. Clement Hardenburg, Miss Elizabeth Beamish and Mrs. Eleanor Hardenburg. Mrs. Ernest Pangborn is the prize dishwasher, while Mrs. Albert Anderson tended to the waiters. Homer Hanham, in his nice white party gloves, and Lester Heesen, in the glory of a new necktie and pink socks, stood around in the way, but Mr. Puffer didn't wait for ceremony, making short work of those chickens.

The party was a most delightful affair and all who participated are eagerly looking forward to another.

ATTENDANCE GROWING AT COMMUNITY PLAY NIGHTS

Community play night last Saturday evening was patronized more extensively than ever. The floor was filled with kiddies shortly after 6 o'clock, and they were led in community games by Rev. W. R. Curtis until 7 o'clock. A team of girls then played a game of basketball, after which a group of boys had a lively game of basketball. In each of these games Prof. E. E. Crampton acted as referee. Then a free for all volleyball game was played by the men, with Rev. Curtis as referee. After this a lively contest of volleyball was played between the Baptists and the Presbyterians. Four games were played, three of them being won by the Baptists. Next Saturday night there will be a game between the Presbyterians and the Methodists. Come and root for your side. Plenty of seats in the gallery. All is free.

NEXT HILLIS LECTURE TO DEAL WITH BOLSHEVISM

"Better America" Discourses Will Be Held in Presbyterian Church in Future—Attendance When Given at High School Auditorium Not as Large as Expected.

It having been proven that the best place for holding the "Americanizing America" lectures is in the churches, it has been definitely decided to give the rest of the series in a house of worship, the fifth one in the Presbyterian church next Sunday evening. The topic of the next lecture will be "How Bolshevism Ruined Russia and How it Works Ruin Wherever Tried."

The fourth in Dr. Newell Dwight Hillis' series of ten discourses on "A Better America" was read by Rev. W. A. Rex at the Presbyterian church Sunday evening. "Why There is no Excuse for Poverty in the United States" was the subject and Rev. Rex interpreted the lesson most effectively, the colored stereopticon views playing an important part in making the lecture entertaining and instructive.

Community singing preceded the lecture, Rev. C. M. Thompson, who presided over the meeting, being the leader. Religious and patriotic selections were sung with fervor, and "Columbia, the Gem of the Ocean" was the closing number, with all standing. The scripture lesson was read by Rev. W. R. Curtis, it being the 37th Psalm. The pastor of the Baptist church also offered prayer. During the announcements the audience was informed the rest of the "Americanizing America" lectures would be held at the Presbyterian church, the fifth one next Sunday evening, with Rev. W. A. Rex as the reader. Rev. Curtis informed his hearers it had been found necessary to change the date of the appearance here of the Hillsdale College Glee club and that this organization would give an entertainment in Tecumseh on February 6 instead of January 30. Rev. Thompson called attention to the meeting of the Parent-Teachers' association at the high school Friday night and invited all to hear the address by Dr. C. O. Davis of the University of Michigan.

Salient portions of the fourth lecture were as follows:

"Poverty and luxury alike are enemies of human progress. In the desert or in tropic countries poverty is excusable but not in [illegible]

WESTMINSTER GUILD TO HOLD ANNUAL MEETING

The Misses Grace and Jennie Gillespie, assisted by Mrs. Franc Gillespie, entertained the Westminster Guild at the home of their mother, Mrs. R. B. Gillespie, Tuesday evening. Mrs. E. C. Heilman presided at a business session, with Mrs. W. A. Rex conducting the devotionals. Dr. Pauline Bredow acted as leader of the study session, when the final chapters of the book, "American Christianization," were discussed by the Misses Byrde Stone and Mildred Boyce. Later a social hour passed happily, during which the hostesses served refreshments. During the evening the ladies pieced blocks for quilts, which will help in local charity work, and Mrs. Heilman sang delightfully, accompanied by Wilfred Waldron at the player piano.

The next Guild meeting will be held at the home of Dr. and Mrs. H. R. Conklin, when Miss Bernice Blythe will be the hostess. This will be the annual meeting of the society.

MONDAY CLUB TO HAVE MUSICALE NEXT WEEK

At the Monday club's meeting this week Mrs. O. B. Finch was leader of the program, when two interesting papers were read:

"Social and Industrial Conditions in Mexico"—Miss Marian Rosacrans.

"Mexico's Resources"—Mrs. J. D. Shull.

Before the program the ladies took part in a community sing, led by Mrs. R. S. Moore and accompanied by Mrs. F. B. Wood. During the business session Mrs. Albert Clark was voted a member.

From January 17 to 24 is National Thrift Week and the object as stated by the General Federation of Woman's clubs was read by Mrs. F. S. Turner, together with the program advocated. The club voted to endorse the movement and work along this line wherever possible.

Some weeks ago the club voted the support of a French orphan and at Monday's meeting the notification card was received. The little maiden is 9 years of age, her name, Nelly Dumeige of Amiens, France. The club cares for this little girl through the National W. C. T. U.

The session next week will be a musicale and tea will be served.

TO RESUME SERVICE ON DUNDEE BRANCH JAN. 25

That the Dundee branch of the New York Central is really going to again give service to the people residing at Onsted, Tipton and points west was evidenced by a message received Monday from the Public Utilities Commission by Jacob Alderfer, the energetic editor of the Onsted News, who has been tireless in his efforts to have this service restored.

The message read: "General Manager [illegible] of the New York Central announces that the changes will be effective on the Dundee branch of the New York Central January 25."

The employees at Tecumseh Junction [illegible] say they have received no official notice of these new trains, but by hearsay have learned there will be a new schedule operative January 26.

President of the Co-Ops Resigns

Manager Murphy and Several Directors Also Leave Association—Annual Meeting to Be Held Feb. 18.

The board of directors of the Tecumseh Co-Operative association called a special meeting of the stockholders, which was held at their hall in Tecumseh [illegible]day afternoon, for the purpose of discussing the present financial condition of the company, and as a number of the directors had handed in their resignation to take effect on the date of the next annual stockholders' session, to be held February 18, it was thought advisable to call this advance meeting to enable the stockholders to make their selections to fill such vacancies on the board as would then exist.

President Charles Evans tendered his resignation, to take effect immediately, explaining to the stockholders that it was impossible for him to give the necessary time to the office that the business required, and felt the head of the concern should be located nearer to the business office of the association so as to give it due attention when matters of importance came up.

James A. Murphy, manager, advised the stockholders he had tendered his resignation to the board some two months ago to become effective December 31, but is allowing the same to hold over until the date of the annual meeting of stockholders.

The association recently sold its grain elevator and business at Britton to Messrs. Walper and Craig and so advised the stockholders. The necessity for such action was caused by the financial condition the board found itself in when the company's annual report was completed last spring, at which time the board, as individuals, obligated themselves personally to the extent of many thousands of dollars, which had matured and these obligations had to be met.

It was the desire of the board to put the stockholders in possession of all the facts that they might work out some solution to assist the association to definite action at its next regular meeting.

The retiring officers and directors remain loyal to the association, but feel that with 413 stockholders in the association it will be an easy matter to select good material to help share the responsibility.

The annual meeting will see things all straightened out and the association on a firmtr basis, it is believed.

FORMER TECUMSEH GIRL WEDS A MANCHESTER MAN

Miss Iva McGathy, a well known Tecumseh girl, was married to Arthur Schill of Manchester in Adrian Wednesday, January 14, Rev. Earl Rice, the Methodist minister, performing the ceremony at the parsonage.

The bride wore a pretty gown of blue silk. The attendants were Miss Ella Dinse and George Miller, both of this city.

Mr. and Mrs. Schill, after a short wedding trip to Toledo, visited Mrs. Schill's relatives, C. J. Harper and family, of this city over Sunday, going on to Manchester Monday, where they will reside with Mr. Schill's parents on their farm, four miles southeast of the latter town.

The bride has resided in Toledo for several months, but has many friends in this vicinity whose best wishes go with her.

An amendment has been made to the by-laws of the Britton Telephone company as follows:

"That all assessments shall be due and payable in advance each year, not later than February 1 of each year, and that all toll shall be payable every three months of each year. That any person neglecting to pay such assessments and toll on the date mentioned shall be cut off from service, and for reconnecting thereon shall pay all charges incurred in such cutting off and reconnecting. All renters to pay same as above."

Local High Teams To Adrian Friday

Tecumseh Boys and Girls Defeated Britton Basketball Players Here.

Flushed with their victory over the Britton high here last Friday night, the boys' and girls' basketball teams of the Tecumseh school are scheduled to go to Adrian tomorrow night to struggle with the county seat fives. A number of rooters are expected to accompany the players.

The games here last Friday evening were largely attended and most exciting, the Britton teams proving to be plucky opponents. There was only a margin of five points in favor of the local lads when the boys' teams ended their encounter, the score being 18 to 13. Captain John Larsen refereed.

In the battle between the girls' teams the home five was a bit the faster, taking the long end of a 27 to 11 score. June Brooks refereed the first half of this game, while the principal of the Britton high school officiated during the latter part of the skirmish.

The Tecumseh girls' team won many complimentary remarks for their appearance. They wore black bloomers, white middies, white shoes and black stockings, and the school colors were displayed in a black and orange ribbon around each player's head.

Editorial Comment

[illegible] in regard to the bolsheviki must give way to determined opposition to this great red menace if religion and civilization are to endure in the United States, as these apostles of revolution and disorder are out to abolish God, according to new light thrown on the activities of this destroying element.

Christianity is recognized as the most dangerous foe of bolshevism and is treated accordingly. In Russia drastic means are being taken by the reds to undermine the religious convictions of the people, and the church and all that it stands for are made sport of and services are forbidden.

Does America want similar conditions to prevail here?

Bolshevism is being preached every where in the United States and the hideousness of the menace is not realized by most people.

Events in the past few years have shown conclusively that wherever bolshevism is in the ascendency there ruin follows and this is to be impressed on the minds of the people of Tecumseh and vicinity next Sunday evening in the fifth of the "Better America" lectures at the Presbyterian church.

The great peril which bolshevism brings and the danger that it may get a firm foothold in this land while the people are wondering what it all is about demands that we go to this lecture every one of us and learn how the propaganda is spread and how it results in wreck and ruin, that we may know how to oppose it.

This is National Thrift Week, but judging by the annual reports of the two local banks the people of Tecumseh and vicinity believe in saving part of their income in each of the fifty-two weeks in the year.

Both banks [illegible] city report a substantial growth in their savings deposits during 1919 and it is well that the residents of this community realize the importance of having funds to rely on if adversity befalls them. For these people National Thrift Week may be the means of pointing the way to laying aside a little more each pay day than in the past. To those who have not been in the habit of banking a portion of their wage the present campaign should be an incentive to put by something for the "rainy day" that sooner or later comes to most all of us.

Tomorrow evening it will again be demonstrated how much (or how little) interest the people of Tecumseh, especially the parents, take in school matters.

The Parent-Teachers' association will have a meeting which will include an exhibit of school work, a program by the pupils and an address by Dr. C. O. Davis of the U. of M.

What the children do in school will be shown in the exhibit, the program will be especially interesting and the lecure is of an entertaining and forceful character so the magnet to draw an attendance will be of triple strength.

It is to be hoped only standing room will be available at this gathering.

We stand corrected. Edward Frensdorf of Hudson sends the following communication:

"You will pardon me for calling attention to an error in a recent editorial in which you said: 'By the vote of the people of the state the legislature appropriated fifty million dollars for good road construction.' The facts are they made no appropriation, but authorized a bond issue for the fifty million (which we all voted for). No part of the state taxes were levied to care for these bonds, hence our high state tax is in no wise accountable by road building; if they were there would be a feasable excuse for them."

Father and son are to feast at the Grange hall next Monday evening, and the oftener a parent and his boy get into such close companionship the greater will be the good resulting.

The Tecumseh Commerce Club is giving the banquet for the Boy Scouts but the public is invited and it is hoped the attendance will be large.

Its a great opportunity to bring the boys of Tecumseh and their fathers into closer comradeship and will be an inspiration to the boy as well as the parent.

Let's make it a joyous success.

As one old resident put it Tuesday: "We might better have this right smart cold weather all in one spell now than to get part of it three months from now when we will want to go flivering between April showers." And we surmise that's about right.

It having been announced that passenger service is to be resumed on the Dundee branch January 25 it remains for those who most need these trains to prove it by patronizing the line as often as they have an opportunity.

You will all have an opportunity to pay your income tax January 29 and 30 when the deputy collector visits Tecumseh, so step up and do your duty by Uncle Sam but don't all crowd up at once.

Bolshevism Out To Abolish God

Apostles of Ruin Recognize Christianity as Most Dangerous Foe and Oppose It Rigorously.

In view of the fact that the "Better America" lecture at the Presbyterian church Sunday night is to deal with Bolshevism and its dire results, the following article from the January 17 issue of the "Literary Digest," it being under the caption "Bolshevism Out to Abolish God," will be timely and of deep interest:

Bolshevism is a religion as well as an economic system. This is denied by many of its preachers; but the late British chaplain of Odessa and the Russian ports of the Black Sea, the Rev. R. Courtier-Forster, asserts that "the first objective of Bolshevism is the complete elimination of every form of Christianity from the world and the substitution of a world-wide atheism." Of course, this will be denied, says the chaplain, but the fact remains. As "the ideals of Christianity are diametrically opposed to the brutal practices of Bolshevism," Christianity is "recognized as its most dangerous foe, and is treated accordingly." It is due to the paucity of first-hand information, says this writer in the London Times, that the Bolsheviki have been enabled "to conceal from the British people the ghastly persecution of the Christians which is being carried out with the utmost ferocity." Here is a statement of their methods:

"It was in the early days of the Terror that a young Russian acquaintance, full of enthusiasm for the Holy Revolution, came to my rooms and in the course of conversation declared: 'We have now overthrown the crown and monarchy; in a few years we will abolish God also from Russia.' As he held a position of importance under the new regime I recorded his words at the time. They were ominous. He went on to declare that in addition to his official appointment he was busily engaged in training twenty-eight young men as political propagandists. What he was doing hundreds of others were doing also. He declared that in a few months hundreds of young men would finish their instruction and go forth, not only to the towns, but that every village in Russia would be visited by at least two propagandists, working to destroy all loyalty to the monarchy, and by every means in their power to undermine the religious convictions of the people. The forces were carefully mobilized, and in a short time the attack on the Christian faith commenced with tremendous energy.

"Not only were schemes introduced for the confiscation of the property of the church, but the old religious practices of the people were ruthlessly proscribed. It is an immemorial custom to take portions of everything to be eaten on Easter day to be blessed at the church on Easter eve. During the last week of Lent the Bolshevik propagandis[illegible]lages round Odessa, as in other districts, and actually forbade the peasants to observe their old cherished Easter custom; it tended to keep Christianity alive. The clergy were next visited and strictly ordered not to go to the churches to bless the Easter feasts of the people. This was the beginning of the drastic Bolshevik interference with personal religion which so soon developed into the present blood-drenched religious persecution.

"Four days after Easter the Reds broke up the service in Odessa Cathedral, which was being conducted by the Archbishop of Kherson. They would not allow the liturgy to proceed, creating an uproar and shouting, 'Down with the Church! Down with the clergy!'"

Marriages are reported "tumultuously interrupted by bands of propagandists determined to compel the people to abandon Christian marriage and accept the new civil contract which has been introduced." Sunday as a day recognized by religion is imperiled:

"The Bolsheviki have attempted to bring about the abolition of Sunday as the weekly day of rest on account of its age-long association with the resurrection of Christ. The virulence of the Red hatred of everything Christian seeks to substitute Monday for the old hallowed day. In the spring of 1918 the attempt was temporarily crowned with success. The last Sunday in April was premptorily ordered to be erased from the calendar as a rest day. Works, factories and shops were commanded to carry on their business as on other days of the week. The streets of Odessa were thronged with crowds of truculent, jubilating Reds making a great parade of work. The following Tuesday, May 1, was substituted for the condemned Sunday, and duly observed as the festival of the Holy Revolution. On this day all workshops, houses of business and factories were strictly forbidden to work; even bread was not allowed to be baked. I had the greatest difficulty in obtaining anything to eat.

"A considerable impetus in the harrassment of the Christian population took place soon after the arrival of six hundred returning exiled Reds. These entered the country at Tornea, and to a man inscribed themselves on their passports as atheist.

"The brutal persecution of the church increased. After the torture and martyrdom of many priests and several bishops, a demonstration of protest was made by the Christians of Odessa. The Archbishop of Kherson and the Bishop of Nikolaiec took part in the procession. I marched with the other demonstrants. Two hundred Christian soldiers in uniform presented themselves at the cathedral and requesttd permission to carry the banners. Forty thousand of the faithful assembled. An unsuccessful attempt was made by the Reds to wreck the solemn march.

"As the procession moved down one of the main thoroughfares I inquired of a group of sullen Bolshevik sailors from the Black Sea fleet why they no longer uncovered their heads as the Archbishop's procession passed. The answer was given with morose rage: 'We would kill all the clergy in the procession, but we do not wish to even soil our hands with the blood of such vermin as Christ's priests.'

"In many places the persecution of the church is carried out with terrible fury. Outrages and affronts were offered to the Christians on every hand. At the women's hostel at Odessa University the ikon was torn down from the walls of the common-room amid a wild scene of ribald jesting and jeers."

ALL ARE INVITED TO OBSERVE THRIFT WEEK

This is Thrift Week, beginning January 17, Benjamin Franklin's birthday, as planned by the National Thrift Week headquarters, and having the hearty accord of the Y. M. C. A. and General Federation of Woman's Clubs. Both are co-operating with the savings division of the treasury department.

The purpose is to combat the American habit of extravagance, to assist in the reduction of the high cost of living, to protect people from wild cat schemes and encourage them to invest in safe securities, to develop character and to establish right relations with one's self, one's friends and one's God.

The following "ten commandments" are the basis of the National Thrift Week program:

1. Work and earn.
2. Make a budget.
3. Keep a record of expenditures.
4. Have a bank account.
5. Carry life insurance.
6. Make a will.
7. Own your own home.
8. Pay your bills promptly.
9. Invest in government securities.
10. Share with others.

MANY ATTEND OPENING OF JOHN SNOW GROCERY

John Snow held very pleasant open house at his recently purchased grocery, the former Williamson Bros. store, Saturday when his place was filled with friends and customers all day. A cup of excellent coffee, served by a demonstrator of the Nero coffee concern, was accompanied by most delicious fried cakes, Mrs. Snow's best, and she is a famous cook. The visitors enjoyed the refreshments hugely, the cold and snow bringing on great appetites. The sales for the day were most gratifying and John's opening day was a complete success.

The guessing of a number of beans in a can created no little sport. Charles Thurlby proved to be a good guesser, getting the nearest and winning a 42-piece set of dishes.

PARALYSIS IS FATAL TO MRS. MARGARET BECKLEY

Taken ill just 14 months before by a stroke of paralysis, the sufferings of Mrs. Magraret Beckley were brought to an end Friday night by a visit of the Grim Reaper. She had been confined to her bed since May 29, when a second stroke had taken place. During these months she has been faithfully cared for by Mrs. Elroy Zimmerman, who has resided with her for nine years.

Mrs. Beckley, who was the widow of the late John Beckley, was born 86 years ago in Bavaria, Germany. When a little girl of 8 years she came to America with her parents, Mr. and Mrs. Frederick Schreyer. The family lived many years in New York city, then moved to a farm north of Ridgeway.

Mr. Beckley died in 1888 and in 1902 Mrs. Beckley moved to Tecumseh, locating in the home on West Logan street in which she died.

Mrs. Beckley leaves no children, but E. T. Smith of this city is a nephew and looked after his aunt kindly. There are several other nephews and some nieces, of whom Mrs. Carrie Kurtz and Mrs. Gluck of Youngstown, Ohio, and Mr. and Mrs. Carl Schomberg of Detroit were called here by her death.

The funeral services were held Tuesday morning. A short service at the home being followed by a service in the German Lutheran church near Lake Ridge. Rev. Schwede officiated, with burial in the Lake Ridge cemetery.

FORD

The Universal Car

Weak Links in a Strong Chain

That's just what imitation parts are when they become a part of your Ford car. They look strong enough, but the metal isn't there — the strong, durable Vanadium steel that goes into the Ford chassis and every Ford part. Ford parts are specially cast and heat-treated, each according to its use. Some require a hard, flint-like wearing surface, others need resiliency, and some need just "toughness."

Ford Metallurgists have been studying these problems for sixteen years and know just how each unit should be made to endure a maximum of wear and tear. They know that best results can be obtained only by the use of special formulas for different parts, and that honest Ford parts wear from thirty-five to one hundred per cent longer than counterfeits.

We carry complete assortments of genuine Ford parts for both passenger cars and trucks. And our garage is equipped to give careful, prompt Ford service—from minor adjustments to complete overhauls. Drive in, it's better to be safe than sorry. Come to the Authorized Ford dealer for service.

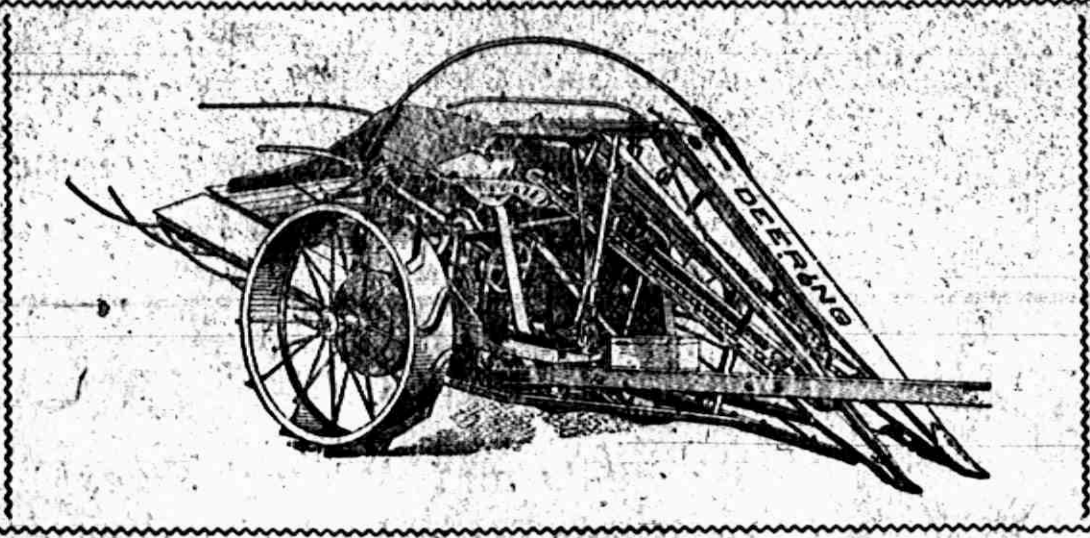
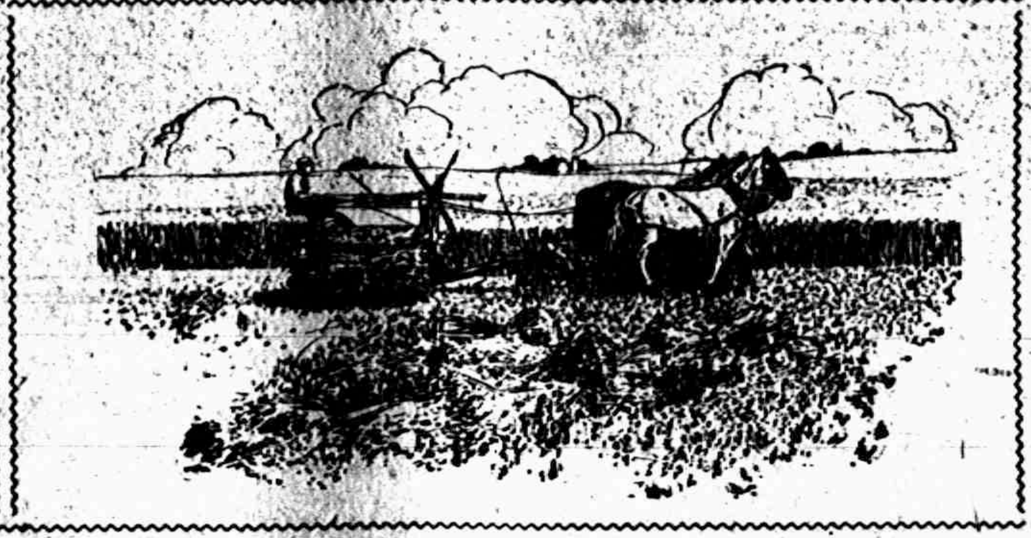
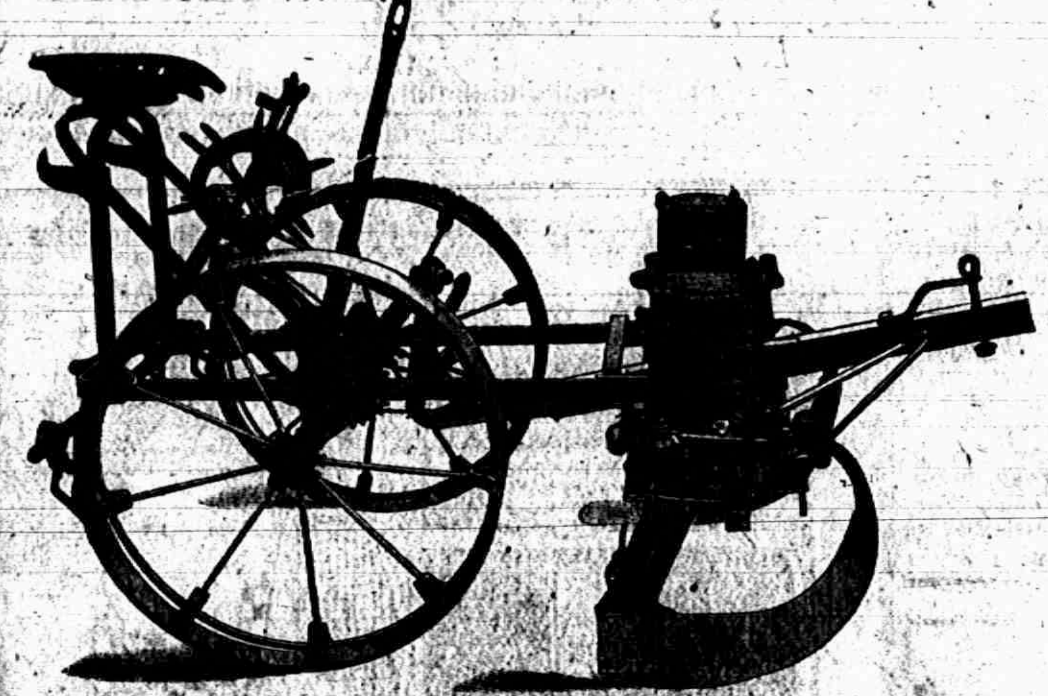
Buy Your Farm Equipment Now to Save Loss

Most farmers know now what their requirements in the implement line will be for the coming season. But for years it had been the custom of the majority of them to wait until the last moment before purchasing their necessary farm equipment, and it is this custom that must now be changed. 1920 will be a radically different year than the past two. Prices are now established, purchases are certain to be exceedingly heavy and as a result the demand will greatly exceed the supply. This fact is well known in the Tractor, Automobile and Implement manufacturing circles.





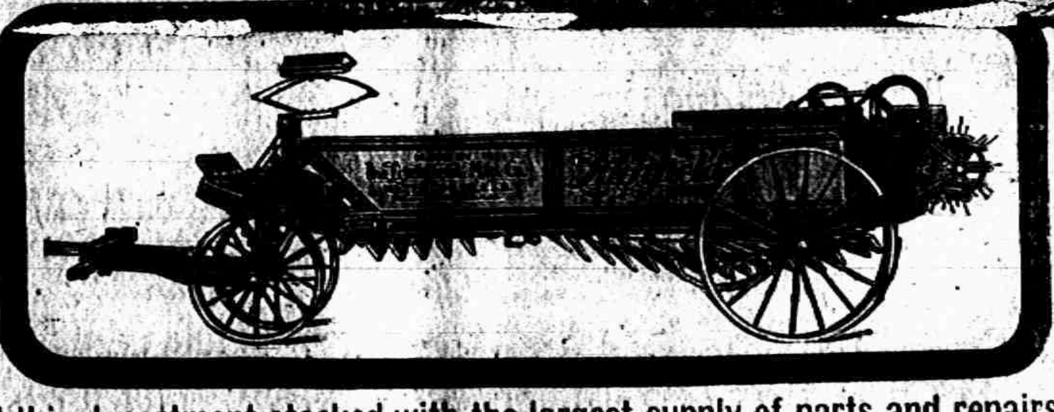
SURE TO BE SHORTAGE



We have already been advised we will not receive anywhere near the volume of goods we have ordered. We are certain there will be a local shortage of farm machinery and in all earnestness urge you, for your own protection against a serious handicap at a critical time, to make your purchases early.

By perusing the list appended you can see that we can supply you with anything in the implement line that you may need, but warn you to buy now. Ask for an early delivery date, get the machinery you need onto your own premises at once. This will give you an opportunity to familiarize yourself with the new equipment and you will be able to take advantage of the first favorable weather in the spring to get your work done at the proper time. Remember how those corn growers profited last year who, with the aid of the proper machinery, were able to do the preliminary work at the right time, while the others had to wait weeks before another opportunity presented itself and had smaller crops as a result.

Repairs and Parts of Vital Importance We Have Large and Very Complete Stock



Because of the slacking up of transportation the problem of securing parts and repairs will be a difficult one during the coming year, but we have solved it for the farmers of this vicinity. Realizing that the progressive agriculturist of today wants standard goods and is not satisfied by merely being told he can get parts and repairs at any time, we have anticipated his wants to the fullest. Recently we enlarged and improved the department devoted to protecting the farmer against loss of very valuable time when he has an accident with his machinery. Do not take our word for it but come and see for yourself, and you will find this department stocked with the largest supply of parts and repairs found in Southern Michigan. And we have adopted the most modern method of operating this department that its efficiency will be one hundred per cent at all times. This will be a vital factor in keeping the loss of time on the farms in this vicinity at a minimum.

We Can Supply Your Every Need

No matter what your particular requirements may be, we can supply them, as you will see by looking over this list, all of which we can provide you with if you order now:

BRADLEY OPERA HOUSE ATTRACTIONS

"Tarzan of the Apes" Saturday Night.

One of the biggest and most sensational picture plays yet to be presented in Tecumseh will be seen here when Edgar Rice Burrough's famous jungle story, "Tarzan of the Apes," will be shown on the screen at the Bradley opera house this week Saturday, January 24. It is claimed that no picture on earth can be compared with this film masterpiece which was produced in the wildest jungles of Brazil at a cost of over $300,000. Staged with wild lions, tigers, elephants, baboons, apes and natives.

"Tarzan of the Apes" is called the wonder picture of all ages, and is sweeping the country like a tornado, playing to capacity houses everywhere.

Within the frontiers of a desolate, God-forsaken jungle on the dark, silent coast of Africa this giant white man, Tarzan, reared by an ape mother, roams and kills. He slays the lion and tiger with his bare hands, the jaguar flees at his terrible cry, the massive elephants fear him. The dreadful gorilla and stealthy panther are but babes in his hands. All of the terrible beasts of the jungle skulk away at his approach.

Then comes the beautiful white girl, and Tarzan of the Apes takes her to his breast and covers her with kisses.

This strange picture of jungle life and romance is beyond the frontiers of imagination, its magnitude cannot be realized until seen. "Tarzan of the Apes" was presented for weeks at the Broadway theatre, New York City, at prices from 50c to $1.50, but it will be presented at the Bradley on Saturday night at prices that any one can afford. See page 8 for prices.

Clara Kimball Young.

Michigan's own screen star, Clara Kimball Young, in "The Better Wife." will be the main attraction at the Bradley next Sunday evening, January 25. The picture is well up to the Bradley's exceptionally good Sunday programs and is claimed to be one of Miss Young's best. Smiling Bill Parsons will be seen in a new comedy, "Proposing Bill," and by the way Bill is getting to be quite a favorite with Tecumseh fans.

Coller's orchestra will furnish the usual high class music for the evening.

BRITTON DEPARTMENT

Obituary.

The subject of this sketch, Philomen Brewer, was one of seven children of the late James and Almira Brewer, pioneer settlers, and was born at Bridgewater Jan. 20, 1840, and died Jan. 13, 1920, at the age of nearly 80 years. When 8 years old he came with his parents to the farm four miles east of here, where he, with the exception of three years spent in service for his country, lived and died. September 20, 1868, he was united in marriage to Miss Sarah Rankin and as a blessing to this union three children were born, two of whom, Warren Brewer of Adrian and Mrs. Vesta Lewis at home, together with the wife, three grandchildren and one sister, Mrs. Wm. Wells, of Dundee, survive and deeply feel their loss. One son, Arthur, passed away in 1893.

About seven years ago Mr. Brewer was stricken with paralysis, and since that time his health has been failing. He was a member of Co. F 26th Michigan Infantry, and his death leaves another vacancy in these ranks. He will be missed in the G. A. R. post at Dundee and by his friends and neighbors, by whom he was held in high esteem.

The funeral services were held Friday at 12:30 at the home, and were conducted by Rev. J. C. DeRemer, assisted by the G. A. R. members. The body was laid to rest in Ridgeway cemetery. The pallbearers were Warren Brewer, Frank Lewis, Stanley Wells, Cyrus Smith, Will Scholtz and Paul Clement.

Those from away attending the funeral were Warren Brewer and family of Adrian and Eber Ellis, C. C. and H. M. Paquette of Toledo.

He Rolled and Tossed About on A Sleepless Bed

BUT OTTO C. GADTKE OF JACKSON NOW SLEEPS SEVEN HOURS A NIGHT.

Why lose rest when this famous family root and plant nerve tonic is ready for you at Pulver's drug store? Get your nerves right and sleep will follow. Said Mr. Gadtke a short time ago:

"I have used three bottles of your Nerv-Worth for nervousness and sleeplessness and think it a good medicine for these ailments. I was so nervous and restless at night that I would lie awake until two or three o'clock in the morning before I could get to sleep and then would sleep only a short time before I would begin to roll and toss about the bed. I can go to bed now at ten o'clock and sleep until five and get up feeling rested."—OTTO C. GADTKE, 225 W. Main St., Jackson, Mich.

Nerv-Worth steadies and strengthens the nerves, whets the appetite, adds flesh, aids digestion, rouses the liver, regulates the bowels, restores restful sleep, banishes sick and nervous headache and other aches and pains, builds up run-down systems.

CENSUS TAKING DELAYED BY SNOW-COVERED ROADS

The bad drifts of the last week have in a measure been overcome. Farmers report the country roads as having good sleighing but poor "wheeling" and the auto traffic no good. When Undertaker Beldin drove his hearse to Holloway Sunday for the funeral of Mr. Gordon he and Floyd Freeman were compelled to dig out trucks and touring cars which were stuck in the road so the hearse could get through. A couple of young men driving cars from Toledo were compelled to remain here Sunday night as they could get no further. One man coming in said the snow drifted in like so much fine sugar and the road filled in as quickly as shovelled out. The doctors have had a hard 10 days of it. Some carry shovels and use the same frequently and, of course, there is an unusual amount of sickness.

The time for taking the census has been prolonged in the townships as the bad roads and frequent storms has delayed the work materially.

MOTION PICTURE INDUSTRY NOW RANKS AS FIFTH

In the history of the world no industry has reached to such great proportions in so short a time as has the motion picture. The reason for this mushroom development is in the fact that the movies answered a need which was becoming more urgent every year—the need of a recreation for everybody, amusement that would be interesting to all kinds of people, inexpensive, clean and located "around the corner." From the level of the dime museum the motion picture has risen to a height of dignity and importance that is astounding, especially when we recall the conditions which surrounded its birth and infancy. The motion picture industry now ranks fifth in the country, being exceeded only by agriculture, steel, coal and transportation. One of the most remarkable features of its development was the absolute lack of experience of the men who fostered it at its inception. There was no precedent to follow, no history to repeat, no traditions to live up to. Here, truly, necessity had to mother invention. Pictures in motion were nothing more than an idea, and the men who believed in the idea had to invent as they went along the things needed for its expression.

Wanted: Two Million Cars

Extracts of Article Appearing in Collier's Weekly.

That the automobile industry, already of immense proportions, is to experience its greatest expansion during the coming year and that the demand for cars is to exceed by far the remarkable clamor for motor vehicles in 1919, is the prediction of J. Edward Schipper, one of the keenest students of the motor car business in this country. Mr. Schipper, in the January 3 issue of Collier's Weekly, gives a resume of the automobile industry in 1919 and with these facts before him, coupled with his thorough understanding of what the conditions will be in the coming year, he expresses the opinion that the demand for cars during 1920 will be overwhelming.

His article appeared under the caption, "Wanted; Two Million Cars," and as it is of such general interest excerpts from it are given herewith:

"A million prospecitve car buyers were disappointed last year. Never was the factor of selling, or salesmanship, so relatively unimportant in the automobile industry as during the year 1919. With hundreds of thousands of people it was not a case of 'Shall I buy a car?' but 'Can I get one?' The problem has been one of production, and production has fallen far behind demand. And, if the demand was keen last year, in 1920 it will be tremendous.

"The figures are staggering. There is an unfilled demand today for 2,000,000 motor cars. Up to 1917 growing demand and growing production just about kept pace with each other, but in 1918 the war's influence cut production materially while demand raced on, unsupplied. In 1917 there were 1,800,000 cars produced. It was predicted that for 1918 production would reach 2,500,000. Instead of that it reached but 1,000,000. Production tables for 1919 will show about 1,200,000. Therefore, the pent-up demand due to underproduction during the past two years is put conservatively at 2,000,000.

"This does not take into consideration the fact that thousands and thousands of Americans who never before had money to spend are now in a position to buy cars. The United States has become the treasure house of the world. Our wealth is double that of any other nation on the globe. The per capita distribution of wealth is greater than ever before in our history, and this means there are many more prospective buyers of automobiles than at any previous time.

"We are going to sell 2,000,000 cars during 1920 if labor conditions allow us to produce them. Let a truce be called and the effort given to strike and walkout be concentrated on production and the greatest era of prosperity in the history of even this magic industry awaits us.

"No car manufacturer overlooks the farmer any longer. If the motor car is a necessity to the man living in the big city, it is a thousand times more so to the people on the farms who have no elevated railroads, subways or even surface cars to whirl them from one spot to another. The motor car does the farm work better and in a cleaner and more healthful manner.

"It is hardly to be expected that prices of cars will come down for two or three years, if they do then. At the present scale of prices it takes a huge output to profit by selling a good car in the neighborhood of $1,000 and therefore only the largest manufacturers can attempt it. The capital and plant required forbid any but the strongest kind of financial support to carry the load.

"Naturally one of the biggest causes of expense is the excess weight that has to be carried by the heavier cars, and for this reason the engineers in all the factories have been making the keenest study of materials which provide adequate strength with the least possible weight. Never has the purchaser demanded as much of a car as he demands today, and it is a fact that the same performance, the same get-away, hill-climbing ability and general responsiveness are demanded in the lower-priced cars as in the higher. Above all, the demand is for reliability. The user wants a car that is going to perform 300 days or more out of the year.

"In the not far distant future sales are going to be materially affected by the readiness with which certain essential repairs can be made. Many car owners are rightfully tired of having to pay a $20 bill for labor necessary to change a $1.25 part. It ought not to be necessary to take most of the car apart to reach certain parts that frequently require adjustment. It will be found that on some of the new cars that are coming out now this problem has been given a great amount of careful thought, with the result that the owners of these cars are going to be blessed with greatly reduced repair bills."

(Continued from Page One.)

the United States. Our earth holds five continents and ours is the only farming land continent. Our earth also has three zones, arctic, temperate and tropic, but our land alone lies in the very best zone, and the very richest part of the zone. Tropic heat and vapor exaggarate shrubs and grasses into gigantic cones, and ruins the grains for foods, while the arctic cold chills vegetables and dwarfs them into nothingness. Midway between Greenland and the Amazon lies our fortunate land—the land of fundamental foods, wheat, rye, barley; the land of cotton and sugar, rice and corn. The tropics are at war against democracy and great men. The temperate zone is at enmity with tyranny. During all the thousands of years of history, no land ever exhibited in so short a time so many or so great inventors with new tools, railways, steamships, and the 10,000 comforts and conveniences of our land.

"Strangely enough, the western continent alone was made for farming land, with enormous wealth. The reason is very simple. Our continent alone has the mountains on the western side. If the Rocky mountains and the Andes had been on the New York shore our country would have been one vast Sahara desert, and land in the Mississippi valley, worth today $500 an acre, would not be worth 5 cents an acre. The planet turns from the west toward the east, and as the Atlantic ocean whirls eastward, the fog and mists fall behind, and as the New York shore is low, rains sweep across the continent, on and on until the tops of the Rockies and Andes chill the moisture, bring it down in snow and flood, and keep the Mississippi and the Red river full to the brim.

"Poverty is excusable in worn-out countries like India. Centuries of misuse have ruined her soil. For the people of China also poverty is excusable, for the mountain ranges of China are just back of Pekin. Poverty is excusable in Armenia. The unspeakable Turk, the butcher, has mapped out all Armenia for looting. Once in about 20 years the Turk raids each village, carries off the rugs, carpets and shawls; steals the looms and drives away the herds. The unjust taxes in Russia also excuse the poverty there. In cities like Naples, Italy, and Manchester, England, the old factory system brought poverty.

"Drunkards fail and are poor. Wicked men, also liars and thieves, fail. Ignorant men fail and remain poor as do those without vision. Dishonest workers fail and with their failure cause loss of life and property for honest workers.

"Having confessed that much failure is ignorance and that success is knowing how, it remains to affirm that the chances for poor boys were never so numerous or so rewarding.

"In our country, therefore, povtry cannot be ascribed to anything lacking in the soil, clouds or sun. Our country has three-fourths of the fresh water of the globe from the Great Lakes, leads the world in cotton, corn and oil, has half the world's supply of coal, and when nature offers the average family in the rest of the world one sheaf, our kindly land offers the workers four sheaves. By universal consent, therefore, for our healthy young men, poverty and failure are inexcusable. It seems nothing short of a crime, therefore, that aliens, Bolsheviks and syndicalists should be fomenting strikes, shortening the hours of work and engaging in plots to bring poverty and force revolution upon other countries, and obtain another club with which to secure their ends."

In an effort to learn if the attendance at the lectures would be larger if held in the high school auditorium, the third in the series was given in that place last Thursday evening. While more children were present than when held in the churches, the adult attendance was found to be smaller, and the three organizations promoting the lectures came to the conclusion the best results would be obtained by using the churches as the place for putting on the lessons in true citizenship.

"The Loyal Classes Who Build the State and Enemies Who Undermine It" was the topic of the third lecture, the essence of which was that every loyal worker who grasps the handle of his own being, moves in the line of least resistance and fulfills what he believes to be his duty, through his chosen life work, is a divinely called man or woman. The following were classed as builders of civilization: The soldiers who keep the state in liberty, the farmers who feed the people, the inventors who multiply man's strength, the physicians who keep the people in health, the jurists who organize ideals into laws, the teachers, poets and pastors who inspire and exalt the people. Everyone of these workers is called by God to his noble work. Uniting their labors, under the guidance of noble leaders, supported by men of every occupation, profession and industry, society makes its way out of the wilderness into the promised land, where the pilgrim host shall encamp to hang out the signals of victory.

As to the enemies of the state, Dr. Hillis has the following to say: "Over against the nine good men stands one evil one; one sinner destroys much good. Bad men are destroyers. Gamblers are enemies of the state; and so are the thieves and drunkards and drug fiends and greengoods men and all who degrade their fellows by feeding the passions and by flattery that they may use them. Corrupt men in the government of cities and states are also enemies of society. Aganist all these [illegible] society must [illegible] on its way. Fortunately the pilgrim host has an Unseen Leader whose chariot is in the clouds. The God of our fathers is always stronger than satan."

Superintendent of Schools E. E. Crampton was the reader, giving the discourse in a forceful manner. At the opening of the meeting there was community singing, led by Rev. W. R. Curtis. Patriotic and religious selections were rendered, considerable enthusiasm being generated by the pastor of the Baptist church.

For Middle-Aged Men and Women

It isn't always on-coming old age that causes men and women in the middle years of life to slow up and feel a loss of ambition and energy. Weak or disordered kidneys do not filter waste matter and impurities out of the blood as they should, and backache, tired feeling, lameness, stiff joints, sore muscles, rheumatic pains, biliousness, irritation of the bladder, puffiness under the eyes or other symptom or ailment appears.

SHE WAS GREATLY BENEFITED

"I feel so much better than I did before I got Foley Kidney Pills. They are fine and you may use my name in your advertisement. I am glad to help you, as your medicine helped me greatly. I truly hope some one else who needs it will get some of your medicine. Your Kidney Pills are wonderful, I cannot thank you enough for them." Laura Perry, 1540 Twiggs St., Augusta, Ga.

FOLEY KIDNEY PILLS

strengthen the kidneys, stimulate the bladder and tone up the liver. They help the kidneys remove the accumulated poisons and soothe and heal the passages. When the kidneys and urinary tract are doing their work perfectly, the whole system is benefited and restored to health and strength. Why suffer when a reliable remedy can be so easily had?

More Interest in Raising Sheep.

As a result of high prices of wool and mutton and the value of sheep as weed and waste utilizers, western irrigation farmers are keeping more and larger flocks. This is shown by reports to the United States Department of Agriculture. As a rule these farm flocks are of good breeding, many consisting of pure bred animals, their owners making a specialty of selling pure-bred ram lambs to range-country stockmen, who do not reserve breeding stock from year to year. Several projects are now operating wool pools, the main function of which is to concentrate the wool in large quantities and develop keener competition among buyers. Combination also favors grading and better classifying of wool and allows a small producer to realize greater profits from his sheep farming operations.

Perhaps the new York man who stole the hearse has a lot of booze he wants to bury.

Mild Form of the Flu Hits Tecumseh

HEALTH OFFICER REPORTS MALADY IS ON WANE

School and Churches Closed to Prevent Further Spread of Disease—Other Cities in Michigan and Elsewhere Similarly Afflicted.

Like other cities in Michigan and nearby states Tecumseh is besieged by influenza in a mild form and the grip, in more than one case whole families being afflicted. The epidemic began late last week and steps were immediately taken to keep it from spreading, it being decided to hold no public meetings and that the school should be closed until further notice. It was announced by the board of education Wednesday, through the secretary, C. F. Patterson, that the local school would remain closed next week. In conformity with these precautionary measures the pastors have decided to dispense with religious services for another Sunday, so the churches will also stay closed. Lodge meetings and similar gatherings are also being postponed and these steps are expected to soon break up the disease wave which Health Officer Hendershott reports is diminishing. Only in two familes so far as known has the influenza developed into pneumonia, Mr. and Mrs. Donald Hall both being very ill with the latter disease. Mrs. Hall's parents, Mr. and Mrs. J. R. VanEtten, went to care for them when they were first taken ill, and they, too, were stricken with the flu. Miss Gertrude Tilton is the other pneumonia patient.

The assembly room at the high school was minus 125 students Friday afternoon through scarlet fever, measles and the epidemic, so the school board met that evening and very wisely closed the school and library for this week at least.

The ministers in a conference Saturday decided to follow the lead of the school board and there were no church services Sunday except the farewell service of Rev. J. G. Widdifield at St. Peter's Episcopal church. [illegible] Sunday evening.

The influenza is taking a light form, but few cases of pneumonia resulting, but it has sadly crippled business. The foundries and other shops are running with short forces. In Whiting's cigar factory nearly half the force has been ill. Many of the shopmen and business men have been forced to stay at home to care for their families, as it is impossible to find nurses to tend the sick.

The social events of the week were nearly all declared off. The basketball game with Adrian, the meeting of the Parent-Teachers' association and the lecture by Prof. Davis were the school functions advertised but deemed better to forego. The Monday club was to have a social meeting, and Monday evening was to have been held a Commerce Club banquet for the Boy Scouts, but both entertainments were cancelled.

Several of the lodges also fell into line, closing their sessions until the sickness is over. The L. O. T. M. was to have installed officers Monday evening, but this was postponed, and the I. O. O. F. lodge Tuesday night and the K. of P. meeting tonight were declared off. The Royal Arch Masons had invited the Clinton brothers for a session but that, too, was cancelled.

Among the sick are Mr. and Mrs. K. A. Braman, Thos. Meade, sr., Mrs. R. T. Meade and son, Thomas, Mr. and Mrs. Lawrence Derby and two children, R. W. Puffer, Miss Lillian Clark, Ralph Muli, Mr. and Mrs. R. A. Heesen, Mrs. J. G. Widdifield and son, George, Kenneth Fletcher, Mrs. R. J. W. Bowen, Miss Mary Avery, Earl Betser, Miss Mabel Lockwood, Mrs. A. J. Artman and daughters, Mary Louise and Margaret, Mrs. John Snow and daughter, Elizabeth, John Linton, Jas. Teagarden and family, Mr. and Mrs. Charles Mattis, Mr. and Mrs. Charles Lowe, Mrs. Louis S. Schneider, Joe O'Pravil and family, on the Gillespie farm, John T. Boyce, Mr. and Mrs. John Lowry, Miss Margaret Turner, Mrs. G. A. Rathbun, Mrs. E. E. Lockwood, Jimmie Temple, Harry Dewey, John and Ruth McKendry, Mr. and Mrs. George Kempf, Fred Shurtz and family, nearly all at Fred Sheldon's, Curtis, the small son of Mr. and Mrs. Ira Ashley, Earl Wood and family, Charles Gillen, Mr. and Mrs. E. J. Haines, Lear Van Valkenburg, Mrs. E. E. Howard and two children, Mrs. Hoyt Whelan and children, Minor Strang, David and Eleanor Reed, children of Dr. and Mrs. W. D. Reed, Mrs. Ed Ferguson and two sons, living northwest of town, Mrs. Paul Bowen, Miss Bessie VanAntwerp, five in the family of Harrie Wise, Henry Boltz and family, Mr. and Mrs. Ed Schreder.

Rev. Widdifield Bids Parish Adieu

Preached Formal Farewell Sermon Last Sunday, But Sickness in Family Prevents Departure.

Rev. J. G. Widdifield gave his final message to the people of St. Peter's parish Sunday afternoon, with that service his pastorate closing. It was freely circulated about town Saturday that there would be no services at the churches Sunday so the audience was small, but owing to the existing circumstances that service could not be postponed. It is with great regret the Tecumseh and Clinton people lose Rev. and Mrs. Widdifield, who have made many friends among the townspeople as well as the communicants of their own church.

Rev. Widdifield came here from Ontario, conducting his first service in St. Peter's church April 15, 1917. About the first of September, 1917, he was granted leave of absence by his church and went into the Y. M. C. A. work for overseas service and for nearly ten months did valiant work for the boys "over there." To him goes the honor of starting the first motor canteen, as he found the crying need of the service in the front lines and with his Ford truck made many a lonesome, sick "buddie" happier.

His first service after coming back was August 1, 1918, then after a well-earned vacation spent with his people at Toronto he resumed his duties here. Now he accepts an offer of a larger field as assistant rector in St. John's church, Detroit. He was to conduct his first service there next Sunday, but on account of illness in his family is unable to do so, hence will hold service for the Tecumseh church.

The congregations here and at Clinton are awaiting the affirmation of the bishop on the call they have given Rev. Preston to these parishes.

FORMER TECUMSEH MAN WEDS BAY CITY GIRL

The many Tecumseh friends of Henry J. Stahl, a former undertaker of this city but now of Detroit, will be interested to learn of his wedding, which took place Saturday, January 17. The bride was Miss Martha Kosmider of Bay City. The ceremony was performed at the home of Mr. and Mrs. F. A. Harms on Lane avenue, Detroit, Rev. S. D. Waterbury officiating.

A wedding dinner was afterward served at Hotel Statler.

While in Tecumseh Mr. Stahl was a partner with Eugene Service in the furniture and undertaking business. He left here about five years ago to accept the position of superintendent of the Detroit crematory and has worked up an excellent private business in conjunction.

The many friends of Mr. Stahl extend their best wishes to the newly-weds for a long and happy life together.

Given Painting Of Washington

UNDERWOOD-ORR POST HOST TO CIVIL WAR VETS AT IMPRESSIVE MEETING

Will J. Wooden of Battle Creek Donor of Picture of First President—H. W. Stevens Makes Presentation—Portraits of Local Heroes Also Hung.

At the regular meeting of Underwood-Orr post, No. 34, American Legion, Tuesday night, the members of Beers Post, G. A. R., were guests with the purpose of the presentation to the Legion of the painting of Washington by Hopkins, which was long in the possession of Mrs. Herbert E. Stout, a daughter of Mr. Hopkins. The gift comes from Will J. Wooden of Battle Creek, son-in-law of Mr. Hopkins and administrator of the Stout estate, the presentation speech having been made by H. W. Stevens, as follows:

"Underwood-Orr Post, No. 34:

"Commander Anderson and honored soldiers of the great world war, my own comrades who have born the blue and you the khaki, we know what war is in all its cruel and awful forms we all encountered.

"God gave America such wonderful leaders as history tells us. Washington, the so-called 'father of our country,' was 'first in war, first in peace and first in the hearts of his countrymen,' who led his Continental army on and on to victory; Lincoln, the grandest man of America, with Grant, Sherman, Sheridan, and last but not least 'Old Pap' George H. Thomas, who broke the backbone of the Confederacy at Nashville, Tenn., December 15 and 16, 1864. Grant's order to Gen. Thomas at that time was: 'Now is one of the finest opportunities ever presented of destroying one of the three armies of the enemy. If destroyed he can never replace it. Use the means at your command and you can do this.' And he did it, and when the war of '61 and '65 ended we came home with that immortal word blazoned on our banners, 'Victory.'

"And so you boys of 1917 and 1918 had many gallant leaders, viz.: Gen. Pershing, commander in chief of all A. E. F. forces; Gen. Dickman, commander of the 1st army corps and in command of the army of occupation; Gen. Liggett, command of 2nd army corps; Gen. Bullard, command of 3rd army corps; Gen. Haan, command of our 32nd division; Maj. Gen. Kennedy, commander of division.

"The home boys of the local post who led their men abroad were as follows: Major H. H. Hammel, Capt. John Larsen, Capt. Adelbert Mills, 1st Lt. P. C. Satterthwaite, 2nd Lt. T. R. Mills, 2nd Lt. W. D. Mills, 2nd Lt. R. K. Anderson, 1st Lt. Ed Sales and five commissioned officer members who did not go overseas.

"And when the American soldiers placed their feet on foreign soil it was but a question of time when you came home with that same immortal word enscribed on your banners, 'Victory in a world-wide war.'

"And in memory of your services I have the pleasure of presenting to you, through the sanction of one of Tecumseh's old and honored citizens, Will J. Wooden, of Battle Creek, and also the administrator of the estate of another old veteran, Herbert E. Stout, this painting by the great artist Hopkins, that of our father soldier, first president of the United States, General George Washington.

"I am authorized to give it to Underwood-Orr Post, No. 34. May it have a place upon your walls and always remind you of the great soldiers of our American nation.

"I am respectfully yours,
"H. W. Stevens."

John D. Shull of Beers post followed with reminiscences of the Blue Lodges of Alexandria and Fredericksburg, so closely associated with the Masonic life of Washington.

Commander Anderson accepted the picture for the Legion and thanked the G. A. R. for their interest in the newer organization. There were also remarks from different comrades of the G. A. R. and "buddies" of the Legion, the meeting being of an impressive character.

The boys also hung portraits of David Underwood and Wilfred Orr, presented by Mr. and Mrs. Cyrus Underwood and family and Miss Hessie Orr. They wish at this time to publicly thank the donors for their kindness and thoughtfulness in thus honoring the Legion.

KEMPF-MEHLER

Well Known Young Couple Wedded at Home of Bride's Parents at High Noon Tuesday.

The marriage of Miss Mildred S. Mehler and Leroy Kempf was solmenized Tuesday at high noon at the home of the bride's parents, Mr. and Mrs. Nicholas Mehler, northeast of Macon, Rev. W. A. Rex of this city performing the ceremony in the presence of only the immediate families. A wedding dinner was served after the couple had been congratulated.

The groom, who is the son of Mr. and Mrs. George J. Kempf, recently purchased a pleasant home near his parents, where with his bride he will begin housekeeping as soon as it is vacated. Both the young people have been employed at the macaroni factory and have hosts of friends who extend their best wishes.

Mr. and Mrs. George Kempf are confined to their beds by illness so were unable to attend the wedding.

Boy Confesses He Stole Hides

Ralph Hagadorn, 16, Takes Officers to Where Plunder Was Hidden.

Ralph Hagadorn, 16 years old, was arrested Monday by Sheriff Fred Nutten and Deputy Sheriff J. B. Smith on the charge of having stolen the furs taken from Brown & Co.

A week ago Jud Manley came to Brown & Co. with a dry muskrat hide, saying he bought it of Hagadorn, then the lad himself brought in a couple, and Arthur Poley another, saying he also bought it of Hagadorn. Clews all pointed to the latter, so Monday the sheriff was notified by George Hines, fur buyer for the firm, to come over and look up the matter. The sheriff came, and in company with the deputy, went to the boy's home and found him working with fresh furs.

Upon being accused of the theft he confessed the whole deal, saying no one was connected with the affair other than himself, and eventually took the officers to a shed back of the Dewey block where, behind a pile of boards, were hidden the remainder of his plunder, some $200 worth. The bags in which he carried away his haul he dug up in another building not far away.

The furs were returned to the owners and Ralph was taken to Adrian, where he was arraigned Monday and bound over to the circuit court.

The fact that the boy was 16 only last week takes him fom the class of juvenile offenders, but he has always been honest and that fact his friends hope will be kept in mind by the authorities.

LENAWEE PRODUCE CO. IS NOW IN NEW HANDS

A. A. Mangus and Hoyt Whelan Present Owners—Will Add Farm Implements and Tractors to Commission Business.

A. A. Mangus, who several months ago bought Ira Rogers' egg and poultry business, known as the Lenawee Produce Co., has taken a partner in the person of Hoyt E. Whelan, who a few weeks ago resigned as implement man of the Tecumseh Co-Operative association. Since taking over the business Mr. Mangus has added the buying of cream for the Ohio Creamery Co., and now, with the advent of Mr. Whelan, the firm takes on the John Deere line of farming implements and tools and International tractors.

In the latter line Mr. Whelan has proven very efficient in his former connection. A successful farmer himself, he knows what the progressive farmer needs and as he is well known and highly respected in this end of the county, the new line is bound to prove a splendid addition to the business. Mr. Mangus has been unusually successful in the commission business on the foundation so securely laid by Mr. Rogers, and the new combination starts out very favorably.

Messrs. Mangus and Whelan have already purchased the property they occupy of the Bidwell Stock Farm, and even now are planning to take on other lines as rapidly as the trade will warrant.

INJURES HIS FINGER, POISONING SETS IN

Charles Allen, who recently purchased Andrew Kehoe's farm, has been in Ann Arbor since Sunday, receiving treatment for blood poisoning in a hand and arm. A little less than two weeks ago he ran the handle of a pair of pliers into his hand, jamming a piece of the glove into the wound and up into a finger. He used an antiseptic at once, but it kept getting worse until Dr. Beardsley was called. He, by probing, found the tiny piece of the glove but the poison had begun its work and strenuous measures were used with no avail. The patient suffered excruciatingly while the poison infected the arm nearly to the shoulder, so on Sunday, accompanied by his wife and his father, Fred Allen of Clinton, he went to Ann Arbor. At first it was thought necessary to amputate the whole hand, but yesterday Mrs. Allen telephoned that the swelling is going down and it may not be necessary to amputate but one finger.

Editorial Comment

When both editors of The Herald are ill at the same time it is a severe blow to this column as well as to the paper as a whole.

If the readers fail to find this issue up to the usual high standard they are asked to bear with us and lay the blame to the wave of sickness which is sweeping Tecumseh, Lenawee county, Michigan and in fact practically the whole country.

One of the encouraging features of the present influenza epidemic is that the disease is of a much milder form than that which claimed so many lives last year.

The closing of the schools and churches was a judicious step as a precaution against a more general spread of the flu in this city, and it is likely that soon the disease wi'l have run its course and we can go back to normal conditions.

Calmness at this time and proper precautionary measures will help materially to lessen the dangers of the epidemic.

The Community Saturday play nights at the high school gymnasium are proving a factor for great good in Tecumseh.

Here little children, the older boys and girls and men well along life's journey play with complete abandon and reap the many benefits which this sort of relaxation and amusement brings.

Those directing the community play find it has become so popular that more room will soon be needed. When this situation develops more room should be provided by all means, for restless young America must have an outlet for its energies and what more wholesome method than well directed play.

MAKING MANLY BOYS

Whenever a real need exists, sooner or later something is found to meet it. A real need existed for something to fill with wholesome activity the spare time of boys—and the Boy Scout movement developed to meet it. This organization, which has developed so amazingly in the last few years, has many other claims to consider, but no one is so fundamental as this basic principle of keeping the boys so busy doing useful things that there will be no time for them to engage in harmful activities.

The things about the Boy Scout movement that has surprised many people is the fact that it works. People had become accustomed to consider boys as being naturally mischevious and destructive and to look upon the period of adolescence as a time of tribulation, like the teething age of babies, which must be borne with patience and resignation. "What!" they exclaimed, "Make the boys want to do useful things? It just can't be done!" Then the Boy Scout movement came along and did it.

Scouting has been a success because it was built to fit real boys and not that mythical animal "the kind of boy an old maid thinks a boy should be." The Boy Scout plan goes right into the realm where real boys live and brings them the food their spirits crave—a code of honor, romance, mystery, adventure. Now that the job has been done, it is easy to see that it is a very simple thing—nothing at all but making an interpretation of life that a boy can warm up to and understand.

First of all, a Boy Scout must take an oath. That's a perfectly natural thing. The Knights of the Round Tablie swore an oath and so did the pirates that sailed the Spanish Main. So the Boy Scout pledges himself:

1. To do my duty to God and my country and obey the scout law.
2. To help other people at all times.
3. To keep myself physically strong, mentally awake and morally straight.

The Scout law referred to in the oath covers 12 points:

A Scout is trustworthy, loyal, helpful, friendly, courteous, kind, obedient, cheerful, thrifty, brave, clean and reverent.

There are sturdy virtues that appeal to the spirit of chivalry that lives in the heart of every boy, and when enhanced by the sacredness of a solemn boyish oath they have a gripping appeal that works wonders in the growing character. With these virtues firmly planted in a boy's mind and a matter of his daily life during his formative years, there is little danger of his forsaking them entirely in later life.

These virtues are made vital by a program of activities which gives a boy an opportunity to put them into actual practice. He is given commissions to perform certain acts and is trusted "on his honor as a Scout" to carry them into effect. The feature of service to others is emphasized by encouraging Scouts to do "a good turn" to somebody every day. This "good turn" idea is taken very seriously. It has inspired thousands of boys to the point where they volunteer to wash dishes and tend babies. And there can be no severer test than that! The idea of thrift is driven home by requiring a Scout to earn and deposit money in a bank before he can advance from the rank of "Tenderfoot" to that of "Second Class Scout", and from the latter to the coveted position of "First Class Scout." Bravery is taught by bringing to the attention of Scouts brave acts of others and by bringing them commissions to go alone into the country. Bravery is expected of Scouts as a matter of course—and moral bravery as well as bravery of spirit.

All of the Scout principles are made interesting by a program of activities which includes biking, camping, first aid, knot-tying, woodcraft, handicraft, pioneering and all the other things of a like character that boys like to do. But no activity is included in the Boy Scout program without a good reason; each must serve its purpose in contributing something to the character development of the boy. Scout activities and the Scout oath and law are so closely interwoven that it is impossible to separate them.

The Boy Scout movement does not interfere in any way with a boy's duties at home or in school, but it does supplement these two great training forces with a third which completes the circle. It used to be home, school and undirected leisure. Now it is home, school and scouting, and the greatest danger point in a boy's life—his undirected leisure time—has been covered. Schools and homes both are beginning to feel the beneficial effect of the new force which has entered the lives of scores of thousands of American boys.

Few people realize the extent to which the Boy Scout movement seeks to influence the spare time of boys. In his regular scout work a boy's enthusiasms and peculiar interests are aroused to the point that he devotes himself to scout work even when he is not actually attending a meeting or a hike with the members of his troop. An effort is made to influence his reading. For this purpose a special edition of standard books, carefully selected and endorsed by a board of eminent librarians has been published at a price boys can afford to pay. This is doing away with the reading of trashy and harmful stories. Boys' Life—the Boy Scouts' magazine—is published monthly by the movement in order that the best of current fiction and the most inspiring articles may be made available to Scouts. Everything possible is done to keep boys working and thinking along constructive, helpful lines.

It is because the Boy Scout movement has convinced people that this is the proper way to tackle the boy problem, and has proved that this method can be made effective, that the organization has met with such remarkable success.

Is your boy a "Scout?"

HAS PENSION SYSTEM

American Steel & Wire Co. Cares For Its Employes.

The great United States Steel Corporation, of which the American Steel & Wire Co. is a factor, has a wonderful pension system, caring for its employes when length of service or the rendering incapable of earning a livelihood warrants. This year the total amount spent in this department was $5,100,815, the portion of the American Steel & Wire Co. being $147,805.15. Continued into the new year are 2,940 pensioners. The average age of these cases was 65.64 years, while the average time of service of these men was 30.22 years.

The Anthony fence branch of the system, the local factory, has indeed been fortunate as regards accidents, for they have no men on the pension list.

CANNEL COAL IN TEXAS.

What is possibly the largest body of cannel coal in the United States, if not in the world, lies on the Rio Grande about 25 miles above Laredo, Tex. The outcrop of this coal can be traced for many miles in the bluffs along the river in Webb County to a point at which it swings northward into Uvalde County. The coal has been mined for many years at Santo Tomas and more recently at Darwin, or Cannel, and Dolores. It occurs in two principal beds, about 90 feet apart both of which are being mined. The beds range in thickness from about 2 feet to 2 feet 6 inches, and are fairly persistent. For many years they have supplied a large part of the coal used on the railroads in southern Texas and the adjacent part of Mexico.

This coal is of geologic interest because, although it lies in rocks which elsewhere in Texas contain only lignite, it is a bituminous coal. It has the qualities of a cannel coal; it contains a large amount of volatile material, or gas, and it yields oil by distillation—about 50 gallons of oil to the ton of coal. It contains more nitrogene than any other coal in the United States.

At most places the roof of the coal is poor and requires considerable timbering, and as no trees grow in Webb County this requirement adds considerably to the cost of mining. At each of the mines in this district there is a huge dump of clay, either removed in mining the coal or derived from the shale that forms the roof. This clay may be of value for making brick or other clay products.

The coal of this field is described in a bulletin entitled "The Santo Tomas cannel coal, Webb County, Tex.," by George H. Ashley, issued by the United states Geological survey, Department of the Interior, as Bulletin 690-L. This bulletin can be obtained, free on application to the director of Geological survey, Washington, D. C.

YOUNG BOYS CALLED GREATEST OFFENDERS

The sage says, "Accidents will happen," but many of them happen through carelessness. Leaving horses in the field without tying them is a source of accidents; also, tying the lines about one's waist is another fruitful source. Even the pluggiest of horses will get scared, sometimes, and we must take things as they are and not as they seem. It takes only a moment to tie the team while the driver goes to the barn after a bolt, or nut, but it is good live stock insurance; and it must be remembered that insurance rates on live stock are very high. Never under any conditions, allow the driver on any machine to have the lines tied about his waist. Young boys are the greatest offenders in this respect, and they may well be cautioned accordingly.

Tecumseh Farmers, You Can Do Better!

The department of journalism at South Dakota State college wrote nearly 100 farmers asking their experience with advertising.

One replied that advertising of seed grain had been so successful that next year a new granery was to be built, a new truck bought, and equipment for cleaning and handling grain added.

Another replied that his success in selling little pigs had been so great through local papers that he had been unable to meet the demand.

A third replied that a small ad in the home paper sold all his settings of eggs.

These typical replies point once more to the potential value of using the columns of the local paper (in Tecumseh and vicinity The Herald) to inform others of what you have to sell.

Overland

A May Day Dream

Some nice Sunday morning next spring you and your family will start out in the country for the day in that new Overland 4. You wave your hand at two different friends driving their old cars for the simple reason they waited too long and were unable to purchase new ones like yours, which you purchased in January.

This is a true illustration of what will happen.

Today there is a shortage of nearly 200,000 tons of steel due to the steel strike. This shortage affects every line of business using steel---automobile, tractors, trucks, farm machinery and so forth.

A year ago dealers were trying to avoid taking their allotment during the winter months; now they are scrambling to get cars. Cannot get their allotment in January, February will be worse. What will it be in May and June? No one can tell, only knowing there will be a shortage worse than anyone ever dreamed of before.

We can make delivery of the touring car for $990 and the Sedan for $1650 delivered to you.

Don't wait, but place your order tomorrow morning.

PLAN NEW METHOD OF HANDLING MAPLE SYRUP

Central Blending and Canning Plant Proposed—Tecumseh Men are Interested.

Maple syrup producers in the vicinity of Tecumseh are greatly interested in a plan for a central blending and canning plant to be launched at the annual meeting of the Michigan Maple Syrup Growers' association at the M. A. C. at East Lansing February 2 to 6 in connection with farmers' week at the college. Lenawee county has a number of maple syrup makers. Those located near Tecumseh are L. Slater and others.

By taking maple products out of the sugar market, where they are now forced to compete with the cheaper cane and beet sugar, and supplying the demand for flavors, sweetening and high grade syrup, the growers hope to obtain prices sufficiently high to continue in the business. Otherwise they are faced with constant losses and many have considered cutting off the existing maple forests.

The plan is to make the central plant perform the same function as the creamery for dairymen. The crude syrup will be sent in large cans to the blending plant, where it will be emptied and the cans sent back. The syrup will be weighed and tested, like quantities assembled, and the entire product of the state blended into two grades. Information may be secured from Prof. F. H. Sanford of the Forestry Department of M. A. C.

The meeting of the maple syrup men will be one of a number of state agricultural conventions to be held at East Lansing during farmers' week, when 5,000 visitors are expected. A great variety of exhibits and many entertainment and educational features are planned. Dean Vivian of Ohio State University, Dr. E. V. McCollum of John Hopkins, nutrition expert, and H. C. Taylor, chief of farm management at Washington, will be among the speakers.

Probate Notice — State of Michigan, County of Lenawee, ss. Probate Court for said County. At a session of the probate court for the county of Lenawee, holden at the probate office in the city of Adrian, on the 2d day of January, in the year one thousand nine hundred and twenty.

Present, Hon. Harry L. Larwill, Judge of Probate.

In the matter of the estate of Charles Langthorne, deceased.

On reading and filing the petition of John H. Kempf, administrator upon the estate of said deceased, alleging that the funeral expenses and debts of said deceased, and the expenses of administration thus far incurred have been fully paid, and praying that his final administration account may be allowed and for such other order and decree as to this court shall seem proper.

It is ordered, that Monday, the 2d day of February, next, at nine o'clock in the forenoon, be assigned for the hearing of said petition.

And it is further ordered, that a copy of this order be published in the Tecumseh Herald, a newspaper printed and circulating in said county of Lenawee, for three successive weeks, previous to said day of hearing.

Pushing Own-a-Cow Campaign.

Bankers are cooperating with the agricultural agent in Jefferson Davis Parish, La., in an "own "own-a-cow" campaign. The bankers are financing the farmers, and the agent is preaching the gospel of better live stock. In the fall of 1918 he bought five carloads, 160 head, including 5 registered bulls, of pure-bred Holsteins from Wisconsin. These dairy animals were widely distributed among the farmers, one or two head going to each owner. So pleased have been the owners of these pure breds that the agent is already taking orders from others. It is probable that several additional carloads of such cattle will be purchased next fall the agent reports, together with about 200 pure-bred calves for members of the boys' calf club. The bankers and the school board will back the proposition to help the boys get a start in cattle raising.

It Is Easy To Imitate Names

The public is constantly being swindled by imitations, counterfeits and substitutes that resemble in name and appearance Foley's Honey and Tar Compound. It is because the original Foley's is so good, so reliable and so well known that these frauds find sale.

Always Has It In His Home

T. J. McCall, Athens, O., writes: "We have used Foley's Honey and Tar in our home for several years and find it almost invaluable for coughs and colds, and especially for croup for our children. We are never without it and cannot too highly recommend it for coughs, colds or croup for either grown-up people or children."

Foley's Honey and Tar COMPOUND

IS PLEASANT TO TAKE, and sooths the raw, inflamed surfaces; stops the rasping, strangling feeling in the throat. It is made of the purest, freshest and finest ingredients to be had, contains no opiates or other harmful drugs, and costs twice as much to make as any imitation of it.

For more than thirty years Foley's Honey and Tar has been used with satisfaction and success.

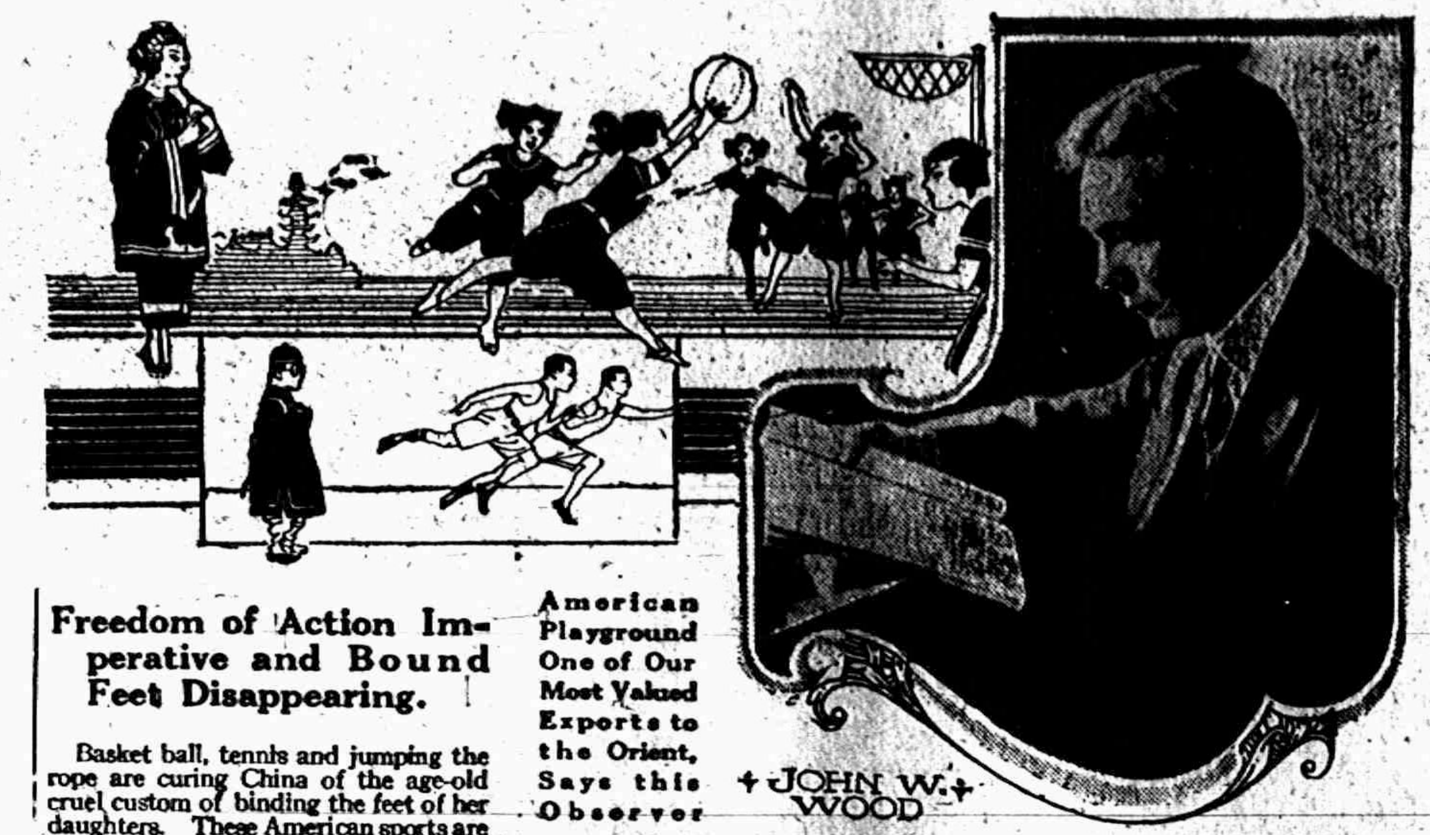
Sports Doom Foot Binding in China



Freedom of Action Imperative and Bound Feet Disappearing.

American Playground One of Our Most Valued Exports to the Orient, Says this Observer

Basket ball, tennis and jumping the rope are curing China of the age-old cruel custom of binding the feet of her daughters. These American sports are proving just as efficacious in doing away with that evil as is the law of the Chinese republic against the practice of foot binding. In many instances it is even more efficacious for there can be no basket ball, tennis or rope jumping for the girl with bound feet and since the "new woman" of China, even in her girlhood, insists upon participating in American sports the bound foot must go.

All kinds of American sports are popular in young China and in other Oriental countries, according to John W. Wood, Foreign Secretary to the Board of Missions of the Episcopal Church, who recently returned from a nine-months' tour of the Far East in connection with the Episcopal Nation-Wide Campaign. In fact, Mr Wood ranks the American playground as one of our most important "exports" to the Orient. He hopes it will be "exported" in still larger quantities through the Nation-Wide Campaign as that campaign seeks to raise more than $42,000,000 to strengthen all phases of Episcopal activities at home and abroad.

"Quietly but systematically for the past twenty years," he said "we have been exporting to the Orient that distinctly American institution, the playground; and now the Chinese Empire is dotted with these open air places. One can't easily estimate the extent of the benefits future generations in the Orient will derive from this infusion of the spirit of free, open air America into the youth of China.

"In the one detail, for instance, of binding the feet of Chinese girls, our playgrounds are working a revolution. There can be no basket ball or tennis or rope jumping for a girl with bound feet, and since the Chinese girl insists upon taking part in sports, the binding up of the feet is bound to go.

THE TECUMSEH HERALD

SEVENTIETH YEAR. No. 18. TECUMSEH, MICHIGAN, THURSDAY, FEBRUARY 5, 1920. Published Every Thursday.

Dies Soon After Becoming Mother

Mrs. H. H. Hammel, wife of Prominent Young Physician, Victim of Pneumonia—Is Mourned by Many.

One of the saddest deaths of Tecumseh's sad week was that of Lois McKereghan Hammel, the young wife of Dr. Harry H. Hammel, the couple being one of the most popular in the town.

The event was made doubly sad by the heroic fight of the little mother for her life so she might live for the wee daughter, Lois Germaine, born Monday, and the adoring husband.

On Tuesday of last week Mrs. Hammel contracted influenza. Monday pneumonia attacked both lungs and that afternoon the baby girl was born, the mother passing away Tuesday evening at 10:25 o'clock.

All that medical science could do was done, some of the most learned medical men in the state being called in, but to no avail.

Lois Dale McKereghan was born and grew to womanhood in Bay City. There she graduated from the high school and later from a nurse's course in the University homeopathic hospital at Ann Arbor. While there she met Dr. Harry H. Hammel, a graduate of that department of the U. of M., and they were married December 31, 1915. In three weeks they had located here, where they have become so highly respected. Soon came the Mexican trouble and Dr. Hammel went into the service, Mrs. Hammel accompanying him through the south to the different forts to which he was attached. They returned in March, 1917, but the happiness was short lived, for soon came the call from England for doctors, and in May, 1917, again the doctor answered humanity's call. This time the brave little wife remained in Michigan, spending most of the next two years with his parents in Detroit.

May 6 last the couple again came back to Tecumseh and their welcome was most sincere, and the last few months have been very happy.

Surviving are the husband, Mrs. Hammel's father, Wm. H. McKereghan of Bay City; one brother, Charles McKereghan, also of Bay City, and two sisters, Miss Edythe McKereghan of Detroit and Mrs. Arthur Johnson of Ypsilanti.

The funeral service of the Episcopal church, of which Mrs. Hammel was an attendant, will be read this afternoon at the home by Rev. J. G. Widdifield, the burial to take place in Brookside.

Knowing that his mother had been ill with influenza and fearing the effect of the sad news on her weak heart, Dr. Hammel, accompanied by Leon Rosacrans, drove to Detroit in the night Tuesday to tell his parents, of whom he is the only child. They promised to break up their home and come here to make a home for him and the tiny baby. His mother will come at once and the father as soon as his affairs can be arranged.

Caring nothing for society as the term is most often used, Mrs. Hammel was a charming friend maker. Her main interest was her home and husband, yet her friends are the whole community and the grief over her untimely death is general and deep.

Delightfully Entertained.

A party of young people were guests of Miss Arlene Gillespie Tuesday evening, when games were the program and candy, pop corn and fruit served. The same company were guests of Miss Myrna VanVleet last week.

New Food Perfected By Quaker Oats Co.

Local Concern First to Evolve Milk Macaroni and Spaghetti—To Increase Force and Wants Girls.

Tecumseh has attained additional glory in manufacturing circles, as it has just been announced by John Larsen, superintendent of the Quaker Oats Company of this city, that this concern has perfected a milk macaroni and spaghetti, being the first company in this country to accomplish this, although other plants had been experimenting along the same line for some time. The new product, which is said to be most wholesome and delicious, is to be turned out in large quantities and will mean an augmented force at the local macaroni plant and manufacturing activities on a larger scale than ever before.

Experiments on this new food product were started last fall and have been carried on extensively ever since, and have now been crowned with success. Milk is now introduced into the macaroni and spaghetti, adding considerable to the flavor and making these products of greater food value. During the experimenting stage the improved product has been handled only in bulk form, but now the concern is planning on turning it out in package lots and this will necessitate enlarging the force.

Only ten girls have been employed for some time, but now a force of 35 is desired as soon as they can be secured. The plant has a capacity of producing 1,500 cases or 36,000 packages a day, but to accomplish this quantity production the additional help is needed. Superintendent Larsen says the work is light and pleasant, each employe sitting at her own table.

The comfort of the employees of the Quaker Oats Company is given much attention, one of the features provided being inviting dining rooms for the men and women, both these departments being equipped with large coffee urns, the coffee being furnished by the company. As an inducement to get the help needed, the girls are soon to be put on the piece work basis instead of being paid by the hour. Help is so urgently needed that women who can give only part of their time to this work will be given employment.

The company is now employing 67 persons, but when the plans now made are carried out the macaroni plant will be one of the most active of its kind in this part of the country.

An addition to the drying department is one of the building projects contemplated by the concern.

EDMOND SAGE DIES AFTER SHORT ILLNESS

His many Tecumseh friends were astounded Friday when word went over the town that big, happy Edmond Sage had yielded to the grim reaper the evening before in Detroit.

About the first of the year, with his chum, Kenneth Pennington, he went to Detroit and found an excellent position, planning to return and take up the spring work with his father, Revilo Sage, on the home farm in Macon. After a few days' illness with influenza, he returned to work, but became worse and pneumonia with heart trouble developed and death soon followed.

Edmond Osgood Sage, only child of Revilo and Hattie Sage, was born in Macon February 10, 1896, and passed away in Detroit January 29, 1920, thus making him 23 years, 11 months and 20 days old. He spent his entire life in this community. After graduating from the Macon school he attended the Tecumseh school and then settled down in the old farm home he loved so well.

He united with the Presbyterian church at Macon at the age of 15 years and was a regular attendant. Of a jovial, kind disposition he will be much missed in the community, but most of all in the home in which there will be such a vacancy. Especially was he a favorite with the young people when he attended school here.

Besides the sorrowing parents, whose only child he was, he is survived by the aged grandmother, Mrs. William Osgood, several aunts and uncles, many cousins and a whole community of friends.

The funeral services were held from the home Monday afternoon, Rev. W. A. Rex officiating. The remains were laid away in Macon cemetery.

LAD WHO TOOK FURS IS RELEASED ON PROBATION

He pleaded guilty, but after a heart to heart talk with the judge was placed on probation for two years.

Coller Property Is To Become Garage

L. P. Williamson Buys Site and Will Erect Large Structure—Building Was Once Well Known Hotel.

Yesterday afternoon in Detroit the papers were drawn whereby Leon P. Williamson purchased of D. W. Simons of that city the Coller house property, corner of Chicago and Pearl streets. The deal had been arranged through G. H. Tansley.

The dwelling will be demolished and on the site will be erected a large Ford garage, of steel and brick construction. Mr. Williamson remained in Detroit to immediately place his orders for the steel work.

This dwelling was erected for a home by Mr. and Mrs. B. J. Bidwell, prominent in the life of the town during their day, and was one of the view places of the village. The elderly couple were very proud of the shrubs and flowers and made the place a beautiful one. Some 25 years ago, after the death of Mr. and Mrs. Bidwell, Mr. and Mrs. Jesse Coller bought the property and very successfully conducted a hotel, the name clinging to the property since. But for a number of years it has been unoccupied, its gradual decay frequently eliciting comments of regret from passersby, for the older inhabitants can so well remember its former splendor and beauty and now are pleased to know that the corner is to be utilized as a business concern, as no one seemed to wish the property as a home again.

Mr. Williamson plans to make his new garage one of the most up-to-date in the state. The main entrance will be from Pearl street. With Chicago street soon to become a paved state highway this location for a garage will be ideal and the success of the undertaking seems assured.

PUBLIC LIBRARY TO RE-OPEN SATURDAY

It has been decided to re-open the public library on Saturday.

To avoid a rush of patrons returning books that have been out during the influenza epidemic, there will be no fines assessed against volumes now in the hands of readers until beginning with next Thursday.

If the library patrons will bear this in mind it will make the task of the librarian lighter by stretching over four days, work that would otherwise come in one day.

Wanted—20 Dads! Eight Automobiles

Troop No. 1 of Tecumseh Would Celebrate Founding of Order With Toledo Boy Scouts.

The annual "Father and Son" banquet celebrating the tenth anniversary of the founding of the Boy Scouts of America, will be held in Toledo February 9 at the LaSelle and Koch dining rooms.

Troop 1, Tecumseh, is affiliated with the Toledo council. It made an excellent showing at Camp Lemper last summer, and is eager to keep up its reputation as a "live-wire" troop by having a good showing at this "pow-wow."

The father and son banquet is an annual affair and is looked upon as one of the biggest events in the Boy Scout year. Theodore Roosevelt, Jr., will be the big speaker of the evening. Everybody will be hungry and eat a good dinner. There will be surprises, Scout yells, songs, and good speakers. Tecumseh's Scouts should certainly be given a chance to get to this banquet.

All that those interested lack is enough "dads" to go around (20 more are needed) and eight more automobiles for transportation. As the supper is to be served at 6:00 p. m. cars must leave here by 4:00.

It is most urgent that more cars be made available as the expense of a railroad ticket both ways and lodging for the night would make a sad hole in any kid's finances. The boys intend to pay for their own tickets, so the expense to the "dads" will be just $1.25. If you want to know what kind of a doings this is to be, just ask the man that went last year, it sure is worth while.

Now, to get down to business, will you be a "dad" for next Monday night, February 9, or will you furnish a car to take the Scouts? This appeal may seem like begging but we've got to have "dads" and cars, and anyway, isn't a movement like the Boy Scouts of America worth begging for?

Get in touch with Scoutmaster O. W. Laidlaw, or Assistant Perry Hayden. They ask that you do it now.

DONALD McCLUE SUCCUMBS TO RAVAGES OF PNEUMONIA

Donald McClue, son of Mr. and Mrs. William McClue of Macon, passed away Thursday in Ann Arbor, where he had been receiving treatment for some time for catarrh of the stomach. He had improved materially when he contracted pneumonia and death soon followed.

The remains were brought back to his home at Macon, where the funeral was held Sunday afternoon, the interment being in Macon cemetery.

Donald R. McClue was born December 14, 1893. His whole life, summed up in 26 brief years, has been passed in the vicinity of his present home.

From the rural school of his own district, he atended Macon, then finished in 1912 a high school course in Tecumseh.

In December, 1916, he was united in marriage to Miss Nettie Carpenter of Fayette, Ohio.

A natural genial disposition, combined with a personality of broad sympathy, he was respected and beloved by a large circle of friends. Self-forgetfulness was one of his prominent charateristics, and an earnest desire to serve others brought him great happiness.

His love for his home and home associations was sacred, and no sacrifice was too great for those enthroned there. The Church of Chirst and its privileges early won his affections, and at the age of 12 years he made a public profession and united with the church. Years of manhood only brought a strengthening of faith in his Redeemer, and when the final summons came a calm resignation answered the call. He knew in whom he trusted, and his greatest anxiety was for the loved ones left in the bereaved home.

MRS. EUGENIA GORDON IS GIVEN FAREWELL PARTY

Appreciating her loyal work for their church through long years of membership, some dozen of the older members of St. Peter's Guild surprised Mrs. Eugenia Gordon Friday afternoon, and enjoyed a splendid supper. Various games were in charge of Miss Louise Phelps for the pleasure of the party and Mrs. Gordon was given a pretty gift.

The party took the nature of a farewell for Mrs. Gordon, who leaves soon for the home of her sister, Mrs. Thomas Mote, nee Bessie Church, at Newcomb, Md., near Baltimore. Mrs. Gordon is undecided as to when she will return.

Editorial Comment

Highways blockaded to auto traffic by snow drifts for several weeks during the severe winter weather are not only proving a serious inconvenience, but are really becoming more and more a menace to public welfare. The day when every physician kept his own horse and sleigh is past, and now that the fast traveling motor vehicle has become a firmly established necessity highways should be kept open for such traffic. True, heroic measures have been adopted in this and adjoining townships to keep roads open, but it has been a hard job, for no sooner was a path shoveled or scraped through than the drifts formed new and often heavier blockades. This condition, however, is bound to improve as the county road system becomes more operative and the highways are turned over to the county road commission and state authorities.

Editor Ford of the Brooklyn Exponent makes the following comment upon the Brooklyn-Jackson road blockade and remedial suggestion:

"The road to Jackson has just been opened by the stong-arm method of shoveling. It is a somewhat expensive method but the only other way is to wait for the sun to shine. Opinion is gradually filtering down to the fact that a better way would be to keep the road from becoming blockaded. Two years ago the highways were tied up for seven weeks, and the experience is certain to be repeated. The road traffic tieup is always inconvenient and always costly, because the highways are depended upon more and more for all short haul transportation. As to some practical means of keeping the roads open, the local boys who drove big army trucks in France say that the four wheel drive trucks would wallow through the deepest mud with the heaviest loads. They say that the snow we have had would by no means stop them and that a lot of these trucks are now in storage at Camp Custer and some will soon be taken over by the counties for road building purposes. The boys say that one of these trucks equipped with the right kind of a prow for snow plowing would keep many miles of road open. They say that if the roads were thus plowed out during the storms without waiting for the drifts to pile and pack, running all night if necessary, it would keep the roads open and be a very real saving and benefit in the end. This suggestion is passed along to the county road commission as worthy of consideration—and action."

The United States is now supposed to be a saloonless country, but that does not make it boozeless. Detroit influenza patients have been granted free whisky in the treatment of their malady. At any rate it is reported that the United States marshal has been authorized from Washington to furnish reputable physicians with whisky free of charge for the treatment of influenza cases. It is also reported that many Detroiters are now ready to contract the disease.

The Michigan law under which Lenawee phyicians and druggists are operating provides that a physician may prescribe whisky for medicinal purposes not to exceed one-half pint for a patient. Haven't heard whether any Tecumseh "flu" patients have received whisky treatment or not.

The 75 per cent state and federal aid in road construction seems to be an inducement that few cities feel they can let pass by. Adrian, Blissfield and Hudson are among the Lenawee cities that have shown activity in securing some good pavement while the getting is good. Looks like the state highwhy department is determined to close up some ugly gaps in trunk roads. Of course Tecumseh is going to get her share. It is also interesting to note that federal authorities have approved the proposed improvement of the Monroe turnpike going through Tecumseh.

The influenza epidemic in Tecumseh is on the wane—in fact things are again assuming a normal condition. The epidemic here has been very slight compared with that a year ago, when the toll in deaths was alarmingly heavy. Prompt action on the part of church organizations, clubs, societies, school authorities and the theatre management in discontinuing public gatherings for the time being is no doubt in a large measure responsible for the curtailment of the epidemic and the consequent saving of lives.

Everybody appreciates the drop in temperature this week, and most of us are hoping that the ground hog remained in his hole all day Monday.

How about street oiling? Not too early to start plans now and be ready at the earliest opportunity.

THE UNIVERSAL CAR

Insist on Genuine Ford Parts

Imitation "Ford" parts are being sold by many mail-order houses, down-town stores and garages to unsuspecting Ford owners as "Ford" parts. But they are not Genuine Ford parts made by the Ford Motor Company. They are made by concerns who have no connection whatsoever with the Ford Motor Company. These imitation parts are not even made from the same grade of steel, or under the same formulas used by the Ford Company. They are counterfeit parts. Tests have shown them to break when the genuine Ford parts didn't even bend, and they generally are from thirty-five to one hundred per cent lower in quality.

The authorized Ford Dealer is your protection. As such, we handle nothing but the Genuine Ford parts. They are made from the famous Ford Vanadium Steel and each part—according to its use—is heat-treated in the way that will give it the longest wearing qualities. Every part is the same as its duplicate in your Ford car or Ford truck.

Our stock of parts is complete. And our Ford garage and Ford mechanics are at your service at all times. Drive in when replacements or repairs for your Ford car may be necessary. Save your car and also your money.

Barn Equipment

BARN
Cleaning's
A "Snap"
With a
LOUDEN
Litter Carrier

Mud, slush, and manure make a mighty nasty combination when you have to clean the barn by the laborious, back-breaking wheel-barrow method.

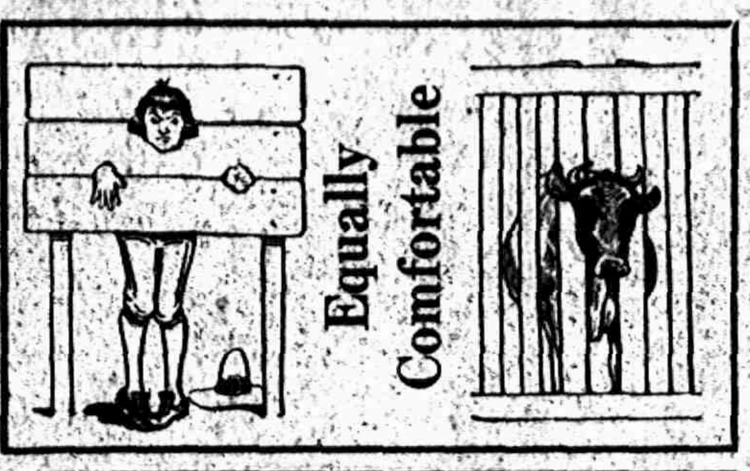
There's a quicker, better, easier way; why not take advantage of it!

There's a Louden Litter Carrier for your barn at a price you can afford to pay. *It will render years of service*; it will save you a world of time and labor. It will make it possible to keep the barn clean and preserve manure values.

Can you conceive of a more profitable investment in farm machinery?

Louden Litter Carriers are made in five styles, at a wide range of prices. Rod track carriers are suitable for simple track arrangements. Solid track carriers are best where curves and switches are used.

You'll need a Louden Carrier this winter. May we work out an itemized quotation for you?



The Louden Stall

Since 1867 the Louden line has steadily grown in favor. Constantly new ideas are tried out, many of them being discarded, only those of merit being adopted in order to continue to furnish the Barn Equipment that will be a credit to the name representing simplicity and life-long durabilty.

It is gratifying to hear the complimentary remarks from our many satisfied customers whom we have furnished outfits the past few years. The steel situation and the steadily increasing business are making deliveries uncertain regardless of the strenuous endeavors of the manufacturers to get together the materials for prompt shipment.

Call in and see in actual operation the stall and litter carrier illustrated above.

BRADLEY OPERA HOUSE ATTRACTIONS

Tecumseh certainly has been a lonesome place for the last couple of weeks, not even a picture show to go to. At least that's what everyone has said and the phone at Manager Mark's residence has been continually saying the same thing, especially on Saturday and Sundays. But cheer up, folks, the worst is undoubtedly over and this coming Saturday and Sunday the management of the Bradley will try and make up for some of the lost time.

On next Saturday evening, Feb. 7th, the fourth of the big two reel Charley Chaplin super comedies entitled "Shanghaied" will be on the bill "Shanghaied" is considered one of this famous comedian's best comedies and is a scream from start to finish. A solid half hour laugh and just the thing to get you away from the "flu" scare. In addition to this big comedy, Jack Pickford (little Mary's brother) will be seen in the five act feature, "Sandy." It's a program for everyone, big and little, and will be enjoyed by both young and old. Don't forget it's on Saturday night and keep your Saturday date for Charlie.

Marguerite Clark, Sunday.

At the Bradley opera house, Sunday evening, Feb. 8, Tecumseh's favorite screen actress, Marguerite Clark, in "Three Men and a Girl" will be the main attraction. It's just the kind of a play that you would pick for dainty Marguerite and just the sort of a picture you would want to see her in.

Smiling Bill Parsons is on the same bill in a new comedy, "The New Breakfast Food," and friend Hoover had nothing on Bill when it comes to the food question. The "Ford" weekly and special orchestra will complete the big Sunday program.

"His Majesty, the American."

Owing to hundreds of requests to repeat Douglas Fairbanks in his big eight act masterpiece, "His Majesty, the American," the management of the Bradley has booked a return engagement on the big production, and it will be seen here soon. If you saw it before, you will want to see it again and if you missed it on the former engagement don't be so unlucky this time.

Notice! Water rents are now due. Please pay at once as city books must be closed by Feb. 20.

—W. L. Coller, Village Clerk.

When you speak well of others you forge a bright and unbreakable link in our own reputation. Think it over.

How To Keep in Good Condition

Sound nerves, a clear head, good digestion, strength, endurance and general health depend upon clean blood. If the kidneys and bladder do not properly perform their functions, the blood cannot be clean and pure, for these organs filter and cast out the waste matter, impurities and poisonous acids that cause nervousness, rheumatic pains, backache, languidness, sore muscles, swollen joints, stiffness, puffiness under the eyes and other weakening symptoms.

WAS RELIEVED AT ONCE

"I was afflicted with kidney and bladder trouble for nearly 6 years. Had one very bad spell about 5 years ago. Was confined to bed for 4 or 5 days, unable to turn without help. I commenced using Foley Kidney Pills and can truly say I was relieved at once. I take pleasure in recommending your kidney pills to all who have kidney trouble." John Heath, Michigan Bar, California.

FOLEY KIDNEY PILLS

soothe, strengthen, heal overworked, weak and diseased kidneys and bladder. When the organs are working properly, the blood is cleansed and purified, appetite returns, good digestion follows, refreshing sleep is possible, health and strength come again. They have brought relief to thousands of men and women who thought old age was coming on before it was due.

Golden Wedding.

Mr. and Mrs. Chester W. Luce on Monday celebrated their 50th wedding anniversary at their pleasant home at Tipton.

Cards were sent to relatives in Colorado, Pennsylvania, Indiana and other states but on account of illness, which seems so general, many sent letters of regret.

Guests from Napoleon, Chelsea, Ionia, Lafayette, Ind., and other points were present, about thirty-five in number. A notable guest was the bridesmaid of the wedding of 1870, now Mrs. Freeman of Chelsea.

The house was beautifully decorated in yellow, feathery chrysanthemums adorning the tables.

At 2 o'clock the guests were conducted to the dining room, where a three-course dinner was spread. The color scheme was here furthered by an abundance of golden oranges prepared for each guest. After the Rev. Oliver of Tipton gave thanks the guests were seated and enjoyed the feast from fruit to the delicious ice cream, while the grafanola also entertained.

Although "no presents" had been requested, Mr. and Mrs. Luce received many and valuable gifts, among them $5 and $10 gold pieces.

Rev. Oliver made some appropriate and touching remarks and the afternoon was given over to music and [illegible]

Mr. and Mrs. Luce were married at Napoleon, Mich. They have always engaged in the business of farming until failing health induced them to locate in Tipton, leaving a son on the old farm.

INFLUENZA VICTIMS

Three Promising Young Men Succumb to the Disease.

Our community was shocked last Thursday when messages were phoned around one after the other of the death from "flu"-pneumonia of three of our promising young men — Lawrence Briggs, Donald McClue and Edmond Sage.

Lawrence Briggs worked for one season for his father-in-law, Elmer Camburn, and was well known in the community. He was being cared for by his wife at his home in Ypsilanti when he was taken with the "flu," but was removed to the Ann Arbor hospital when he grew worse and Wilma was not able longer to care for him. He passed away at the hospital early Thursday morning.

Donald McClue, who had been at the hospital several weeks taking treatment for intestinal trouble, and who was expected home in a short time cured, was stricken with pneumonia and passed away at the hospital Thursday, a little after the noon hour.

Edmond Sage, who had been working at Ford's factory, Detroit, for only a few weeks, suffered a relapse from the "flu" and passed away Thursday before his mother, Mrs. Revilo Sage, who had received a message of his serious illness early Thursday morning, could reach Detroit.

The burial of Lawrence Briggs took place Saturday at Saline from his parents' home. He was laid to rest in the Saline cemetery.

The funeral of Donald McClue, which was private, was held Sunday afternoon from his late residence. Ernest Palmer of Britton sang two beautiful songs and Rev. Rex spoke words of sympathy and comfort. Burial was at Macon cemetery. Those present from away were Mr. and Mrs. Carpenter and Lewis Carpenter of Fayette, Ohio, Mrs. Schaffer of Jackson, Miss Hester McClue of Jackson and Willard Harriott of Tecumseh.

The funeral of Edmond Sage was held Monday afternoon from the home of his parents, Mr. and Mrs. Revilo Sage. And again, as on the day before, Ernest Palmer of Britton sang sweet songs and Rev. Rex spoke comforting words, and the burial was at Macon cemetery. Those present from a distance were Mr. and Mrs. Elmer Osgood of Toledo, Mr. and Mrs. Dar Osgood of Morenci, Ed Hancock and Miss Alice Hancock of Detroit, Mrs. Metta Bailey and Claude Miller of Toledo and Ed Osgood of St. Johns.

In the death of these three young men we all suffer, for as a community we are all so closely bound together in ties of relationship and friendship that the loss of one is the loss of all, and so to all the sorrowing ones the sympathy of the community is given.

Macon News Notes.

Robt. Preston of Tecumseh visited J. K. Collins Friday.

There has been no school in the Mills district for two weeks.

School has been closed again this week on account of the epidemic.

Mrs. Leon Maynard visited her mother in Adrian the first of the week.

Ben Evilsizer has rented the Bacon farm and will move about March 1st.

Walter Morden has been out of the store nearly two weeks on account of the epidemic.

Ed Osgood of St. Johns is ill with influenza at the home of his sister, Mrs. Revilo Sage.

Georgianna and Webster Conklin of Tecumseh are guests of Mr. and Mrs. Ellsworth Collins.

Earl Payne was back in the store too soon after his illness and suffered a relapse. He is on gain again now.

Mrs. Alice Halladay Hettinger of Detroit came Thursday to remain for some time with her uncle, Wm. Richmond.

The warm weather the first of the week played havoc with the sleighing, which has been unusually fine in this vicinity this season.

Earl Lindsley and Charles Thomas have served the customers at the store most efficiently during the absence of Morden and Payne on account of illness.

Katherine Langan is ill with the grip, as have also been members of the following families: P. K. Morgan, Otto Schoolmaster, Roy McCollum, Clare Rhoades and J. Jones.

Stanley Swain, who was hurt at school two weeks ago while coasting down hill, is some better but is still confined to the house. Other members of the family are on the sick list.

The Jolly Helpers met at Mrs. Wesley Pennington's Thursday. Two comforters were tied and several garments of wearing apparel were made. A three course dinner was served and all had a joyful time.

Elmer Camburn and Otto Schoolmaster were the only ones from here who attended the burial of Lawrence Briggs at Saline last Saturday, the state prohibiting a public funeral on account of his death being due to influenza and pneumonia.

Mrs. Elmer Camburn is at Ypsilanti caring for her daughter, Wilma, who was taken very ill with influenza while caring for her husband. The baby, which is also sick, is being cared for at its grandparents', Mr. and Mrs. Briggs, of Saline.

Trip to Toledo Is A Memorable One

TECUMSEH BOY SCOUTS MAKE SPLENDID SHOWING

Fathers' and Sons' Feast in Celebration of Scout Movement's Tenth Anniversary Inspiring—Attendance Close to 1,500.

Long will the Tecumseh Boy Scouts who attended the fathers' and sons' banquet in Toledo Monday night cherish the memory of this remarkable occasion. Nor will the "fathers" who accompanied the local lads soon forget the event. It was a gathering where father and son learned to be closer chums and its influence will be far-reaching in affecting the lives of the hundreds of lads in attendance.

The Tecumseh contingent made the trip by auto, the fact that it was snowing when the cars left this city and that the roads were not in the best of condition only adding zest to the occasion. Boy Scouts, especially those of Tecumseh, are inured to the rigors of the elements and such trifles as a snow storm and poor roads would not prevent them attending an event like a father and son feast.

It was a jolly party that started from here late in the afternoon and all went well on the journey and about 6 p. m. the local group arrived at its destination and met in the Nicholas building and proceeded to the Lasalle & Koch dining room a short distance away, where the banquet, which was the sixth annual fathers' and sons' feast of the Toledo Boy Scout Council, was being held. The Tecumsehites were well marshaled, under the leadership of Perry Hayden, and one of the officials of the Toledo Boy Scouts made the remark that they were the best organized group that had arrived. The first step was the checking of overcoats and hats, each "father" seeing to it that his "son's" garments were taken care of. Then elevators carried the visitors to the eighth floor of the building where the festivities were in progress.

Here the scene that met their gaze was a revelation. Nearly 1,500 men and boys sat side by side, feasting, joking, giving cheers and enjoying themselves with complete abandon. Staid merchants wore grotesque hats and were jolly, shrewd business men tossed toy balloons around with boy-like agility and distinguished professional men joined whole-heartedly with the other men and the lads in making the large dining rooms resound with

L. O. T. M. GIVES FAITHFUL RECORD KEEPER A RING

At the meeting of the L. O. T. M. Monday evening the new officers were installed with Mrs. Alta Lidke installing officer, Mrs. Lillian Hunt great mistress at arms and Mrs. Abbie Fagan great chaplain. A bountiful pot luck supper was served. Then came a most interesting feature of the evening's program when Miss Anna Cutting, the hive's record keeper for the past 11 years, was honored by the gift of a beautiful ring bearing a ruby as a birthstone. Mrs. Edna Belding, the commander, made the presentation, wishing Miss Cutting a pleasant journey to her new home in far-off California and voicing the appreciation of the ladies for Miss Cutting's loyalty and careful work for the order.

BOLSHEVISM IS TO BE EXPOSED SUNDAY NIGHT

The community services are to be resumed Sunday evening, at which time the fifth in the series of "Better America" lectures will be given at the Presbyterian church.

This address is one of the most important in the series of ten. It deals with America's greatest menace at present, bolshevism, and handles this problem in a way that will prove a revelation to all. Trouble breeders are at work in all parts of this country, the welfare of the nation is at stake and it is imperative that the loyal people be aroused to the peril that confronts them.

Rev. W. A. Rex will be the orator and the Sunday evening lecture will lose nothing of its effectiveness as the result of his efforts.

The subject of the discourse will be "How Bolshevism Ruined Russia and How it Works Ruin Wherever Tried."

That the attendance be large is the hope of the three organizations promoting the lectures here, as they consider the fifth number of vital interest to every true American. The meeting will begin at 7 o'clock.

DIES WEEK AFTER HER SISTER-IN-LAW EXPIRES

Miss Etta Kerr, daughter of Mr. and Mrs. Robert Kerr, passed away Monday night at their home, two miles southwest of Tipton. Miss Kerr, who was 31 years of age, had been a sufferer with tuberculosis since October, 1918 when she was a victim of influenza. She was well known and highly respected here where she attended high school and frequently visited her aunt, Mrs. James McCoy, and family.

Making the event doubly sad is the fact that her sister-in-law, Mrs. Earl Kerr, also passed away within the week.

The funeral is being held from the home this afternoon.

Attention, Comrades!

Beers Post, No. 140, G. A. R., will hold its egular meeting Monday evening, February 16, followed by the annual Washington and Lincoln program. Meeting will begin at 7 o'clock, sharp. Program at 7:30. Comrades all turn out, please.

Butter Thief Steals Bricks, Gets 'Term'

Clarence Grant, Arrested Here Last July After Posing as Sleuth, Sent to Workhouse.

Tecumseh people will be interested in the fact that Clarence Grant, who posed here late in July, 1919, as a secret service operative and later was taken into custody on suspicion because he was selling creamery butter at such a low price, is now serving time in the Detroit house of correction. It developed after he was arrested in this city that the butter he was peddling he had selen from a car in the Michigan Central freight yards in Detroit. But it was not this escapade which landed him in the workhouse, it was the theft of several thousand brick in the Michigan metropolis.

It will be recalled that Louis Kozel gave Deputy Sheriff John B. Smith the "tip" which resulted in the apprehension of the alleged secret service agent here July 26. Grant had been to Kozel's home and offered to sell a 64-pound firkin of butter for $7. Kozel lost no time in accepting the proposition, but after the peddler was gone thought the deal looked rather suspicious and he notified the local officer of the law. The butter salesman was quickly located and taken to the county jail pending developments. They were not long in coming, for two officers and the driver of the truck which Grant had engaged to bring the butter to this city from Detroit arrived here the next day in search of Grant and they were gratified when they were informed the one they sought was safely lodged in jail. It was learned from the two Detroit officers that Grant had gone to the car containing the butter and informed the men in charge that he was a representative of the creamery

L. W. HEIDENREICH BUYS INTO JEWELRY COMPANY

L. W. Heidenreich, a former Tecumseh boy, who for the past seven years has been in charge of the repair department in R. L. Kantlehner's jewelry store in Jackson, has taken an interest in the firm, which in the future will be known as the R. L. Kantlehner Incorporated Company. The store is located at 915 East Main, the older brother, Percy, also being an employe of the firm.

The officers of the new firm are:

President—R. L. Kantlehner.

Vice President—R. H. Docksey.

Secretary and Treasurer—L. W. Heidenreich.

Thirteen years ago "Heine" started to learn the watchmaker's trade in the [illegible] Hicks store here, continuing for four years, when he located in Jackson. There he has married and has a nice little home and the home town friends of the young man are mightily pleased at his success.

MANY ATTEND THE BIG WILL FLETCHER AUCTION

Will Fletcher's auction on the John Clarkson farm, northeast of town, held Monday, was about the largest ever cried in this vicinity and some of the prices paid, according to the clerk, John T. Boyce, were unusually large for auctions, but Mr. Fletcher's herd of blooded cattle and other stock were admired over the countryside and had been well cared for.

The sale began at 10 a. m. and bidding was brisk, so everything was disposed of by 4 p. m. At noon lunch was served to over 600. As one spectator put it, "The scramble beat any movie I ever saw." The total proceeds amounted to over $9,500. The herd of cattle brought on an average of $142 per head, the sheep an average of $21 each and the hogs $81 each. Two teams sold for $700, while the grain brought a high figure, 98c per bushel for oats and $2.20 per cwt. for ear corn, with hay at $30 per ton.

MRS. JOHN ERLENBUSH DIES AT THE AGE OF 75

Mrs. John Erlenbush, mother of Mrs. Charles Mattis of this village, died Saturday at 8 a. m. at the home of her son, John, jr., and family, four miles west of Tipton. Mrs. Erlenbush was 75 years of age. She had resided with her son for the last five years. For 45 years, until the death of the husband, they resided on their farm about three miles northwest of Clinton in Bridgewater township.

She is survived by six children: Mrs. George Hoenes and Mrs. Arthur Hoenes of Tekonsha; Mrs. Will Neblo of Clinton; Mrs. Will Rochol of Ruston; Mrs. Charles Mattis of Tecumseh, and the son, John.

The funeral was held from the Erlenbush home yesterday forenoon, with burial in Clinton.

Mr. and Mrs. Erlenbush and four sons are ill with influenza, the wife recovering but the husband very sick.

Notice.

My attention has been called to the false report that I am managing the Hotel Murry for Mrs. Murry. Such is not correct. I am employed by her as chef. The letterheads read "James Murry."

Rev. Rex Declines A Call to Flint

Tecumseh [illegible] Asked to Help Estab[illegible]hurch in General M[illegible]s Addition to [illegible]hicle City.

During the past week Rev. W. A. Rex has declined a flattering offer made him by the Presbytery of which the city of Flint is a part. The position entailed the organization of a church in the annex to Flint being built by the General Motors Co.

A few weeks ago Rev. Rex, in company with a close friend, Rev. C. B. Hawkins, well known here, spent a Sunday out in this new part of the vehicle city and there organized a Sunday school of some 300 pupils as the first roots of the new church, which is the first one to be built in that portion of Flint.

Not finding housing accommodations for their men, the General Motors people bought a large farm adjoining the city limits and after harvesting the oat crop last summer began operations, building homes. The street car line was extended to the new city, already 500 houses have been erected, [illegible] pipes laid and these houses filled with people. The Presbyterians were invited to erect a church, the General Motors corporation only stipulating that it be an edifice costing around $250,000. It was the organization of the church, the building of the structure and later the pastorate which was offered Mr. Rex [illegible] old home town looked the best to him and his family, for which his church people and the community in general are grateful. The splendid work done by Rev. Rex in Tecumseh and for the Macon and DeSpelder churches needs no comment. He is conducting services at the Macon church each Sunday afternoon when it is possible to make the trip and his work in a patriotic way has been invaluable as well.

WESTMINSTER GUILD HAS PLEASANT SESSION; ELECTS

Miss Bernice Blythe was hostess to the Westminster Guild Tuesday night, assisted by Dr. Pauline Bredow and Miss Ethel Keyser, the meeting being held at the home of Dr. and Mrs. H. R. Conklin. It was the annual meeting of the society and officers for the new year were elected as follows:

President—Mrs. Frank Nyland.

First Vice President—Mrs. W. A. Rex.

Second Vice President—Mrs. W. L. Jones.

Secretary—Mrs. J. D. Service.

Treasurer of all funds—Mrs. E. C. Heilman.

Patronesses—Mrs. C. A. Slayton and Miss Alice Wimple.

The retiring president, Mrs. Heilman, then turned the meeting over to the leader, Dr. Bredow, who conducted a very pleasant social hour.

Vocal solos were delightfully rendered by Mrs. Eugene Billings and Mrs. Heilman, the latter being accompanied by Mrs. F. C. Dickinson. Original valentine rhymes were written by the guests and read, to the glee of the company. Many were gems of poetry and proved the Guild members to be of diversified talents.

Matched valentines found the partners for the refreshments, which were served by the hostesses, and their valentine party adds another to the Guild's long list of pleasant functions.

He leaves the widow, two little daughters and his mother, Mrs. Sarah Davis, besides three half sisters, Mrs. Dwight Hause, of Clinton, Mrs. George Dorr of Grass Lake and Miss Grace Davis of Detroit. Two aunts reside in this ctiy, Mrs. Caroline Fenwick and Miss Lucy Train. Among his other business interests Mr. Davis was a stockholder in the Tecumseh Co-Operative association.

PASTORS MAKE PLANS FOR SPECIAL SERVICES

Missionary Institute to be Held Feb. 20—Exercises for Lent Also Arranged.

At the meeting of the pastors of the city Tuesday, two important subjects were discussed, the missionary institute which they planned in their community program last fall and the Lenten services. The first, the missionary institute, they have arranged to be held Friday, February 20. This institute is in charge of a committee of women, Mrs. John McIntyre representing the Methodist church, Mrs. C. A. Slayton the Presbyterian church, Mrs. W. R. Curtis the Baptist and Mrs. A. J. Wonder the Friends church. Each denomination will furnish a speaker for the program.

The morning session and until 3 o'clock will be filled with good things in the missionary way, the balance of the afternoon to be taken up with denominational conferences. In the evening will be given a popular service, with interesting addresses.

In the program for Lenten services the ministers adopted the program as advanced by the New Era committee of the Presbyterian church at their meeting Sunday evening. The first week of March will be taken up with cottage prayer meetings, one in each one or two blocks. Then for three weeks will be held union Lenten services, one week in each of the Chicago street churches, the pastor of the church in which the service is held having charge. He will be responsible for the speakers, arranging with men from out of town to make the addresses or doing it himself. They are also looking for a song leader, preferably some recent singmaster in one of the military camps, so the audience will be assured of interesting and profitable services.

Four afternoons of each week, Tuesday to Friday inclusive, Rev. Edw. Escolme will conduct a service of Bible lessons in the church holding the service for the week.

After much discussion it was the concensus of all the ministers that this plan would be far better than to employ a professional evangelist.

During the last week of March, Passion Week, individual devotional services will be held by the different churches.

This makes a fitting close to the winter's community services and the churches have heartily enjoyed the splendid feeling of harmony which now exists as never before in the city.

ENTERTAIN IN HONOR OF BIRTHDAY OF FOUR

On Saturday Mr. and Mrs. Fred Sheldon delightfully entertained a party of neighbors and friends, including the families of George Sanford, Irwin Boltz, Don Cleveland and Ed Koernig, the affair being in honor of the birthdays of their daughter, Lois, Marie Koernig, Mervin Boltz and Raymond Sanford.

A bountiful dinner was served, first to the guests of honor and other young members of the families. Each guest of honor was treated to birthday cake with lighted candles, which caused a great deal of merriment. The remainder of the afternoon was spent with music, singing and visiting.

Advice to Owners Of Liberty Bonds

Do not sell your bonds unless absolutely necessary.

After every war which the United States has had to finance by bond issues the bonds have eventually sold at a premium.

Six per cent bonds of the Civil War sold at 128 in 1876.

Four per cent Spanish-American War bonds of 1898 sold for 139 in 1900.

Liberty bonds have the same chance of increasing in value.

If history repeats itself these bonds will go above par eventually. Hold them and reap the profit yourself.

They are always security for loans.

Should you desire funds for a short time, this bank will be pleased to accommodate you.

Editorial Comment

Probably the most conspicuous of the 17 or 18 possible presidential candidates in the public eye at present is Herbert Hoover, who came into prominence as United States food administrator during the war and later acting in the same capacity for the European countries. What makes Mr. Hoover prominent in the public eye aside from this is his determination not to affiliate himself with any political party until he knows what the parties stand for. He declares that he will exercise a prerogative of American citizenship and decline to pledge his vote blindfolded. That means he is independent in spirit and will cast his vote where he thinks it will do the most good for his country.

The political issues today are new issues. Old party issues are past and gone. We are living in a new era—an era of re-construction and party platforms must be so constructed to take care of present and future problems.

Mr. Hoover says he shall support the political party that gives assurance of establishing an efficient instrumentality for the prevention of wars and that will enable us to safely economize in expenditures for military and naval establishments. He will not stand with any party that moves to weaken our constitutional right of free speech and free representation, or aims to re-establish control of the government for profit and privilege. He will not vote with any party dominated by groups who hope for any form of socialism, whether it be nationalization of industry or other form of individual initiative. "Both of these extremes, camouflaged or open, are active enough in the country today," he says truly.

We should discontinue the unsound economic practices that of necessity were developing during the war. Most of us can stand on this Hoover platform. And most of us are in agreement with his disinclination to tie ourselves to "undefined partisanship."

Although Mr. Hoover is quoted in a recent statement that he is not seeking presidential honors and that he is not a candidate, nevertheless his name remains in a prominent place with the people of the nation.

Prominent soldier candidates are Gen. John J. Pershing, commander of the American forces across the waters during the war, and Major-General Leonard Wood. Petitions for the latter have already been circulated in Tecumseh.

Gov. Frank O. Lowden of Illinois and Hiram W. Johnson of California are among the favorite Republican candidates, while James W. Gerard, former ambassador to Germany, and Wm. G. McAdoo, ex-secretary of the treasury of the United States, are on the Democratic list.

One of the most important factors in bridging the gap between parent and child are father and son banquets like the one held for the Boy Scouts in Toledo Monday night and attended by a large group from Tecumseh.

At this function 1,500 men and boys mingled in true comradeship and the inspiration gained will long have its influence on parent and son.

The Commerce club of this city had planned to give a complimentary father and son feast for the Boy Scouts of Tecumseh but the influenza epidemic has prevented to date. It is to be hoped this function has only been postponed and that it will be held at some not distant date. These gatherings are of such vital importance in making father and son closer pals that it will be lamentable if the local Scouts are denied the privilege of meeting their fathers on an equal footing at a feast of this character.

Concerted and well directed action can make such an occasion of great significance in the future of the youth of this city.

The Senior class of Tecumseh high school is an intelligent looking bunch of young America. The Herald force had an opportunity Monday for observing this when the class appeared at this office to study that wonderful machine, the linotype. Principal Price brought the class over and it was really surprising to listen to his intelligent description and explanation of the mechanism and operation of the machine.

One of the questions that is uppermost in the minds of politicians is how will the women vote at the coming presidential election. There are seventeen millions of women that will be eligible to cast their votes at the coming political contest—enough to turn the hair of political bosses this coming fall. The prediction that the women will vote for the same old party that their fathers and grandfathers supported is being discredited. The women, it is said, are refusing to be bossed, and will vote independently. This may mean the overthrow of political rings and the swinging of entire states that have for years stood pat for one party to the opposition. The result of the coming election has all the ear marks of being the most interesting since Lincoln's time. Evidence that women are interested in the campaign is the fact that several of the gentle sex have already been chosen as delegates to national conventions.

Next Monday evening at the council chambers will be held the Peoples village caucus. Up to the time of this writing no other caucus has been called. Is it going to be a tame one ticket affair in Tecumseh this spring?

The ground hog has proven a poor prognosticator this year, or else he remained in his hole by design, for the weather has been mild since the day of his annual appearance to inspect his shadow.

VILLAGE CAUCUS

Notice is hereby given that a People's Caucus will be held at the Council building, Tecumseh, Michigan, on Monday, February 16th, 1920, at 7:00 o'clock p. m., for the purpose of placing in nomination candidates for village officers for the ensuing term and for the transaction of such business as may properly come before it. By order of Committee.

W. L. Coller, Village Clerk.

A SAFE TEST

For those who are in need of a remedy for kidney troubles and backache, it is a good plan to try Doan's Kidney Pills. They are strongly recommended by Tecumseh people.

A. C. Aylesworth, retired farmer, W. Chicago St., Tecumseh, says: "About four years ago I had severe attacks of lumbago, which, I am sure, were brought on by disordered kidneys. I finally heard of Doan's Kidney Pills and began their use. After taking them for a month or more, I was relieved of the trouble. I have had no recurrence of these attacks since and I am glad to recommend Doan's Kidney Pills."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Aylesworth had. Foster-Milburn Co., Mfgrs., Buffalo, N. Y.—adv.

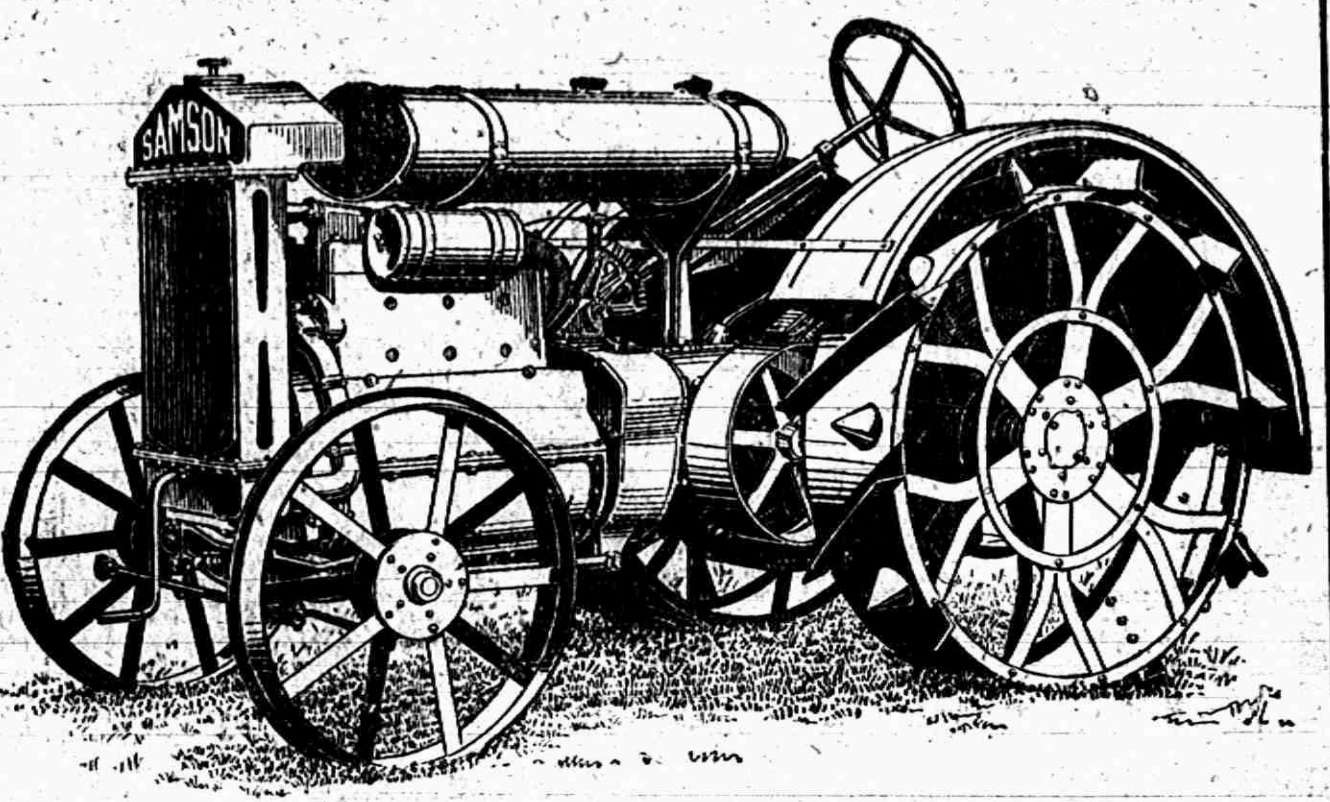
Delay May Prove Costly

Today is February 12. In 60 days from now you will be rushed to the limit in getting in your crops. The value of the crop at harvest time depends on how these crops go in just 60 days from now.

Do you realize that it is an impossibility to obtain anywhere near enogh tractors to supply the demand this spring? All manufacturers are way short on production, shipping is much less than was anticipated 30 days ago. And these conditions, instead of improving, are becoming worse daily.



$950.00 Delivered

Complete with Plows, Fenders, Platform, Automatic Governor and 6-inch Belt Pulley

This SAMSON Tractor is developing more than 20 H. P. on the belt. It will pull two 14-inch plows anywhere and on light soil three bottoms. It is built so extra strong all the way through and of the very best material. The only reason it can be built at the price is due to the enormous production of the GENERAL MOTORS CORPORATION. There is no tractor developing the same power or built as good but what is selling for several hundred dollars more.

About the plows. If you will examine them you will readily see they are of much stronger construction than others. The SAMSON has better moleboards than any other tractor plow you know of.

You Cannot Place Your Order Too Soon

Our territory is Lenawee County. Do not wait for our salesmen to call, for it is impossible for them to get over the whole territory. We are seriously handicapped at present, as several members of our force are ill with influenza and pneumonia.

You can see this tractor demonstrated here or we will give you the names of satisfied users.

Don't wait, but do it now.

BRADLEY OPERA HOUSE ATTRACTIONS

"Doug" Saturday Night.

The people of Tecumseh and vicinity were evidently very glad that the Bradley was again open last Saturday and Sunday as was proven by the big crowds which attended that popular play house on these two evenings. Exceptionally good programs were on view each evening and with the special music which has been added to the program the shows are claimed by nearly everyone attending to be worth several times the small admissions charged.

While it is not the intention of the management to repeat shows, still so many requests have come from patrons of the Bradley to have Douglas Fairbanks in his big eight-act production, "His Majesty, the American," repeated that the management has decided to play a return engagement on this one big special and Doug's many friends will have the pleasure of seeing him in "His Majesty, the American," the biggest and best picture he ever made and in fact the only eight-act play he has ever appeared in, next Saturday evening, February 14.

"His Majesty, the American," was selected for the opening of the Capitol theatre in New York city, the biggest and finest motion picture theater in the world. If you saw this wonderful play before you will want to see it again, if you missed it on the former engagement at the Bradley, don't be so unlucky this time.

Anita Stewart Sunday Evening.

Billed as the biggest hit since "Virtous Wives," dainty, romantic Anita Stewart will be seen at the Bradley on Sunday evening, February 15, in one of the most fascinating romances of the screen, "A Midnight Romance," the story of a mysterious beauty from nowhere, and where a midnight bathing suit flirtation led her.

"A Midnight Romance" is in six big acts and a novelty in the fact that three women produced it instead of being directed or written by men. Lois Weber, the world's greatest woman director, directed the production, Marion Orth, who wrote "The Price of a Good Time" wrote the play and Anita Stewart stars in the piece. If you think woman's creative genius is not equal to man's prepare to change your mind after seeing "A Midnight Romance."

The usual added attractions will complete the Sunday evening bill, including "Smiling" Bill Parsons in a new comedy, the Ford weekly and special orchestra.

Can You Write a Headline for This?

Foley's Honey and Tar is the best known and most successful family cough medicine on the market and the following letter is positively true and genuine:

Says "It Acts Like Magic"

Gilbert Fleming, 3911 Budlong Av., Los Angeles, Cal., writes: "I have much pleasure in testifying to the very great benefit my family and I have derived from the use of Foley's Honey and Tar. It positively acts like magic, and to my mind there is nothing on the market that can compare with it. Whenever there are any of our household suffering from heavy colds or bad coughs or hoarseness, we at once get a bottle from our local drug store, and after one or two doses obtain instant relief. Your company deserves great credit for such a valuable production and from our own experience we cannot do otherwise but recommend it to our friends and this we willingly do and will continue to do so."

TRIP TO TOLEDO IS A MEMORABLE ONE

(Continued from Page One)

their merriment. During the serving of the banquet the various troops vied with one another in giving their yells, the Tecumseh group being among those to attract the most attention. The menu included roast veal, demi glace; cold slaw, Neapolitan ice cream, assorted cakes and coffee. Music was furnished by the Rail Light orchestra.

Following the feast all congregated in the auditorium, where the program of the evening was presented. Judge Aaron B. Cohn, Scout commissioner, was the presiding officer. The address was given by Rev. Harry W. Vincent and his remarks made a noticeable impression on adult and juvenile. When he drove home some salient point with dramatic emphasis he was vigorously applauded. In touching on the Boy Scout movement, which is ten years old this week, the occasion being celebrated throughout the United States, he declared the father and son idea is the biggest idea ever conceived for the future welfare of the boy. He also pointed out that the atmosphere created in the home can do the greatest good for the continued growth of the Boy Scout movement.

Commissioner Cohn, in explaining how the Toledo troops are celebrating the tenth anniversary of the organization of the Boy Scouts, reminded his hearers that the Scout gives instead of receives presents on a birthday. In following out this custom on Tuesday every patient in every hospital in Toledo was visited by a Boy Scout and presented with a flower.

Community singing had a part in the demonstration, Herbert Davies leading and stirring the large audience to a high pitch of enthusiasm in their vocal efforts. A number of popular songs were lustily sung.

"The Burial of the Grouch" was the title of one demonstration staged by Boy Scouts from various Toledo troops. This ceremony has become a tradition cherished by all lads who attend the big annual Boy Scout camp at Vineyard lake each summer, Scouts from Tecumseh being among those who are present each year.

To show how the older lads' interest is retained in the Boy Scout movement members of Gimogash Tribe No. 1 presented an act entitled "Gimogash." This organization was perfected by the older youths among the Toledo Scouts and is now being extended to all parts of the country.

Teaching a lesson that could not help but have a lasting effect on father and son the playlet "Dads" was ably presented by young Scouts from several Toledo troops. The playlet was written especially for the fathers' and sons' banquet by Judge A. B. Cohn. It showed how a son can acquaint his father with the fact that he fully appreciates all that is being done for him and how the parent should not let the stern struggle for the good things of life prevent him from keeping in close personal contact with his child.

The memorable gathering closed about 10 p. m. and the journey back to Tecumseh was then started, the various cars arriving here soon after midnight. The members of the local party heartily enjoyed the inspiring rally and none regretted having made the trip.

The Scouts from here attending the banquet were:

Gratton Hastings, Russell Abbott, Dale Bowen, Lester Harris, Ralph Field, Stewart McLain, John Erwin Anderson, Charles Kempf, Clarence Waring, Richard Felon, Pary Nye, Marion Alderdyce, Thomas Mead, Sherman Waring, Glenn Hines, Raynor Aylesworth, Raymond Nobles, Vaughan Curtis and Lavern French.

Their "fathers" for the occasion and the varied Tecumseh business interests represented were as follows:

George Hines, president of the village and stockholder in Brown & Co.; Herbert S. Temple, cashier Lilley State bank; Frank Miller, of the Tecumseh State Savings bank; Rev. W. R. Curtis, pastor Baptist church and Scoutmaster of Troop 2; E. E. Crampton, superintendent of schools; Charles F. Patterson, secretary of the board of education and one of Lenawee's most progressive poultry raisers; O. W. Laidlaw, Scoutmaster Troop 1 and teacher of agriculture in high school; R. K. Anderson, commander of Underwood-Orr Post of the American Legion and connected with the Hicks Lightning Rod company; Paul Bowen, Fred Aylesworth and Wilfred Waldron, prominent farmers; Lester Coller, merchant and photographer; George Field, job printer; Bert Mominee, village marshall; Albert VanDoren, garage owner and distributor of the "Mitchell" car; Clarence Alderdyce, owner of the Alderdyce local and long distance trucking firm; Richard T. Mead; Frank French, foreman of the American Steel & Wire Co.; Geo. Newsom, senior in high school and employed in the Fred Rosacrans & Sons store; Charles A. Ihrkey of the Tecumseh Herald and P. M. Hayden, assistant Scoutmaster Troop 1 and interested in the Wm. Hayden Milling Co.

Automobiles were furnished by the following: Geo. Hines, Lester Coller, H. S. Temple, Albert VanDoren, D. E. Temple, The Tecumseh Herald and R. K. Anderson.

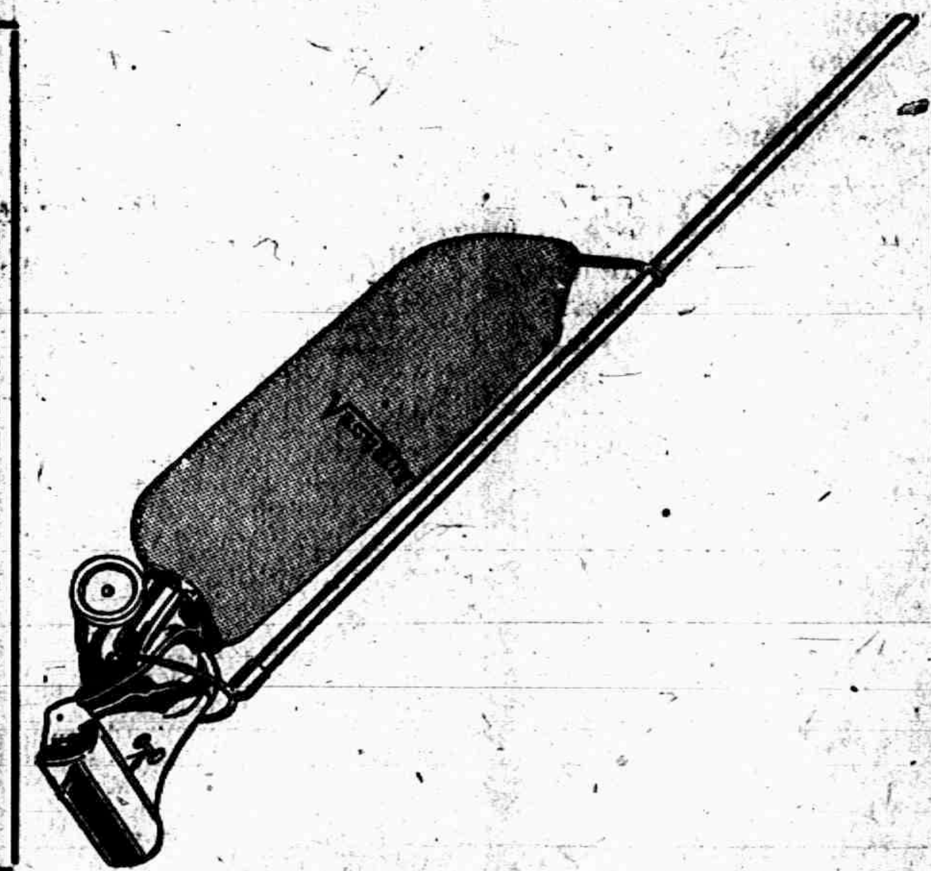
Vacuette Suction Sweepers

The bugbear of the housewife is dust and dirt. Unless completely removed, the particles lifted in Monday's sweeping settle back to the floor again on Tuesday — and Wednesday — tripling her work.

The VACUETTE answers this problem and answers it at an amazingly low price.



Vacuette Suction Sweeper

is not an electric cleaner. It is an "every day" sweeper because it requires no wires or plugs or connections. You just grasp the handle and clean from room to room thoroughly without further bother.

VACUETTE VIRTUES

The Vacuette doesn't merely loosen dust and dirt and then drop it back "into circulation." First a large revolving bristle brush shakes the dust and dirt free from rug, carpet or floor and picks up hair, lint and ravellings; then the strong suction lifts that dust and dirt into a capacious bag with a self-closing pocket-mouth. There dirt, dust, matches, ashes, thread, grit, etc., wait until the housewife empties the bag.

IT'S EASY WORK, TOO—A CHILD CAN DO IT.

The Vacuette pushes as easily as the ordinary carpet-sweeper. It's simple mechanism is housed in a handsome aluminum body, the complete cleaner weighing only 6½ lbs.

The fast revolving brush not only cleans but is self-cleaning. At each stroke it picks up thread, lint, crumbs, ravellings, pins, tacks, etc., as well as dust from a path 13 full inches wide.

The high-speed fan, revolving on frictionless ball bearings, creates a vacuum and carries this dirt into the bag safely "out of circulation." At the end of each stroke the fan continues to revolve and maintains this vacuum, so that wall corners are easily cleaned.

The long, tapering "nose" slides conveniently under beds, radiators and heavy furniture.

All that is best in electric cleaners — all the easy conveniences of the ordinary carpet sweeper—that is the VACUETTE—yet it is free from the drawbacks that makes the first a once-a-week sweeper and the second an incomplete cleaner.

Once try a Vacuette, once run its generous suction nozzle across a floor, and you will realize what a useful place it will fill in your daily work.

Your first demonstration will convince you.

BUTTER THIEF STEALS BRICKS, GETS "TERM"

(Continued from Page One.)

company which owned the product and that he was to take away 44 tubs. He was accompanied by a truck and driver and was given permission to take the butter. He had the butter brought here, storing the most of it in a local cold storage plant, and then dismissed the driver with instructions to collect payment from the creamery company. After the swindler's arrest here 37 of the tubs of butter were recovered. The accused and bogus secret service man was taken to Detroit and it was while at liberty pending the disposal of the butter case that he became envolved in the brick deal. His arrest and conviction on this charge is entertainingly related in the following clipping from a Detroit paper of recent date:

Clarence Grant, skin game expert and all around bunco artist, is in the house of correction for two and a half years.

The court named a maximum of of five years, but recommended the shorter period.

The job that shortened Clarence's somewhat spectacular career in Detroit and "sunk" him without warning was the annexation of several thousands of bricks that belonged to another.

The federal agents have just completed an investigation which involves the theft of many tubs of butter from a freight car, and a warrant is hanging fire over in the postoffice building, waiting for the time when they can get the decks clear enough to make room for Grant's hearing.

Grant, less than 30 years old, put in the past four or five years cantering about Detroit, with an occassional side trip out into the state, staging some of the cutest little bunco games that the city and feredal agents have had to contend with in some time.

Some time after officers had acquired a habit of stopping Grant every time they saw him to ask impertinent questions concerning his conduct, he blossomed out as a railroad detective with a gun, badge and everything except a set of false whiskers.

It was his business to round up thieves and keep a lot of mean people out of the railroad yards when valuable merchandise was sidetracked here, but Grant really spent considerable time getting acquainted with a lady who lives on the west side and is fond of company.

One afternoon her husband came home unannounced and found Grant seated in the kitchen, eating a meal just as though he were the copper on the beat. When friend husband raised a row, Grant promptly chucked a gun into his stomach and walked him over to the Grand River avenue police station.

"This fellow," said Grant, "was creating a disturbance over at his home so I brought him in."

The officer in charge had previously heard of some of Grant's escapades and while he was making a bluff at trying to find out the circumstances surrounding the disturbance he sneaked another officer out a back door to make a quick investigation of the matter. When the officer got back, the lieutenant cut the husband loose and tossed Grant out of the station.

Some time later Grant was heard from again in a butter deal. This time he went to the railroad yards, looked over some way bills and then telephoned word to the freight agent of one of the roads running into Detroit that a representative of one of Detroit's creamery companies needed that "shipment of butter in the west yards right away."

The car was promptly spotted. In an hour or two Grant showed up with a couple of large trucks and two or three professionally idle men as helpers. Grant and his crew of helpers, not one of whom knew that their employer was not what he appeared to be, unloaded the carload of butter.

The next day Grant started through the country selling butter at a very low figure. His sales, at the low price quoted, ran so rapidly that he sold out by the time he reached Tecumseh. There he dismissed his helpers and the truck drivers, telling them to get their money from the creamery company.

While the government agents were plunging around to get a line on the butter thief three or four city detectives were cantering about the state in an endeavor to find out who got away with many thousands of brick that had been unloaded on a vacant lot on the east side, where some new houses were to be built. The bricks were found at another location two miles away.

It appears that Grant chanced to pass the lot filled with bricks, and suddenly hit upon one of his wild schemes to make some easy money. He went about two miles from that spot and sold all the bricks on the lot to a contractor who was having a tough time getting bricks to keep even with his jobs.

Grant let the bricks go at a low price and guaranteed to do the hauling. And so he hired two or three heavy trucks and a crew of helpers.

When the bricks had been transferred Grant dismissed the trucks and helpers, telling everybody to send him his bill. He represented himself as a contractor, and, as he did in the butter deal, failed to pay even the men who had unwittingly assisted him in his game.

When the town sleuths looked over the job they immediately said "Grant," and started out on a still hunt for him. They finally landed in Tecumseh after following a trail that led across the southern part of the state. Grant was there and he was arresed. While the officers were holding him the village station agent sauntered by, looked Grant over and stopped.

"What's this fellow done?" he asked.

The officers told him and then the agent began to get pink in the face.

"Why," he said, "this bird got me out of bed the other night and made me go down to the depot. Said he was an auditor for the road and would have to go over my books at once. I went down and worked half the night with him."

The officers figure that Grant was going over the books in an attempt to locate valuable merchandise that he might try to handle as he did the butter.

The depot agent had just left the vicinity when one of the town bankers came along. He looked Grant over and recognized him.

"What's this gentleman been doing?" asked the banker.

He got the same information that the agent did, and promptly blewup. The officers thought for a minute they would have to get a doctor for the banker, because only a few days before Grant had represented himself as an auditor for the state banking department in Lansing and been permitted to go over the bank's books. Nothing was found missing and Grant was taken out of town and sent to the house of correction on the first train, brought to Detroit for engineering the brick steal.

Grant must still deal with the government for the butter deal.

FINDS NERV-WORTH JUST THE THING TO TAKE FOR STOMACH AILMENTS.

Mr. Edsinger's statement made a few days ago is new proof of Nerv-Worth's power to secure quick results. Said he to Lansing's Nerv-Worth druggist:

"Sturgis Drug Store: I would not be without Nerv-Worth. Have had stomach trouble very bad, and find that Nerv-Worth is the proper medicine for me.

"I have only used one bottle of it, but have improved so much that I am encouraged to always keep it handy. My food agrees with me now and I am gaining strength daily."

To Turn Spotlight On Socialists' Creed

SIXTH PATRIOTIC LECTURE SUNDAY EVENING

Will be Held at Presbyterian Church—Is One of Most Enlightening of Series—Bolshevism Diagnosed Last Sunday Night.

Of gripping interest will be next Sunday evening's lecture in the series on "Americanizing America" as it will deal with socialism and will expound the weakness of this doctrine and show the dangers that attend it. The topic of the discourse will be "Is Socialism the Perpetual Motion Machine Delusion Converted Into Economics?" This lecture will be particularly engrossing, exposing as it does the fallacy of these teachings and impresses strongly on the hearer the dangers that attend the practice of socialism.

This will be the sixth in the course of ten lectures on a "Better America," and will be given in the Presbyterian church. Rev. W. R. Curtis, pastor of the Baptist church, will be the orator, and there will be musical features to add interest to the meeting. It is desired there be a large attendance.

After next Sunday no more of the lectures will be presented until after Lent.

The fifth in the series of patriotic addresses was held at the Presbyterian church Sunday night, the pastor, Rev. W. A. Rex, being the lecturer. Bolshevism

LADIES' UNION HOLDS ITS INITIAL MEETING

The class meetings of the Ever Ready and Ever Willing Sunday schools classes, the Ladies' Aid and the Missionary societies of the Baptist church have united forces and are hereafter to be known as the Ladies' Union of the Tecumseh Baptist church. The executive committee of the union is composed of the staff of officers and the Mesdames Morse, VanVleet, Harris, F. Bryan and Heesen.

Thursday, February 12, this union held its initial meeting at the hospitable home of their president, Mrs. W. R. Curtis. About 25 did ample justice to a pot luck dinner. During the social hour the ladies pieced quilt blocks. A missionary program was given under the capable leadership of Mrs. H. C. Lamkin and her helpers. The map talk by the leader added much to the interest in the [illegible] "The Near East." Mrs. Harris told of the prophet Mohammed and Islam; Mrs. Howard of conditions in Arabia; Mrs. Lamkin of the work in Persia, while Mrs. A. VanValkenburg and Mrs. F. VanValkenburg gave glimpses of work done in Siberia, Turkey and Egypt. The poem recited by Mrs. Lamkin was very applicable and gave a fine example of the depth and breadth of all missionary work.

The union adjourned to meet March 11 at the home of Mrs. Titus, when Mrs. Camp will have charge of the program.

Now paying 50c doz. for White Eggs, 48c for Browns. For Poultry 22 to 32c lb. J. C. O'Neil.—adv.

American Legion Will Promote Matches—"Texas Kid" and Dick Russell Principals for Main Go—Jimmie Devers to Referee — Women Invited to Attend.

That manly art of boxing is to be given a new lease of life in Tecumseh, Underwood-Orr post, American Legion, being the agency through which this spirited pastime will be placed on a high plane in this city. The post has secured its license from the Michigan State Athletic Board of Control, which is now necessary before matches can be held, and plans to stage its first exhibition Monday, March 1. The bouts will be held in the Bradley opera house and as there has always been keen interest in this sport in this city the promoters anticipate an attendance of encouraging dimensions.

Co-Op Association Had Splendid Year

Reports at Annual Meeting Are Most Encouraging—A. O. Howard Chosen President—To Name New Manager Soon.

The annual meeting of the stockholders of the Tecumseh Co-Operative association was held in Co-Operative hall yesterday with about 800 members of the company present. Former president Chas. Evans resided by request of the company.

It was an enthusiastic gathering, and the members learned the organization was now in better condition than in some time.

James Murphy, the manager who recently resigned to accept a splendid position in Detroit, gave his report which proved last year a gaining one with the company. Mr. Murphy promised to stay with the company until March 1 to help his successor familiarize himself with his duties.

The members then proceeded to elect the new board of directors as follows:

For one year—John A. McIntyre, John L. Calhoun and A. O. Howard.

For two years — Clement Bramble and Ernest A. Daisher.

For three years—William E. Wilson and Lee H. McConnell.

The stockholders voted to confine the business in the future to a strictly cash basis. They also voted to cancel all amendments which have been made to their original constitution.

The directors organized after the stockholders had adjourned, electing officers as follows:

President—A. O. Howard.
Vice President—John A. McIntyre.
Secretary—Wm. E. Wilson.
Treasurer—John L. Calhoun.

The directors are to hold another meeting the first of the week when they will appoint the new manager.

SEMI-ANNUAL TEA IS PLEASURABLE EVENT

It proved to be a decidedly enjoyable occasion when the Women's Foreign Missionary society of the Methodist church held its semi-annual tea meeting with Mrs. C. M. Gilbert last Thursday afternoon. Mrs. John McIntyre presided.

Mrs. E. M. Lewis was program leader, the topic being "A Crusade of Compassion in Korea and the Philippines." Three papers of more than usual interest were presented by Mrs. Lewis, Mrs. Hurry and Mrs. Thompson. Two piona selections by Georgiana Conklin and Lucile Miller were most delightful. Mrs. Smalledge read a story, "Outside the City Walls," which was listened to with much attention. Mrs. McIntyre had charge of the mystery box.

People's Party Is Only One in Field

CANDIDATES NAMED AT CAUCUS MONDAY NIGHT

Village President, Clerk, Treasurer and Assessor to Succeed Selves—Trustee Pulver Renamed But H. C. Moore and F. C. Hanna Selected in Place of Robt. McCoy and W. E. Barrett.

There will be two new members on the village board of trustees in Tecumseh following the March election, as the People's party at its caucus Monday night at the council building failed to renominate Robert McCoy and W. E. Barrett, whose terms expire. All the other present officers were again placed on the ticket. About 40 loyal members of the party now in power attended the caucus and the business in hand was dispatched with enthusiasm and speed. The new timber for trustees are H. C. Moore and F. C. Hanna, Councilman B. J. Pulver being named to succeed himself.

George Hines, president of the village, called the meeting to order. E. H. Ahrens was elected chairman of the evening, Leon Rosacrans clerk and H. H. Hanna and John H. Smith tellers. Justice John McIntyre swore in the officers of the caucus.

When it came to nominating a candidate for village president, John R. Nyland called attention to the fact that the one now holding that office had made a splendid record and nominaed George Hines to succeed himself. His selection was made unanimous.

Will L. Coller, village clerk, Mrs. Franc S. Gillespie, village treasurer, and George Field, village assessor, were then each nominated by acclamation to succeed themselves.

The terms of Trustees B. J. Pulver, Robert McCoy and W. E. Barrett having expired, nominations were in order for candidates for these offices. Mr. Pulver was named as a candidate to succeed himself. The names [illegible] Moore and Robert McCoy were presented as candidates to fill the place vacated by Mr. McCoy's term expiring. The names were balloted on and when the votes were counted it was found there was a tie, each having received 17 endorsements. Another vote was taken and this time Mr. Moore got 18 votes and Mr. McCoy 17 and the former was declared nominated. There was only one name presented as a successor to Trustee Barrett, that of F. C. Hanna, and he was nominated by acclamation.

Just before adjournment it was decided that the first three on the ticket compose the [illegible] the ensuing year.

FORMER TECUMSEH WOMAN IS FOUND DEAD IN HOME

Mrs. Marie Heydenburg, widow of the late Carl Heydenburg, a Civil war veteran, well known here, was found dead in her home at Birdsall yesterday morning, where she had resided since the death of Mr. Heydenburg, her friends looking after her.

Not having seen her about for a week or more some of the neighbors looked in her window and saw her lying on the floor. They entered the home and found the woman dead. The sheriff was called, but decided death had occurred from natural causes.

Mr. and Mrs. Heydenburg were former residents of this vicinity. Mr. Heydenburg's death resulted from injuries received during the burning of his barn.

K. OF P. ANNIVERSARY SESSION THIS EVENING

Tonight is to be an interesting one for the local Knights of Pythias, as Tecumseh lodge, No. 190, will hold its annual anniversary session. There will be a roll call of members and work in the second rank, this to be followed by a lunch and smoker.

The meeting is to be made especially enjoyable and every member is being urged to be present.

Coming Auctions.

Farmers in this vicinity are invited to list their auction sales at The Herald office, that they may be given publicity in this column. NEW GRAVEL PIT IS TO BE OPENED HERE

A new concern, to be known as the Puritan Sand and Gravel Company, made up of Detroit men, is to open a pit on the old Sutton farm adjoining the pit on the right of way of the New York Central railroad. Two of the members of the firm were in town yesterday conferring with J. R. Todd, superintendent of the Lansing division of the N. Y. C. and F. E. Lewis, division freight agent. They will put in an equipment sufficient to load 25 to 30 cars daily and will employ a large force of men. While the plans of the new company are not yet completed, it is predicted the concern will be one of the live enterprises in Tecumseh.

Tecumseh Teachers Petition for Bonus

Salary Too Low to Meet Expenses They Declare and Present Figures as Evidence.

More pay is asked by the teachers in the Tecumseh schools.

They assert their present salary does not cover their necessary expenses and they have petitioned the board of education to grant them a bonus of $150 each.

The petition, signed by every teacher, reads as follows:

"We, the undersigned and teachers of the Tecumseh public schools, owing to the abnormal increase in prices since the signing of our contracts, herewith respectfully petition the board to grant a bonus of $150 per person in order that we may meet our necessary expenses for the year."

In substantiation of the claim that their salaries are inadequate to meet their needs, figures are submitted showing expenses of the six outside women instructors. These figures set forth that the range of the expenses over salary for a month is from $3.25 to $28, and that the average is as follows: For board and room, $36.83; laundry, $4; clothes, $34.45; incidentals, $24.38; total, $99.66; while the aveerage salary is $8 less than this or $91.66.

The bonus requested will total nearly $3,000 and it is the opinion of those informed along this line that the board of education will submit the plea of the teachers to the voters of the school district at a special election.

PRESBYTERIAN MISSION SOCIETY HAS ELECTION

Interesting and enjoyable was the annual meeting of the Missionary society of the Presbyterian church, held Friday afternoon in the church parlors. A pot luck dinner at noon was a pleasant feature of the occasion, 28 being present to enjoy it.

Immediately after the dinner the meeting was called to order by the president, Miss Nannie Kyle, and devotional exercises followed. Then letters from the missionaries were read, Miss Alice Ellingwood of Bangkok, Siam, and Miss Bernice Hunting of Syria. The synodical report of the meeting held in Saginaw last October was read by the secretary, Mrs. E. H. Halladay. The secretary also gave a fine report of the splendid work of the society during the past year. Mrs. Ida Spencer was appointed delegate, with Mrs. Ellen Bowen as alternate, to the Presbyterial meeting which is to be held at Reading in March.

The following officers were elected:

President—Mrs. Andrew Wilson.
First Vice President—Mrs. H. B. Tallman.
Second Vice President—Mrs. Ella M. James.
Secretary—Mrs. E. H. Halladay.
Assistant Secretary—Mrs. J. Fred Rector.
Treasurer—Mrs. H. S. Mitchell.
Assistant Treasurer—Mrs. Ellen Bowen.
Secretary of Literature—Mrs. C. A. Slayton.
Secretary of Flower Fund—Mrs. F. D. Rector.

MRS. ALBERT FOSTER IS SURPRISED ON BIRTHDAY

Having heard that Thursday was Mrs. Albert Foster's birthday, a jolly party of young married people drove out to her home in the evening and completely surprised her. In the company were Mr. and Mrs. Howard Goodsell of Clinton and Mr. and Mrs. Carl Thompson of Britton.

The earlier part of the evening was taken up with cards, at which prizes were won as follows: First ladies' prize, Mrs. Tom Denniston; second, Mrs. Ernie Topps; first men's prize, C. A. Stalter; second, Carl Thompson.

A most appetizing lunch was served and the company presented Mrs. Foster a set of silver bouillon spoons, Mr. Thompson making a graceful speech of presentation.

Dancing finished the delightful party, music being furnished by Mrs. C. A. Stalter and Mr. and Mrs. Thos. Denniston. Ice cream was served at the close of the evening and the guests started for home, after wishing Mrs. Foster many more such happy birthdays.

Adrian High Teams Here Friday Night

Spirited Contests are Anticipated—Local Boys Lost at Hudson Last Week, But Girls Vanquished Battle Creek.

When the local and Adrian high school basketball teams clash at the gymnasium of the Tecumseh school Friday night fast and closely contested games are expected as the girls' as well as the boys' fives of this city are primed for the battle and the visitors are [illegible] fastest aggregations [illegible] home players. The local boys' team, while [illegible] players are very speedy, have exerted themselves to the limit in preparing for this contest and anicipate making a [illegible] that will cause their supporters to take just pride in them. The Tecumseh girls' team, as the result of the victory at Battle Creek last week, feels it can give a good account of itself against its opponents of tomorrow night.

Hudson's team defeated the Tecumseh boys at that place last Friday night by a score of 23 to 16. The local youths encountered a different style of basketball than they have been playing and due to this and the fact that the floor was not in the best of condiion they did not seem able to "find" themselves. The contest was a most interesting one, and at the end of the third quarter the boys from here had nearly evened the score. The superintendent of the Hudson school refereed the first half while Principal C. W. Price of the local school officiated during the rest of the game.

The Tecumseh girls' team won a signal victory at Battle Creek last Friday night, defeating the Pure Food City lassies by a score of 18 to 16. This was the first time the Battle Creek five have been humbled in six years and the local girls take great pleasure in having broken this team's long winning streak.

Battle Creek made the first basket but because of the determination of the local girls did not score another until the Tecumseh players had scored 3 points. The score slowly crept up until at the end of the first half it was 7 to 6 in favor of Tecumseh. The last half was played in quarters, and in the third quarter Battle Creek made two field baskets and this city's representatives made two field baskets and one free throw, the score at the end of this period being 12 to 10 in Tecumseh's favor. In the final quarter two field baskets and one free throw were made by the Pure Food City girls, Tecumseh having made only two free throws during this time, putting the opposition in the lead, the score at this time being 15 to 14 in favor of Battle Creek. With only two minutes more for play Tecumseh was determined to be victorious and scored two free throws and one field basket and Battle Creek could make but one free throw, the game going to our players by the score of 18 to 16.

Their defeat was a big surprise to the Pure Food City players, as they had been winning so long they were probably of the opinion they could not be outclassed. Last year this team claimed the state championship. It was team work that made the Tecumseh girls victors, each starring in her particular position. The line-up of the Tecumseh team was as follows: Forwards, Helen McIntyre and Cecil Clark; guards, Margaret Marsh and Marion Harrington; centers, Jean Hall and Frances Alderdyce; substitutes, Arlene Gillespie and Charlotte Arner.

TAKEN ILL WHILE CARING FOR DAUGHTER, EXPIRES

Mrs. J. W. Wellwood, residing near Wampler's lake, died last Friday of malignant sore throat, contracted in Monroe while caring for her daughter, who was Red Cross nurse in Monroe county. The daughter was stricken on February 2 and her mother went to assist in caring for her. The daughter passed away one day before her mother. Mrs. Wellwood was a sister of Miss Laura Haggart, who became a resident of Tecumseh last July.

Mr. Wellwood is at present suffering from the same disease, but his friends believe the crisis in his case has been passed.

The Culbertson school district will hold a box social at J. A. Whitmore's home Friday evening, February 27. All ladies are invited to bring boxes with lunch for two. -2-19

Editorial Comment

With an average deficiency of eight dollars a month in the financial standing of six of our school teachers from out of town, the appeal to the board of education for a bonus of $150 per teacher for the year does not seem unreasonable. This appeal and a summary statement of expenses is printed in another column of this issue and is rather interesting. Glancing at the average expense of the six teachers it will be seen that the total monthly expense is $99.66, while the average monthly salary is $91.66. Without help from home these young ladies could not continue their work here. Some of the expenses quoted may look large, but it must be taken into consideration that the ladies must dress respectably, that books and materials are needed in their work, and that the high prices affect them just as much as they do others.

Undoubtedly the board recognizes the difficult position of the teachers and will take the necessary action to afford relief. It will probably mean a special school election of the district when the taxpayers will be asked to authorize the school board to make the necessary appropriation to comply with the appeal of the teachers.

Other cities and towns have experienced the same situation. In Detroit resignations of teachers have overwhelmed school authorities. Adrian held an election Monday evening wher[illegible] of that [illegible] [illegible] men [illegible] at least give some evidence of interest in public affairs and in the selection of officials to conduct the business of the city, especially when only one caucus is called. Only one woman showed sufficient interest to attend the caucus Monday evening, not one of the preachers of the various churches was present and all but four of the merchants on Chicago street were also conspicuous for their absence.

However, the affairs of the municipality will be in good hands the coming year as will be seen by the list of nominees in this issue, nearly all of them being chosen by acclamation or without opposition. Even if dissatisfaction is felt it is now too late to legally call another caucus and nominate a second ticket for the electors to select from. If any nominee is unsatisfactory the name may be erased and replaced by another.

Sensational in the extreme was the announcement printed in the daily papers Saturday that President Woodrow Wilson had practically asked Secretary of State Robert Lansing to resign and accepted the resignation to take immediate effect. It has been known for some time that things were not harmonious between the secretary of state and President Wilson, and the former's resignation was looked for months ago, but the manner of forcing the resignation and the reason assigned has left a bad taste, and the action is widely censored. Of course there have been more vital reasons than have yet been given out for Wilson's course, but on the face of the facts now at hand it looks as if our president has added one more serious political blunder to his list.

CAPITOL SAVINGS & LOAN ENDS GREAT YEAR

Under the above caption the Lansing State Journal of February 7th has the following to say:

The sixtieth semi-annual statement of the Capitol Savings & Loan association shows the largest gain of any year in the history of their business. During the war when most financial institutions were well satisfied if they held their own, this association gained in total assets over $500,000 each year, while for 1919, over $1,000,000 was added to the assets, making total assets as of January 1, 1920, of $3,737,836.

The association made real estate loans during the year aggregating $2,050,018. Earnings now standing to the credit of the share holders amount to $277,328. While the loaning rate to the borrower has been the lowest ever, the net earnings during 1919 were $196,329.85, most of which was distributed to the share holders, the balance of $26,494 being carried over as undivided profits. In addition to all this, the association carries a reserve fund of $125,000 for any emergency that may arise.

Chester D. Woodbury, who has been the president for the past 16 years, and Myron A. Chapin, who has been secretary and treasurer over 20 years, were re-elected to these offices for the year 1920. Cornelius A. Gower, Judge Edward Cahill, Arthur C. Stebbins and Clark C. Wood, general counsel, make up the balance of the board of directors.

HELP ASKED IN SEARCH FOR MISSING BETHEL LAD

Deputy Sheriff John B. Smith has been asked to aid in the search for Tabor Jenson, who disappeared from Bethel, Mich., August 21, 1919, and has not been seen since. The lad, who is 15 years of age, is believed to be located on a farm in Southern Michigan.

The notice received by Deputy Sheriff Smith, in which he and the people of this vicinity are asked to help locate the boy, offers a $25 reward for information regarding the whereabouts of the missing youth. Tabor Jenson is described as being 15 years old, light complexion, light brown hair, rather slim in build and of average height for a boy of his age. He disappeared from the home of Art Card, at Bethel, Mich., August 21, 1919, being bareheaded at the time and was dressed only in overalls and shirt. The sheriff and school commissioner of Branch county believe he is making his home on some farm in Southern Michigan. There had been some talk of foul play after the youth disappeared, but it is the opinion of the officers the lad is working on a farm because of his interest in stock and his desire to work a team.

It is not the intention of the Branch county officers to return the boy to his home or to take him in charge, but if he is located they say they can put him in touch with his mother and brothers.

Anyone having any information of value is requested to communicate with L. L. Livermore, commissioner of schools, or H. S. Kaiser, sheriff of Branch county.

BRADLEY OPERA HOUSE ATTRACTIONS

In spite of the very cold and inclement weather on both Saturday and Sunday nights, nearly capacity houses were in attendance at the Bradley. "His Majesty, the American," billed as Douglas Fairbanks' best picture, was on view Saturday evening and although this same attraction was at the Bradley for a matinee and night Thanksgiving day and Saturday's showing was a second engagement here, still all during the evening standing room was at a premium and when you consider the capacity of the Bradley one can easily see that Douglas Fairbanks has many followers in Tecumseh and vicinity.

Sunday evening Anita Stewart in the big six-act production, "A Midnight Romance," was the main feature, and this dainty star gave an excellent account of herself in the charming comedy-drama. Some wonderful stage settings, effective photography and an excellent cast and costumes all helped to make "A Midnight Romance" one of the better offerings at the Bradley.

"The Romance of Tarzan" Saturday.

Next Saturday, Feb. 21, "The Romance of Tarzan" will be presented at the Bradley. Hundreds of Tecumseh people who saw the wonder picture, "Tarzan of the Apes," presented here a few weeks ago, will have some idea of what is in store for them in this new offering by the same author, Edgar Rice Burroughs, but it is claimed that "The Romance of Tarzan" far outshines the former offering with its thrilling story of novelty and romance, its marvelous contrasts between savage and aristocratic grandeur, its mammoth jungle scenes, a menagerie of wild beasts, including a whole troupe of wild apes, lions, tigers, leopards, crocodiles, an African elephant of mammoth size, palatial settings for Tarzan's thundering lunge into society's midst—thrilling fights and astounding displays of jungle born strength.

"The Romance of Tarzan" is really one of the big super-pictures you have been waiting to see and one of the bigger and better pictures which the management of the Bradley is booking for his patrons, and, by the way, the two new picture projectors which were installed at the Bradley a few weeks ago are giving an excellent account of themselves. They make the viewing of the pictures there one hundred per cent better, as there is no intermission during the changing of reels and the pictures are given without a stop from start to finish.

The usual big comedy will complete Saturday's big bill.

Constance Talmadge Sunday.

On Sunday evening, Feb. 22, Constance Talmadge, the girl with the personality, will be seen at the Bradley in one of her best comedy pictures, "Happiness A La Mode," which is all that the name implies. Miss Talmadge is well known in Tecumseh for care-free and entertaining acting for which all of her pictures are noted, and in "Happiness A La Mode" she is said to be exceptionally good, which assures you of a big evening's entertainment next Sunday night. The usual added attractions and special orchestra balance up the Sundy program.

Carrying a Ton a Mile for less than a Cent

Freight rates have played a very small part in the rising cost of living.

Other causes—the waste of war, under-production, credit inflation—have added *dollars* to the cost of the necessities of life, while freight charges have added only *cents.*

The average charge for hauling a ton of freight a mile is less than a cent.

A suit of clothing that sold for $30 before the war was carried 2,265 miles by rail from Chicago to Los Angeles for 16½ cents.

Now the freight charge is 22 cents and the suit sells for $50.

The cost of the suit has increased *20 dollars.*

The freight on it has increased only *5½ cents.*

Other transportation charges enter into the cost of the finished article—carrying the wool to the mills and the cloth to the tailors—but these other charges amount to but a few cents more.

The $10 pair of shoes that used to sell for $5 goes from the New England factory to the Florida dealer for a freight charge of 5⅔ cents—only one cent more than the pre-war rate.

Beef pays only two-thirds of a cent a pound freight from Chicago to New York.

American freight rates are the lowest in the world

William Smith Expires Very Suddenly—Was Severely Wounded While Serving His Country—Well Known in City.

William "Comrade" Smith died suddenly Thursday evening of heart trouble. For many months M.r Smith had been in failing health, but had been able to walk down town and work about his home, caring for his poultry, etc. Even that evening he had been to the barn doing the chores. Not feeling well, he retired immediately after supper. His wife sat by his bed reading to him when she noticed he did not speak, and, looking up to see what was the matter, found he had quietly passed into the long sleep.

The funeral was held Sunday afternoon. A short service at the home being conducted by his comrades of the G. A. R. Rev. C. M. Thompson gave the address at the M. E. church later, using the text, "I am ready to be offered up," which some time before Mr. Smith had asked to have used for this occasion. Mrs. William Waldron and Arthur Harding sang several favorite songs of the deceased. To men of the American Legion was given the honor of being bearers, also at Mr. Smith's request. They were Leon McLachlin, Harold Halladay, George Witherell, Percy Bowen, Frank Miller and H. H. Hanna, jr.

William Smith was born in Nottingly, Yorkshire, England, 75 years ago. When 6 years of age he came to America with his parents, Mr. and Mrs. Isaac Smith, and the other five children. For 16 long weeks the little family were on the Atlantic in a sailing vessel, buffeted by storms. They settled in Franklin township.

Mr. Smith was in the Civil war, suffering the half century since from wounds received in action. He was with a squad left to guard a bridge during Sherman's march to the sea, when they were captured by a company of rebels ten times their number. Mr. Smith during the melee was shot in the shoulder, but with the others was thrown into Andersonville prison. There the wound received no care, gangrene set in and by the time the prisoners were exchanged some five months later the shoulder was in frightful condition.

In 1876 he married Miss Elizabeth Dobson, and to them two children were born, Mabel, now the wife of R. V. Wilson of this village, and Alfred, who has lived for some 14 years in Saskatchewan, Canada. Thirty-five years ago the family moved to the city, which had since been Mr. Smith's home. The wife died in July, 1887, and in October, 1888, he married Mrs. Annie Bryant, who survives him.

The Methodist church has been the greatest interest in Mr. Smith's life outside of his home and family. Seldom was he absent from a service, never if he was able to reach the church. He had held many offices in the church, having been treasurer of the organization several years. He was also a member of Beers post, G. A. R., where he had been chaplain for 12 years. That his comrades highly esteemed him was evidenced by their splendid attendance at his funeral in spite the city, having sold his vegetables,

Mr. Smith was well known over the city, having sol his vegetables, fruit, eggs, etc., in nearly every home. Always courteous and honest to a fault, he was highly respected, but it is in his home, the church and Post rooms he will be missed most sincerely. As Rev. Thompson put it Sunday: "Who can take his place?"

BRITTON DEPARTMENT

Obituary.

John H. Zeluff, a much respected and life-long resident of this vicinity, a son of the late David and Louisa Zeluff, was born in Monroe county, Mich., Sept. 12, 1843, and died Feb. 10, 1920, aged 76 years, 4 months and 29 days, death being due to paralysis with which he was stricken the Thursday before his death.

In 1867 he was married to Miss Eliza Pocklington, and to this union were born six children—Eugene Zeluff of Toledo; Mrs. Serene Gibson, Cass D. Zeluff, Frank Zeluff, Mrs. Flora Exelby and Linas Zeluff of Springfield, Ohio. The son, Frank, died in 1906, the others, with the mother, two sisters, Mrs. F. C. Pocklington and Mrs. Jas. Cole, of Colorado, eight grandchildren and one great-grandchild, are living and mourn the loss of father, husband and brother.

Mr. Zeluff was a staunch Democrat and at various times he held offices of trust in the township. He was an endowment member of the K. O. T. M. lodge, joining in 1903, and has taken active interest in that society during these many years of affiliation with it.

The departure of Mr. Zeluff was made increasingly sad by the illness of the son, Linas, it being impossible for him to be present with his loved ones in this hour of sorrow.

The funeral services were held Thursday morning at the home, Rev. J. C. DeRemer officiating. The remains were laid to rest in Ridgeway cemetery. The pallbearers were Maccabees: O. B. Lenardson, W. B. Swick, B. J. Beasley, A. W. Lee and A. J. and J. L. Underwood. Those from away attending the funeral were Eugene Zeluff of Toledo, Mr. and Mrs. Fred Sloman of Monroe, Wm. Pocklington of Detroit and Frank Rolison of Dundee.

Mrs. Sarah Winsley Passes Away.

Twice within the past week death has invaded our town and taken two of our elderly residents, the last time it claiming for its victim Mrs. Sarah Covell Winsley, widow of the late J. R. Winsley. The lady was 76 years old, and lived alone in her home in the east part of town. Her son, G. W. Winsley, of Adrian had been here Sunday for the day and found her in her usual health. He tried to get her to go home with him but she replied: "No, I am all right." The next morning neighbors, seeing no stir about the place, went to investigate and after forcing their way in found her lifeless body cold and still in death with her hands clasped across her breast, she evidently having "passed over" while asleep. Dr. A. R. Lusty was called and pronounced her death as due to heart failure. Relatives were notified and the funeral arrangements were made, the hour being 10 a. m. Wednesday.

She is survived by her two sons, James and Will Winsley, eight grandchildren and four great-grandchildren.

BOXING BOUTS TO BE STAGED IN TECUMSEH

(Continued from Page One.)

ten rounds and the boxers will weigh 130 pounds. Frankie Winters of Pittsburg and Bobbie Armstrong of Jackson will mix it for eight rounds, they being in the 120-pound class. There will be some preliminaries by local boxers. That the matches will be strictly according to the rules is assured by the fact that Jimmie Devers of Jackson, known to all boxing enthusiasts in the state as one of the best, will be the referee. As an advisory committee for its series of athletic contests the local post of the American Legion has named the following business men: W. F. Fisher, Wade Jones, Herbert S. Temple, George A. Rathbun, Gordon Bailey, Ed Harkness and Wilson Aldrich.

Boxing having been revived at the training camps during the war and approved by the government authorities, Michigan went on record in 1919 as encouraging this sport, when properly supervised, and passed a law which controls sparring, boxing and wrestling exhibitions in this state. This law created the Michigan State Athletic Board of Control which regulates and supervises all boxing, sparring and wrestling matches in this state, having the whip hand in such cases by virtue of a license system which is a part of the law. Ten per cent of the receipts of sales of tickets for such athletic exhibitions are collected by the state, and all moneys taken in excess of the expenses of the board of control are turned into the state public school fund.

Persons, clubs, corporations or associations desiring to hold boxing matches must first secure a license from the board of control, fees being collected according to the size of the town or city in which the contests are to be held. Sparring and boxing matches are limited to ten rounds, and contestants must wear gloves weighing at least six ounces.

Contestants in matches of this kind must be examined by a reputable physician not longer than two hours before the bout.

To guard against fake contests the law prescribes severe penalties for those found guilty of engaging in such practices. Control over contestants is secured through a registration system and if found guilty of violating the law a boxer or wrestler may be deprived of his license which makes it illegal for him to further engage in his favorite sport until he is reinstated by the state board of control.

Twenty-four hours after the termination of a bout the promoters must file a written report of the affair with the athletic board of control, showing the number of tickets sold and the gross receipts therefrom, and at the same time pay to the board a tax of 10 per cent of its gross receipts. Before a club, corporation or like organization can legally hold a bout it must file with the board a bond in the sum of $2,000, and when this bond has been approved the board may issue a license to the applicant.

No smoking is permitted in the place where such an athletic contest is to be held. The law also forbids gambling in connection with the matches.

Even the referee at these bouts must previously have been registered with the board and must pay a fee for the privilege of officiating.

Contestants in the main boxing or wrestling matches are also required to register with the board, and no one can participate in a bout unless he has a registration card.

With the rules and regulations governing contests so stringent it is the belief of those interested in a revival of boxing and wrestling that the game will be kept free from the taint that brought this sort of ahletic events to such a low level in the past.

It is the plan of the Tecumseh American Legion to conduct its bouts in such a clean and orderly manner that women will not feel at all out of place at the exhibitions. In fact the wives of several business and professional men expressed a desire to attend as soon as they learned bouts were to be staged in this city.

OBITUARY

Mrs. D. T. Hall.

Eunice Davidson, only daughter of Minor and Katherine Davidson, was born in Ridgeway at their home on the Ridge Road Sept. 1, 1857, and died at her home on Pottawatamie street in Tecumseh February 12, 1920. They resided at Ridgeway until she was 6 years old and then moved to the old homestead east of Tecumseh, where she spent the most of her life, only recently moving to Tecumseh. She graduated from the Tecumseh high school in the class of '77 and afterwards took a college course at Chautauqua, N. Y. Last June she was elected president of the Tecumseh Alumni association.

She was united in marriage to Daniel T. Hall January 13, 1892, and is survived by the husband and two children, Mrs. Clara Beland of Tecumseh, and Russell of Adrian. Donald, the youngest son, died two weeks ago. She also leaves her aged father, Minor Davidson, and two step-sons, Oscar of Tecumseh and Fred of Fairfield, and five grandchildren, besides a host of neighbors and friends.

Mrs. Hall was an active member of the Methodist church, where she taught a Sunday school class for many years. At the time of her death she was an attendant of the Baptist church and a member of the Ever Ready class in Sunday school. She had always been interested in Grange work and gave freely of her time and strength, at one time being master of the Tecumseh Grange for two years. She was also a member of the Holloway Maccabee lodge.

Mrs. Hall was a very devoted and faithful wife and mother and will be greatly missed in the home circle.

A precious one from us is gone; a voice we loved is stilled; a place is vacant in our home, which never can be filled. God in His wisdom has recalled the boon His love had given, and though the body slumbers here, the soul is safe in heaven.

Card of Thanks.

We wish to thank the many friends and neighors who were so kind to us in our recent sorrow and bereavement.

"FARMER" MOORE, KNOWN HERE, PASSES AWAY

Ben Moore, known here as "Farmer" Moore, with some reputation a few years ago as a wrestler, giving several exhibitions in Tecumseh, died in Willard, Ohio, last week. He left three little orphan daughters, the wife having died last October. Both were victims of tuberculosis.

Mr. and Mrs. Wm. Barnes, parents of Mrs. Moore, went to Willard for the funeral, which was held last Friday. They brought one of the little girls to their home here to reside, Mr. Moore's people caring for the other two. Although Mr. and Mrs. Barnes have some half dozen of their large family still at home, the frail little grandchild is welcomed heartily and is happy in her new home.

Foley's Honey and Tar is the best known and most successful family cough medicine on the market and the following letter is positively true and genuine:

Says "It Acts Like Magic"

Gilbert Fleming, 3911 Budlong Av., Los Angeles, Cal., writes: "I have much pleasure in testifying to the very great benefit my family and I have derived from the use of Foley's Honey and Tar. It positively acts like magic, and to my mind there is nothing on the market that can compare with it. Whenever there are any of our household suffering from heavy colds or bad coughs or hoarseness, we at once get a bottle from our local drug store, and after one or two doses obtain instant relief. Your company deserves great credit for such a valuable production and from our own experience we cannot do otherwise but recommend it to our friends and this we willingly do and will continue to do so."

Notice to Users of Ginger Ale

While in Detroit last Monday I had the pleasure of going through the Vernor's Ginger Ale factory from top to cellar. Now, what I wish to say to users of Vernor's Ginger Ale is this: That when you are drinking Vernor's you will know that you are drinking as pure a drink as can be made. The water that goes into Vernor's goes through five different processes of purifying, the last two times by electricity and freezing. The electrical process takes out anything that may be left from the other purifying processes. Everything is done by the latest kind of machinery—SANITARY is the one big word in the factory. The bottle washing machine is a sight to see in itself. I came away satisfied that Vernor's was one clean and pure drink. I handle Vernor's in the 10c size bottles, delivered to your house in half or dozen lots. Call 142 for a trial of Vernor's.

"IRON HORSE" ATTRACTS GREAT DEAL INTEREST

A demonstration which was viewed with much interest was made on the business streets by L. E. Temple & Co Saturday afternoon. A Samson model M tratctor, a Samson "Iron Horse" and a Samson one-ton truck were the machines used in the demonstration. It was the "Iron Horse" which attracted the most attention as this is an unique device. It is a traction machine controlled by reins like a team of horses, and in fact is a substitute for these animals. The local agents assert it will do anything anywhere that two or even three horses will accomplish. A number of farmers watched its maneuvers with deep interest.

TO TURN SPOTLIGHT ON SOCIALISTS' CREED

(Continued from Page One)

was the theme and this menace was portrayed in its true light, Rev. Rex effectively emphasizing the more important portions of the arraignment of the leaders of this destructive element and pointed out the peril which confronts this country if this evil is not eradicated. "How Bolshe[illegible]ained Russia and How it [illegible] Ruin Wherever Tried" was the subject. The attendance was large considering the inclemency of the weather.

There have been some requests that the discourse on bolshevism be repeated some time in the near future and if the demand is strong enough it will again be given in April.

The meeting opened with a song service led by Rev. W. R. Curtis. The pastor of the Baptist church also read the scripture lesson and Rev. C. M. Thompson of the Methodist church offered prayer. Mrs. E. C. Heilman delighted with a vocal solo, "Come Unto Me."

The announcements were then made and it was made known the community service next Sunday would be at the same church, when the sixth in the series of lectures would be given. Rev. Thompson informed his hearers an all day missionary meeting would be held at the Methodist church Friday, with Rev. Hildreth, a returned missionary, as the special speaker for the service in the evening. He also announced March would be a great evangelistic month. Ash Wednesday will be specially observed, with the hour of 1 o'clock in the afternoon set aside as a time for prayer, when all are to cease their activities long enough to offer prayer and praise to God.

At the close of the service Rev. Rex pronounced the benediction.

In part the lecture was as follows:

"The whole human race suffered [illegible] immeasurable calamity when the bolsheviki overthrew the young Russian republic. It is now well known that the constitution that was being prepared was practically a replica of the American constitution. The Russian republic was to be a representative government. Midst the confusion incident to the overthrow of the czar the delay in preparing for the first election, the reds had their chance. While the sober, serious men of Russia were sowing the good seed of liberty by day enemies at night went forth to sow tares.

"From one viewpoint the bolsheviki can be understood. Long before a handful of Russian autocrats had organized pogroms against Russian Hebrews. The outrages committed upon Hebrews in cities like Kiev, Russia, 20 years before, outraged the whole civilized world. Fleeing from Russia, these refugees reached New York. Remembering the crimes committed upon their fathers, certain exiles here swore undying hatred of Russia. That hour struck in February of 1917.

"Breaking with the religion of his fathers, Brunstein, the Russian Jew, took the name of Leon Trotzky and became an apostate to the teachings of his Hebrew fathers. He surrounded himself with 450 other apostates. A certain powerful influence in Washington secured passports for these reds against the protest of the governments of England and France.

"The official statement of the bolshevist government shows that bolshevism is non-Russian and non-national. Members of the government include two negroes, 13 Russians, 15 Chinamen, one Englishman, 22 Armenians, 68 Russian Hebrews and 264 Hebrews from the Bowery district of New York. Now the men who know most about it tell us that bolshevism is Karl Marx's theory of state socialism, enthroned by killing off all who favored private ownership of property. Arresting all men who held title deeds, farms and factories, stores and banks, Trotzky stood them up against the wall and shot them. Bolshevism was launched by a proclamation abolishing all private property. Later came a proclamation denying the right of suffrage to any man of any class or profession who concealed his property from the bolshevist leaders. Trotzky began by locating his friends, whom he had brought with him from New York, in all the official positions in the various Russian provinces.

"Murderous bolshevists are quite unafraid for the simple reason that there is an ex-Bowery friend in charge of the police, an ex-Bowery friend serving as sheriff and another ex-Bowery friend holds the office of judge to clear them of any charge. For nearly a year the bolshevists shot per month about 100,000 industrious and worthy citizens of Russia who had put the savings of a life time into the home, shop or farm as a safeguard against old age. The bolshevist regime began with an era of looting, when all the upper and middle classes fled in every direction for their lives.

"What has bolshevism done for Russia? Bolshevism found Petrograd a city of 2,000,000 and in two years the capital has only 400,000. It found Moscow a city as large as Chicago, and leaves it a secondary town, with the people in rags and untold thousands starving to death. Bolshevism has put out the fires in practically all the factories of Russia, blighted all trade and commerce and burned the churches. It has destroyed the credit of Russia through billions of rag money.

"Owning one-sixth of the earth's surface, with 90 per cent of the world's platinum, her most valuable metal, and 60 per cent of the world's forests, with gold mines that have yielded $300,000,000 of treasure within a score of years, with rich cotton lands, with wheat fields that could raise bread for 500,000,000 people, Russia is a bankrupt country, her money worth five cents on the dollar, her people starving in the midst of wheat fields, freezing in the midst of vast forests, ragged midst herds of sheep and a land of cotton, broken-hearted, wretched and bitter, but helpless. The bolsheviki have secured possession of all the weapons and the Russians have only their naked hands. Trotzky's experiment has horrified the world. He told the Russians that by killing the capitalists there would be treausre enough left for everybody to live in luxury, without a stroke of work, for the next ten years. In this country back of every strike stands a group of lying bolsheviks telling the people that revolution will transfer the wealth of the rich into the hands of the workers and that henceforth they can live in luxury, wear silks, ride in automobiles, feast on dainties, without doing a stroke of work for years to come. The bolsheviks have been false guides.

"But if everything else about bolshevism were good, its nationalization of the women has doomed it forever. That proclamation of the soviet posted on the door of the city hall of Sutow, directing that 60 girls and young women be registered for the use of the military and the "reds" in a town of only 10,000 people, convinced even the most stupid. There is one thing that civilized men will not stand for, namely the nationalization of the wife, the sweetheart or the daughter.

"The American people, therefore, have set themselves against these aliens who believe in bombshells, firebrand and pistol. The only instruments the republic will consent to use are those based upon intelligence, industry, obedience to law and sound morals. The United States is like a family, feasting in a great banquet hall, in a warm room, on Christmas night, while Russia, under bolshevism, is like unto travelers, freezing to death under snowdrifts midst a January blizzard. Because we love light rather than darkness, food rather than famine, home more than a poorhouse, heaven more than hell, the people of the United States have decided to destroy bolshevism and to preserve unimpaired the free institutions of this republic."

Corn Pain Stopped Quick

"Gets-It" Loosens Them So They Lift Off in A Jiffy.

The corn pains cease as soon as a few drops of "Gets-It" reach the corn. It goes out of the hurting business forever.

The Space Vacant
Corn Gone
"Gets-It"
Got It

For a day or so the corn remains, getting looser and looser and without a twinge from it. Then, it gets so loose that you just lift it right off, without even feeling it, and cast it away. That's how easily and simply "Gets-It" disposes of the corn nuisance.

"Gets-It," the unfailing, guaranteed, moneyback corn remover, costs but a trifle at any drug store. Mf'd by E. Lawrence & Co., Chicago.

Sold in Tecumseh and recommended as the world's best corn remedy by B. J. Pulver and C. A. Wright & Son.—adv.

Institute Proves Very Instructive

MUCH INSPIRATION GAINED AT FRIDAY SERVICES

New Light Thrown on Missionary Work at All Day Meeting at M. E. Church—Returned Worker Among Speakers.

In the plans of the pastors of this city for their community services was a missionary institute. This service was held Friday afternoon and evening at the Methodist church and proved interesting and inspiring to Methodists, Presbyterians, Baptists and Friends alike.

Mrs. W. R. Curtis of the Baptist church had charge of the afternoon service and made the meeting most interesting. First on the program was a song service led by Rev. Edw. Escolme. After a short address on missionary work by Rev. C. M. Thompson, Mrs. Eugene Billings sang a delightful solo. Rev. W. A. Rex gave a few minutes' talk and Mrs. Andrew Wilson read an excellent paper on "Training for Leadership." In it she lamented the reluctance of people to lead. That so few will consent to take an office in any organization, either church or secular. Especially are we lax in the training of the

Fathers-Sons Feast For Scouts March 4

Commerce Club to be Host to Both Local Troops—Varied Program will be Presented.

A week from tonight the Boy Scouts of this city are to be guests at a complimentary father and son banquet given them by the Tecumseh Commerce club, the feast to be made an occasion that will stand out prominently in the memory of the local boys for a long time. This is the event which was to have been held the evening of January 26 but had to be postponed on account of the influenza epidemic. The banquet will be held in the gymnasium of the high school, beginning at 6:30 sharp.

All the Boy Scouts who are in good standing and any boys who have been attending the Scout meetings or intend to join the organization will be the guests of the Commerce club. The two troops will meet at their respective headquarters and march to the school in a body.

The program following the feast is being so arranged that it will result in entertainment of exceptional merit and those promoting the event promise all who attend an evening of great enjoyment. The men of the city are requested to respond liberally when interviewed as to being a "father" to one of the Scouts for the evening, for each lad is to be the guest of someone interested in him.

Those from this city who will have a part on the program are Rev. W. R. Curtis, C. F. Patterson, Rev. W. A. Rex and H. S. Temple. The out of town speakers will be Robt. H. Darnton of Adrian and Judge A. B. Cohn of Toledo, the latter being a Scout commissioner in the Ohio city. Another feature and one that will be most entertaining will be the presentation of the playlet "Dads" by a number of Boy Scouts from Toledo. This act was given at the father and son banquet for the Boy Scouts in Toledo recently, which was attended by about 40 from this city, and made a decided hit. Stunts will also be staged by the Tecumseh Boy Scouts and in its entirety the program is expected to prove entertaining to a marked degree.

E. Tribou LeBaron Ill Long Time, Dies

Was at One Time a Leading Merchant in Tecumseh—Later Conducted Business in Toledo.

The death of E. Tribou LeBaron occurred Sunday at 10:30 a. m. at his home on West Chicago street, where he had been confined to his bed since November 14, following a sceond stroke of paralysis.

The funeral services were held from the home Tuesday afternoon, Rev. Frederick Hewitt, the former popular rector of St. Peter's Episcopal church and a close personal friend of the deceased, coming from Detroit to officiate.

Acting as bearers were F. B. Wood, Chas. F. Patterson, R. K. Anderson, Chas. A. Bidwell, Lester Rogers and Perry Satterthwaite. Those here from Toledo were Mrs. Ella Norris, her sister, Mrs. R. S. Tappen, the Misses Cooney and Dr. Chas. Whinney, others unable to come sending letters and telegrams. Lester Waring of Detroit was also present.

Edgar Tribou LeBaron was the sixth and youngest child of Judge S. C. and Maria P. LeBaron. He was born in Tecumseh on November 21, 1846. He finished his education in the schools here, and at the age of 19 opened a milliner shop and began business in his home town. Later he moved to Toledo where his brother, D. C. LeBaron, was engaged in the crockery business, then Burnap & LeBaron. Tribou began for himself and his business grew with the city, and at one time he had customers from England, Australia and South America, former Toledo ladies, who valued Mr. LeBaron's business experience very highly. He conducted this business in partnership and alone for 43 years, selling out 6 years ago on account of failing health (caused by his first stroke) to the Misses Cooney, who were his head milliners, and who have conducted the business as "The LeBaron Shop" honoring his name. He was a member of the First Congregational church, an active usher and supporter of the same while residing in Toledo. His friends were of Toledo's best society, in which he moved. While he never married, he had the distinction of being "best man" at more than 50 weddings of Toledo society people, many of whom are still alive and will mourn his demise. Coming to Tecumseh, he took up his church work with the Episcopal church, serving at one time on the vestry and was always a liberal supporter of the same. For two years his nephew and niece, Mr. and Mrs. H. S. Waring, have done all in their power to make his last days comfortable. They, with their two sons, Roger LeBaron Waring of Cleveland, and Lester Robert Waring of Detroit, are the only relatives to survive him.

COMMUNITY SERVICE AT THE M. E. CHURCH SUNDAY

Next Sunday evening the community service will be held at the Methodist church and there are to be several special features which are expected to make the meeting extraordinarily interesting. The pastor, Rev. C. M. Thompson, will be in charge.

It will be a service in keeping with the evangelistic campaign now in progress and is to be made of an inspirational character.

There will be community singing and a report of the interdenominational church conference now in progress in Lansing. Rev. W. R. Curtis of the Baptist church ad Rev. W. A. Rex of the Presbyterian church are in attendance at the sessions in the Capitol City and they will give an account of the impressions gained there at the community service next Sunday night.

A warm invitation is extended to all, it being the aim of the pastors of the co-operating churches to make the evangelistic effort productive of much fruit.

SUNDAY SCHOOL BOARD HAS ENJOYABLE MEETING

Monday evening the Methodist Sunday school board held its February meeting at the church, with forty present. Honoring Washington's birthday, the room was gay with flags and national colors, the great hero's portrait occupying a promiment place. Three long tables were handsomely laid for a bountiful picnic supper. At the plates were favors of hatchets and bunches of cherries.

After supper was served the meeting was called to order by Joseph Eaton and the program opened by instrumental music by Mr. and Mrs. Wilfred Waldron. Rev. C. M. Thompson conducted the devotionals. Mrs. Waldron and Mrs. Edw. Harper gave a piano duet and the company enjoyed an interesting address by Rev. Purdy of Clinton, who took for his theme "The Centenary Work." Mr. and Mrs. Waldron closed the program with more delightful music.

Socialism Shown To be Big Failure

SIXTH OF PATRIOTIC LECTURES WELL ATTENDED

Boy Scouts and Monday Club Present — Next Community Meeting at Methodist Church and Will be Evangelistic Service.

That the will o' the wisp experiment called socialism has not and never will prove successful was deeply impressed on those in attendance at the community service at the Presbyterian church Sunday evening. This lesson in applied civics was taught through the sixth of the series of lectures on "A Better America," the subject being "Is Socialism the Perpetual Motion Machine Delusion Converted Into Economics?" Rev. W. R. Curtis, pastor of the Baptist church, forcefully interpreted the lecture and the attendance was large.

There are four more numbers in the series of patriotic lectures but they will not be presented until after Lent. The community meeting next Sunday evening will be at the Methodist church and will be an evangelistic service. There will be community singing and Revs. Rex and Curtis, who are attending an interdenominational

Local Bouts to be Fast and Classy

Principals in Monday Night's Boxing Matches Men Who Have Made Fine Records—Much Interest Shown.

Latest Regarding Boxing Match.

"Detroit, Mich., Feb. 25.—Eddie Franklin of Hagewish knocked out Dick Russell in the eighth round of a scheduled ten-round bout here tonight and has been signed to replace Russell at Tecumseh on Monday, March 1. This is Franklin's fourth knockout scored within three weeks."

This message was received over the Western Union wires by The Herald this morning and brings the news that one of the principals in the main go of the American Legion fight card at the Bradley opera house the evening of March 1 will be a boxer substituted for one of those announced to be here. Dick Russell of Detroit was to meet "Texas Kid" of Jackson in the feature bout, but Eddie Franklin will be the prison city man's opponent. Russell bested Franklin at Saginaw recently but has now been humbled by the Hagewish lad. Those in charge of the local matches were notified this morning that Russell's hand was injured in the fight last night and he would be unable to appear here as a result. Franklin is expected to be the best substitute who could have been procured.

The big bout Monday evening will be for ten rounds, the participants to weight in at 130 pounds. An eight-round bout is to be staged by Bobby Armstrong of Jackson and Frankie Winters of Pittsburg. Their weight is 120 pounds. Preliminaries will be participated in by local talent or boxers from this vicinity. No less a person than Jimmie Dever of Jackson, especially well known and exceptionally qualified to be the third person in the squared circle, will referee.

"Texas Kid" has given a good account of himself in all his fights. He is especially fast and takes hard wallops as though he likes them and has won consistently against some of the speediest and craftiest battlers in his class. His backers give assurance his opponent from Detroit will meet with a surprise when they face each other here. "Texas Kid" is scheduled to go up against Sailor Butler in Jackson March 13.

Winters has been so successful that he considers it a foregone conclusion when he enters the ring that his opponent will be humbled before the match is over. When he is slammed into by Armstrong in the match here it is predicted by the friends of the lad from Jackson that the Pittsburg youth will "get his." Armstrong fought ten rounds to a draw against Bobbie Brinkley of Cleveland in Jackson Monday night, the bout being as clean and pleasing a go as has been seen in that city in a long time.

Local fight enthusiasts look forward to the Monday night matches with pleasurable anticipation and expect contests that will place this city to the fore in boxing circles. Women are invited to attend, the last four rows of seats being reserved for them.

MORENCI TEAMS MEET TECUMSEH HERE FRIDAY

As the Hillsdale college A. T. O.s cancelled their date here Friday night with the Tecumseh high school basket ball team, it has been arranged to have Morenci high here, the boys and girls from that place to encounter the two local teams. Lively contests are looked for.

On last Friday night before a very large attendance Tecumseh high school won and lost. The local girls' team administered as crushing a defeat to the Adrian lassies as the home town boys got from the visiting lads. In the girls' game the score was 42 to 4, and in the boys' 58 to 10.

The local girls again were strong on teamwork, each member making the most of every advantage and yet all co-operating in such a consistent way that they were never in danger of defeat. The two forwards, Helen McIntyre and Cecil Clark, seldom missed a basket and it was practically impossible for the Adrian guards to get the ball to their forwards, as Tecumseh's center, Frances Alderdyce, seemed to be everywhere at the same time. The victors were all highly complimented as they all seemed to star in their respective positions.

Being taller and considerable heavier than the Tecumseh boys, the Adrian players outclassed the locals and being more experienced, had no difficulty in trouncing their opponents. The home lads fought gamely every minute but the county seaters were too speedy. The Tecumseh team was considerably weakened as Capt. Hanham was confined to his bed by sickness and Lawrence Harrington, forward, got out of his sick bed just in time to get into the game, though far from strong. Bassett and Brower, forwards on the visiting team, were so fast they were hard to hold and made a brilliant showing.

DEATH TERMINATES LONG ILLNESS OF E. E. HANHAM

Earl E. Hanham, son of Mr. and Mrs. William Hanham, passed away Sunday night at Camp Sevier, Greenville, S. C., where he had been ill with tubercolusis since last August. Owing to the illness of his brother, Emery, none of his people have been able to visit the suffering young man since he went to Camp Sevier except one sister, Mrs. H. C. Howard, of Ypsilanti and it was to her the sad intelligence came.

Earl was 29 years and two days old. He went to France with the 85th division being attached to the 310th Trench Mortar Battery. After eight months' service "over there" he was discharged last March. He visited his parents and brothers here and later resumed his work in the Ford factory, which he had laid aside at the call for service. He only worked a short time when the dread disease overcame him and he went to the southern camp for treatment.

He leaves besides the parents, three sisters and four brothers: Mrs. Howard of Ypsilanti, Mrs. Roy Alderdyce of Jackson, Mrs. Alfred [illegible] of Detroit, Andrew Hanham of Portland, Ore., Roy of Jackson and Homer and Emery at home.

~~Add Hanham Death~~

The remains arrived from the south yesterday morning, being accompanied from Toledo by Mr. Stamich, a former Camp Sevier soldier, who was a close friend of Earl and who had promised to do this service should it be necessary.

A private funeral is to be held from the home this afternoon, Rev. C. M. Thompson officiating. As the deceased was a member of the Ypsilanti Masonic lodge, the burial service of that order is to be given at the grave. The bearers are to be American Legion men.

Record Number of Breeding Sows

Even greater than the record number of breeding sows on farms in the United States a year ago, the number on April 1 last year reached the unprecedented total of 9,970,000, according to the bureau of crop estimates, United States department of agriculture. While the average gain for the whole country over the previous year was only 0.3 per cent, there were gains greater than this in most of the states and as high as 8 per cent in California. Diminished numbers in the great swine states of Iowa, Missouri, Nebraska, Louisiana and Oklahoma are sufficient to leave barely a gain to the United States as a whole.

Under the pressure of the necessities of the war the breeding sows on farms April 1, 1918, had been raised 9.5 per cent over 1917, a remarkable evidence of the expansive power of swine numbers in practical farming operations; and that this extraordinary increase in one year should have been held the next year, and even a little exceeded, is a notable fact in swine history.

Something is needed to make to world safe for consumers.

Editorial Comment

Apropos to the close proximity of municipal election there comes to mind a number of important matters that the councilmen will have to attend to. First, we call attention to the problem of street oiling. Road oil, we are informed, is higher than last year, with prospects of further price advancement, and oil should be ordered soon for economy's sake. Then the manner of oiling should be decided upon. The questions arise shall we oil the entire city and have a sanitary, dustless town, or shall we proceed as last year and await petitions and oil only those streets, petitioned for.

As the city now possesses a proper oiling wagon, or machine, the most satisfactory way in the end would be to oil the entire city. While the money outlay would be greater, the saving effected from road repair would soon make up the cost, not mentioning the saving of health and life due to infection through germs carried in the dust.

If the work this year is to be done piece-meal as petitions are presented the council, this method should be governed by ordinance so that a majority petition will be recognized. The village should buy the oil and the property owners be assessed the cost. In this case it would be advisable for the city to assume the cost of the work. If the method of oiling the entire city is adopted, the expense would be assessed in the taxes. It is an important question for Tecumseh this year, for the automobile traffic through here is bound to be heavier than ever. Oil will protect the people every day from dust and will also protect the surface of the road, thus eliminating much repair work. Oiling ordinances were considered last year, but the adoption was left over to a later date.

Another important question the council must solve is the manner of paving the business district when the new state highway is built through our city. Tecumseh is indeed fortunate in having this highway come through her main thoroughfare, giving the opportunity to procure a pavement upon such advantageous terms. The residence district is automatically cared for unless property holders wish the pavement extended from curb to curb. Should such a decision be reached Tecumseh's Chicago street would be one of the finest thoroughfares any city of the same size could boast. But how will the village dads proceed with extra pavement through the business district? The state highway department will build the center twenty feet on a basis of 75 and 25 per cent, but the balance of the street will be up to the city to look after. Will the council order the improvement according to ordinance and assess the abutting property 70 per cent of the cost as provided, or will it be considered a public improvement and arrangements made to pay for same by the city at large? The pavement may well be classed as a public improvement for it will be a convenience to every person that comes to town to shop, especially those who come in conveyances.

Another question that has arisen is how shall the sides of the road be finished? Shall it be a continuation of the same material the state department sees fit to use, or would it be wiser to finish the road with gravel surfaced with tarvia? Undoubtedly pavement is the most permanent, but the other proposition is also one that it is well to consider.

The hope has often been expressed that the state highway department leave the road through Tecumseh township until both the east and west extensions are finished, because in our township the road is good and the improvement is more needed beyond our boundaries.

These and other important matters will come up before our board and it is not at all too early to give them some thought.

The housing proposition in Tecumseh is becoming more serious as spring approaches. Houses to rent there are none and people who desire to reside in the "biggest little town on earth" are compelled to buy. The influx of our farmer friends has been greater this year than heretofore, and this is one reason for the scarcity of tenant houses. However, Tecumseh is not alone in this predicament—about every town of any consequence is having the same experience. It is advocated in some places to rebuild old houses and if possible convert them into double homes to help take care of the situation. Tecumseh has a number of places that could be so converted.

If you are qualified to be an elector, either male or female, have the welfare of the city at heart and if not alrtady registered, remember your last opportunity is Saturday of this week. Attend to your registration, for even if there is only one ticket to be voted upon, and you are not satisfied with all the candidates thereon, you have the privilege of erasing the name of any candidate and replacing it with another. See W. L. Coller by Saturday night and have your name registered as an elector.

As the evening of March 4th has been decided upon as the time for the father and son banquet (postponed on account of the influenza epidemic a few weeks ago) it is to be hoped that every parent will participate in the event. Men who have no sons are also needed to father the boy who will not be accompanied by his dad. Let the banquet be a big success and thus help encourage the Boy Scout movement.

LOCAL LAUNDRY TERMED ONE OF BEST IN STATE

As the result of improvements just completed at the Tecumseh steam laundry, Lester Rogers has increased the capacity of his plant 25 per cent and its efficiency 50 per cent, and has been informed by representatives of laundry supply houses that his place of business is the best equipped and most sanitary to be found in any city of this size in the state.

Mr. Rogers recently installed a second washing machine which does almost as much work as the one already in use. This made necessary more hot water and the old heater was taken out and a new one installed. This is about three times as large as the one discarded and will heat 320 gallons of water every hour to from 50 to 180 degrees. Not long ago he added a two-horsepower electric motor to the equipment, this being used to operate the wringer. The force of employees was increased by three during the past few months.

It was nine years ago that the present owner acquired the Tecumseh steam laundry and right from the start the business began to grow. It has been necessary to enlarge the plant and more equipment has been added from time to time since Mr. Rogers became the owner. In 1916 he bought out the laundry in Clinton and finding the equipment there of little use he junked it, closed up the plant there and since then has been doing all the work from that place in the Tecumseh laundry. He maintains an agency in Clinton through which the work from that city is handled. Mr. Rogers also gets much work from other nearby towns and some from cities as far away as Detroit and Battle Creek, messages usually accompanying these bundles saying that on a visit to this city the owner had work done here and was so well satisfied that he was sending his linen here again.

As Mr. Rogers personally does the work in some of the departments and critically supervises that of his employes, this may explain the gratifying growth of the business.

Camphor and Witchhazel Help Weak Eyes

Tecumseh people are astonished at the quick results produced by simple witchhazel, camphor, hydrastis, etc., as mixed in Lavoptik eye wash. In one case of weak and nearsighted eyes a few days' use brought great improvement. In another case it stopped eye pains and inflammation. We guarantee a small bottle of Lavoptik to help ANY CASE weak, strained or inflamed eyes. Aluminum eye cup FREE. B. J. Pulver, druggist.—adv. 3.

ATTENDANCE IS LARGE AT K. OF P. ROLL CALL

There was a large attendance at the anniversary and roll call meeting of Tecumseh lodge, No. 199, Knights of Pythis, last Thursday evening, and the session proved one of the most pleasurable held by this organization in a long time. Nearly 100 members replied "present" during roll call.

The meeting opened with a short business session. Two pages were then proven in the rank of esquire, the work being exemplified in an impressive manner. Roll call was next in order and it was gratifying to the officers that so many knights were in attendance. R. F. Bryan of Jackson and A. F. Davis of Britton each sent letters expressing their regret that they would be unable to respond to roll call, the communications being read when their names were called.

Lunch was served following the lodge meeting, roast beef sandwiches being one of the features on the bill of fare. The evening closed with a smoker.

PRESBYTERIAN SUNDAY SCHOOL HAS UNIQUE "STUNT" PARTY

The Presbyterian Sunday school enjoyed their annual Washington's birthday party at the church Monday evening when over 100 attended. In keeping with the occasion the parlors and church "gym" were decorated in flags with a large picture of Washington in the foreground. The program was largely made up of stunts furnished by the different classes. This was announced by John T. Boyce, the school superintendent, after a 15 minute song service. Following is the program:

Vocal solo, "When the Flag Goes By"—Mrs. Eugene Billings, representing Miss Kyle's class.

Song—Primary department.

Recitation—Jane Gillen.

Men's class as district school, with Rev. W. A. Rex as the "Hoosier Schoolmaster." He was garbed in cap and gown for the part and the way the class answered the questions in geography was the wonder of the audience. The scholars were Dicky Moiles, Johnnie Smith, Hoytie Whelan, Jimmy Lowry, Johnnie Boyce, Sammie Boyce, Paulie Bowen, Willie Henry and Johnnie Wyrill.

Vocal duet—Misses Mildred Haines and Clara Wilson for Mrs. S. W. Boyce's class.

Piano solo—Maxine Wyrill.

Reading "How the Nation Was Saved by a Jackknife"—Miss Alice Wimple for Mrs. F. D. Rector's class.

"The Tri-Mu Boys," Miss Mildred Boyce's class, gave some really good acrobatic stunts on the mat.

Dale Bowen, of Mrs. Paul Bowen's class, gave a trombone solo and the program closed with a song, "Shall We Gather at the River?" by the company.

Later ice cream, cookies and wafers were served.

MONDAY CLUB SESSION UNUSUALLY ENGROSSING

Could all the Monday club members have appreciated the treats in store for them at their meeting this week, the room would not have held the crowd. The program was varied and, the papers and addresses exceedingly fine.

Mrs. R. M. Moiles was leader and announced first a paper by Mrs. C. H. Williamson on "New Educational Ideas." Mrs. Williamson, with all the advantages of education in colleges here and over seas, did not forget the splendid new courses added to the curriculum of the local high school.

"The Manufacture and Design of Rugs" was Mrs. Leon Rosacrans' theme and she told of the beauties of the oriental, Wiltons, Axminster and the rest, the wearing qualities and how to distinguish between the genuine and "fakes."

Next O. W. Laidlaw, the agriculture teacher at the high school, addressed the ladies, with his work at the school and agricultural classes in general his subject. He gave the history of this science, how Michigan was among the first states to avail itself of the federal appropriation, which is equalled dollar for dollar by the school. This year in the state agriculture is taught in 56 schools and next year the number will reach 65. Tecumseh will claim about $800 of the federal money next year.

He gave an outline of the work by grades, beginning with the 8th through the senior year. This is especially valuable to the 128 foreign pupils in the high school. He has 86 pupils in his classes, 85 per cent country boys. He watches the work of his boys through the summer, keeping in touch with each.

The business session preceding was conducted by Mrs. F. S. Turner, in the absence of the president and both vice presidents, as she is secretary and the newly elected president for next year. The ladies voted $15 from the treasury with which to buy material for the making of garments for the St. Joseph children's home.

Mrs. Eugene Billings led the community singing in the absence of Mrs. R. S. Moore, with Mrs. Edw. Harper accompanying.

Next week the topic will be "The Universal Prayer." Rev. W. A. Rex will address the club on "Fundamental characteristics of the world' great Religions." Mrs. Maynard Mulvaney will close the program with a sacred solo.

Card of Thanks.

Words fail to express the deep gratitude we feel to the friends and neighbors who assisted through the sickness, death and burial of our dear boy, Lamont.

Miss Mae Jennings, who for seven weeks has been caring for E .T. LeBaron, returned to her home in Toledo Monday, suffering from a hard cold. Gillespie, who is still quite ill.

Mrs. J. V. Goheen and Mr. and Mrs. Lee Scutt were the victims of a surprise Thursday, when a large party of their neighbors and friends came to spend the day and say good-bye. A great dinner was served at noon and the guests visited until chore time. Mr. and Mrs. Scutt move to their new home, the Allison farm, which they purchased recently, and Mrs. Goheen to Tecumseh next week.

Srgt. O. E. Hodges, connected with the quartermaster's department, has been spending the week with his sister, Mrs. Bion Hodges, and sons, and greeting his boyhood friends. This is Sgt. Hodges' first visit to the old home in seven years, having been in service in the Philippines. He did not know of the death of his father or brother, Bion, until his arrival here, as the family have not been able to reach him. He has been busy of late working over the south hunting for slackers and deserters.

CLASS NO. 3 HAS A PLEASURABLE PARTY

Monday evening, Feb. 23, Class No. 3 of the Friends Sunday school was entertained by their president and secretary, Edward and Helen Reeves. The full membership was present, including the teacher and assistant teacher. After the business session a bountiful supper was served by Mrs. Reeves. This was followed by games and contests in which every one was interested. When the party left they reported having a splendid time and expect to meet next month at the home of Velma Beauben.

TWO ARE HONORED BY WESTMINSTER GUILD

Miss Anna Cutting of this city and sister, Miss Alice of Battle Creek were the guests of honor Tuesday evening at a party given by the Westminster Guild at the Presbyterian church. Miss Anna leaves in two weeks with her parents for their new home in Los Angeles, Miss Alice to follow in June, for one year.

A supper was served and there are some famous cooks in the guild whose efforts were appreciated. While the ladies were yet at the table Mrs. W. A. Rex, with a short speech of appreciation of Miss Anna's labor for the guild, presented her a pretty sterling silver spoon as a gift from the organization.

A report from Miss Bess Spaydo, the outgoing treasurer, gave the financial condition of the society as better than ever before. The business session was conducted by the new president, Mrs. Frank Nyland. Afterward the balance of the evening was passed in visiting and a song srevice, led by Mrs Eugene Billings.

PLACES FOR COTTAGE PRAYER MEETINGS NAMED

The matter of holding cottage prayer meetings next week has been discussed by the Tecumseh pastors at several of their meetings. The original plan of holding a prayer meeting in each block does not seem feasible, so it has been substituted by the following:

Five prayer meetings will be held on Wednesday at 7.30 p. m., one in each section of the town. Here is a list of the homes and their respective sections: Northeast, Mr. and Mrs. A. B. McLachlin, cor. Oneida and Shawnee; northwest, Mr. and Mrs. J. N. Satterthwaite, Union street; southeast, Mr. and Mrs. Finch, 205 S. Oneida; southwest, Mr. and Mrs. Alva Waring, 516 W. Pottawatamie; Brownville, Mrs. Emily A. Hall, 37 Mill street.

While, of course, no hard and fast rule can be laid down, it is the desire of those promoting the plan for people to attend the prayer meetings in their section, dividing the town by Pearl and Chicago streets. Arrangements are being made for a leader and a pianist to be in each home. A good response is hoped for.

Sure Death to Corns

"Gets-It" Makes 'Em Lose Their Grip and Lift Off Painlessly.

The first thing "Gets-It" does when it lands on a corn or callus is to snuff out the pain. Then it shrivels the corn or callus and loosens it.

"Gets-It" Spells "Finish" for Corns

Soon, it is almost ready to fall off. You help it just a little by lifting it off 'twixt thumb and finger. You don't even feel it, because there is no hurt left in it. Millions have proved it the cleanest, surest, safest and most pleasant method. "Gets-It," the never failing, guaranteed money-back corn remover costs but a trifle at any drug store. Mf'd by E. Lawrence & Co., Chicago.

Sold in Tecumseh and recommended as the world's best corn remedy by B. J. Pulver and C. A. Wright & Son.—adv.

They couldn't be built now for twice $71,000

When the talk turns from politics to railroads, and the traveler with the cocksure air breaks in with, "There's an awful lot of 'water' in the railroads," here are some hard-pan facts to give him:

American railroads have cost $80,900 a mile—roadbed, structures, stations, yards, terminals, freight and passenger trains—everything from the great city terminals to the last spike.

A good concrete-and-asphalt highway costs $36,000 a mile—just a bare road, not counting the cost of culverts, bridges, etc.

Our railroads couldn't be duplicated today for $150,000 a mile.

They are capitalized for only $71,000 a mile—much less than their actual value. Seventy-one thousand dollars today will buy one locomotive.

English railways are capitalized at $274,000 a mile; the French at $155,000; German $132,000; even in Canada (still in pioneer development) they are capitalized at $67,000 a mile. The average for all foreign countries is $100,000.

Low capitalization and high operating efficiency have enabled American Railroads to pay the highest wages while charging the lowest rates.

Overland 4 Is Big Surprise to Expert

Easy Riding Qualities of This Car Revelation to Man Experienced in Auto Manufacture.

Monday morning the writer of this article in an Overland 4 touring car drove west of Onsted on tractor business, and had as his companion a man who has spent a good many years in the experimental department of one of the largest manufacturers of automobiles in the world and who knows a lot about automobiles.

Owing to starting early in the morning there was no track as no other cars or a wagon had been over but very little of the road. The snow covered the entire road so that the track could not be seen.

This gentleman drove our Overland 4 and remarked: "In all my experience with automobiles I never rode in any car that rode so easy." We would discover we were out of the track going over very rough bumps, etc. The writer was very surprised also at driving 20 and 25 miles per hour that the riding qualities besides the seat seems to just fit your back.

Now compare the riding qualities of the Overland 4 over rough roads with any car regardless of price, then get some disinterested friend to go into detail that understandes construction and he and you will both agree there is no car sol at anywhere near its price with anywhere near its features.

The best part is the low price. $990.00 delivered to you.—adv.

BRADLEY OPERA HOUSE ATTRACTIONS

Mary Pickford Sunday Evening.

On Sunday evening, February 29, Mary Pickford, who has rightly earned the title of "the world's sweetheart," will be presented in "Amarilly of Clothes-line Alley," in which this little star does some of the best work she has ever produced before the motion picture camera. The most wonderful thing about Mary Pickford is that each of her pictures has some new element in it that makes her millions of admirers pronounce every new picture to be "the best that Mary Pickford ever made" and "Amarilly of Clothes-line Alley" will be no exception to this saying. Good, clean pictures and programs, ones that you can take the whole family to see, are the kind you will always find at the Bradley and the whole family will enjoy this Mary Pickford picture, too. Usual comedy and special orchestra will complete the Sunday program.

"Pretty Baby" Next Tuesday.

What bids fair to be one of the best musical shows to be seen at the Bradley opera house, Tecumseh, this season is Jimmie Hodge's big musical comedy, "Pretty Baby," which will be at the Bradley next week Tuesday, March 2.

The one or less per cent that pronounces drama with a broad "a" and that believes the mission of the theatre is, or should be, solely educational will probably not like the big song sensation, "Pretty Baby," while on the other hand the 99 per cent who pay money to be entertained will say that it is a rattling good musical comedy and one that lovers of good, clean, wholesome musical comedy should not miss. That Jimmie Hodges has pointed his arrow at the satisfaction of the majority is assured judging from the excellent notices that critics have been tendering the entertainment throughout the country.

The show is speedy and what is more it is clean and refined. The "Pretty Baby" company is headed by such well known people as Don Lanning, Jean Gaynor and Ada Langley and have an exceptionally good chorus which have gained a wide reputation as Jimmie Hodge's "Dixie Chorus." The company travel in their own special car, carry a complete scenic production and several musicians for the orchestra which assures you of the right kind of music at the right time. The orchestra will be augmented with some of the Adrian musicians.

The seat sale for "Pretty Baby" will open Saturday evening, when tickets can be secured at the theatre, also on Sunday evening, or you may secure them at Mr. Mark's residence (first door east of the Electric company's office). Phone 365 for reservations.

As Tecumseh has not had a big road show in for many weeks back a big house is looked for and it is advisable to get your tickets as early as possible to assure yourself of the seats you want.

"Romance of Tarsan" Packs Theatre Last Saturday.

"The Romance of Tarsan" played to one of the biggest Saturday night crowds that the Bradley has had in months. All during the evening the entire house, first floor and balcony, was packed and people standing in line to get in. The picture was one of exceptional interest and well up to the high standard of the Bradley programs. On next Saturday evening, Feb. 28, the main feature of the evening will be the new six act edition of "The Million Dollar Mystery." Many of the patrons of the Bradley will recall this big feature being shown as a serial and it was considered the greatest serial that has ever been produced but when recently produced as a feature, with all of the big thrills and startling situations which were formerly produced in the 47 reels condensed into six big acts, you are sure of seeing just what the advertising claims for the new "Million Dollar Mystery." the biggest thriller on the screen. A screaming two-act Sunshine, "Schoolhouse Scandals," is the comedy for the evening.

INSTITUTE PROVES VERY INSTRUCTIVE

(Continued from Page One)

young who will be the church of tomorrow "to carry on" this work of their elders.

Mrs. Howard Moore of Ypsilanti was then introduced and she spoke on the missionary work in China, using the text, "Give ye them to eat." She read excerpts from letters from her daughter, who is a missionary there, and from others. At the close of this session the four denominations represented separated for individual conferences in separate rooms in the church.

In the evening Rev. C. M. Thompson presided, the song service at this session being conducted by Rev. W. R. Curtis. Rev. Escolme read the scripture lesson, along the theme of the few laborers, speaking on this subject [illegible] few words. He also offered prayer. A solo by F. C. Dickinson followed the devotionals.

Rev. W. A. Rex took for his text Isa. 11:6. "A little child shall lead them," and then gave a short address on "Leadership." He likened the foreign missionary project to a little child, but though up to recently the "child" had been small yet it was the foreign missions which had given every moral aim of the great war, the war to end all wars. The fundamental needs furnished us by foreign missions are righteousness and human service. They exemplify human unity and community of endeavor. How shall we treat the child? We may try to kill it or be wise men and open up our treasures.

Rev. E. S. Hildreth of Lowell, Mass., recently returned from missionary work in China, spoke of the work there, donning a Chinese coolie's garb. He says we legislate against opium then send our agents over there to sell tobacco and cigarettes. Now the brewers are being crowded out here, they are flooding China and although he had never seen a Chinaman drunk, that condition won't last long. He told of the people never using their talents or possibilities, and as examples exhibited several complicated locks made by the Chinese. They only have 6,000 miles of railroad in their country which is as large as ours. They reverence the official yet many of the latter are dishonest.

The diseases in China are many and treated in such a resultless manner. Tuberculosis rages, also cholera, stomach trouble, hookworm, etc. The medical missionaries do a world of good but the people are so ignorant and the field so great their work is but a drop in the bucket. Another indication of China's backwardness is the undevelopment of her mines. The graves are placed on a mountain and must never be disturbed, as the Chinese sincerely reverence their ancestors. No matter how valuable a mine may be discovered on this mountain it must never be opened. China needs most salvation from her sins, second education, third medicine.

The meeting closed with the benediction by Rev. Thompson.

This institute proved exceedingly instructive and the denominations participating will welcome another soon.

Why talk to the small boy about his opportunity to be president some day when he is trying to decide whether he'd rather be a Ty Cobb or a Charley Chaplin, a Babe Ruth or a Doug. Fairbanks.

The crankless engine has been perfected, but there is no hope of a crankless government.

How One Woman Helped Another

Foley Kidney Pills are bought in every state in the Union by men and women on the recommendation of those who already have been relieved of kidney trouble and bladder ailments by this sterling family remedy. Comparatively little advertising has been done for Foley Kidney Pills, yet they are well known, and those who know their splendid healing properties never accept an imitation or substitute for the genuine Foley.

Pains Banished; Health Restored

"In September, 1913, I was stricken with lumbago and was unable to turn myself in bed. I was under the care of a physician but obtained no relief. A neighbor brought me a half bottle of Foley Kidney Pills; said she had been similarly afflicted and they had relieved her. So I tried them, and after taking three bottles was well and on my feet. I most heartily recommend Foley Kidney Pills. I have never known them to fail."—Mrs. G. H. Eveland, Duncan Mills, Ill.

FOLEY KIDNEY PILLS

Mill Work Proves A Losing Proposition

Operating a lumber mill in these days is a discouraging proposition. It is a losing project no matter from what angle it is viewed.

For some time the demand on this department of our business has not been large enough to keep it in operation at all times and therefore it is a waste of money to keep a workman in charge steadily. When a milling job is received one of our men experienced along this line must be taken off the work he is engaged in and this may cause a delay that will mean loss on the job he was busy at. Another comparatively small piece of mill work may halt the unloading of a car of lumber or fuel and entail the payment of demurrage on it.

"Casual" Customer Biggest Problem

But the greatest loss is on mill work done for the "casual" customer—the one who buys all his supplies elsewhere and then when he needs some odd piece of lumber comes to us and expects we will drop everything else and get out what he wants. This is more than the same individual would probably ask of any other business concern.

We realize that our lumber mill will probably never again be a profitable undertaking, but we expect to keep it in operation. Our steady patrons are invited to bring us their mill work, as we assure them prompt service at rates that will be as low as they can be made consistent with present day conditions. And we will not refuse to do the work of the "casual" customer, but he will have to take his turn in regard to getting out the work and when he understands the situation he will not be surprised that the rate in his case may be a trifle higher than if he had been doing business with us for years.

Going to Need Lumber? Buy Now!

It will be well to remind those who contemplate building in the near future that we have a very large supply of lumber and other building materials and that prices are bound to go higher, so the time to place your order is now. It will give us pleasure to figure on your proposition and furnish you estimates on the cost of erecting the particular kind of house you want.

A pot luck dinner was served to about 25 people at which a fine social time was enjoyed. Rev. Purdy of Clinton and the pastor, Rev. SOCIALISM SHOWN TO BE BIG FAILURE

(Continued from Page One.)

church conference in Lansing this week, will make a report of this session.

The two local troops of Boy Scouts and the Monday club attended the sixth lecture in a body. They met at the Methodist church. Scoutmaster O. W. Laidlaw and Assistant Scoutmaster Perry Hayden had charge of the troops. The Scouts entered the church first, being given places in the center and at the extreme front. The Monday club followed, seats being reserved for the members on the east side well to the front.

Community singing opened the service, Rev. Curtis being the leader. At the invitation of Rev. Curtis the Boy Scouts gave their "America" yell with fervor. The Monday club had been having community singing at its meetings lately and the members demonstrated their vocal abilities by rendering "O Beautiful For Spacious Skies," being led by Mrs. R. S. Moore. The last selection by the congregation before the scripture lesson was "The Battle Hymn of the Republic," the Scouts whistling the chorus. Rev. C. M. Thompson of the Methodist church read the lesson from the scriptures and Rev. Rex, pastor of the Presbyterian church, offered prayer.

When announcements were in order Rev. Thompson informed his hearers the community meeting would be at the M. E. church next Sunday evening and he extended a hearty invitation to all to be present. Rev. Rex announced the Boy Scouts of Tecumseh would be given a complimentary banquet March 4 and that the occasion would be made an unusual event.

The choir gave a much enjoyed selection and then Rev. Curtis read the lecture, the numerous stereopticon views illuminating the discourse to a marked degree. Rev. Rex pronounced the benediction.

The more important portions of the lecture are as follows:

"For thousands of years men have been working on the perpetual motion machine and not one of the devices has ever worked.

"Practical men know the test of any tool is: Will it work? The flying machine will work. Two men ate their dinners on the American continent and 16 hours later drank their coffee on the European continent—the airplane works. The printing press works; the Panama canal works. Now the tests of the thousands of models of the perpetual motion machine is: Will they work? In view of the fact that not one of them has ever worked, no business man in the world has any confidence that any of them will ever work. Strangely enough, about the time that the first man invented a perpetual motion machine wheel, another man invented state socialism, and for thousands of years every year has witnessed at least one new scheme for a socialist colony, to abolish poverty, destroy greed, fear, hate and strife, and create wealth, abundance, peace and brotherhood. Unfortunately, no perpetual motion machine has ever run and not one socialistic scheme has ever worked. Nevertheless, like the poor, both of these classes of dreamers are ever with us.

"Everybody knows the name of New York, London and Paris, of Oxford and Geneva and Florence, but not one individual here can give the name of a great socialisitc city for the simple reason that there is none. Today, not one man of a hundred who claim to be socialists seems to know what socialism is. We have municipal schools in New York, municipal sidewalks and pavements. But New York is not a city of socialism. Switzerland owns her own railways and mines and has a state telegraph and telephone, but Switzerland is not a socialistic country. What then is state socialism?

"It is a state that owns the spade and plow and auto, and apportions their use; that owns every farm and vineyard and orchard; that owns every house and store and factory; a state where there is no money and no banks; where all work the same number of hours and draw the same amount of food and clothing and wear exactly the same kind of coats and dresses. The emblem of state socialism is a colossal orphan asylum, a monstrous poorhouse, or in view of Karl Marx's statement that "the head of each labor ward must be a benevolent tyrant and dictator," and tell one woman she must sing, another she must teach and another that she must be a laundress—the real emblem of socialism, if you can trust Karl Marx, is a penitentiary where all wear the same striped clothes; a place where there is neither hope of reward nor fear of penalty.

"Now socialists are always claiming that their experiments have never had a fair test. They say that given, first, a fine climate and rich land; second, a colony whose every member is an enthusiastic socialist; third, a community not made up of intellectuals and dreamers, but hardy farmers, contractors, carpenters, brickmasons, trained to pioneering; fourth a community unfettered by bondage to any religious creed, that then, and then only, can anyone expect socialism to succeed.

"Well, these four conditions have been fulfilled, and more than fulfilled, in the New Australia, and with what results? The colonists themselves being the witnesses, the results were starvation, rags, poverty, lies, theft, laziness, suicide and murder. It is evident that the time has come for the people of this country, who are following the will o' the wisp light, kindled by socialistic leaders, to stop and study this one experiment in socialism under absolutely ideal conditions. The founder of the world's greatest experiment in socialism was William Lane, a brilliant writer born in England. He was a man of acute intellect and iron will. Such intellectual gifts had he that he obtained a concession from the government of Paraquay of a tract of land 30 miles long and 20 miles wide. The climate was ideal and all the other conditions were most favorable. At first everything went beautifully. Then came the startling discovery that socialism, to the disillusioned pioneers, ruled with an iron rod. The next thing that all the socialists found was that instead of socialism abolishing poverty it produces poverty. The time came when in sheer disgust amidst the uttermost of bitterness and disappointment, the members of the socialistic colony petitioned the government to grant them private ownership. It was as if a magician had entered the scene and waved a wonder-working wand. In an incredibly short space of time there was a marvelous transformation. It is recorded that men who were indolent and worthless under socialism, became enterprising, ambitious and skillful under individualism.

"Under ideal conditions, having absolutely everything that the socialists had demanded, this experiment has demonstrated certain facts. It shows that socialism is not the trustworthy panacea it was advertised to be. It hasn't saved money. It has not lessened strikes. It is not democratic. The whole beautiful balloon of socialism—the greatest gas bag of all dream Zeppelins, bursts like a bubble when you prick it with that plain common everyday pin named human frailty."

He Had to Do the Housework and Farmwork Too

BUT WHEN NERV - WORTH RESCUED WIFE FROM THE "FLU," SHE RESCUED HIM FROM THE DISHPAN.

In substance, source and value the following signed statement given a few days ago by C. C. Chondler of Richmond, near Steubenville, O., is one of the most forcible and convincing ever submitted in behalf of a medicine:

Beall & Steele—I have a double reason for praising Nerv-Worth. Last spring my wife had the "Flu" and she was not able to do the house work for a long time. We could not get help and I had to work the farm and do housework, too. I read about some of the wonderful things Nerv-Worth was doing for people, and decided to try some for the wife.

She commenced to improve in three or four days after she started to take the medicine, and in less than two weeks was helping me with the housework. She soon got so she could do all the house work, and at the present time, I do not know of anybody that enjoys better health than she does.

I got out of doing the house work and got a well wife. That's why I have two reasons for praising Nerv-Worth.

1920 Buick

Compare the net retail price of other popular, well known six cylinder, five passenger cars of approximate weight with the 1920 Buick. Prices quoted are as listed at the Detroit Automobile Show, the variation in prices being from $135 to $290 higher than Buick prices.

BUICK	$1575.00
Nash	1710.00
Paige	1750.00
Liberty	1756.00
Saxon	1785.00
Studebaker	1785.00
Reo	1848.50
Chalmers	1857.83
Mitchell	1865.00

There are several other cars of approximate weight which list even higher, while cars of much lighter weight such as the Olds, Dodge or Oakland, list close to Buick prices.

EXPLANATION

The explanation is simple. The Buick production basis for 1920 is estimated at 150,000, nearly the approximate total of the above makes combined.

The 1920 Buick is the best buy on the market today. Its yearly depreciation is less than that of any other car.

The new 1920 Buick is positively the best Buick car ever turned out by the Buick Motor Company. We have yet to find one weak point in the new 1920 Buick model. Buy a 1920 Buick. You cannot go wrong.

Notice

Detroit Buick dealers have sold out completely their full 1920 allotment. Think of it. Every Buick car alloted to Detroit up to July 1 is already sold.

Why Experiment?

If you contemplate purchasing an automobile this spring, by all means, get a 1920 Buick. WHY EXPERIMENT with other makes when you know that the Buick IS RIGHT. Place your order at once. Get a 1920 BUICK if you can. We haven't even had a Over 500 Buicks turned out daily.

Practically all cars have advanced in price. The Buick has not advanced YET. Place your order at once.

LEGION IS HONORED BY GEORGE HAWKES

Father of Captain Who Gave Life In World War Presents Post With Portrait of Son.

Underwood-Orr post, American Legion, considers itself highly honored as it has been presented with a portrait of Captain Milburn Hawkes, who sacrificed his life in the world war, the picture being given the local organization by George W. Hawkes, father of the fallen hero. The presentation was made at the regular meeting of the post Tuesday evening, John D. Shull acting for the donor, and in Mr. Hawkes' behalf spoke as follows in giving the Tecumseh world war veterans the portrait:

"Commander and Buddies:—

It affords me great pleasure to be with you tonight on an occasion that will be notable in the history of your organization. You have with you as guest of honor, our mutual friend, George Hawkes, father of Captain Milburn H. Hawkes, of the celebrated 32nd division, who was killed in action in Argonne forest, France, September 30, 1918. Our esteemed townsman comes to you with a message of affection, and to present to you a splendid picture of his boy, who was all the world to him.

"You are highly honored by his presence, on such a mission, and I trust he may be persuaded to say a few words to you, although his heart is almost too full for utterance.

"War is not all fighting, or camping, or marching, but a combination of the three. Some army service half a century ago enables me to measure at full value the courage and fortitude of the American soldiers overseas manifested at the Marne, Chateau Thierry, Saint Mihiel, and the great Argonne battles. And my heart draws close to all of you in recognition of what you did, and dared, and accomplished. The lamp of experience also teaches me that the horrors of war are not all on the battle lines. The anxious mother or father at home often suffers in spirit more than does the active soldier on the front line in the very hell of battle. When Milburn H. Hawkes was so gallantly 'carrying on' in France, his father in Tecumseh was following every movement with pride and affection. And when the worst news came like a thunder-clap out of a clear sky, his agony of soul was almost crushing. But he faced it with Spartan courage, as became the father of a brave soldier. We all love bravery. We love the living who fought for our liberties. We honor the dead, who died that civilization might not perish from the earth. We honor the parent who can lay his only son on the altar of his country, saying 'God's will be done,' and again face the world with smiling courage. You honor yourselves in honoring your guest, the father of a hero. The father of a very manly man—a soldier born and bred—man who knew his rights and knowing, dared maintain them.

"He was a captain born and bred.
In years
Though yet a boy, he was a man
in soul;
Led older men and held them in
control,
In danger stood erect and quelled
their fears.
When death calls such a captain,
he but hears
As 'twere a distant bugle and
the roll
Of far-off drums. We wrong him
if we toll
The mournful bell. Give him our
cheers, not tears.
Through deadly scorch of battle
flame and gas,
Through iron hail and burst of
burst of shrapnel shell—
Smiling as when we played at
mimic wars—
He was our leader. Is it then,
not well
That he should lead before us to
the stars?
Stand at attention! Let his brave
soul pass."

Mr. Hawkes, though deeply moved, addressed the post briefly, telling of his farewell to his son and also assured the members it was now his aim in life to be of every possible assistance to the Legion.

Post Commander R. K. Anderson, in the name of the post, thanked the older buddies for their presence and in particular Buddy George Hawkes for his noble generosity in honoring the local Legion with a memento that would remind the members how a good soldier and brave leader died for for his country, remind not only this generation but those of the generations to come, pointed out that all of the boys who failed to return had showed great self-sacrifice and courage.

Commander Anderson lauded the spirit shown by Mr. Hawkes in giving his son for his country's cause and said the brave way in which this father has suffered the loss of his only son would be an inspiration to the Legion members throughout their lives.

Vice Commander Larsen also expressed thanks for the gift and mentioned in what glowing terms people had referred to Mr. Hawkes and his brave son when Mr. Larsen arrived in Tecumseh. Since then he said he has taken great pleasure in saluting Mr. Hawkes whenever they have met.

Gatty Sellars, the World's Greatest Descriptive Organist, Here Monday.

Gatty Sellars, the world's greatest descriptive organist of the Queen's Hall, London, England, and Crystal Palace Festival will appear at the Presbyterian church next Mondy night at 8 o'clock. Through an unexpected open date between his Toledo and Detroit appearances this city was fortunate in securing it at the moment of our going to press. Sellars is the organist for the Columbia Graphophone Co., being engaged with Paderewski, Hoffman and Mary Garden. He is the composer of the organ arrangement of the world's most popular song, "Keep the Home-Fires Burning," which he renders with military effects of an army approaching from a distance with the tramping of troops, trumpets and drums. The great "Storm on the Alps," as played at Lucerne Cathedral, Switzerland, will be included. It will readily be seen that this will be the greatest musical attraction ever heard in this city, for Sellars was the organist who inaugurated the great Methodist Centenary organ at Columbus, Ohio, and has appeared during the last seven years on more organs in Europe, North and South America than any living organist. A crowded auditorium will hear this, the world's greatest descriptive organist, next Monday, March 1.

The city has to thank the Westminster Guild for their quick action in making possible this great event.—adv.

POPULAR TECUMSEH GIRL WEDDED TO A DETROITER

Miss Ruth Idela McKinney, daughter of Mr. and Mrs. Edward McKinney, of this city and very popular among the younger society of this place, was married Saturday, February 14, to Lawrence Newton McLouth, until recently of Ypsilanti. The wedding ceremony was solemnized by Rev. Platte F. Amstutz at The Church of the Covenant in Detroit, the groom's roommate, Samuel Forsythe, and Miss Anna Miller, both of Detroit, being married at the same time with a double ring service. L. H. McLouth, brother of L. N. McLouth, acted as his best man and Miss Ruth Adkins, a teacher friend of Miss McKinney, being her bridesmaid.

Mr. and Mrs. McLouth will reside in Detroit, where the groom has an excellent position, and the bride will continue her work in the Hamtramck schools for the remainder of the year.

Miss McKinney spent her girlhood here, graduating from the local high school with the class of 1914. From here she went to the Normal, where upon finishing her course she accepted a position in the Lansing schools, which she held until this year, when she began teaching in Hamtramck.

The best wishes of her many Tecumseh friends go with her in her new life.

"RUBBER" KRAPP IS TO LEAD FOOD TOWN TEAM

Eugene Krapp, one of the favorites on our old Southern Michigan League team, is the new manager of the Battle Creek baseball team of the Michigan-Ontario League. He received his appointment last week and will at once begin lining up his team.

It was in 1905 that "Rubber" Krapp got his start in professional baseball in the Tecumseh wonder team with Fred Merkle and others. From here he went to Portland in the Pacific Coast League, then to the Cleveland Indians, back to Portland and afterward jumped to the Buffalo Federal League club, then to Chattanooga in the Southern League, then into the army. Krapp was in the service at Custer and was the star pitcher of the Custer team that played Grant and the other clubs. He is one of the best fielding pitchers that ever entered the big leagues. His old Tecumseh admirers will watch the Battle Creek team with avidity this season.

The Tecumseh Butter Company is installing a Viscolizer in its ICE CREAM department, which makes a better, smoother ice cream. They will start manufacturing cream in the near future and will guarantee their product to be just as good if not better than any cream on the market.—Adv. 2-26.

THIS IS OPINION OF REV. C. M. THOMPSON

First of Lenten Community Services of Inspiring Character—Reports of Conference Heard—Service at M. E. Church Again Next Sunday Night.

That two attending the same conference at the same sessions will bring back entirely different reports was proven Sunday evening when at the Community service Rev. W. R. Curtis and Rev. W. A. Rex gave their versions of the interchurch conference held at Lansing last week.

Sunday evening's Community meeting was held at the Methodist church, with Rev. C. M. Thompson presiding. This was the first of the meetings of the Lenten series planned by the ministers in special effort for the upbuilding of God's kingdom in Tecumseh. Last evening were held in the different corners of town five prayer meetings, also in this schedule. The general outline was given by Rev. Edw. Escolme. Then he made a

FREEMAN CIGAR FACTORY TO RESUME OPERATIONS

Equipment and Rights to Manufacture Old Favorite Brands of Cigars Purchased by W. E. Barrett and Gordon L. Bailey.

Lovers of the weed will be interested and pleased to learn that two old favorite brands of cigars are again to be manufactured in Tecumseh and placed on the market. This comes as the result of the purchase of the equipment and rights of labels of J. J. Freeman, who for many years manufactured the "Aboriginal" and "Little Beauty" cigars, by W. E. Barrett and Gordon L .Bailey.

Messrs. Barrett and Bailey are planning to start the manufacture as soon as stock and license can be procured and additional equipment added to the factory. They aim to reproduce the quality of these long popular brands of cigars and it is their intent to keep them so.

The "Little Beauty" as a five cent cigar had been manufactured for many years by J. J. Freeman, who discontinued the business during war times. The "Aboriginal" was a ten center well liked by smokers of the higher grade goods.

M[illegible]tt has also purchased a half interest in the pool room conducted by Gordon L. Bailey and the two gentlemen enter into both businesses as equal partners.

TECUMSEH GIRL STARS IN PLAYLET AT COLLEGE

Alice Hardenburg of this city, daughter of Mrs. Eleanor Hardenburg, was a member of the cast of characters of the freshman play given at Western College for Women, Oxford, Ohio, on the evening of February 28.

"The Wearin' o' the Green" was the name of the one-act farce by Mary S. Watts. It is the custom of Western College to permit the freshman class to give a play in the middle of the year to encourage histronic talent.

Miss Hardenburg successfully played one of the leading women's roles.

Home Building Plan Launched

Association Is Assured to Erect Houses For More Workmen Needed in Tecumseh.

That the need of houses in Tecumseh is becoming a vital question is evident to everyone and to save the shops to the city homes must be found for the workmen. Realizing this, the Commerce club has appointed a committee to solict for the organization of a building association of which committee B. J. Pulver was named chairman.

For several days Mr. Pulver and his committeemen have busied themselves in this matter with the result that last evenng they declared such an organizaion an assured fact.

The houses to be built are to be for rent or sale on contract on easy terms and this plan is just what the workmen need.

So many houses have been sold recently in the city that homes are at a premium. During the past week people have walked the streets nearly every hour of daylight scouring the town for some place to house their family as through sale they have been forced to move. They will be leaving town and the factories and foundries will be the losers of some of their best workmen if this condition continues. This step by the Commerce club seems the only way out.

Legion Will Hold Memorial Services

French Memorial Diplomas to be Presented Families of Fallen Heroes at the Presbyterian Church Sunday Afternoon.

Tribute is to be paid the Teeucseh heroes who sacrificed their lives in the world war and also [illegible] relatives at the Presbyterian church Sunday afternoon when Underwood-Orr post, American Legion, will hold memorial services. French memorial diplomas will be presented to the kin of the fallen victors.

The meeting will begin at 3 o'clock and will consist of addresses and patriotic music. The G. A. R. are invited to attend individually or in a body and the members of the Legion and all service men are requested to meet at the post rooms at 2:30 and proceed to the church in a body. The Boy Scouts have also been invited to be present.

The families of thirteen young men from this vicinity will be presented with the French memorial diplomas, the exercises to be made of an impressive character. The addresses will be given by Rev. W. A. Rex and John D. Shull and patriotic hymns will be sung.

FRIDAY NIGHT GAMES EXPECTED TO BE FAST

Friday night's basketball game at the gym of the local high school will be between the Tecumseh and Hudson teams, the local lads expecting to break thir losing streak and annex a victory. They hope for a large attendance.

The local girls will have the girls from Olivet as opponents tomorrow night and this, too, gives promise of being a speedy encounter. The Olivet players are rated as among the best in the state, their forwards being especially fast.

Last Friday evening the Tecumseh girls strode all over the Morenci damsels, the score being 67 to 0, but the local boys were bested 32 to 26.

It was a walk-away for the girls' team of this city as the opposing players never had the slightest chance. The home girls were too speedy and made baskets at will, the opposition being dazed by the rapidity with which the score against them piled up.

The boys' game proved probably the fastest ever played on the local floor and was not decided until the last few minutes of play. The Tecumseh lads crowded the visitors to the limit to get the long end of the score. Harrington and Abbott of the local team worked together as never before and had a large part in keeping the Tecumsh five so close after their opponents.

Card of Thanks.

We extend sincere thanks to all who helped us to bear our recent bereavement, especially to the kind neighbors and friends, those who sent the beautiful floral offerings, those donating the use of autos, Rev. C. M. Thompson for his comforting words, the American Legion and the Masonic lodge.

Leslie Winters Shades Bobby Armstrong in Semi-Final Match—Eddie Marriott of Clinton Makes Great Showing Against Johnnie Conway.

Universal satisfaction prevailed at the close of the boxing matches held at the Bradley opera house last Monday evening under the auspices of the Tecumseh post of the American Legion and the large number in attendance are eagerly awaiting the next in the series of similar entertainments. The bouts were all exciting and the orderly and sportsman-like manner in which they were conducted brought forth many words of commendation. The first of these events was a decisive success from every viewpoint and the promoters feel encouraged to proceed, so the fight fans of Tecumseh and vicinity may expect to see more matches of this high order.

Old Council Has Last Regular Meet

Albert Clark and George Harriott Granted Permission to Erect Modern Slaughter House East of City.

There is to be a new slaughter house erected in Tecumseh, this becoming known at the regular meeting of the council Monday evening when Albert Clark and George Harriott, who propose to build the structure, appeared before the trustees and requested permission to proceed with their plans. Their plea was granted. The only other out-of-the-routine business transacted was the making of arrangements for election boards for the ballot casting on March 8.

All of the aldermen were present and it was the last regular session for Messrs. McCoy and Barrett, as their successors will be elected next Monday.

L. P. Williamson appeared before the trustees and asked the council's sanction for his plans for the erection of a fire-proof garage at the corner of Chicago and Pearl streets and it was granted. He announced that if the city would pay its just proportion of the cost he would have a cement walk constructed in front of the garage to replace the much worn flag stones. As the walk is not to be built until the garage is finished, action on this matter was put over. As usual, a number of bills were paid.

Albert Clark, in addressing the council, explained he and Mr. Harriott had recently purchased a parcel of land of the Jacob Miller estate, the property being located just inside the east city limits. The slaughter house, he said, would be placed far enough back from the highway that it would annoy no one. The promoters called attention to the fact that the slaughter house now in use had been condemned and that a new one had to be erected. They announced they would follow every provision of the state law in regard to such structures and planned to erect a very modern building. Work is to be started soon.

MRS. GRANT RAY, KNOWN HERE, DIES IN THE WEST

Mrs. F. D. Rector received a letter Tuesday from George Henderson of Omaha, telling of the death of his sister, Mrs. Grant T. Ray, of Osceola, Neb. Mrs. Ray will be remembered by many Tecumseh people as she was formerly Lizzie Henderson and with her sister,, May, and brother, George, lived at John Fisher's, north of town, for many years. As they reached the years af maturity they went west. George established in business in Omaha, Miss May taught and Lizzie married a prominent druggist in Osceola.

Mrs. Ray was taken to a hospital in Omaha February 13 for an operation, which was performed six days later and lived until February 25. She was taken back to Osceola where the funeral was held Friday, February 27. She leaves her husband and three sons. The oldest has a government position in Spokane, Wash., the second is in college in Boulder, Colo., and the youngest at home.

Miss May has been an inmate of the home since Mrs. Ray's marriage. The sympathy of Tecumseh friends is extended to the sorrowing family.

NEIGHBOR CLUB HAS VERY JOLLY GATHERING

Mr. and Mrs. Don Cleveland were hosts for the Neighbor club and their families Friday. The ladies entertained themselves, sewing for Mrs. Cleveland, while the "Gossip" club entertained the host in another part of the house.

All gathered for the dinner which was splendid and later in celebration of the 16th wedding anniversary of Mr. and Mrs. Irving Boltz they received the congratulations of the company. Mrs. Boltz was presented with a pretty dish and Mr. Boltz with a most wonderful diamond ring. Over thirty enjoyed the happy event.

MANY TRANSFERS IN REALTY DURING WEEK

Among the real estate deals of the past week are these:

Mrs. Thomas McCann sold the Burrell place, corner Maumee and Pottawatamie streets, to Arlie Gohseen. He plans to remodel the house and later build a dwelling on the lot north of the house.

Mrs. McCann then bought of Mrs. Rose Hoag of Ann Arbor her two-family house just east of the Union school. New porches and other improvements will be the order there.

Mrs. W. J. Preston of Holloway, who has recently sold her farm to Thomas Price, has purchased Jas. [illegible] home on West Pottawatamie and with her son, Clifford, moved in this week.

The brick residence, formerly the home of R. J. Reynolds and family, on East Kilbuck street, has been purchased by Gus Vallenburg, who in turn has sold to Fred Marsh. Mr. Marsh and his family will occupy the front apartment as soon as electric lights are installed and other improvements made. The frame dwelling on the Reynolds property goes to George Cole, the present tenant.

Ed Gillen's house on North Oneida street will be the home of Joseph Osborne about April 1, he having sold his farm in Macon.

On Saturday Mrs. Adeline Holdridge purchased E. H. Ahrens' house on South Evans street. She will occupy the south apartment and Mr. and Mrs. Ahrens remain for a time in the north half and still own the vacant lot to the east and the barn on it.

George Wintersteen has purchased of Mrs. Jacob Miller her house now occupied by William Palman and family. He will move in when the Palmans go to the H. T. Dunn house they have just purchased.

MRS. RALPH WILSON BURIED ON TUESDAY

Many of the Murphy relatives were in Franklin Tuesday afternoon for the funeral of their cousin, Mrs. Ralph Wilson. Rev. Oliver of Tipton officiated and the Pythian Sisters gave their burial service at the house. Mrs. Clifford Hardy sang. Burial was in Tipton.

Mrs. Wilson, who was formerly Miss Jennie Murphy, residing near Tecumseh, had been ill with cholecystitis. She was but 32 years of age and leaves the husband, one small son, Raynor, and her parents, Mr. and Mrs. William J. Murphy, who lived with the young couple.

Mrs. Wilson was highly respected here and at Tipton, where she was active in the Congregational church and the organizations of the vicinity. Her loved ones have the sincere sympathy of a host of friends.

"PRETTY BABY" MAKES BIG HIT

Unusually attractive and pleasing was the presentation of Jimmie Hodges' musical comedy, "Pretty Baby," at the Bradley opera house Tuesday evening. Particularly pleasing were the charming costumes and pretty stage settings introduced during the production, and the musical numbers were far ahead of the average entertainments of this class.

Don Lanning, song, dance and witty monologue artist, kept the large audience in constant good humor, and it can well be said that he is in a class by himself in the role represented.

Give the Boy Scouts a rousing boost, you fathers, by attending the banquet tonight.—adv.

Editorial Comment

Serious apprehension is experienced over the influx of farmers to cities and villages. This year the changes in the rural districts have been abnormally large and this fact is due to a very large extent the brisk movement of real estate in Tecumseh and the scarcity of tenant houses.

In interviews with some of our farmer friends we learn of considerable dissatisfaction among the producers, who claim that prices on living necessities have so far outdistanced the prices on their products that farming has become unprofitable. Feeding high priced corn, oats and other grain to 15c hogs is a losing proposition it is claimed. Taxes also are claimed to have become burdensome.

However, as far as we can learn, farms about Tecumseh and in Lenawee county are not being abandoned, for others are taking the places of those seeking city life. In fact what promises to be the strongest organization of farmers in the country will be brought to the door of Lenawee farmers next week when solicitors will begin their membership drive for the Michigan state farm bureau.

Tecumseh, Clinton, Macon, Franklin and Cambridge townships are slated for visits from the state men on March 12 and 13, and a small army of bureau members will be poured into Lenawee by the state organization.

The state farm bureau will centralize and concentrate the aims, ambitions and problems of the county farm bureaus, and as each township is to have representation there can be no possibility that any farm activity, regardless of how remote from the county seat, will be disregarded.

Livestock men, dairy men and just plain farmers—all will be benefitted by the new organization. Only a small membership fee will be charged as such a large enrollment is expected in every part of the state that a large income is assured. With this working capital, the state organization can accomplish whatever its members would like to have done, but which they as individuals never could do.

Officers of the Lenawee farm bureau are pushing the new organization with all their power for they know that insttad of losing any prestige their organization will be strengthened by the added support of a powerful state organization whose resources will always be at their command.

More than 3,000 memberships are expected in this county and the northern townships will undoubtedly contribute their full share.

The Herald is pleased to record that nothing unsavory transpired at the athletic exhibition staged at the Bradley opera house Monday evening under the auspices of Underwood-Orr post, American Legion. It was a clean exhibition of the science of boxing—a science in the art of self defense that has grown considerably in popular favor since the time our young men were called into service during the world war. There was no confusion, no disorderly conduct; in fact it is difficult to even imagine a more orderly crowd of men at any entertainment. Ladies of Tecumseh were evidently a little timid about attending the affair, for the number present was not large, but those that did witness the boxing bouts admit their interest and intention of patronizing future entertainments of the like should they be staged here. And there really is no reason why the people of Tecumseh should not have boxing exhibitions if they wish them, for the first was successful from every viewpoint. Under state regulations no great harm can come to contestants, and the bouts merely demonstrate their expertness in the handling of the gloves, agility in avoiding punishment from the opponent and their quality and quantity of endurance.

Ladies' your interest in equal suffrage is being keenly watched by male electors, especially since the lack of interest shown in the recent village caucus. While there is only one ticket in the village election next Monday every elector or should show enough interest in municipal affairs to cast a ballot.

The father-son banquet, complimentary to the Boy Scouts, occurs this evening at the high school building. The outlook is for the successful event that Tecumseh usually promotes.

"Advertising certainly does pay." This is the verdict of Leon Temple of L. E. Temple & Co. Last Thursday this concern had an advertisement in the Tecumseh Herald and two other papers in this vicinity stating that the price of the Samson tractor was to be advanced March 1 but that orders placed at once would be taken at the prevailing price. Before Saturday evening Mr. Temple had sold five of these tractros and he says the advertising did it.

Among those from out of town who attended the funeral of Sergeant Earl E. Hanham last Thursday afternoon was Private Stamath. This young man had been in the hospital at Camp Sevier, Greenville, S. Just an hour before the Tecumseh young man passed away he called Stamath to his bedside and requested that if anything happened he accompany his remains to the home of his parents in this city. Private Stamath promised to do this, not realizing that he would be called on to do it so soon. He accompanied the body to Tecumseh, attended the funeral and then started back to Camp Sevier, stopping at his home in Toledo on his way south.

MONDAY CLUB ADDS TWO MEMBERS, HEARS ADDRESS

An unusually large crowd attended the meeting of the Monday club this week, to listen to a learned paper by the Rev. W. A. Rex on "The Fundamental Characteristics of the World's Great Religions."

During the business session two new members were received into the club, Mrs. Del Cairns and Mrs. Lota Billington.

Previous to the lecture Mrs. Ella James gave Pope's "Universal Prayer."

Rev. Rex asserted his topic was so large that courses are given in colleges on the theme, and so much has been written on the subject that one could profitably spend a year alone upon it. In early times the comparison of Christianity with other religions was thought a sacrilege, but now thought is broader. Even now some scientific men think an ultimate religion is yet to be discovered. But with it all we need a better exemplification of the oldest religion, Christianity.

He divided his subject in five heads:

"Theistic, the belief in God and Gods in which come Christianity, Judahism and Mohammedism.

Pantheistic, God loses personality but is primary substance in which is Hinduism.

Aetheistic, no personal God, but of God's many, from which come Shintooism, Buddhism and Brahmanism.

Ancestral, of which Confusianism is a part. It is inconceivable that so great a man as Confusius could write so wonderfully, yet so foolishly.

Animistic, where the soul is in care of a priest, who places it in the body at will. The future home of the soul may be in some animal or worse.

The speaker then told of the chief religions, which differ from the real religion. Mohammedism asserts there is no god but God, but the most damnable sin according to this belief is the belief in the Trinity. The second is not to be a Mohammedian. This is the fiercest enemy of Christianity.

Buddhism says there is no supreme ruler, but man is to worship everything. They have no word for sin, they have no God, hence no law, hence no sin. They command "Take no life, do not steal, lie, commit adultry or take strong drink."

Confusianism recognizes no God, no sin, no heaven, no hell.

Brahmanism is a caste religion, their object of worship a cow. There is much immorality in their religion.

"Our's is the only religion having equal regard for my God, myself and my brother."

Mrs. J. M. Mulvaney charmingly sang "Leave it with Him," accompanied by Mrs. F. B. Wood.

Community singing preceded and closed the program, with Mrs. Eugene Billings the leader and Mrs. F. B. Wood accompanying.

SPIRITUAL REVIVAL GREATEST NEED HERE

(Continued from Page One.)

short address with the burden of his talk "Our Accountability to God and Our Neighbor."

Rev. Thompson followed with an exhortation to the people for a great spiritual revival here, as he said "Tecumseh's greatest need." If our church has not brought people to Christ, whose fault is it? If we can get more of the love of God in our church people our work will not be lost, but it will overflow into the hearts of others." If we are not bringing others to Christ, we are falling down on our job. The world is disheartened, heart-sick. There was never greater need of solace and comfort than now. The only remedy is the love of Jesus. Does your next door neighbor believe you are a Christian? Now you have an opportunity to ask that neighbor to join you in the house of Christ.

After a beautiful solo, "This is My Task," by Miss Lillian Kennedy, were given the reports of the Interchurch conference. Rev. Curtis' report was a full account of the addresses given by returned missionaries and big men in the various churches, urging the 30 denominations represented to get together and push the work in the great field. This is not meant to supplant the work of the churches but supplement it, a step toward co-operation. It was proven there that our greatest foe is Mohammedanism, that one-half the world knows nothing about the care of their bodies, having doctors in only half the world. Many of the heathens accept Christ saying "If our doctoring is good our doctrine must be." He asserted it the most remarkable meeting he ever attended.

Rev. Rex says the Interchurch idea is not so wonderful, that we are ahead of the movement right here in Tecumseh. "The Protestant churches had to get together or be swamped." He does not advocate the elimination of the denomination but that some one ought to have authority other than to infringe on the othes fellow's territory, paying attention to the sheep in the other fold. We must co-ordinate our interests and be of one body, the body of Christ. He was disappointed in the conference in that though they talked many good things, they gave nothing relative to the movement. They plan to raise an enormous amount of money soon from the "friends of the church," which he questioned as possible. He assured the audience of his every endeavor in the drive to be made before Easter in which he was heartily endorsed by the other pastors.

Next Sunday's Community service will be held at the same church.

Mill Work Proves A Losing Proposition

Operating a lumber mill in these days is a discouraging proposition. It is a losing project no matter from what angle it is viewed.

For some time the demand on this department of our business has not been large enough to keep it in operation at all times and therefore it is a waste of money to keep a workman in charge steadily. When a milling job is received one of our men experienced along this line must be taken off the work he is engaged in and this may cause a delay that will mean loss on the job he was busy at. Another comparatively small piece of mill work may halt the unloading of a car of lumber or fuel and entail the payment of demurrage on it.

"Casual" Customer Biggest Problem

But the greatest loss is on mill work done for the "casual" customer—the one who buys all his supplies elsewhere and then when he needs some odd piece of lumber comes to us and expects we will drop everything else and get out what he wants. This is more than the same individual would probably ask of any other business concern.

We realize that our lumber mill will probably never again be a profitable undertaking, but we expect to keep it in operation. Our steady patrons are invited to bring us their mill work, as we assure them prompt service at rates that will be as low as they can be made consistent with present day conditions. And we will not refuse to do the work of the "casual" customer, but he will have to take his turn in regard to getting out the work and when he understands the situation he will not be surprised that the rate in his case may be a trifle higher than if he had been doing business with us for years.

Going to Need Lumber? Buy Now!

It will be well to remind those who contemplate building in the near future that we have a very large supply of lumber and other building materials and that prices are bound to go higher, so the time to place your order is now. It will give us pleasure to figure on your proposition and furnish you estimates on the cost of erecting the particular kind of house you want.

Before You Plant the Corn PLAN THE SILO!

Right now, with spring plowing still several weeks away, make up your mind that THIS year you are going to make more money out of farming. Give this silage proposition the consideration it deserves. Get all the facts before you and you will surely see that every year you "get along" without a silo, you rob yourself of profits that are within your easy grasp!

A POSTCARD REQUEST BRINGS YOU THE VALUABLE CHAMPION SILO CATALOG.

Champion staves, impregnated with creosote oil by the heat-and-pressure method, are planted in from two to four feet of solid concrete. The cables of the interlocking anchoring system are connected to steel rods which are embedded in the concrete foundation. These cables have adjustment at top of concrete and run to the top of the silo where they encircle to channel steel hoops, one of which is inside of the staves, the other on the outside. This makes ONE SOLID UNIT OF THE ENTIRE SILO and guarantees you a silo that is practically indestructible.

This book tells the whole story of Champion construction and explains in simple, every-day language exactly why silage means better profits for you, year after year. Write today. No obligations. Mail the Post Card.

D. N. GRATZ, AGED BUSINESS MAN, DIES

Had Been Miller Here For Fifteen Years—Was a Progressive Flour Mill Operator.

Daniel N. Gratz, senior member of the flouring company, D. Gratz & Son, passed away Thursday noon at his home near their mills, the old Quaker mill. Mr. Gratz, who was 70 years of age, had for some time been a sufferer from bronchial asthma. He was taken seriously ill the preceding Sunday, his daughters, Mrs. C. J. Bordner of Butler, Ind., and Miss Gladys Gratz of Indianapolis, reaching his bedside only a few hours before he dropped into the long sleep.

The funeral services were conducted by Rev. W. R. Curtis at his late home Sunday afternoon, and on Monday the body was taken to the old home at Butler, Ind., where, after short services, it was laid to rest.

Daniel N. Gratz was born March 11, 1850, near Massillon, Stark county, Ohio, and died February 26, 1920. He was the second son of David and Eliza Shilling Gratz. In 1872 he married Miss Gertrude Hamilton. To this union were born two daughters and one son, Mrs Bordner of Butler, Pliny D., his partner in the flouring business, and Miss Gladys a teacher in Indianapolis.

He affiliated with the Christian church while living at Butler.

When but 15 he went to DeKalb county, Ind., where he learned the miller's trade. Later he was in that business in Kendalville, Bryan, Montpelier and Butler.

Fifteen years ago he and his son bought the Quaker mill of Root & Boyd. This they overhauled, then built the elevator in Tecumseh and established the town office of the business. A dynamo at the mill furnished the power for both plants. Then the firm extended their operations, including mills at Edon, O., and Deerfield. This tends to show the progressiveness of the man. He was a very interesting character, but not generally known in the village as he left the business at this end largely to his son. He loved nature and this phase of his character made the beautiful scenery about the mills dear to him. He was intensely interested in current topics, a great reader, especially along the lines of his milling business. Simple and unassuming, he was a friend-maker and the wife and family surviving have the sympathy of the community.

Catarrhal Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure Catarrhal Deafness, and that is by a constitutional remedy. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing may be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces.

The corn begins to lose its grip at once. In a day or two it is so loose that you can lift it off, roots and all, 'twixt thumb and finger. That's the last of it, as millions have found out. It is the simple, effective and common-sense way to be rid of corns.

"Gets-It," the never-failing, guaranteed, money-back corn remover, costs but a trifle at any drug store. Mf'd by E. Lawrence & Co., Chicago.

You'll Want Silks for Dresses

This Spring every woman is wearing them. Why not come to this store then? In our new location, 117-119 E. Maumee, you'll find our present stock the most complete in Southern Michigan.

Few large city stores are able to show as complete a line of fine silks as this store offers. A wide range of colors and fabrics at the best prices you'll find anywhere. Come to Adrian and have the satifaction this year of having just a little nicer gown than is usually seen in your town.

The accessories of smart dress can be likened to the useful as well as the ornamental equipment of a living room.

No woman buys a library table and leaves it unfurnished. She places upon it first a fine piece of brocade, then decorative book ends with a few well bound volumes, and perhaps a low luster bowl of Spring flowers or a small orange lacquer tray for a dash of color. If she is clever and appreciates unity in dress, she follows a similar plan in the choice of Spring accessories. The little things of dress can "make or mar" the effectiveness of your costume.

The new season has brought forth new accessories.

We've jotted down a few ideas for you.

CREPE DE CHINE—Here is a quality of pure silk that commands your admiration; it lends itself to draping effects and the soft lustre makes it a most desirable fabric for dresses, waists, lingerie and other trimmings; taupe, greys, brown, copen, plum and black; also other beautiful colors including all the evening colors; 40 inches wide—

$3.00 yard

CREPE METEOR—This is a splendid grade, fine colsely woven and beautiful lustrous fabric; having some resemblance to crepe de chine but is smoother, brighter and considerably heavier; we feel sure the quality will please you; Belgian, taupe, navy and black are the colors; 40 inches wide—

$4.00 to $4.75 yard

GEORGETTE CREPE—Standard quality, sheer, beautifully finished; used this season more than ever for the making of whole dresses; also for drapery effects in combination with other fabrics; the colors are many including all the leading colors; also many of the beautiful evening colors; 40 inches wide—

$3.00 yard

FANCY TAFFETAS—For those desiring a fancy plaid or stripe for dresses, separate skirts, or other trimming purposes there are many pleasing patterns; the quality is all that one could ask for; and the price exceptionally low. 36 inches wide.

$2.00 to $3.50 yard

TAFFETA.—A leader for the coming season and indeed beautiful, all silk, soft and rich. The quality should be the first consideration in the choice of a fabric, and the touch alone of these taffetas suggest richness. The colors, too, are the most popular, including navy, black, brown, taupe, copen and greys. 36 inches wide—

$3.00 to $4.75 yard.

SATIN—Any woman who loves beautiful things will admire this wonderful fabric—the rich, lustrous quality is irresistible; also makes a pretty combination with wool fabrics or georgettes; navy, red, brown, peacock, copen, sky blue, rose and black are a few of the colors. 36 inches wide—

$3.00 to $4.00 yard.

CHARMEUSE—Another fabric gaining in popularity because of its durable adaptability to the fashionable, clinging garments of the season. The supply is ilmited and only a few colors to be had; similar to the satins but heavier, soft and lustrous; the colors are black and navy; 40 inches wide—

$4.75 yard

Reseda, Russian green, tan and brown; 40 inches wide—

$2.50 yard

PRINTED GEORGETTES—The popularity of these delicately printed, sheer, crispy fabrics continues, pleasing designs; 40 inches wide—

$4.75 yard

We also have one of the best Ready-to-Wear Departments in the city. Beautiful new Coats, Suits, Dresses, Waists and Skirts.

Come to this store—the finest in the County.

BOUT A BIG HIT, WILL HOLD OTHERS

(Continued from Page One)

of Jackson and Don Curley of Indianapolis, and while a little tame in the early stages waxed warm toward the end. The Indiana boxer was taller and has a longer reach than his opponent, but the lad from Jackson took no heed of this and from his crouching position gave and took blows with a grin. The "Kid" was the more aggressive but Curley waded in during the last two rounds and the affair was neither man's when the final gong brought it to a close. The Indianapolis fighter is a clever boxer but anything the "Texas Kid" might have lacked along this line was counter-balanced by his willingness to batter away at his opponent and take blows in return.

In the semi-final go there were more blows exchanged than in the feature bout, Leslie Winters of Pittsburg opposing Bobby Armstrong of Jackson, and the former having a shade the better of the argument. The contest was for eight rounds and in the final one Winters was especially effective. The Pittsburg boy was taller but lighter than Armstrong and while the boxer from Jackson seemed to have an advantage in the early part of the bout, Winters finished strong and administered much punishment, especially in the sixth round. Armstrong was the more willing to rush in and fight and his opponent got a number of vicious wallops as a result, all of which he took smilingly. It was in the sixth and eighth that the Pittsburger did his best work in the offensive and in which he gained the slight advantage over his adversary. This contest was marked by much clinching.

The opening match was between Bennie Hastings of Tecumseh and Floyd Dunscombe, known as "Gentleman Floyd." It was for three rounds and was a close go, they being quite evenly matched.

It was the second bout of the evening which drew forth the most applause. In this Eddie Marriott of Clinton and Johnnie Conway of Jackson were the principals and it proved most exciting. The lad from the town just to the north of Tecumseh showed a little nervousness at first because his opponent was the more experienced, but before the scheduled three rounds were over the youth from Jackson realized that the young Clinton boxer was as game as they make them. During the first two rounds Conway did most of the aggressive work, but in the third Marriott struck his stride and stepped up to his opponent freely and they exchanged blows vigorously. The boy from Clinton was the favorite with the crowd, it being evident he had not had the ring experience of the Jacksonite and the splendid showing made by Marriott and the spirit with which the boys fought resulted in a big demonstration when they left the ring.

The referee, Jimmie Dever, of Jackson, officiated to the entire satisfaction of all, his thorough knowledge of all the fine points of the game, learned from long experience as a principal in ring battles in his younger days, fitting him remarkably well for this position.

The staging of the boxing event here deserves favorable comment, for everything was in ship-shape style. The "ring" was neatly arranged on the center of the stage and in the rear and both sides were ring-side seats filled with enthusiastic fight fans. The music by the orchestra, a bunch of local musicians picked for the occasion, was very good.

In the large audience were recognized the familiar faces of men from surrounding towns, Clinton, Adrian, Blissfield, Britton and Manchester being especially represented.

He Had to Do the Housework and Farmwork Too

BUT WHEN NERV - WORTH RESCUED WIFE FROM THE "FLU," SHE RESCUED HIM FROM THE DISHPAN.

In substance, source and value the following signed statement given a few days ago by C. C. Chondler of Richmond, near Steubenville, O., is one of the most forcible and convincing ever submitted in behalf of a medicine:

Beall & Steele—I have a double reason for praising Nerv-Worth. Last spring my wife had the "Flu" and she was not able to do the house work for a long time. We could not get help and I had to work the farm and do housework, too. I read about some of the wonderful things Nerv-Worth was doing for people, and decided to try some for the wife.

She commenced to improve in three or four days after she started to take the medicine, and in less than two weeks was helping me with the housework. She soon got so she could do all the house work, and at the present time, I do not know of anybody that enjoys better health than she does.

I got out of doing the house work and got a well wife. That's why I have two reasons for praising Nerv-Worth.

Newspapers Best for Farm Sales

This is verdict of the agricultural journalism department of the Iowa State College.

Read this, Mr. Farmer:

Only a few years ago the principal reliance of the farmer in advertising a sale was the "bill" or poster; now it is said he is doing most of his advertising in his local country newspapers. "This change is a change for greater efficiency in advertising," says the agricultural journalism department at Iowa State college. "When you consider the number of farmers reached," it adds, "the newspaper advertisement is much the cheaper. Wherever farmers have watched their sale advertising they are strong in their indorsement of newspaper space."

If you intend to have a sale come to THE HERALD office before you make your plans, as our long experience is at your service to help you get the

In 1892 at the age of 14 she moved into the village of Tecumseh with her parents, where she resided until 1912, when she moved, with her family, to the home where she passed the remainder of her days, in the duties of a home-maker, and rearing her family.

At the age of 20 she united with the Episcopal church of Tecumseh and requested in her closing days that the last service should be conducted by the church of her choice.

On March 14, 1901, she was married to Lemuel Goldsmith, and to them were given five children: Gwendolyn, Lyrna, Mary, Casper and Donald. Donald, the youngest son, died May 16, 1919.

FORMER LOCAL M. E. PASTOR DIES IN WEST

Word has come to Tecumseh friends of the death of Rev. John P. Varner, a former Methodist minister here. Rev. Varner passed away February 11 at the home of a niece in Colorado Springs. He had been in poor health for some time and had just returned a couple of weeks before from California to which state he had gone in a vain search for health. Cancer of the stomach was given as the cause of death.

Rev. and Mrs. Varner and two small sons left Tecumseh some 25 years ago, after he had been pastor in the M. E. church for five years. In a short time they moved to Colorado to improve son's, Orien, health. They bought a ranch near the town of Parker and there being no church there Rev. Varner organized one and had preached to this congregation frequently as long as his health permitted. The son, Carl, was drowned and the wife died a year or more ago.

It was in this church in Parker that the funeral services for the founder were held and those in attendance were his friends from all over the divide country, who appreciated this splendid character. The remains were taken to Harrisburg, W. Va., the old home, for burial.

Rev. Varner was one of the most popular men who have occupied the Methodist pulpit in Tecumseh. Honest and fearless, he was highly respected and drew immense crowds by his forceful preaching. Of the family of four, only the one son, Orien, remains. He with his family reside on the ranch near Parker.

WIT AND WISDOM CLUB OBSERVES JAPAN NIGHT

Japan night was observed Monday evening by the Wit and Wisdom club at the home of Dr. and Mrs. E. D. Brown. A paper on Korea was read by Mrs. H. R. Conklin. "The Lady of the Decoration" was read by Mrs. J. O. Eaton, followed by an instrumental solo by Mrs. W. G. Waldron. Rev. [illegible] Scott, who for 30 years has been a missionary in Japan, is visiting Mr. and Mrs. A. O Howard so he was placed on the program and talked of Japan, her present condition after the war. His address was intensely interesting.

Rev. C. M. Thompson told of Japan and the Shantung peninsula. Mrs. Maynard Mulvaney sang and roll call was responded to with Japanese superstitions.

Refreshments were served with Misses Hazel Miller and Bertha LaPointe, in Japanese costumes at the tea urns.

ENTHRALLING RECITAL BY ENGLISH ORGANIST

To the music lovers of Tecumseh who on Monday night at the Presbyterian church heard Gatty Sellars, the English organist, the recital was a rare treat, for seldom does such a wonderful artist come to so small a city. He has just returned from a trip through South America, and several of his original selections partook of the quaint airs of that country. One, which he calls "The Mighty Andes," is exceptionally effective.

His descriptive work in his "In Venice" was so vivid one could hear the chanting of the monks at their "Vespers" following the chimes from the towers of St. Marks.

He finished his program with "The Storm in the Alps." In this a peasant concert is interrupted by a great mountain storm and this demonstrated organ work not dreamed possible by the unitiated in his audience. The effect was made more realistic by arrangement of the lighting in the church so that one lived the terror through with the peasants and joined with them in their song of thanksgiving at the close.

Commerce Club Meeting a Corker

LIVELY INTEREST IN HOUSING PROPOSITION.

Plans Progressing Nicely—Full Pavement Through Business Street Favored — Wednesday Entertainments for Coming Season Endorsed.

The annual meeting of Tecumseh Commerce club, held at the council chamber last evening, was one of the most interesting gatherings of the kind experienced in years. Considering that no refreshment inducements of any kind were offered the attendance was fine, between 60 and 70 men gathering to discuss community welfare matters.

The meeting was called to order by Chairman J. R. Nyland, who explained the object of the Commerce club, stating that it was not an organization of retail business men, but that all men interested in the welfare of Tecumseh were wanted as members. Last year the club had a membership of 50, while it should be an organization of at least 150. There has been no committee on membership and no special efforts to secure members had been made. He recommended that such a committee be appointed.

Commenting on some of the good things accomplished by the Commerce club he cited the case of the Quaker Oats Co. who upon finding their tax assessment had been raised considerably over that of the Uncle Sam Macaroni Co., were ready to move new machinery and equipment to Battle Creek. Prompt action saved the industry for Tecumseh. Wednesday specials and the Boy Scout organizations were among the good things fathered by the Commerce club.

The chairman called attention to the serious problem of housing that confronts Tecumseh. At least two factories have stated they have employment for additional high class mechanics if homes can be provided.

The first business to come before the meeting was the election of a nominating committee to select a new executive committee. On motion the chair appointed as such committee B. J. Pulver, Geo. Hines and R. K. Anderson.

Secretary-Treasurer H. S. Temple reported a small balance in the treasury, giving a statement of receipts and disbursements. His report was accepted and ordered filed.

Rev. W. A. Rex reported a financial deficit in the Boy Scout banquet. This was ordered paid by motion.

Chairman Nyland asked for volunteers to serve on a membership committee, Rev. W. A. Rex, H. S. Temple, Chas. A. Ihrkey, Chas. Hanna and B. S. Moore signifying their willingness to serve on such committee.

A motion to place an advertisement in this week's Herald was carried.

A suggestion to raise the annual membership dues from $2.00 to $5.00 was not favored, as it is the intent to increase the membership if possible.

B. J. Pulver from the housing committee reported that $9,100

Special School Election March 15

Board of Education Puts Teachers' Plea for Bonus Up to Voters in This District.

On Monday, March 15, at 7:30 p. m., there will be a special meeting of the electors in School District No. 7, Tecumseh, to act on the plea of the teachers in the schools of this city that they be granted a bonus, they asserting their present salary is insufficient to meet their needs.

The teachers recently petitioned the board of education for a bonus of $150, they presenting figures to show their salaries were inadeqrate to meet their expenses. The school board took the petition under advisement and decided to place the proposition before the electors of the district.

All legal voters are urged to attend the special meeting next Monday night, which will be held in the auditorium of the high school.

The question to be decided is an important one and as the teacher problem is one of the most vital now confronting the public it is hoped the attendance at the meeting will be very large.

Township Caucus of G. O. P. is Unruffled Affair—Candidates Chosen Unanimously.

Republican Township Ticket.

For supervisor — John F. Schreder.

For clerk—Hugh H. Hanna, jr.

For treasurer—Mrs. R. W. Cole.

For highway commissioner—Faye VanValkenburg.

For justice of the peace (full term)—W. F. Fisher.

For member of the board of review (full term)—F. D. Avery.

For constables—Mrs. E. E. Howard, Bert Mominee, John H. Smith and W. J. C. Hastings.

For overseer of highways—Will Anderson.

For township committee—John F. Schreder, Hugh H. Hanna, jr., and Mrs. R. W. Cole.

There was complete harmony at the Republican township caucus, held at the council building Tuesday evening, all of those nominated being chosen unanimously.

The meeting opened promptly on time, there being a large attendance, with quite a few women present when the gathering was called to order. Before the caucus closed nearly a dozen of the new voters had arrived.

Frank J. Temple was selected to preside over the deliberations of the meeting, Leon Rosacrans being chosen clerk. John McIntyre and Archie Boyd were elected as tellers.

The business in hand was transacted without a ripple and in a speedy manner. If the Republican ticket is successful at the coming election Tecumseh will have a woman constable, as Mrs. E. E. Howard is running for that office, her name having been presented by John D. Shull.

51 Votes Cast at Village Election

Ten Women Visit Polls—With But One Ticket in Field Interest is Lacking.

It was a very small proportion of Tecumseh voters who took enough interest in the village election last Monday to cast their ballot, as only 51 exercised the right of franchise. As there was only one ticket in the field, the Peoples party, there was little incentive for a large vote.

Ten women voted, three from the west side and seven from the east. Twenty-four men residing on the west side cast their ballot, the number from the east side being 17.

As the result of this election, the list of village officers for the coming year will be as follows:

President—George B. Hines.

Clerk—W. L. Coller.

Treasurer—Mrs. Franc S. Gillespie.

Assessor—George S. Field.

Trustees—Harry Moore, Chas. Hanna, B. J. Pulver, George H. Kempf, E. M. Campbell and Dr. E. E. Hendershott.

Two of these officers are new ones, Trustees Hanna and Moore, B. J. Pulver being chosen to succeed himself.

The old council will hold a meeting as a canvassing board this evening to canvass the votes cast at the Monday election.

On the first Monday in April the old council will hold a brief session to turn the affairs of the village over to the new board of trustees, which will then organize for the coming year.

AMERICAN LEGION HOLDS SIMPLE BUT IMPRESSIVE MEMORIAL SERVICES

Tecumseh Post Largely Represented at Exercises at Presbyterian Church—John D. Shull and Rev. Rex Speakers—French Memorial Diplomas Presented Relatives of Soldier Dead.

Unpretentious but sincere homage was paid the memory of Tecumseh boys who gave their life for their country during the world war when Underwood-Orr post, American Legion, met at the Presbyterian church Sunday afternoon to do honor to the buddies who "did not come back." In prayer, song and addresses those who made the supreme sacrifice were eulogized and those [illegible] who went overseas ready to give their all but were spared to their dear ones were also given full credit for their part in the preservation of liberty.

There were a large number of service men in attendance and also quite a few of the relatives of the youths who fell on the field of battle. Civil war and Spanish war veterans and a group of Boy Scouts, in charge of Scoutmaster Laidlaw, were also among those in attendance.

R. K. Anderson, commander of Underwood-Orr post, was in charge of the meeting. The services opened with the singing of "Onward Christian Soldiers" and then Mr. Anderson told briefly why the meeting was being held. He referred to the warm ties of friendship that existed between the United States and France and that the French government, in appreciation of the great service rendered that country by our boys, had prepared memorial diplomas for the kin of all the young men from this side of the Atlantic who had died on the field of glory in France. One of the objects of the services of the day, he said, was to present these diplomas to the ones they were intended for. The French memorials pictured the soul and spirit of the American army, the speaker explained,

GRANGE WILL HOLD ST. PATRICK'S BANQUET

What promises to be an unusually interesting event will be held Wednesday, March 17, when Tecumseh Grange will hold its annual St. Patrick's Day banquet.

The feast will be served in the Grange hall at noon and will be furnished and served by the men.

There is to be an array of speakers who will have something of importance to impart to their hearers and it is hoped the attendance will be much larger than usual. All Grangers, whether in good standing or not, are requested to be present and bring a friend. There will be a charge of 35 cents to help defray the expenses.

WESTMINSTER GUILD TAKES UP NEW BOOK

Mrs. H. E. Wilson and Mrs. W. A. Rex were hostesses for the Westminster Guild Tuesday evening at the home of the former. At the study session Mrs. J. H. Smith led and the new book, "The Crusade of Compassion," was begun. The first chapter, "The Battalion of Life," was discussed by Mrs. J. D. Service and Mrs. C. N. Graebner, the second chapter, "Conditions in India," by Mrs. Margaret Carr and Dr. Pauline Bredow.

Following the hostess served refreshments.

The next meeting will be held Monday evening, March 22, instead of Tuesday on account of the Lenten services. Mrs. J. D. Service will be the hostess.

Editorial Comment

Clearly evident is the fact that good old Tecumseh has bright future prospects. This was manifested by the enthusiasm and interest displayed at the annual meeting of Tecumseh Commerce Club last evening. While the city at large and the business district were not represented as largely as the occasion warranted, enough men were present to show the trend of public feeling. It is very evident that Tecumseh people do not wish to stand still and allow other places to forge ahead, for it must be acknowledged that standing still now means going backward.

Above all Tecumseh wants to keep what industries she now possesses. More than that, she wants to help these industries to expand and for that purpose a building organization is being formed. Houses must be provided for workmen. Our factories are in need of more skilled mechanics and these are desirable citizens.

The plan proposed and well launched does not call for gifts of money, but a loan or investment. The money will return, perhaps not with liberal interest, but with the assurance of a better and bigger Tecumseh. The purpose is to furnish desirable houses—such as will satisfy skilled workmen. The weekly payrolls of our factories are vitally important to the business activities of our city. Eliminate one and the effect would be felt immediately. The housing proposition would be a thing of the past.

House rents in Tecumseh have been at such low rates that the building of tenant houses has proven a poor investment. Now this sort of investment is looking up. But modern homes are demanded. Skilled workmen commanding good salaries demand livable quarters. They want modern conveniences and are willing to pay for them. To supply these owners of tenant houses are urged to remodel them. Relegate the old kerosene lamp for modern electricity and give the tenant an opportunity to take baths. Wake up to the fact that betters returns are received from modern homes and act at once.

The Commerce Club should have more members and hold frequent meetings. Every head of a family, and especially property owners should become affiliated. With such support the forward movement of Tecumseh can not be stopped and a few years will witness a remarkable improvement in business and social activities and the general appearance of our city.

There was no hesitating of the men at the meeting last evening in regard to the width of the pavement through the business district. Every man was on his feet for a sidewalk to sidewalk pavement and that is the only thing to be considered here. The coming state road through Tecumseh is an opportunity to be welcomed and taken advantage of. Just what procedure will be taken will have to be decided by the village council.

Don't fail to attend the stockholders meeting of the new building association this evening. If you are not a stockholder get busy and secure a block. Have an active part in the forward strides of your city.

U. OF M. STUDENTS SPEAKERS AT UNION LENTEN MEETING

Tecumseh People Urged to Adapt Business Practices to Church Activities—Community Service at M. E. Church Again Next Sunday Evening.

Another quartet of U. of M. students met a pleasing reception at the Community service at the M. E. church Sunday evening as the first of the Lenten union services. Rev. C. M. Thompson presided at the service, with the usual opening devotional exercises. Among the announcements made for the next four weeks' services, most of which have already been published, was that Fred C. Dickinson will act as song leader during these services.

The leader of the group of young men was then introduced as Mr. Bailey, and he conducted the singing of the evening, besides giving a solo. He introduced the remaining three. Mr. Cochran spoke on "Social Aspects as Applied to Young People." They are the ones to keep the church good. He advocates a "real good live young people's meeting." He says "we all have a tendency to drift but we must get behind the minister who is thought to attend to everything in the church from furnace to steeple."

Mr. Cramer was the second speaker, giving personal experiences. He was in the service, in a company which was almost entirely wiped out, and he told how the boys had caught the spirit of service and self sacrifice. He complimented the ministers on the success of their union services.

Harold Lowry then gave a solo, accompanied by Mrs. Ella Hodges.

Mr. Dillon, another of the boys, addressed the audience on "How to Make Your Christian Work a Success." He says, "Go into it unselfishly, to benefit the community as a whole. Let 'Others' be your slogan." The self-centered person or nation brings disaster. Unify. Use the same tactics in the church as are used in industry. Combine. The church is made up of shirkers, workers and jerkers. Have faith in "get out and get under" and pray.

The leader, Mr. Bailey, closed with "How to Spell Church"—Christ's Helpers United in a Religious Conquest for Humanity.

The boys had to pay a taxi driver $30 to bring them here, so that amount was asked for in the collection. The latter amounted to $14.85, but the balance was promised. The congregation enjoyed the bright, terse remarks of the young fellows and a U. of M. team will be gladly welcomed frequently.

OFFICERS CHOSEN BY SUNDAY SCHOOL CLASS

Mrs. Frank Nyland's Sunday school class was happily entertained last evening by Miss Marian Williamson. They elected these officers:

President—Geraldine Gillespie.

Vice President—Helen Hall.

Secretary—Alice Beasley.

Treasurer—Gladys Smith.

In the contests Alice Hall and Eleanor Caldwell won the prizes. Refreshments were served.

JAY MORSE IS HOST TO BAPTIST BROTHERHOOD

Jay Morse entertained the Men's Brotherhood of the Baptist church at his home Monday evening. Twenty-five were present. Earl McNeil, the president, called the gathering to order when Horace Lamkin addressed the company on "The Social Test of Religion." Discussion waxed interesting and was continued until a late hour. Mrs. Morse served delicious hot biscuits and maple syrup.

COMMERCE CLUB MAKES PLEDGE AT FATHER-SON FEAST

First Banquet for Two Tecumseh Troops Distinct Success—To be Made Annual Event—Toast Program and Playlet Most Diverting.

All Boy Scouts of this city are now vigorous boosters of the Tecumseh Commerce club.

Why?

Because the Commerce club banqueted and entertained the two local troops of Boy Scouts so pleasurably last Thursday evening that it imbedded itself deeply in the affections of these wide-awake lads. And the Scouts will not soon forget it.

The feast was held at the high school, and was the first of a series of annual father and son banquets the Commerce club is to give for the local Boy Scouts. The menu was most appetizing, being served to excellent music furnished by the Ladies' band. The program of toasts and the playlet following the banquet were highly enjoyed and fully appreciated by the 128 fathers and sons in attendance.

Long tables had been arranged in the gymnasium and here the great variety of viands prepared by the ladies of the Episcopal church were served. The Lord's blessing was asked by Rev. J. J. Preston, the new rector of St. Peter's Episcopal church. American flags were conspicuous in various parts of the gym. No Boy Scout gathering is complete without a few yells, so Perry Hayden led in several lusty outbursts before the attack was made on the good things in the edible line. When all

Editorial Comment

In deciding to substantially back the Boy Scout movement in this city the Tecumseh Commerce club is taking a step that will bring greater and more far-reaching results than anything this organization has ever undertaken.

The club announced at its complimentary father and son banquet to the Boy Scouts Thursday evening that the local troops would be provided with tents this summer and would be otherwise supported so that the movement can continue its important work in making manly men of the boys of Tecumseh.

President J. R. Nyland of the Commerce club asked in return for the support given the Boy Scouts that each Scout see to it that his father be a member of the commerce organization, as the cooperation of all the business men of the city is needed to make both these propositions 100 per cent successful.

As the boys of today will be the men of tomorrow it is vitally important the lads of Tecumseh be trained so they will become loyal citizens and men of integrity. It is admitted the Boy Scout code of ethics, followed by the youth in his formative period, shapes his character along the very lines that will produce this result, so every encouragement given the movement is a step toward a higher citizenship.

But the task of supporting the Boy Scout movement here is not completed with the mere announcement that aid will be extended. The Commerce club deserves the whole-hearted support of all the business and professional men of this city in this and its other undertakings, the one in progress now of providing homes for skilled workmen needed in local factories also being very important. Earnest co-operation or team-work, which has made the girls' basketball team of the local high school such an outstanding success, is what is needed in Tecumseh's business life that this city's appelation, "Biggest Little Town on Earth," will not become an empty title.

The print paper situation, instead of easing up, is becoming more serious, until now the price is nearly six times as high as it was before the United States put on her war paint, and at that it is difficult for publishers to secure shipments. Thanks to the many loyal subscribers who answered the appeals of the publishers, The Herald has so far succeeded in breasting the crisis, and with the help of those who are responding so readily to statements mailed Tecumseh is likely to continue to have a first class representative local newspaper. The steady increase in circulation and the many complimentary remarks accompanying renewal subscriptions is evidence that the readers appreciate the efforts of the publishers. We thank you.

It behooves us all to attend divine worship regularly during this Lenten season even if we do not go to church much during the rest of the year. The pastors request the people of Tecumseh to give Jesus the right of way during this important period of the church year, promising to do their part. God's word, so full of divine inspiration and pledging life eternal for those who believe, should have a more urgent appeal than usual now and draw us to the special services which are being held at present.

Monday, March 15, the people of school district No. 7 will be asked to vote upon an increase in salary for the present year of the teachers. That instructors of youths have been underpaid for years is well understood, and the high cost of living now has brought a request for a bonus to each teacher. Electors of the school district will no doubt see the justice of the appeal of the teachers.

What's the matter with the heating system in our school building? With a new modern building it should not be necessary to send the children home because of lack of heat comfort. If the heating system is at fault it should be remedied.

And still the election fraud trial at Grand Rapids is holding sway. Looks like it's going to cost a mint of money to convict, if a conviction is secured.

Evidently the municipal ticket voted upon Monday was entirely satisfactory to electors (male and female) of Tecumseh, judging from the number of votes cast and the lack of interest manifested. That the ticket would be elected was a foregone conclusion, but it would not have taken a very large number of votes to elect an entirely different set of officials had such an effort been made.

The Republican township caucus Tuesday was not a dull, drawn out affair, but the business was transacted with unusual dispatch. The attendance was good, women electors being fairly well represented and two were placed in nomination for office. The caucus was called promptly on scheduled time and with F. J. Temple presiding there was no hitch in the proceedings.

Herbert Hoover again declines to be a presidential candidate. However, there are enough others who would like the honor.

Politics in the county is warming up some and petitions for prospective candidates are being circulated by friends.

LOCAL TEAMS PLAY IN BRITTON FRIDAY NIGHT

Tecumseh high school's boys' and girls' basketball teams play away from home tomorrow night, being scheduled to oppose Britton in that place. The local players expect to bring home the bacon, both teams anticipating victory in the neighboring town.

Through a misunderstanding it was stated in last week's Herald that the Tecumseh boys lost to the Morenci lads in their encounter in this city Feb. 27, but such was not the case, the home team overcoming the visitors with a 32 to 26 score.

In last Friday's game against Olivet the Tecumseh girls continued their victorious march, taking the contest by the score of 26 to 19. This was a very fast game, both teams going at their best. At the end of the first half the score was 21 to 6 and as the result of good team work and spirited play the visitors threatened to grab the contest but could not quite make it.

The boys' game, won by Hudson 30 to 19, was a slow one, neither side playing up to form, Tecumseh being especially off color. The local lads seemed to have lost their pep and could not strike their stride.

FRANK MILLER TAKES A PLACE IN BRITTON BANK

Frank Miller, who has been connected with the Tecumseh State Savings bank about 13 months, has severed his connection with that institution and has taken the position of assistant cashier of the Peoples State Savings bank of Britton. Mr. Miller's pleasing personality and intensive experience in the banking business will make him a valuable asset to the thriving Britton financial institution.

Glenn Bowen has been added to the force of the Tecumseh State Savings bank and his friends predict a successful career for him. He is the son of Mr. and Mrs. R. J. W. Bowen and has had considerable experience as a bookkeeper, having held such a position with the Acme White Lead Company of Detroit before he went into military service. He did office work while serving Uncle Sam.

Miracle Motor-Gas, on Sale Here, Solves Gasoline Problem.

With the present price of gasoline making serious inroads on the average motorist's pocketbook, the field for a good gasoline saver is almost unlimited, and motorists have been looking around to find some harmless chemical that will cut down their fuel bills, give their motor more power and insure smooth running by cleaning the cylinders of carbon.

Miracle Motor-Gas, sold in this community by Geo. J. Wintersteen, located at Tecumseh, Mich., has solved the problem.

Mr. Wintersteen states that the chemical constitution of Miracle Motor-Gas is absolutely harmless, and this assertion is backed by the experiments of well-known chemists and auto experts. They offer in Miracle Motor-Gas an auxiliary product that will replace what the low gravity gasoline of 62 degrees lacks to give the satisfactory results that we got from 76 degree gasoline sold several years ago—before motoring became so general and the price of fuel advanced. It contains properties which act upon the molecular construction of the fuel, producing complete combustion—making every drop produce power—utilizing that heavy, inert oil that all low gravity gasoline contains, converting it into power or driving it out through the exhaust pipes, leaving no carbon to accumulate.

Tests on various makes of cars in every section of the country have shown remarkable results from the use of Miracle Motor-Gas, the mileage on cars per gallon increasing as high as 50 per cent, while the action of Miracle Motor-Gas prevented carbon from forming on the cylinders. Cars under experiment showing easier hill climbing ability, faster ignition and greater all-around power.—adv.

SPECIAL SCHOOL MEETING

Of District No. 7, Tecumseh, Called for Monday Evening, March 15, at High School Building.

This meeting is called for the purpose of voting on the petition of the teachers for an increase in salary. A bonus of $150 is asked. This is a matter that should have the consideration of every taxpayer of the district, not only from a financial standpoint but for the good of the schools. The teachers petitioned to the board of educatin for this increase in the present year's salary. While the board are favorable to the teachers' request yet they believe it out of their power to grant the request without the vote of the school district, and for this reason the board have called this special school meeting.

In petitioning the board the teachers do not intimate an intention of violating their contract if the request should not be granted. But we are asked to consider the increase in cost of living expenses since their contracts were made a year ago. The expense to teachers is no exception to those in other pursuits, professions and line of labor. The increase asked is only a small amount in proportion to the increase in salaries in other pursuits. This same request for increase in salaries is made quite general throughout the state and so far as we know the request has been granted. The amount asked in some city schools is far more than asked here. Had the increase in cost of living been anticipated one year ago it would have been impossible to contract with teachers at anywhere near their present salaries. Some of our teachers by strict economy have been able to meet their living expenses with their present salary, others have been compelled to ask for aid from home to enable them to pay their expenses. There is little incentive for our young ladies and young men to spend as many years in school and college as is required of them to become competent teachers and teach for a salary that will not more than pay living expenses.

There is no question but that the taxpayers of school district No. 7 are proud of their new high school building and our corps of teachers, and the progress made in the schools is of the best. This has been particularly manifested in a very large increase in number of non-resident pupils. This high school standing should be maintained. It can only be maintained by the support of the taxpayers.

The retention of every efficient teacher in the school system for the coming year should be our aim. It is of vital importance to our young, and to the whole school district. It would be an unwise move to drop back and employ inexperienced teachers for a less salary. Our aim should be for better schools, and better care for our children. Give them the best we have and better fit them for their future life.

It is hoped that all taxpayers of the school district will give this matter their careful consideration and that they will make a special effort to be present at the school meeting.

Board of Education,
By J. H. Smith, President.

CLARA WALDRON DIES AFTER LONG ILLESS

Miss Clara Waldron passed away Saturday afternoon at her home west of town after an illness extending over 18 months. The funeral was held Tuesday afternoon from the home of her brother, Lewis M. Waldron, on West Kilbuck street, Rev. W. A. Rex officiating. Burial was in the family lot in Brookside.

Miss Waldron was born April 19, 1859, on the farm where she had always made her home until the last summons. She received her diploma from the local high school with the class of '77 and also graduated from the State Normal. Then for 20 years she followed the profession of teaching. She taught many terms in the Culbertson district and for 11 terms in the Section school. Since the death of the parents, Mr. and Mrs. Aaron Waldron, the two sisters, Clara and Hettie, have lived alone on the farm home, doing nearly all the farm work alone.

Surviving are the one brother, L. M. Waldron, and two sisters, Mrs. C. A. Payne of Watkins, N. Y., and Miss Hettie.

When a young girl Miss Waldron united with the M. E. church and was a devoted attendant as long as her health would permit. This estimable lady leaves a host of friends whose sympathies go to the bereaved sisters and brother.

Catarrhal Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure Catarrhal Deafness, and that is by a constitutional remedy. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing may be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces.

ONE HUNDRED DOLLARS for any case of Catarrhal Deafness that cannot be cured by HALL'S CATARRH MEDICINE.

Burglars Active, Visit Three Places

Floyd LeBaron and Carl Halsey Each Confess to One Robbery and Are Placed on Probation.

Tecumseh has suffered several robberies, but of no great amounts, during the past week. The first was reported to Deputy Sheriff Smith from the Gratz elevator where $28 in money and a check for $50 had been stolen from the desk in the office. Suspicion pointed to Floyd LeBaron, who had been hanging around the building and he was arrested and taken to Adrian, where he waived examination. Monday he was brought before Judge Hart, and pleaded guilty. He was placed on probation for two years.

Thursday morning Mr. Gratz again called Mr. Smith, saying the Raisin mill had been entered. A half-crate of eggs was missing and in its place was left a dog, locked in the mill. A broken window told the manner of entrance. The officer brought the dog to town and placed him in the jail awaiting some one to claim him. The next day he was released and the deputy followed him to his home, where the family greeted him rapturously. When asked who had borrowed him on Thursday they said "Carl Halsey," so the officers picked him up and took him to Adrian. There on Monday he, too, pleaded guilty and was placed on probation.

On Saturday morning the Lenawee Lumber & Supply Co. notified Deputy Smith that their office, at the north end of Pearl street, had been entered through a back door some time the night before and mussed up generally. Only $4.00 had been "lifted," however. That it was the work of amateurs was proven when Mr. Mulvaney tried to open the safe. It had been left unlocked, but the thief had turned the knob in an attempt to open it, thus locking the door so the owner had some time getting into it the next day. The thief has not as yet been found.

Mrs. Bert Mominee fell on an icy walk a couple of blocks from her home Friday and was so badly injured she had to be carried home. Dr. O. Q. Jones was called and found her leg hurt above the ankle, the covering of the bone being torn, which will take about as long to heal as a broken bone. Mrs. Mominee is resting comfortably now.

Rev. J. J. Preston, the new rector of St. Peter's and St. John's parishes, arrived last Thursday afternoon to begin his work here. His first services were held in Clinton Sunday morning and Tecumseh in the afternoon. Those in attendance speak in high terms of the inaugural sermon delivered, and it is felt that Rev. Preston will succeed in reviving and maintaining good interest in the two parishes.

Perry VanValkenburg, former highway commissioner for this township, was in the city Tuesday evening. Although now a resident of Adrian, since his appointment as supervisor of road maintenance by the county road commissioners, Mr. VanValkenburg still is interested in the affairs of his old home township, his attendance at the Republican caucus being evidence to that fact. Mr. and Mrs. VanValkenburg have purchased a home in the county seat, being located at 737 College avenue.

Reasons Why You Should Use Miracle Motor-Gas

FIRST—MIRACLE MOTOR-GAS is a scientific preparation for increasing the efficiency of gasoline with the express purpose of making it more volatile and thereby assuring a perfect carburetion for your motor.

SECOND—Carbon is caused by the use of low-proof gasoline that allows heavy globules to flow through the mixing chamber into the motor, collect on the piston heads and turn into hard carbon. MIRACLE MOTOR-GAS improves your fuel, neutralizes carbon deposits, thereby eliminating 90 per cent of your troubles at their source.

THIRD—MIRACLE MOTOR-GAS will eliminate all carbon knocks usually arising from a heavy deposit of carbon in the cylinders, which prevents the motor from discharging freely the burned fuel, thereby creating a slow, sluggish motor and the usual troubles following the action of imperfect ignition. This will not occur when MIRACLE MOTOR-GAS is used.

FOURTH—Cause: MIRACLE MOTOR-GAS will eliminate at its source and correct fully 75 per cent of carbon troubles by neutralizing the bad after-effects of same at their beginning, thereby producing a quick-acting motor under the most unfavorable conditions of weather.

FIFTH—MIRACLE MOTOR-GAS will give a marked increase of power by giving you at all times a perfect mixture that flows freely and constantly with your every touch of the throttle. This increases your mileage and gives you a quick, snappy motor, of which you so often dream and hope for when the unfavorable conditions are encountered.

SIXTH—Eighty per cent of carbon is created by liquid gasoline collecting on the cylinders from improper mixture or wrong carburetor adjustment. Very low-proof gasoline can be used when treated with MIRACLE MOTOR-GAS, thereby saving cost of fuel as well as other annoyance.

SEVENTH—MIRACLE MOTOR-GAS can be used in motor boats, gasoline or kerosene tractors, stationary engines or motorcycles, and will increase the efficiency of the engine by improving the action of poor fuel.

EIGHTH—MIRACLE MOTOR-GAS is chemically similar to gasoline itself, so there is no danger from using a great amount. MIRACLE MOTOR-GAS is used constantly by thousands of motorists, with gratifying results.

NINTH—MIRACLE MOTOR-GAS is sold and guaranteed by a reliable company, and will give you the results claimed for it. We are selling MIRACLE MOTOR-GAS strictly upon its merits. It is scientifically prepared for the elimination of motor troubles.

TENTH—MIRACLE MOTOR-GAS contains nothing that will in any way injure the motor. Its use saves annoyances, and is an economy in the saving of fuel. MIRACLE MOTOR-GAS is a "health food" for motors, and is used by motorists as a tonic for motor cars.

ADVERTISING IS HELP TO BUSINESS FARMER

That farming, the biggest business in the world, and advertising the greatest selling force, need to get together, was one of the points brought out last week at the community newspaper conference held in connection with Farmers' week at Cornell.

The farmer needs to do two kinds of advertising, it was declared. First, educational advertising, the same sort that the meat packers and the railway executives are doing. The reason the city man sometimes says that the farmer is profiteering is because he does not realize all the expenses which go into the production of food, plant or animal.

A farm publication was quoted which advocates the creation of a fund by an association of farmers which shall be used for a national campaign in the newspapers and magazines to tell the story of agriculture.

"Take the city man into your confidence," says this farm paper to the farmer. "Tell him the wonder story of production. It is a wonderful story. In agriculture you have the greatest romance of all time. Show him what it costs to raise your bushel or peck of onions. You have factors entering into these costs which would stagger a bank examiner."

The greatest part of the discussion was devoted to ways in which farmers may advertise their own products and thus get better markets than when they sell through the usual channels. It was declared that every farmer advertises more or less, for advertising is only telling what you have to sell and showing why the other man should buy it. When a farmer says to a neighbor: "Say, Bill, know anybody that wants a couple of fine pigs? They are dandies"—that's advertising. So is it advertising when a farmer has an auction and has a few bills "struck off." But good as a bill may be it was felt that an advertisement in the local paper is much better. "The reader must go to the bill, while the ad goes to the reader," was the way this was phrased.

TRIBUTE IS PAID HEROIC BUDDIES

(Continued from Page One)

which had such an influential part in keeping the torch of liberty burning. The post commander declared, however, that the crown of martyrdom belonged to the men who died in the camps in this country fully as much as to those who fell on the firing line.

Rev. W. A. Rex offered a fervent prayer, this being followed by a selection by a male quartet.

John D. Shull gave the first of the two addresses of the afternoon. He said it was fitting that we gather to pay our last respects of tribute and devotion to the boys who died that liberty might live and to render homage to the memory of those who in the hour of trial had made the supreme sacrifice. The survivors of the world war, the American Legion, he declared, are the hope of the nation. He reminded his hearers how France came to our aid at a very critical time in our history, and in picturing the dramatic scene when Gen. Pershing stood at Lafayette's grave and said: "Lafayette, we are here," the American commander meant that the United States was ready to pay its debt of gratitude with compound interest for a hundred years. Mr. Shull, who is a veteran of the civil war, closed his remarks with a plea that we all pledge a firmer loyalty to country and flag.

"The Marseillaise" was sung with much expression by Mrs. R. S. Moore.

Rev. Rex addressed his remarks directly to the relatives of the boys who sleep on Flanders field, asking them to take what had been said and thought as that full measure of gratitude that goes out to you from a liberty-loving nation. It is not the fact that these boys died that is of such vital importance, the preacher asserted, but the fact that they died for some great thing. France and America has long held kindred thought, Rev. Rex remarked, and that when the boys of the United States joined forces with the young men of France they met on an equal platform of what liberty meant. "Too much cannot be said for any soldier of any war who died for his country," declared the speaker, and continued: "Words not enforced by deeds are in vain. If we do not live as they died then we are unworthy of their death. May the memory of those who died inspire us to live for what they died. It is for us to live out the principles for which these boys laid down their lives." Quoting Lincoln from his Gettysburg address the pastor said: "Let us here now highly resolve that the dead shall not have died in vain."

"We must complete the operation they began," exclaimed the speaker. "It is a new world we are now living in and great problems are presented for solution. What is offered this new world? Some say that autocracy of the right kind is needed. But that will not do. Others declare bolshevism will bring relief, but we all know better. Another faction asserts the socialistic program will finish the task, but socialism failed under the most favorable circumstances. I do not believe the church, as she is today, can do it. I believe the eternal God in heaven has a plan to complete the task. And we should pray to Him to make us earnest citizens and true soldiers that we may do our part in solving the vital problems that confront us. America and France are religious nations and it may be that the secret of the future lies with these two countries."

The meeting was brought to a close by all singing "The Battle Hymn of the Republic."

Though simple, the services were most impressive and the eyes of many of those present were wet when the exercises closed.

Not desiring to make the services spectacular, the Legion presented the French memorial diplomas to the relatives of the fallen heroes at the close of the meeting.

And the best way to find that reason, and have it remedied, is to jump in and drive to our Authorized Service Station, where one of our mechanics who is thoroughly acquainted with the Ford mechanism and who knows the Ford way to adjust or repair your car, can tune it up in a garage that is properly equipped to give real Ford service. Then, too, we never use imitation parts—only the genuine Ford-made, strong and durable. In fact it is dangerous to human life to use imitation parts, and it is not fair to your Ford car or your pocket book.

TENTS ARE PROMISED LOCAL BOY SCOUTS

(Continued from Page One.)

had had as many helpings as desired of everything they wanted the gathering proceeded to the auditorium, where the program was scheduled to be held.

John R. Nyland, president of the Commerce club, called the assemblage to order, and on behalf of the club said that organization was proud of the Tecumseh Boy Scouts and would earnestly support the movement in this city. He said it had been planned to have a business meeting of the Commerce club following the banquet but it had later been decided not to take up any time in this way. Mr. Nyland then introduced Charles F. Patterson as the toastmaster of the evening. Mr. Patterson filled this place in a manner that was most pleasing, his sallies in calling on the various speakers being full of wit.

Rev. W. A. Rex was first called on and in very few words sketched the history of the Boy Scout movement in this city, which began one and a half years ago. He closed his remarks with the statement that the boys and girls of Tecumseh are the greatest asset the city has and that anything *done* for their betterment will be a great force for good in the days to come.

The playlet "Dads" was then presented by a group of Toledo Boy Scouts who were induced to come here especially for this occasion that the fathers and sons of this city might learn the lesson which it teaches. The production *points* out that son and father should be closer pals and presents this lesson in such a natural but forceful way that it leaves a deep impression on all. As presented by the youths from Toledo the playlet made a decided hit and there was prolonged applause when the curtain went down.

Judge A. B. Cohn, a Scout commissioner of Toledo and who wrote "Dads," was the next speaker. He has a winning way and talks so earnestly he soon has his audience convinced of his sincerity in the Boy Scout work, in which he is intensely interested. He informed his hearers the Boy Scout *movement,* in which he has been engaged for more than nine years, has something which no other undertaking in the interest of boys offers. It takes the boys in their formative period and inculcates in them habits of thrift, integrity and loyalty that will have a powerful influence for good during their whole life. Judge Cohn declared the greatest factory known to man is the one to make men out of boys. The Boy Scout program accomplishes this, he contended. It forms the boy and if you *form* him you will not have to reform him. The Toledo Scout commissioner reminded his audience the play hour is the most dangerous period in the boy's daily life. *It is* at this time that the lad is free of the restraint of the home, school and church and it is during these hours that he needs to be engaged in clean, *wholesome* and character-building recreation. There is religion in the Boy Scout oath, the speaker declared, and the movement should be vigorously supported as *it* will bring a new force into national life. He was given a rousing yell at the conclusion of his remarks.

Rev. W. R. Curtis gave anecdotes of *his* experiences as a Boy Scout worker, he being Scoutmaster of one of the local troops. He told of many humorous and interesting experiences he and his troop had had, of treasure hunts and other diversions in which the lads entered with zest.

He was followed by Attorney Frederick B. Wood, whose subject was "Business and Scouting." Mr. Wood reminded the men they were only boys grown up and stated he took keen interest in the welfare of the youngsters and said it was *highly proper* the Commerce club and all men see to it that the lads of today be given every opportunity to develop along lines that make for better men and *higher citizenship.* He admonished the boys to play their games on the square, for to play fair now will have its effect and be a valuable asset in future life. As *teamwork* is important in games and athletic contests, so is it essential in business life. He said our duty to society is to live such a life that it will be beneficial to all *and that* what is good for the individual is also good for society as a whole.

At this stage *of* the proceedings there was community singing, led by Perry Hayden and Rev. Curtis.

Then Rev. Rex returned for another short talk and when he asked the Scouts if they wanted these affairs held annually there was an emphatic reply in the affirmative.

There was another song and some yells by the Scouts and then Mr. Nyland again addressed the gathering and when he announced on behalf of the Commerce club that that organization would pledge itself to provide tents for the local Boy Scouts next summer there was *spontaneous* applause. The promise of tents was accompanied by one request, that each Boy Scout make it his business to see that his father join the Commerce club if he is *not* already a member, as the organization needs the support of all the men of the community if it is to become as strong a factor in helping to shape the character of the lads of this city as it hopes to be.

Rescued From a "Flu" Sick Bed in Three Days' Time

JOSEPH LePRELL TELLS HOW WONDERFULLY NERV-WORTH ACCOMPLISHED THE WORK.

This extraordinary statement was made a few days ago to Jas. G. England, of this city, who is *now in Erie, Pa.,* putting on one of his famous Nerv-Worth campaigns:

Feisler's Drug Store:—I suffered from severe pains. Very *feverish. Stomach* and digestion in very bad condition. I was forced to my bed and remained there three days. At times I was burning up with fever and then I "froze up" and knew I had to fight the "Flu."

My wife read a statement about Nerv-Worth being such a great help to ward off this terrible malady, and she purchased a bottle. In a day or so I was out of bed, and am ready to go to work. Nerv-Worth certainly did all and *more* than the makers claim for it. It did its work effectively in my case and I advise all to use it and WARD OFF THE FLU.

GIVES WIFE GLYCERINE MIXTURE

A retired merchant whose wife suffered for years from catarrh of the stomach finally gave her *simple* gycerine, buckthorn bark, etc., as *mixed in* Adler-i-ka. ONE bottle produced great results. Because Adler-i-ka acts on BOTH upper and lower bowel it removes all foul matter which poisoned stomach. Relieves ANY CASE sour stomach or gas on stomach. Often CURES constipation. Prevents appendicitis. B. J. Pulver, druggist.—adv. 4.

Democratic Township Caucus.

Notice is hereby given that a Democratic township caucus for the purpose of placing in nomination candidates for township offices of the *township of Tecumseh,* county of Lenawee, state of Michigan, and for the purpose of transacting such other business as may properly come before it, will be held at the council building *on* THURSDAY, THE 11th DAY OF MARCH, A. D. 1920, at 7:30 o'clock p. m.

By Order of Committee.

HOLLOWAY

Church Notes.

Church services were held as usual Sunday morning, with Rev. *Obee* as supply. There will be a congregational meeting next Sunday morning. A good attendance is desired.

The Leader's Sunday school *class* met with Edna and Sherman Blouch Saturday p. m., with 14 members present. After the business meeting games were enjoyed. Mrs. Blouch served light refreshments.

Holloway News Notes.

LaVon Kinney of Adrian was a Holloway visitor over Sunday.

Frank Hedrick spent a few days the first of the week in Canada.

Mr. and Mrs. Royal McElroy spent Thursday at John McElroy's.

Albert Wagner and family moved Monday to a farm near Deerfield.

Mrs. Carrie Whitmarsh of Adrian visited Sunday with her father, Wm. Doty.

Mr. and Mrs. David McWilliams of Clinton were guests at John McElroy's Friday.

Miss Helen Fowler returned to work Monday at the Lewis, Coe & Howell store in Adrian after a three months' absence.

Mr. and Mrs. Myrlen Fairbanks have moved to E. R. Rogers' farm, it being recently vacated by Albert Wagner and family.

Miss Rebecca Bailey has resumed work at the NuWay Stretch Suspender Co.'s office in Adrian after being sick for several weeks.

John Finnigan returned from Ohio Tuesday, having been called there by the death of his sister and four of her family from influenza.

Mr. and Mrs. Russell Smith, Chester Pilbeam and Royal McElroy of Britton were among the guests at the John McElroy auction Friday.

The teacher and pupils of district No. 3 very pleasantly surprised Miss Esther Wagner Friday evening, it being a farewell party. A pot luck supper was served during the evening.

Mr. Robinette and family from Paulding county, Ohio, have purchased and moved onto the farm near Sutton Station, recently vacated by Chas. Lewis and family. They shipped their goods and some stock by rail and during the trip the car was in a railroad wreck. One cow was killed and *many* things were badly smashed. The family spent Sunday night at the Moorhouse home north of Holloway.

Somehow or other, the country survives the intelligence that there is now a great dearth of second hand princelings available for American matching.

MONDAY CLUB IS TOLD OF SOUTH AMERICA

Rev. Frank Purdy of Clinton gave the ladies of the Monday club an interesting view of South America at their session this week. Mrs. Jay Morse was leader *for the day* and South America was the subject. Mrs. G. R. Newsom was to have one of the papers but knowing Rev. Purdy had lived in that country several years, invited him to substitute for her, which he graciously did.

He told of the wonders of the country with its vast reaches *of* unexplored territory, of the flora and fauna, *much* undreamed by man, of its minerals, fertile soil, but especially did he tell of Montevidio, the capital of Uraguay, where he was connected with a *boys' school* seven years. The styles of the city people are away beyond ours, coming direct *from* Paris. "We are simply not *in it.*" The city with its gas, street cars *and up-to-dateness* is an absolute contrast to the country. There the people live like they did 50 years ago, driving in ox *carts of* two wheels and the primative life prevails. *Society* is divided in two classes, the upper and lower, the latter contented to live their humble life as servants and aspiring for no education or uplift. For 400 years these people have been under the heel of a certain church and are just now beginning to awaken to their need of education and independence in *religion* as they already have in government. This is like ours, with houses of representatives and a president—from the upper class, however. They like the Americans *better* than the people of other nationalities as we have been more friendly to them, hence "we must feel they are part and parcel of us and we must regard them as *real brothers.*"

The program opened with a piano solo and encore by Mrs. Ed Harper and a vocal solo, "Kashmiri Song," an Indian selection, by Miss Lillian Kennedy, accompanied by Mrs. Ella Hodges.

Next week the club will enjoy one of their pleasant musical programs.

April 12, will be the last meeting of the club for the season.

Reduction of *crime* follow prohibition, "cussing" prohibition not *being* a crime.

WOMAN'S CASE AMAZES TECUMSEH

A business man's wife could not sew or read without sharp pains in her eyes. For years her eyes were red and weak. Finally she tried simple witchhazel, camphor, hydrastis, etc., as mixed in Lavoptik eye wash. The result produced by a single bottle amazed everyone. We guarantee a small bottle Lavoptik *to* help ANY CASE weak, strained or inflamed eyes. Aluminum eye cup FREE. B. J. Pulver, druggist.—adv. 4.

Do You Want to be Among the Disappointed?

Have you ever pleasurably anticipated something and then at the last moment been greatly disappointed?

This is the disagreeable situation in which those of this vicinity who plan to build will find themselves this spring if they do not place their orders for materials **NOW.**

Lumber supplies and *other* building materials are fast diminishing and great difficulty will be experienced later in filling orders.

Right Now is the Time to Act!

The reason we urge you to list your *requirements* with us now is that we may place orders and get these materials started toward Tecumseh before some other more progressive community secures the available supply.

There will be a shortage, that is certain, and prices will be higher the longer you delay in placing orders. The lumber dealers who have the co-operation of their patrons and are now placing orders are the ones who will have the goods when they are needed. In order that we may be among the foresighted ones we *must* know what your requirements will be and depend on you to act at once.

While we have a considerable supply at present, much of this is being purchased by wise ones from nearby towns and unless the home people get busy at once they are sure to regret it.

Stocks Are Hard to Replace

We will make every effort to replace stocks but there are many causes that will make this difficult. Dealers in other parts of the state and country are making reservations with the wholesalers and unless we are in a position to do the same our orders may never be filled. Already there is a car shortage and with possible strike difficulties and other annoyances there is bound to be trouble in filling all the needs of our patrons.

So it is up to **YOU** who will want building supplies to list your requirements with us at once that we may place our orders at a time when there is every likelihood that they will be filled.

We advise you to do it **TODAY.**

LOCAL WOMAN MAKES GOOD AS MOVIE MANAGER

Mrs. Ella Hastings Fabrique, daughter of James Hastings of this city, is making good in Detroit where she is manager of one of the Warren & Cohen movie theatres. For nine years she has been with this firm, beginning as ticket seller. Now they have proven a woman can manage a theatre with the best of the men. She books her films, attends to the advertising, slaps up the paper with the long handled brushes. When the ushers are busy she helps seat the crowd and when her machine operator fails to put in an appearance she climbs into the booth and runs off the films like a veteran. When she took this theatre out on Greenwood a gang of boys were running things, but Ella had had to deal with a family of brothers so knew how to handle boys and now she has them all her friends. Mrs. Fabrique received a write-up in the Detroit Journal list week which was accompanied by a good picture, and her many Tecumseh friends are elated that she has "made good" in her line.

had been subscribed for the proposed building association. In explaining the plan he stated that it was the intention to start with three to five houses to relieve the housing problem. The plan is to sell these houses as quickly as possible and use the money again to build more dwellings. There are plenty of lots to be [illegible] $100 to $300 and the committee had six months' option on several.

Mr. Nyland thought $10,000 could be raised and that amount would give borrowing power of an equal sum, making a total capital of $20,000. He did not think any trouble would be experienced in selling the houses on the part payment and contract plan and disposing of the contracts to Tecumseh parties who had money to invest.

R. S. Moore gave some information on cost of building materials, the price of which has nearly doubled since last November. He had occasion to figure on a modern six room house, and the price, including lot and garage reached the $6,000 mark. Material, he said, was very difficult to obtain.

Geo. Hines said he did not consider this building proposition a money making scheme, but he figured that every business house in Tecumseh would be benefited indirectly by the addition to our town of high class mechanics.

Mr. Nyland suggested that if it is found that these houses cannot be built that owners of houses too large to find ready sale be persuaded to remodel such places into double dwellings.

The question of the Wednesday entertainments was brought up and later unanimous opinion to continue the entertainments was expressed.

Mayor Hines wished an expression of the men in regard to the Chicago street pavement—whether they favored paving from sidewalk to sidewalk or whether they would be satisfied with a paved center by the state. Full pavement was unanimously favored.

H. S. Temple called attention to the danger of losing some of our industries if housing for employes is not furnished. He spoke of outside connections of the H. Brewer Co. and that it had been intimated to him by one of high authority that if Tecumseh could not furnish homes there were other places that would.

It was suggested that old houses could be modernized and that owners of these should be urged to put in baths, hot water, heating plants and other conveniences. Such houses would readily bring from $20 to $35 monthly rentals.

Chairman Nyland asked for volunteers to act on a house improvement committee. Guy E. Belding, R. K. Anderson, Leon Rosacrans and Fred Rector responded and this committee was appointed. Any member will discuss and advise with owners the remodeling of houses.

During the evening more subscriptions for the building fund were received and the total bids fair to reach $15,000. A meeting of the stockholders is called for this evening at 8 o'clock at the council chamber for the purpose of discussing plans of incorporation.

The nominating committee reported the following to constitute the executive committee of the Commerce club for the ensuing year: C. A. Wright, E. C. Heilman, Guy E. Belding, John R. Nyland and Frank S. Turner.

On motion it was decided to have a men's banquet the last of this month, to which all men of the community are invited. The details were left in the capable hands of J. L. Coller, chairman of the banquet committee.

R. S. MOORE ENTERTAINS MEN OF BAPTIST CHURCH

Forty were guests of R. S. Moore Friday evening when he banquetted the men of the Baptist church. An elaborate dinner was served at 6:30, for which Mrs. Polly Mattis catered. Mrs. Moore was assisted in serving by several of the Baptist ladies. Spring flowers were everywhere, the gay tulips, hyacinths and jonquils lending their beauty to the scene. The guests were seated at small tables through the rooms and while yet at the tables the excellent program was given.

Earl McNeil, president of the Brotherhood class, was toastmaster and after many jokes had been bandied about were given these toasts:

"Our Opportunities"—A. O. Howard.

"Our Liabilities and Assets" (not financial)—Ira Ashley.

"Sacrificial Giving" — Ernest Harris.

"Our Budget"—F. D. Avery.

F. C. Dickinson sang several solos and joined in the general sing around the piano at the close.

The object of this get-together was to start the ball rolling for the church budget for the year and before the evening closed $1,100 was raised.

SEVENTIETH YEAR. No. 24. TECUMSEH, MICHIGAN, THURSDAY, MARCH 18, 1920. Published Every Thursday.

Tecumseh Home Building Ass'n.

NAME OF NEW CORPORATION NOW FORMING

Board of Directors Elected and Steps Taken to Incorporate With a Capital Stock of $20,000 at Meeting of Stockholders Thursday Evening.

About a score of the 27 subscribers for stock in the newly launched home building association met in the council chamber Thursday evening for the purpose or organizing, take preliminary steps toward incorporation and talk over plans generally. The meeting proved quite an interesting gathering of men who give thought to the welfare of Tecumseh.

J. R. Nyland called the meeting to order and B. J. Pulver was elected chairman, the choice of secretary falling to Leon Rosacrans.

A motion was proposed, supported and carried that a board of directors consisting of five members be elected. This resulted in the following selections: Guy E. Belding, H. S. Temple, E. H. Ahrens, John R. Nyland and B. J. Pulver.

After considerable discussion it was voted that the association be named "Tecumseh Home Building Association." It was moved, supported and carried that the stock to be issued shall be $10 per share.

Another motion provided for incorporation under laws of Michigan with a capital stock of $20,000.

The officers of the association, it was voted, shall be a president, vice president, secretary-treasurer and board of directors.

F. B. Wood, R. S. Moore and Geo. Hines were elected as a committee to draft by-laws to govern the association. The by-laws will be submitted at an early meeting of stockholders.

Interesting discussions were had during the meeting in regard to the new organization and the work to be accomplished. Inquiries of building contractors in regard to accomplishing work this summer were not only encouraging, but the outlook is not entirely bad and the prospect is that one or more houses will be built. Material can be procured to build comfortable houses, lumber dealers averred, but some high class goods for expensive houses are difficult to obtain.

All present were encouraged by the attendance and interest manifested in the new project.

OBSERVE THEIR 55TH WEDDING ANNIVERSARY

To not many is granted the privilege of celebrating their 55th wedding anniversary, but Mr. and Mrs. H. S. Daniels had this pleasure March 9, when their daughter, Mrs. H. H. Halladay, was their guest. Both read their daily papers without glasses, which is considered remarkable.

Members of Beers Post, the T. B. A. and Sons of Veterans to the number of 35 gave them a belated celebration Saturday, when a pot luck supper was served after an afternoon of visiting.

JUNIORS' PLAY NOT TO BE GIVEN TILL APRIL 15-16

So that it will not conflict with the devotional meetings now being held, "Safety First," the play of the Junior class of the Tecumseh high school, has been postponed until April 15 and 16. It was to have been presented March 24 and 25. It is expected because of this action by the class the attendance on the new dates will be exceedingly large, as the play is said to be highly amusing and will be presented in a praiseworthy manner.

Sergt. Earl Rector Is Taken by Death

Had Been Ill a Year, Army Life Being Cause—Was Prominent Mason and Devoted Presbyterian.

That great suffering endured for many months by Sergt. Earl B. Rector had drawn him the sympathy of the whole town was evidenced by the feeling of relief when death mercifully came to his release yesterday morning and the splendid young man was at rest. Since March 15, 1919, he had been confined to his bed after undergoing an operation in a hospital in central France, he being afflicted with abscess on the back, developing from the hard life of the army.

He landed on the home shores from a hospital boat June 8 and in a week was at the base hospital, Detroit. In a month on the stretcher again he was borne away, this time to Ft. Sheridan, and it was not until December 22 that he was brought home. Through all this suffering he had been a true soldier, bearing the pain with the greatest bravery.

Earl was born November 26, 1886, the youngest son of Mr. and Mrs. Brockwell J. Rector. Nearly all his life had been spent here, and to few young men is it given to make friends as to him.

He graduated from the local high school in 1905. He was employed in the Lilley State bank and held other good positions until in 1912 the Uncle Sam Macaroni Co. was organized. He held in interest in the concern, and through a study of the business rose to a high office in the company. He went to Detroit in 1916 and had just organized a profitable business when the entered the army. November 19, 1917, he went to Camp Custer with the Detroit boys. He had been very ill before joining the army and was sick much of the time at Custer. He went across with the 85th in July, 1918, and never shirking his work on account of poor health performed his duties of sergeant efficiently. Since his arrival home during the Christmas season his friends have enjoyed his bright smile on their short visits and he did not give up planning for his happy future until the day before his death.

The funeral will be held tomorrow at 2 p. m. from the Presbyterian church, the Masons to have their burial service and the American Legion attending in a body. Rev. W. A. Rex will officiate.

Mr. Rector leaves his mother, one brother, Albert, of Richmond, Cal., and two sisters, Mrs. John L. Calhoun of Holloway and Mrs. Guy E. Nemire. He was a devoted Presbyterian, having served as trustee of that organization and in other capacities. He was also a strong Mason, being a member of the different Masonic fraternities here and was master of the Blue lodge in 1914. The interests of the American Legion he felt warmly and that body has been highly appreciated by him.

Teachers Granted $150 Bonus Asked

Vote Was 66 For and 20 Against —Nineteen Instructors Will Be Benefitted.

Tecumseh's teachers are to receive a bonus of $150, their plea for this amount having been acted upon favorably at the special election held at the high school Monday evening. Eighty-six votes were cast, 66 being in favor of the proposition and 20 against it. All of the 19 teachers in the local schools will benefit by the action of the district.

J. H. Smith, the president of the board of education, called the meeting to order and explained the object of the gathering. He told of the board receiving the petition of the teachers asking a bonus of $150 be granted them, as they could not meet their expenses with the amounts for which they contracted to serve here this year, the cost of living having advanced tremendously since the agreements were made. The school board was convinced the request was just, he stated, but was without authority to grant it, hence the meeting of the district. He requested the secretary, C. F. Patterson, to read the petition.

Frederick B. Wood, a member of the board, was called on for remarks and he presented a resolution granting the request of the teachers. He declared the instructors had been giving splendid service and compared the school to a manufacturing establishment, as it turned out citizens. As no factory is at its highest efficiency when the workmen are dissatisfied, he pointed out, the school should also be kept at its best by giving the teachers what they deserve. Mr. Wood read the figures presented by the teachers in substantiation of their contention they were not receiving enough to live, cases being shown where help from home was needed to make both ends meet. He said the plea was just and should be granted.

Discussion of the proposition was then invited and George Hines and Robert Quakenbush were among those to strongly endorse the position taken by the teachers.

There being no further comments offered, the chair appointed John R. Nyland and George Rathbun as tellers and then the vote was taken with the result mentioned above. The meeting was then adjourned.

Three More Places Attract Burglars

Anderson Grocery, Daisy Market and Ida Chase's Store Broken Into, More than $50 Being Secured.

Burglars invaded Tecumseh's business district Monday night, visiting three stores, their loot totaling more than $50 in cash. Money seemed to be the only thing sought, as nothing else was taken so far as can be ascertained. The places entered by the robbers were the Anderson grocery, where over $50 was taken, the Daisy Market, where about $7 was secured, and the store of Ida Chase, nothing being taken here.

All of the places were broken into early in the night and entrance was gained in each case from the rear.

The Anderson grocery is open each Monday evening and on the night of the robberies Albert and Harold Anderson closed up about 8:30 o'clock. About 9 o'clock Harold had to go back to the store to accommodate a customer and found the back door and one window open, the glass in the window having been shattered. He hastened to the cash drawer and discovered it had been forced open and rifled. When he closed up there was a check for $60 and a little over $50 in cash in the till. The money was left in the drawer as E. B. Anderson was expected at the store soon to make up the cash.

At the Daisy Market it was not discovered until Tuesday morning that the place had been entered by burglars. When Earl Wood, one of the owners, arrived, he found the back door open but thought his partner, William Fletcher, might have been down that morning and had failed to close the door when he departed. On going to the cash drawer, however, it was found that about $7 which had been left there over night, was missing.

Ida Chase, who resides over her store, was called about 10 o'clock Monday night by the nightwatchman who informed her she had left the back door of her place of business open. She assured him she had locked it but went down to investigate and found the door was open. She locked it, being almost convinced she had forgotten to do so when she closed the store for the day. As she was leaving the back part of the store she felt a current of cold air and on making a closer investigation discovered a piece cut out of the glass in the door, the hole made being large enough for the intruders to reach in and unlock the door. She was convinced the place had been visited by burglars, but nothing was missing. A few pennies which she had left in the cash drawer were undisturbed.

These make a total of six robberies in Tecumseh in two weeks.

No clues have developed which will lead to the arrest of the burglars, as they took only money. Deputy Smith and several of the sheriff's force worked on the case all day Tuesday, but their work developed nothing which would warrant making arrests. Many are of the opinion the robberies were committed by local talent.

EAST LANSING CANCELS CHAMPIONSHIP BATTLE

The game for the state championship of the girls' basketball teams, which was to have been played next Wednesday, March 24, between the team from Tecumseh high school and that of East Lansing has been cancelled by the capitol city maidens. They assert the cup is theirs anyway as they beat Battle Creek by a few more points than the local girls did. Tecumseh people are greatly disappointed, as a large crowd anticipated great sport at this game.

Efforts are being made to arrange games with Saline for tomorrow evening.

Grange Banquet Is Largely Attended

FARMERS TOLD THEIR ONLY HOPE IS ORGANIZATION

Aims and Object of American Legion Explained by R. K. Anderson—Rev. F. A. Perry Urges Agriculturists to Co-Operate and Raps Wilson.

An appeal for a higher appreciation of the work of the men of the American Legion and for organization of the farmers in the Farm Bureau were the main themes of the banquet given by the men of Tecumseh Grange yesterday in honor of St. Patrick.

Grange hall was very pretty with its streamers of green with green bows on the lamps and the touches of green on the tables, where were laid covers for nearly 150, and the chairs were about all taken. The dinner of roast pork and all the good things down to pie was served by the men all dolled out in ruffled aprons of green. They were headed by Ted McConnell and their efficiency as waiters proved this was no new stunt.

At the head of the speakers' table was Norman McConnell, the present master of the local Grange, and at its foot Minor Davidson, the Grange's first master.

Rev. W. R. Curtis was toastmaster and many were the stories and jokes he told. He first asked for a solo by Mrs. R. S. Moore. Her first was an Irish folk song, "St. Patrick," her second "Sweet is Tipperary in the Springtime." Mrs. Ella Hodges accompanied her.

Lieut. R. K. Anderson was the first speaker. He thanked the farmer folk for raising what the government asked them to raise, for the millions of dollars of bonds they took out and the good wives for the unlimited Red Cross work. He gave a short sketch of the American Legion, its organization, its constitution, its membership of over a million men, where the officer's rank is tabooed. He also said the Legion stands opposed to anarchy in any form, but does stand for better citizenship, better pay for public service and a cleaner democracy. They also stand for universal military training—not military service. Then too, they advocate that all foreign born learn our language. He told of the benefits derived from the Sweet bill, asserted that contrary to current opinion, our boys were not as well paid as the Canadians. They received $33 at home and abroad, the wife and family drawing $25 from the government besides, while our boys draw $30 at home, $33 abroad, if having dependents, $15 of this must go to the home folks. Besides in the first three drives for bonds the boys must buy and after their insurance was deducted they had little. Even now many have been unable after two years to get their bonds and insurance papers. Hence we owe a higher compensation to the men who sacrificed their business to go for Uncle

Baptist Family Day Is Fruitful Service

Rev. W. R. Curtis Defines Home as Most Powerful Institution In Tecumseh.

Gratifying indeed was the scene of the many family groups assembled at the Baptist church Sunday morning in observance of Family day.

In her pleasingly impressive manner Mrs. Robert Moore sang "I Will Keep Him Whose Mind is Staid on Me." By way of introducing the theme, "The Soul of the Home," Rev. Curtis spoke of the significance and benefits of family worship at home and at church, stating that it is from homes where there is a devotion and recognition of Jehovah that come the boys and girls with characters to shape the world's destiny.

The home is the most powerful institution in Tecumseh. It is a seat of power from which radiate [illegible] are shaping conditions [illegible] of the town. The greatest place in the world, is home—your home—and it should be more than a place to eat, to sleep and to stay out of the rain.

The Bible makes the family the unit rather than the individual. The family is not together enough. Father and mother are too busy with the problems of existence to value the great privilege of "chumming" with the boy and with the girl until too late. Home should be a place where the problems of each family member are solved—a clearing house.

Home should be a place of frolic. Is your home a place the children prefer? If so, the problem of the country lad leaving the farm for the city has ceased to be a problem.

Your home should be a place where the door shuts some things out and shuts some things in. A place where walls against evil are built and character is formed. Confide in your children, counsel and plan with them.

Your home should augment the church—be a place where children are taught how to be Christians. Do not leave your child's religious training to the Sunday school, which touches the life but 25 hours in the year and even then imperfectly.

No need of divorce courts if the family were in God's courts.

A prayerless home is a powerless home.

The home is the citadel for righteousness.

Editorial Comment

The organizing and incorporating of a home building association in Tecumseh is a forward step that presages well for a bigger and more prosperous Tecumseh. The interest thus far displayed is an excellent omen for future success.

While the roster of the new organization does not contain all the Tecumseh live wires that could help in this laudable enterprise, yet now that the first step is practically taken the outlook for a larger membership and greater working capital is not at all discouraging.

Men, especially those who depend upon the public for business, must see the advantages more families in Tecumseh will bring them, and not one of them should occupy a seat on the old self-satisfied bench, applaud their neighbors and reap the benefits, without cost to themselves, of the efforts of those who believe and participate in community forward movements. This building plan is not a one man or two men affair—it is a community affair.

As the stock has been placed low—only $10 a share—no person with the welfare of Tecumseh in mind can afford to remain out, and we expect to see the association grow in membership and influence.

One thing is certain. The factory man who secures a livable home for his family through the efforts of this organization is going to keep tab on the men who help him obtain it. Readers of The Herald have already expressed their interest in the organization and will keep watch of the progress made and those responsible therefor.

Probably not one newspaper reader out of a hundred ever pauses to think of the debt he owes to the newspaper advertisers or would be willing to admit that any such obligation exists.

Nevertheless there is a very definite debt which every reader of The Herald and every resident of this community owes to those who advertise in our columns. And the same is true of practically every other newspaper and magazine in the country.

If it were not for our advertising either one of two things would result—you would be without a local newspaper or if you had one you would pay three or four times the present subscription price for it. Even where the advertising patronage is of the most liberal sort it is only by the hardest kind of work and the most careful management that such a newspaper as The Herald can be made to pay its way in the present era of high costs, to say nothing of a profit.

It is therefore apparent that the whole community owes a debt to those who advertise in the local newspaper. Usually it owes a debt to them aside from that fact, for they are always the live wires, the progressive citizens, the men who make the difference between a live town and a dead one. That is true everywhere and everywhere recognized.

We have had many evidences in the past of the warm feeling which our readers have for this newspaper. Their friendship has been shown in many ways. And just at this time we feel like calling upon them for additional proof of their loyalty to the old home paper. We would like them to remember the debt they and the whole community owe to those who use our advertising columns. Give them your business wherever it is possible. You will be helping us, you will be helping these deserving citizens, and, most of all, you will be helping yourself. For it is invariably true that the man who isn't ashamed or afraid to tell in print what he has to offer is the one with whom it is safest to deal.

Do you believe in Tecumseh to the extent of $2?

If you do, show it by joining the Commerce club.

This organization is now conducting a membership campaign and seeks the earnest co-operation of all classes of Tecumseh men. The laboring man is as welcome as the financier and the retired farmer will be accepted as readily as the most active merchant.

As the primary object of the Tecumseh Commerce club is to advance the interests of this city and all men should have the welfare of their home town at heart, the membership is open not only to business and professional men, but also to the day laborer.

A few loyal men cannot accomplish much in furthering the prosperity of the town, no matter how zealous they are. It requires the united efforts of a large number of those who take pride in their city to make that community grow.

Right now, with well established plants desiring to expand, is an opportunity for Tecumseh to bring about a civic awakening such as it has not had in years, and if her citizens do not make the most of it they are throwing away a chance which any other town would be only too eager to grasp.

The slogan should be "Everybody Join" that the Commerce club be of dimensions sufficient to successfully cope with the problems that confront it.

Teachers of our schools no doubt felt relieved when they learned that their petition for a bonus of $150 for the present year was granted by the electors of the school district at a special meeting held at the school auditorium Monday evening. They can feel more elated when they consider that the resolution offered therefor carried by a better than three to one vote. The attendance was not as large as it should have been, for surely there must be a larger percentage than those present that are interested in the education of the children of the community. Our information from a reliable source has been that Tecumseh has an excellent corps of instructors and for that reason it is advisable that the people of the district back them. To prepare for instructing young America takes time and money and none should be discouraged to become instructors by underpaid work.

At this season when the roads are dry and the dust flies people express regret that oil was not used last year. Converts to street oiling have grown remarkably since several of our streets have been thus treated in a sensible manner. There will be more oiling this year.

BRADLEY OPERA HOUSE ATTRACTIONS

That the Bradley is well worthy the slogan, "Tecumseh's Greatest Amusement Value," is proven beyond all doubt by the enormous crowds which filled this big theatre to capacity every Saturday and Sunday evening and on other nights, too, when the management presents big road or special attractions. The Bradley has been under the present management for the past fourteen years and in that length of time Mr. Mark has given the people of Tecumseh and vicinity the best class of entertainment, pictures and otherwise, that the patrons of the Bradley or the people of Tecumseh have ever had.

On next Saturday evening, March 20, the world's sweetheart, Mary Pickford, will be seen at the Bradley opera house in "Stella Marris," which is claimed to be Miss Pickford's masterpiece. The New York Sun said of this production while playing the Strand in New York: "Such artful mimicry in the simultaneous delineation of two sharply contrasted characters is rarely to be seen as Mary Pickford is doing it this week on the screen at the Strand theatre. *****The picture with its many novel incidents, extraordinary photography and its interesting story undoubtedly lifts the actress as high as she has ever gone in her art."

To balance up the big Saturday night bill a famous "Lion" comedy will complete the program. "A Lion Special" is the title of the big two reel scream and they do say that the way these big playful "kittens" gambol over the screen is well worth the entire admission that you are charged for the whole evening's entertainment. Special orchestra both Saturday and Sunday evening.

Olive Thomas, Famous "Follies" Beauty, Sunday Evening.

A picture that you should not miss any more than you should your breakfast in the morning, a corking, delightful comedy drama of Long Island's elite society, is the attraction at the Bradley opera house next Sunday evening, March 21, when the beautiful "Follies" star, Olive Thomas, appears for her first time in Tecumseh, in "Upstairs and Down."

"Upstairs and Down" is a picturization of the famous stage success of the same name, and Miss Thomas with her abundance of charm and personality gives a delightful characterization of Alice Chesterton, an entrancing, vivacious, little creature whose entire life seems to be spent in getting in and out of scrapes.

At a house party in a fashionable Ives country home at Iveshurst, Long Island, Alice delights in a desperate flirtation with Terry O'Keefe, a gay son of Ireland with a captivating brogue—but why spoil the picture trying to describe it?

An excellent plot, full of complications and many tangles, "Upstairs and Down" will hold the interest of the most exacting screen fan. A charming star, a fine supporting cast, splendid direction and superb photography all go to make up the excellence of this superb production which will thrill and tease, amuse and delight.

As usual a big two reel comedy will balance the program, although there is enough good, clean comedy in "Upstairs and Down" to satisfy the most exacting picture patron for one evening.

We note by the Detroit papers that A. H. Wood's high caliber comedy, "Friendly Enemies," just closed a two weeks' capacity business at the Garrick theatre, Detroit. "Friendly Enemies" was presented at the Bradley last November. Just another proof of the class of attractions visiting our local city.

Charley Chaplin will be seen at the Bradley soon in his fourth million dollar comedy, "A Day's Pleasure." Douglas Fairbanks is also booked for an early showing of his latest feature, "When the Clouds Roll By." Mary Pickford is coming in "Daddy Long Legs." Lots of good things for the patrons of that popular theatre.

BUYING A MISSIONARY'S TIME

"Now I have paid up my pledge to the Presbyterian Church. When I think of how much I have made this year, what I gave wasn't much. I will do more next year.

"This plan of giving to the church a certain proportion, possibly a tenth, appeals to me. I am going to talk it over with my wife. The amount I gave last year figures out to a mighty small sum every week. But at that, the money I did pay bought a foreign missionary's time for a little while—for a few days at least he belonged to me.

"Friend, can't you give 50 cents a week?"

The Presbyterian Church year ends March 31. The board treasurers are endeavoring to have all accounts for every cause paid before the last week of March.

Pastor Tecumseh Presbyterian Church

Explains Delay of The Civilian Relief

Chairman of County Red Cross Tells of Difficulty in Securing Nurse—Outlook Bright Now.

Editors Tecumseh Herald:

Inclosed please find a letter which I think will be of interest to most readers of The Herald. Of late there has been a great deal of criticism of the officers of the county chapter of the Red Cross. This was because the chapter has refused to engage in civilian relief work this winter. This criticism was undeserved and the inclosed letter tells very clearly why. The public should remember that the county officers are not their own law makers; they can only do what the national Red Cross directs. No county has been permitted to do civilian relief work until a visiting nurse has first been secured. I personally know that Mr. Fee has challenged every nurse in Lenawee county to do this work and all have refused. He has visited Chicago, Toledo, Cleveland, Detroit and Ann Arbor in the past six months in search of such a worker. And just now he has been able to secure one. Should a man be criticized for being too honest or too conscientious? He should not be blamed for what some call "red tape" of the national organization. Personally I think that this so-called "red tape" has a good deal of business sense back of it, and I think a sensible public will see it, too. Thoughless haste in many a new endeavor has only brought early failure of the whole proposition.

Very truly yours,
W. A. Rex.

This is the letter:

Adrian, Mich., March 4, 1920.
Rev. W. A. Rex,
Tecumseh, Michigan.

Dear Director: After a long wait we are able to announce that we have secured a public health nurse, or to be exact, we have secured a nurse who will take the position as soon as she completes her course at Ann Arbor, which will be some time early in June. Her name is Miss Lillian Yardley and she has had several years' experience in nursing in this country and one year in France and with the advanced work she is now taking, will, no doubt, make us a very satisfactory public health nurse. We had a very strenuous time in finding a nurse and from what we can learn we are fortunate in securing Miss Yardley.

Miss Mackenzie will finish her advanced course in Home Service at Chicago about the 15th of this month and as soon as she gets back we will begin the big work of extending Home Service to the civilian members of our county community.

There has been great pressure brought to bear on the chapter to begin this extension of the work, but of course we could not do so until Central Division gave us permission and that we could not [illegible] had a trained worker and I am sure that our future development in Home Service will be much more thorough and rapid because of the careful preparation we are making.

We have been, and still are, quite busy in taking care of our Home Service work amongst the returned soldiers and this work promises to continue for some time, and in this connection I want to urge you to keep track of the returned men in your district and any assistance you can give to the Home Service chairmen in the various branches in your district along this line will be a real help.

Kindly spread the news in the above when occasion permits and assure those who are impatient over the delay in starting on advanced work that we are even more anxious to get the full Home Service-Public Health program in operation than they are to see the individual cases they have in mind taken care of.

Thanking you for this service, I am

Very truly yours,
H. A. Fee, Chairman.

Mrs. Hugh McElroy returned Saturday from Detroit, where she had been assisting in the care of her brother who had been very ill. A lunch added to the pleasure of the evening.

Reasons Why You Should Use Miracle Motor-Gas

FIRST — MIRACLE MOTOR-GAS is a scientific preparation for increasing the efficiency of gasoline with the express purpose of making it more volatile and thereby assuring a perfect carburetion for your motor.

SECOND—Carbon is caused by the use of low-proof gasoline that allows heavy globules to flow through the mixing chamber into the motor, collect on the piston heads and turn into hard carbon. MIRACLE MOTOR-GAS improves your fuel, neutralizes carbon deposits, thereby eliminating 90 per cent of your troubles at their source.

THIRD—MIRACLE MOTOR-GAS will eliminate all carbon knocks usually arising from a heavy deposit of carbon in the cylinders, which prevents the motor from discharging freely the burned fuel, thereby creating a slow, sluggish motor and the usual troubles following the action of imperfect ignition. This will not occur when MIRACLE MOTOR-GAS is used.

FOURTH—Cause: MIRACLE MOTOR-GAS will eliminate at its source and correct fully 75 per cent of carbon troubles by neutralizing the bad after-effects of same at their beginning, thereby producing a quick-acting motor under the most unfavorable conditions of weather.

FIFTH—MIRACLE MOTOR-GAS will give a marked increase of power by giving you at all times a perfect mixture that flows freely and constantly with your every touch of the throttle. This increases your mileage and gives you a quick, snappy motor, of which you so often dream and hope for when the unfavorable conditions are encountered.

SIXTH — Eighty per cent of carbon is created by liquid gasoline collecting on the cylinders from improper mixture or wrong carburetor adjustment. Very low-proof gasoline can be used when treated with MIRACLE MOTOR-GAS, thereby saving cost of fuel as well as other annoyance.

SEVENTH — MIRACLE MOTOR-GAS can be used in motor boats, gasoline or kerosene tractors, stationary engines or motorcycles, and will increase the efficiency of the engine by improving the action of poor fuel.

EIGHTH—MIRACLE MOTOR-GAS is chemically similar to gasoline itself, so there is no danger from using a great amount. MIRECLE MOTOR-GAS is used constantly by thousands of motorists, with gratifying results.

NINTH—MIRACLE MOTOR-GAS is sold and guaranteed by a reliable company, and will give you the results claimed for it. We are selling MIRACLE MOTOR-GAS strictly upon its merits. It is scientifically prepared for the elimination of motor troubles.

TENTH—MIRACLE MOTOR-GAS contains nothing that will in any way injure the motor. Its use saves annoyances, and is an economy in the saving of fuel. MIRACLE MOTOR-GAS is a "health food" for motors, and is used by motorists as a tonic for motor cars.

Here Is Free Opportunity to Learn How to Get Full Mileage

More than 1,500,000 new automobiles will begin their careers in 1920, according to the estimates of automobile manufacturers. Each of these cars will require five tires—four on the wheels and a spare. This means 7½ million tires, just for the new cars. Many more millions will be used to renew the tires on the cars already in use. Some will run 3,000, some 5,000 and some 10,000 miles. How many will attain their full mileage?

That no motorists of Tecumseh and vicinity may be short any tire mileage when the time comes to replace their tires, L. E. Temple & Co. have set aside

March 18, 19 and 20

—AS—

Tire Conservation Days

and have secured a tire expert from the Goodyear Tire & Rubber Company to assist in its observance.

This is in line with the national movement that has recently been inaugurated to help motorists obtain the full mileage built into their tires at the factory.

The tire expert will point out how to keep tires well in the beginning as well as doctor them when neglect has made them sick, and will indicate methods of tire care that will increase tire mileage surprisingly.

All of this bears on the new present era of tire merchandising. We have arranged to give such perfect service, particularly to users of Goodyear Tires, and our adjustment plan will be so decidedly liberal that present patrons of Goodyear products will always be users of this make and they will be so thoroughly satisfied that new customers are certain to be the result.

The idea has come to stay that tire users may come to their dealers for advice and service—and this exemplifies the finest kind of relationship that can exist between a merchant and his customer.

At the coming Conservation Meeting on March 18, 19 and 20 individual attention will be given to your tire problems and you are invited to come to our place of business and get this valuable aid and information, which is furnished free.

RESOLUTIONS OF RESPECT.

Whereas, death has again entered our order and has taken from us one of our most loyal and best loved sisters who was one of our few remaining charter members and past masters,

Whereas, for more than forty-five years Sister Eunice Hall has been a faithful and efficient member of Tecumseh Grange, No. 166, regular in attendance and ever willing to do her full share of any Grange work necessary to be done. She always gave freely of her time and money whenever it was needed to further the interests of Tcumseh Grange and her counsel and advice in the affairs of the order were a valuable asset,

Therefore, Be it resolved:

(1) That in the death of Sister Eunice (Davidson) Hall, Tecumseh Grange has sustained a loss that it will feel keenly for many years and we who knew her will never forget her loyalty, her help and influence for the good of our order.

(2) And to those members of Tecumseh Grange who wish to see the order grow and prosper in future years, we would suggest that they take increased interest and devotion to the work from the example of her years of unselfish dovotion in its behalf.

(3) That to the family of the deceased we tender our sincere regards, and especially to her venerable father who has lost in her his only child and comfort in his declining years; to the devoted husband and children, we extend our deepest sympathy and love in this hour of their crushing sorrow. And fully realizing how inadequate our words must be, we believe they will find divine help to bear their burden for Jesus said: "Blessed are they that mourn, for they shall be comforted."

(4) That our charter be drapped in mourning for a period of 30 days; that a copy of these resolutions be spread upon the minutes of this meeting, a copy sent to the family of the deceased and a copy sent to the Tecumseh Herald for publication.

Safety for Your Dollars

Whatever the source of income, the salaried man or man of business, usually takes great care that money due him is received promptly and in full.

In anticipation of the best results, the farmer, too, tends, harvests and carefully stores his crops against loss.

And yet, it is a strange fact that harvests of dollars yielded by this care are often lost through careless handling or reckless investment.

This Bank not only cares for funds, but our officers gladly investigate for customers, or others, any offered investment, to the end that safety may be assured for the dollars of this community.

Catarrhal Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure Catarrhal Deafness, and that is by a constitutional remedy. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing may be destroyed forever. Sure Death to Corns

"Gets-It" Makes 'Em Lose Their Grip and Lift Off Painlessly.

The first thing "Gets-It" does when it lands on a corn or callus is to snuff out the pain. Then it shrivels the corn or callus and loosens it.

"Gets-It" Spells "Finish" for Corns

Soon, it is almost ready to fall off. You help it just a little by lifting it off 'twixt thumb and finger. You don't even feel it, because there is no hurt left in it. THIS IS LEONARD WOOD

The Man Who Won the Unqualified Endorsement of Theodore Roosevelt, Greatest American of His Time.

—and the man who should get your vote in the Primaries, April 5th

A vote for Leonard Wood is a vote for Roosevelt's principles, for the very same things that Roosevelt would be advocating if he were alive today.

A vote for Wood is a vote for a candidate whose backers have pledged themselves to see that the voice of the people of Michigan is heard in the state and national conventions. Wood is fighting for the nomination, not merely to gather up delegates to be transferred to some other candidate when the party leaders decide that the psychological moment has arrived.

General Wood, in his public utterances, has shown a thorough understanding of the farmer's problems and a warm sympathy for the farmer. He says: "Our stability rests largely in the agricultural population. The red flag never flies over the house of a farmer who owns his farm. If the American farmers had not played the game as they did, we would have lost the war, because we would not have been able to feed our Allies in the field as well as ourselves. If the American farmers had struck, the Germans would have won the war. The farmers sent their sons to war, and in spite of the shortage of labor they, by tremendously increasing their efforts, gave the world the biggest crop in history. Agriculture is not only the principal source of our wealth, it is the groundwork of our most stable citizenship.

"We must have a department of agriculture conducted for the farmer by men who really know farming from the furrow to the crop. It should be the intention of the national government at Washington to make farming conditions such that there would be fewer tenant farms and more owned farms."

Theodore Roosevelt said of Lenoard Wood: "He has made all good Americans his debtors by what he has done."

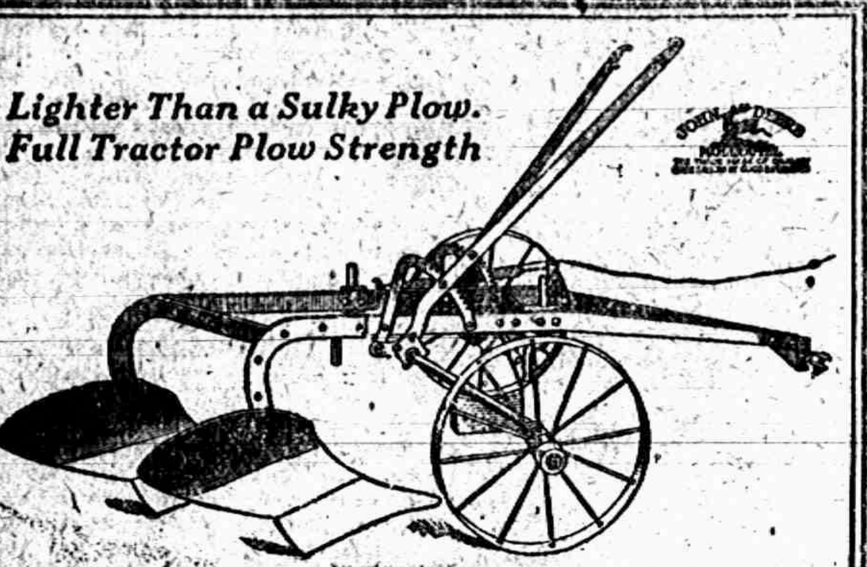
Lighter Than a Sulky Plow.
Full Tractor Plow Strength



John Deere No. 40 Two-Bottom Light Tractor Plow

We are ready to furnish you with the two-furrow John Deere Tractor Plow No. 40 built especially for use with the smaller type of light tractors—the type having the right-hand drive wheel running in the furrow.

It is the lightest tractor plow built; it weighs less than the average sulky plow.

In spite of its wonderful lightness, it is built to stand up under all field conditions and give the best of service for many years.

All parts are especially designed for strength as well as lightness. Beams, braces, axles and all small parts are made of New Process John Deere Steel, and hot-riveted together, giving the plow great strength.

Beams are guaranteed not to bend or break. No time limit to this guarantee.

Its power lift is simple, strong and positive. A simple clutch on the axle engages the land wheel, causing the tractor power to raise the bottoms out of the ground or to lower them, as desired. A pull on the trip rope by the tractor operator releases the clutch for action. The clutch moves only during the instant when the bottoms are raised or lowered—practically no wear.

A lever for regulating depth, and another for leveling the plow, are within easy reach of the operator.

The plow is short-coupled and close-hitched—permits short turns and works close to fences.

The No. 40 is equipped with 14-inch genuine John Deere bottoms. These bottoms are regularly equipped with the long-wearing, close-fitting John Deere Quick Detachable Share. You can remove the share simply by loosening one nut. Tighten the same nut and the share is on tight.

The No. 40 Plow is a wonderful combination of lightness and strength, designed to give the owners of the smallest tractors full advantage of John Deere plow service. If you have concluded to buy a little two-plow tractor the John Deere No. 40 is the plow you want.

Don't fail to come in soon and investigate fully the little giant among tractor plows. It is sold only by John Deere agents.

EXHORTS PEOPLE TO WALK IN THE LORD

(Continued from Page One.)

salaries at the school meeting to be held the next evening.

The meetings for this week were announced for the Baptist church, with Rev. T. J. Hopkins of Adrian the speaker. He will also give the sermon for Sunday evening.

Rev. Thompson spoke appreciatively of Rev. Johnson's service for the local churches, in leaving his own church in Manchester for the week and the great good he had done in the meetings held the past week. In this he voiced the sentiments of the church people of the village. The Manchester minister then remarked that he didn't know another man in the Detroit conference for whom he would have left his charge as he had for Dr. Thompson. "The measure of the good you will reap from these meetings will be in proportion to your interest and faith."

He took his text from Colossians 2:6: "Walk in the Lord." He must be our sight our guide, our control. "If we walk in the Lord we would have less trouble with ourselves and our community." The visiting pastor spoke of seeing the obstacles to the Christian life of our young on his way down our business street. "If we live up to our Christ we can make these obstacles impossible. If Christian people would live as they should, these people would not dare run these places."

To heredity and environment are laid our character, but we can make an environment here which will tend for the highest development. We are continually being built up in character and the image of Jesus Christ.

We do not attend to this character building as we ought, we are careless of our influence, free with idle talk, having poor control of our temper. The only right thing is to replace them with the gold and silver of character. Be stable, be rooted and grounded in Him, but Paul did not mean immovableness. A Christian man is a gentleman in the supreme and highest sense. He spoke with pity of the young starting in the Christian life who receive no help at home. The greatest work is to get these young people "grounded and established in Christ." "If your roots reach down to the Rock of Ages no power on earth can pull you from your Christ." As darkness cannot exist against light so cannot the darkness prevail against Christ's love.

The service closed after an appeal by Rev. Thompson for some one to manifest a longing for Christ's love.

It Is Easy To Imitate Names

The public is constantly being swindled by imitations, counterfeits and substitutes that resemble in name and appearance Foley's Honey and Tar Compound. It is because the original Foley's is so good, so reliable and so well known that these frauds find sale.

Always Has It In His Home

T. J. McCall, Athens, O., writes: "We have used Foley's Honey and Tar in our home for several years and find it almost invaluable for coughs and colds, and especially for croup for [illegible] We are never without it and cannot too highly recommend it for coughs, colds or croup for either grown-up people or children."

Foley's Honey and Tar COMPOUND

IS PLEASANT TO TAKE, and sooths the raw, inflamed surfaces; stops the rasping, strangling feeling in the throat. It is made of the purest, freshest and finest ingredients to be had, contains no opiates or other harmful drugs, and costs twice as much to make as any imitation of it.

For more than thirty years Foley's Honey and Tar has been used with satisfaction and success.

Rescued From a "Flu" Sick Bed in Three Days' Time

JOSEPH LePRELL TELLS HOW WONDERFULLY NERV-WORTH ACCOMPLISHED THE WORK.

This extraordinary statement was made a few days ago to Jas. G. England, of this city, who is now in Erie, Pa., putting on one of his famous Nerv-Worth campaigns:

"Feisler's Drug Store:—I suffered from severe pains. Very feverish. Stomach and digestion in very bad condition. I was forced to my bed and remained there three days. At times I was burning up with fever and then I "froze up" and knew I had to fight the "Flu."

"My wife read a statement about Nerv-Worth being such a great help to ward off this terrible malady, and she purchased a bottle. In a day or so I was out of bed, and am ready to go to work. Nerv-Worth certainly did all and more than the makers claim for it. It did its work effectively in my case and I advise all to use it and WARD OFF THE FLU.

Annual Men's Banquet.

The men's annual banquet was held in the M. E. church parlors Thursday evening, March 11. Curtis of Tecumseh asked the blessing and the men were seated. The Ladies' Aid then served the supper to about 130.

After supper the following program was given: Music by orchestra; toastmaster, Will Wilson; song, Ernest Palmer of Britton; talk, Rev. Curtis of Tecumseh. Rev. Somers of Dundee and Dr. Perry of Adrian were unable to attend.

Do You Want to be Among the Disappointed?

Have you ever pleasurably anticipated something and then at the last moment been greatly disappointed?

This is the disagreeable situation in which those of this vicinity who plan to build will find themselves this spring if they do not place their orders for materials NOW.

Lumber supplies and other building materials are fast diminishing and great difficulty will be experienced later in filling orders.

Right Now is the Time to Act!

The reason we urge you to list your requirements with us now is that we may place orders and get these materials started toward Tecumseh before some other more progressive community secures the available supply.

There will be a shortage, that is certain, and prices will be higher the longer you delay in placing orders. The lumber dealers who have the co-operation of their patrons and are now placing orders are the ones who will have the goods when they are needed. In order that we may be among the foresighted ones we must know what your requirements will be and depend on you to act at once.

While we have a considerable supply at present, much of this is being purchased by wise ones from nearby towns and unless the home people get busy at once they are sure to regret it.

Stocks Are Hard to Replace

We will make every effort to replace stocks but there are many causes that will make this difficult. Dealers in other parts of the state and country are making reservations with the wholesalers and unless we are in a position to do the same our orders may never be filled. Already there is a car shortage and with possible strike difficulties and other annoyances there is bound to be trouble in filling all the needs of our patrons.

So it is up to YOU who will want building supplies to list your requirements with us at once that we may place our orders at a time when there is every likelihood that they will be filled.

We advise you to do it TODAY.

1920 Buick

Compare the net retail price of other popular, well known six cylinder, five passenger cars of approximate weight with the 1920 Buick. Prices quoted are as listed at the Detroit Automobile Show, the variation in prices being from $135 to $290 higher than Buick prices.

BUICK	$1575.00
Nash	1710.00
Paige	1750.00
Liberty	1756.00
Saxon	1785.00
Studebaker	1785.00
Reo	1848.50
Chalmers	1857.83
Mitchell	1865.00

There are several other cars of approximate weight which list even higher, while cars of much lighter weight such as the Olds, Dodge or Oakland, list close to Buick prices.

EXPLANATION

The explanation is simple. The Buick production basis for 1920 is estimated at 150,000, nearly the approximate total of the above makes combined.

The 1920 Buick is the best buy on the market today. Its yearly depreciation is less than that of any other car.

The new 1920 Buick is positively the best Buick car ever turned out by the Buick Motor Company. We have yet to find one weak point in the new 1920 Buick model. Buy a 1920 Buick. You cannot go wrong.

A dance was given at the Odd Fellows hall last evening which gave 40 couples a very delightful evening, so pleasant in fact that they did not cease dancing until 2 o'clock this morning. Guests were among the dancers from Adrian and Britton. Refreshments were served. The music was furnished by Mr. and Mrs. C. A. Stalter.

More than 60 Tecumsehites were in Britton Friday night for the basketball games, but came home disgusted both with the poor roads and the slugging put up by Britton. The girls from here won 28 to 12, but our boys were not so fortunate. Much criticism has been cast Britton's way because of the manner our young folks were punched around.

GRANGE BANQUET IS LARGELY ATTENDED

(Continued from Page One)

Sam. They left their fellows here earning $8 to $10 a day while they got practically nothing.

Rev. F. A. Perry of Adrian was then introduced and he pleaded for a closer organization of the farmers. He is a Granger and knows just the kind of joke and story to please his audience. He kept them laughing and was continually telling them their need of getting together, which need this new idea of the Farm Bureau seems to satisfy the nearest. While we were at war great plans were made for the betterment of the world, but now those plans have proven futile the world is broken hearted. People in any countries are starving. The peace program has signally failed. Central Europe is a seething mass and only God alone can tell the outcome. Here we have the best labor conditions under Heaven, yet we have Bolshevism setting things by the ears. Labor unions are under the wrong leadership, with their 6,000 organizers who never work but have about as much use as the parlor lounge louse. These men who take from the unions over $1,000,000 yearly can tell the men to stop work, dictate their wages. The program for the farmer is organization to assist themselves, to control their prices, their value of labor. Conditions over the country are deplorable. Right now there are 17,000 farms without tenants and owing to the high wage rate many will only farm as many acres as they can look after themselves and let the rest lie idle. This shortens production and the prices of living keep on soaring. America's mighty power determines the whole world, hence our greater responsibility.

The Farm Bureau must give us better markets, educate our young people to have a better opinion of the farm life, develop better legislation, mould sentiment as well as look after the financial end of the farm business. We have enough suppose-to-be-representation in Washington milling around. This bureau must put the right men in office or God pity America. We don't want our county Y. M. C. A. conducted by a spindle-legged dude, or our teachers the frivolous sort, for our young spend a large part of their lives with these people. He told of the condition in France when Foch took the reins and said without organization and centralization the farmer will fall.

He lamented the fate of Wilson's 14 points and said the farmers must bring their influence to bear on this League of Nations, as we did not have senators and congressmen with back-bone to see the thing through. He arraigned Wilson as dictatorial, which phase cannot be crowded down an American throat. When it comes to promising England, Italy or Japan territorial integrity "we are not going to do it." If a League meant we are going to get together to avoid war all right, but we won't stand back of the League as it is. Have more Grange meetings discuss present issues, and sign for the Farm Bureau.

A. O. Howard, with his jokes and fun, took Rev. Curtis' place as toastmaster for the remainder of the program. William Wilson and Justin Camp sang "In the County of Kilkeny" and for encore "Kilarney," with Mrs. William Waldron accompanying.

The program closed with readings by Mrs. Alva Knight, "Mr. Caudle Goes to the Fair" and "Willie Gets His Hair Cut."

Two cars of Pocahontas coal just arrived. Order now. Lenawee Lumber & Supply Co.—adv.

School Boy Gossip

"Say, Skinnay, why don't you ever 'cop' any fried cakes or cookies up to your house any more and bring 'em to school? Gosh, it seems like you never even chew gum in school any more; ya used to didn't ya? Heck, I alus grab at least a doughnut to eat in between classes."

"Darn it—I know Bill—it's jist this way. Ma's been away out to Aunt Clara's for two months now and we haint had even a crumb of a fried cake, pa and I haint, since she left. But pa said ma was comin' home next week and he bought a whole pile of that nineteen sumthin flour."

" 'Nineteen-Hundred's' what they call it. Heck, my ma uses that, too. She says she guesses that's what makes her bake days come so often; things go so fast when she makes 'em of that flour. That's made right here in town, and you didn't even know what they called it—whoopee! that's good!"

"Well, I don't care WHAT you call it. Pa said it alus was the best flour they was and so does ma. You jist wait till ma gets home and sees that pile of 1900 flour. Then when she gets her apron on and dips into a sack. Oh, Boy!! I'll bring so many cookies to school you can't see straight."

SEE! EVEN THE KIDS KNOW THAT 1900 FLOUR IS RIGHT.

Home Service Work Is of Wide Range

RED CROSS WOULD MAKE TECUMSEH STARTING POINT IN COUNTY.

Local People will be Trained to do Work—Activities Would Include Assistance of All Kinds.

It is the desire of the Lenawee County Red Cross chapter to have Tecumseh be the first place in the county in which this great mercy organization will establish its Home Service work.

This city is chosen as the ideal place in which to begin this work in this county because of the pronounced community spirit which is in evidence here. When the work is well under way in Tecumseh this place is to be pointed to as a model for other communities to pattern after, and for this reason the officers of the County Red Cross Chapter earnestly request the hearty co-operation of all individuals and organizations, religious and otherwise.

The Home Service work of the Red Cross is far reaching and varied. It encompasses practically everything that will make for better conditions in general. Civilians, families and individuals, may be given points concerning laws relating to their welfare, such as workmen's compensation act, child labor law, mothers' pension legislation, regulations regarding the reporting of contagious diseases, enforcement of school attendance. Champ of 2 States Is to Fight Here

Elmer Hogan of Flint On Boxing Card for April 7—Three Other Matches.

More than ordinary interest is being shown in the boxing matches to be held at the Bradley opera house in this city the evening of April 7, as one of the fighters to appear here is the welterweight champion of two states. This is Elmer Hogan of Flint, who meets Barney Griffin of Milwaukee in the main go of ten rounds next Wednesday night.

Hogan is the champion in his class of Michigan and Ohio, acquiring this title as the result of having administered the sleep punch to all who have contested his claim. He has bested among others Mel Stevenson, Jack Sheppard, Frank Barreiau, champion of Canada; Frankie Brennan, middleweight champion of Michigan; and has a very good knockout record. He defeated Ernie Barrieau, Marty Reese and Marty Gowan each in two rounds, Jack Ford in one round and Jack Mitchell in three rounds, and has encountered a number of other fast battlers. Before he became a professional he was amateur welterweight champion of America. Hogan was born and reared in Flint and has held the title he now possesses for three years. He has never refused to meet either state aspirants or outsiders. When he defeated Jack Sheppard it gave him the title in Ohio, as Sheppard was the recognized champion of that state. This Flint boxer comes from the same camp that harbors Frankie Brennan, Ted Block, Billy Duso and Joe Leonard, all Michigan champions at their respective weights. But in Griffin the Michigan boxer is expected to meet a surprise, as the Milwaukee boy has a long line of successes to his credit, and when these two mix it here local fight fans may look for real action.

In addition to the main go the Tecumseh post of the American Legion, which is sponsoring the matches, will offer three other bouts, the entire card promising to be far above the ordinary boxing contests. Leslie Winters of Detroit and Charlie McGovern of Flint will engage in an eight round clash, Eddie Marriott of Clinton, who is such a favorite here, will be opposed by a Detroit lad, and there will be another preliminary. Jimmie Dever of Jackson, who refereed the previous matches, will again be the third man in the ring.

With a champion as one of the attractions, it is anticipated the attendance at the coming entertainment will be even larger than at the initial matches and the promoters hope there will be a large representation of the fair sex, to whom a cordial invitation is extended.

DAMAGE FROM STORM SLIGHT IN LENAWEE

Although Northern Ohio and Southern Michigan were among the localities swept by Sunday night's cyclone, no great damage was done in Lenawee county. In some parts of the United States the loss of life and property was great.

Tabulations made to date show 161 persons lost their life, the fatalities occuring in eight states. In Michigan 12 met their death as a result of the storm. Indiana, Illinois, Ohio, Georgia, Alabama, Missouri and Wisconsin were the other states in which there was loss of life. The property loss in Michigan will total $2,000,000.

Damage in this county consisted mostly of telephone and telegraph wires blown down.

HAROLD McCLURE TAKES DETROIT GIRL AS BRIDE

Harold G. McClure was married to Miss Elsie Christman of Detroit Saturday evening, March 27. The ceremony was performed by Rev. Dr. Hoag of the Baptist church at the home of the bride's sister and husband, Mr. and Mrs. R. W. Allen, at the Maycourt apartments, East Grand Boulevard, in that city.

Only the immediate families were present, including the groom's parents, Postmaster and Mrs. H. W. McClure.

After a short wedding trip Mr. and Mrs. McClure will reside at 512 Blaine, Detroit. Since leaving the service Harold has been employed in the accounting department at Ford's. His hosts of Tecumseh friends wish the newly weds all the good things of life.

Special Services On Easter Sunday

TECUMSEH PASTORS HOPE FOR LARGE CONGREGATIONS.

Community Easter Musical at Presbyterian Church at 5:30 Sunday Evening—Storm Keeps Many From Last Community Meeting.

An earnest plea is being made by the local ministers that the attendance at the Tecumseh churches be decidedly large on Easter Sunday so that as many as possible may participate in the great joy which the news that Christ has risen brings to the Christian world. There will be appropriate services in all the churches in the morning with a community Easter musical at the Presbyterian church at 5:30 in the evening.

The music at this song festival will be by a massed choir, and much effort has been put forth in preparation for the event. The music will breathe forth the Eastertide spirit, in jubilation of the Christ who conquered even death, and it is the plea of the pastors every seat be taken.

Last, or Palm Sunday, large congregations were in evidence at the morning services. In the evening, at the community service at the Presbyterian church, the attendance was not as large as was expected, the storm which swept over the town just at the hour of the service keeping many from venturing out. Those who did brave the elements had no occasion to regret it, however, as the service was of especial interest.

Rev. W. R. Curtis read the scripture lesson and Rev. C. M. Thompson offered prayer. Preceding the sermon there was community singing, led by F. C. Dickinson. The senior and junior Dickinsons rendered a duet that was much enjoyed. During the announcements it was made

GOV. SLEEPER FAVORS ADOPTING EASTERN TIME

Village Pesident George Hines has received from Governor A. E. Sleeper a proclamation urging the adoption of Eastern time by the whole state.

A petition has been circulated among the business men which requests the council to pass a resolution making Eastern the official time here during the summer months and this will be presented at the next meeting of the trustees.

NUMBER OF REALTY DEALS DURING WEEK

Among the "deals in dirt" for the week are the following: M. L. Loe has sold his home on Adrian street to Alfred Sallows of Morenci, formerly of this vicinity, who, with his family will move here at once. Mr. and Mrs. Loe plan to move to Phoenx, Arizona, from which city they came nine years ago.

John Hamilton and Sebastian Minkle have purchased of Thomas Elliott, sr., the house on West Pottawatamie which they now occupy.

On Thursday Henry Carmichael of Hudson purchased of L. D. Kenyon his residence on North Pearl, in which will move the former's daughter and husband, Mr. and Mrs. Clark Gallup. Mr. Kenyon will vacate about the middle of April.

Floyd Heesen has purchased of R. J. McCoy the double frame house, corner of Evans and Logan streets, which he later sold to C. H. Williamson. The latter is to remove the house to his lot east of the East Branch school, where he will remodel it.

Frank Poley has purchased of Mrs. E. A. Young of Jackson her old home near the ball park and will move his family there as soon as the present tenants, Bert Cregger and family, vacate.

MARTIN V. HENDERSHOTT PASSES AWAY, AGED 80

Martin V. Hendershott passed away Friday night at 11 o'clock at the home of his daughter, Mrs. Charles Nobles, on South Evans street. He had not been well for a year, but not confined to his bed. Friday evening about 6 o'clock he was taken suddenly worse and his suffering was intense until death came. Mr. Hendershott was 80 years of age last September, having been born in Whitehall, Pa. In 1866 he married Margaret Jacobus and to them were born two daughters, Mrs. Lewis Gillis of Kansas City, Kan., and Mrs. Nobles of this city. Mrs. Hendershott died in 1870 and January 13, 1876, he married Catherine Hendershott. Two daughters blessed this union, Mrs. Gustine Sisson of this city and Mrs. Mark Randall of Macon. The mother died just two years ago, March 27, 1918.

Mr. Hendershott had spent nearly his whole life in Macon, occasionally staying a few months with one of his daughters, so it is in that community that he will be missed by many friends.

The funeral services were held from the Nobles home Monday afternoon. Rev. W. A. Rex officiated and beautiful songs were rendered by Mrs. R. T. Meade and Mrs. Ella Hodges. The bearers were close relatives: Charles Nobles, Mark Randall, Harold and Sam Sisson, Leland Randal and Fred Nobles. Many of the Macon friends attended. The burial took place in the Macon cemetery.

HEART DISEASE FATAL TO MRS. ANNA McCLELLAND

Mrs. Anna McClelland, a resident of this vicinity since girlhood, died Monday morning at 2:30 o'clock, at the home of her son, Will, and family, in Raisin, aged 77 years. Death was due to heart trouble of which she had long been a sufferer.

She was born in County Antrim, Ireland, and came to this country when a small girl, her maiden name having been Anna Stevenson. July 3, 1878, she was married to John McClelland. To them were born four children, two of whom survive, Will, of Raisin, and Miss Margretta, of Auburn, Ind. Mrs. McClelland was a life-long Presbyterian.

The funeral was held from Mrs. McClelland's home on North Van Buren street, yesterday afternoon, Rev. W. A. Rex officiating. The burial took place in Brookside.

Lewis M. Waldron Pneumonia Victim

Though Aged 72, He had Been Active up to Few Weeks Ago—Very Widely Known.

Lewis M. Waldron, one of the most widely known men in this vicinity, passed away Monday morning, aged 72 years. He had not been in rugged health for several years but had kept at his work in the well and windmill business until a few weeks ago when he was taken with influenza, pneumonia soon developing.

He was the [illegible] son of Mr. and Mrs. Aaron [illegible] Waldron and was born March 12, 1848, on what is now known as the Occidental farm. His father soon after bought the homestead just west and there Lewis lived until his marriage to Miss Emma Schreder December 22, 1887, when they began housekeeping in this village. So his whole useful life was spent in this township.

The wife and one daughter, Mrs. Margaret Kidman, of West Adrian survive. There are also left the little granddaughter, Elizabeth, who has been the joy of the grandfather's life in the later years, and two sisters, Mrs. C. A. Payne, of Watkins, N. Y., and Miss Hettie, still on the home farm.

This makes the fourth death in this prominent old family in three years. The brother, William [illegible] 1917, another brother, Dr. C. A. Waldron, in January, 1919, and a sister, Miss Clara, only three weeks ago.

Lewis Waldron had been a member of the Methodist church [illegible] 15 years of age. He was a quiet, unassuming man, always honorable in his dealings with his fellows, and loving his home and little family in a greater measure than most men. Given a splendid memory, he was one of the best authorities on local history and many are the delightful hours he has given the younger generation in relating the stories of the early Tecumseh. Not an old man, as the term is regarded, he had continued in active business life and had drawn to himself the respect of a large circle of friends from all over this end of the county, who extend to the wife, daughter and sisters their most sincere sympathy.

Owing to the fact that Mrs. Waldron is still very ill with influenza, the funeral was a private service held from the home this forenoon. Rev. W. A. Rex officiated. The remains were laid to rest in Brookside.

MRS. J. F. RECTOR HEADS WIT AND WISDOM CLUB

Officers were elected by the Wit and Wisdom club Monday evening, the program was particularly pleasing and Mr. and Mrs. J. Duaine Service showed warm hospitality in entertaining the members.

These are the new officers:

President—Mrs. J. Fred Rector.
Vice President—A. O. Howard.
Secretary—Mrs. Wilfred Waldron.
Treasurer—Fred Rosacrans.

As it is almost time for holding the annual banquet of the club, Mrs. Service, Mrs. Laidlaw and Mrs. Waldron were named a committee to make the necessary arrangements.

Miss Beth Widney was scheduled to give a review of Harry Lauder's new book, "Between You and Me," but on account of sickness was unable to be present. Her review was read by Miss Alice Wimple and in spite of the fact that she had not yet read the book her presentation was most effective and was appreciated to the fullest. At several points in the review Mrs. Service read snatches of the book to bring out more clearly the spontaneous humor and sound logic of the Scotch entertainer, her interpretation of the rather difficult dialect finding favor with the club members. Several records by Harry Lauder were played to give a better conception of his peculiar art.

Roll call was responded to with "Recent Fiction." This called to the attention of the members the "Nonsense Novels" by Stephen Leacock, two of which "Sorrows of a Super Soul" and "Caroline's Christmas," were read by Mrs. Service to the great amusement of all present.

At the close of the session ices and wafers were served by the hostess.

Editorial Comment

When the Home Service program of the Red Cross is presented to the people of Tecumseh in the near future, with the request that this town adopt it, there should be wholehearted acceptance of it, for it accomplishes good beyond measure.

The program includes helpful work of such a wide variety and of such an influential character it cannot help but have an immediate effect on the general welfare of the community.

So noticeable has become the community spirit in Tecumseh that the Red cross selected this town as the first place in which to start this work in the county and the Lenawee chapter desires and deserves the undivided and complete co-operation of this whole community.

Go to church.

This is the admonition of the local pastors to their people especially for Easter Sunday.

Easter is a joyous occasion in the church calendar and one in which all should participate.

Go to church that day if you never went before.

And if you keep on going there will be rejoicing among those interested in your spiritual welfare.

SPECIAL SERVICES ON EASTER SUNDAY

(Continued from Page One)

known by Rev. Thompson that an Easter breakfast would be held at the Methodist church Sunday morning at 6:30 o'clock, to which all are invited, all to bring their own eggs. Rev. Curtis called attention to the Inter-Church World Movement conference to be held in the First M. E. church at Adrian April 7 and urged as many of the church people as possible to attend. Rev. W. A. Rex brought the Easter musical to the notice of the congregation.

The sermon was by Rev. Rex and he had chosen the unique topic, "Popping the Question." He said the text was found in the 24th chapter of Genesis, 58th verse, "Wilt thou go with this man? And she said I will go." Upon the answer to this question depends the future of society, human and divine, was the declaration of the Presbyterian pastor. He went on to say few men give the matter sufficient consideration before popping the question and enter into the holy ties of matrimony without a full conception of what an important step they are taking. The whole future of society depends on with what an attitude a couple enters married life.

The preacher derided the contention of some that the motion picture machine was the invention of the devil and causes more misery in the world than anything else. He contended the motion pictures could be made a valuable adjunct to the church and predicted it would be used before long to more forcefully impress the Bible lessons on the hearts of people, if not in the church services proper, at least in the Sunday school. Instead of blaming the movie for the most trouble, he was of the opinion the auto had caused a large per cent of the downfall of young girls.

"Lack of loyalty in the family brings 90 per cent of the disaster in the world," asserted Rev. Rex. He called the attention of his hearers to the fact that on the kind of homes we have now depends the kind of state, kind of religion and the kind of society we will have in the future. Heaven was declared to be a place of homes.

A second question was popped by the speaker in the latter part of his sermon, this being "What shall I do with Him?" The answer to this was a plea that we take Jesus into the home, as no home is complete and the family life is not what it should be if the Lord is not present. Unity in the home is also of great importance, for the family is not perfect unless complete unity exists. The sermon was closed with the plea, "Open your heart and accept Jesus."

The benediction was pronounced by the speaker.

BRADLEY OPERA HOUSE ATTRACTIONS

"Fatty" Arbuckle Next Saturday Night.

Next Saturday, April 3, the management of the Bradley will present an even greater comedy offering than that of last Saturday, when Charley Chaplin was the main "gloom chaser" of the evening and hundreds of Tecumseh people "laughed their heads off" at the antics of this funny screen comedian. It has been many weeks since the Bradley was packed like it was last Saturday, but it is a safe bet that the crowd will be even greater next Saturday night when the "biggest" comedian on earth, "Fatty" Arbuckle, will be seen in the first of his new comedies, "Back Stage."

"Fatty" Arbuckle comedies are distinctive because they appeal to everybody—father, mother, sister, brother and all of the kiddies. When the management of the Bradley presents an Arbuckle comedy, it's an event worth waiting for and all of the folks in town will want to see his latest and best.

In order that the entire Saturday night bill will be far above par, handsome Wallace Reid, the idol of the screen, has been booked in "The Source," taken from the famous Saturday Evening Post st[illegible] of the same name, which [illegible]res the patrons of the Bradle[illegible] an exceptionally high class [illegible] entertainment, well w[illegible] to attend.

Norma [illegible] [illegible]nday Even-[illegible]

An [illegible] extraordinary can [illegible]d to the big specia[illegible] at the Bradley fo[illegible]ng, April 4. It is [illegible] biggest production [illegible]f Conquest," with [illegible] screen star, Norm[illegible] the leading role.

"T[illegible] Conquest" is a fasc[illegible] first moving drama [illegible] settings and beautiful sc[illegible] taken amid the beauty and p[illegible] of a typical tropical island. [illegible] cast headed by Miss [illegible] makes it an attraction [illegible] while and one that [illegible] be one of the Bradl[illegible] offerings.

A [illegible] ett comedy, "The [illegible]," and the special [illegible] complete the big S[illegible].

"A [illegible] the Night."

Un[illegible] every reader of The [illegible] remembers the sensational [illegible] and amazing films, "The [illegible] of Tarzan" and "Tarzan of the Apes," which were presented at the Bradley a short time ago. Packed houses claimed them to be the greatest and best photoplays ever seen in Tecumseh. "A Scream in the Night," which is booked for presentation at the Bradley on Saturday evening, April 10, is a story and picture something on the order of the two Tarzan pictures, but with a beautiful young girl playing a role similar to that played by Elmo Lincoln as "Tarzan." Miss Ruth Budd, known the country over as a vaudeville star and a "stunt" actress of unrivaled daring, plays the part of Darwa, a beautiful girl accused of being only half-human, clothed only in leopard skins and springing from tree to tree with the ease of a monkey, talking to giant apes in their own jungle language. Wonderful jungle scenes abound in "A Scream in the Night," as much of the story is laid in the upper reaches of the Amazon.

A SCREAM IN THE NIGHT

If you liked the "Tarzan" pictures, and we are positive that every one who saw them did like them, you will like and enjoy "A Scream in the Night" and should plan to see it at the Bradley Saturday evening, April 10.

A Grocer Tells What Overcame Effects of Flu

Nerv-Worth Quickly Brought J. O. Wilkinson Back to Strength and Health.

Mr. Wilkinson, a well known grocer of Richmond, Ind., made the following statement:

"I was in bed 16 days with influenza and it left me in very bad shape. I was weak and nervous. Could not sleep more than an hour or two at a time. Had very little appetite and I was hardly able to get around the house.

"I read the statements in the paper and Nerv-Worth seemed to be helping so many to get well that I thought that I would give it a trial. Used two bottles of Nerv-Worth and am AS WELL AS EVER NOW. Good appetite, sleep fine and get up in the morning rested."

EAGLE SHIRTS

It is our business to know good merchandise. We recommend Eagle Shirts.

Experts have experimented in the maker's own mill with designs, colors and varieties of yarn to achieve exceptional patterns—as if pattern were everything. Fabrics have been woven in the maker's mill where they are conceived—with as much care as though beautiful cloth were the only consideration. This manufacturer of over fifty years' experience has been constantly bettering every detail of cut and tailoring—as if workmanship alone would sway a man.

We know these things. That is why we believe in Eagle Shirts. That is why we want you to see our window display of Eagle Shirts; why we want you to come in, examine them, buy them, wear them. You'll understand then why we recommend them so heartily.

Every shirt the ultimate in value

And our shop equipment boasts a great many specially designed Ford tools and time-saving devices and machinery. In our stockroom is a complete assortment of repair parts—genuine Ford parts—that are exactly the same as their tough, sinewy originals in the Ford car.

About 40 attended a party given Tuesday night by Miss Kyle's Sunday school class as a house-warming for Mrs. Wm. Gibson. A bountiful pot luck supper was served, with Mr. Gibson and Floyd Freeman the guests of honor. The evening was spent in visiting and a guessing contest in which the captains were Mrs. Eugene Billings and Mrs. Franc Gillespie. Piano duets were given by the Misses Alice Whelan and Ruth Gibson. The hosts expressed themselves as delighted with the welcome of their friends to the town and the guests heartily enjoyed the event.

Mrs. Andrew Hiler writes her sister, Mrs. Charles Deety, from Brunnersburg, near Defiance, Ohio, that their home was completely wrecked in Sunday's tornado. Their clothing and furniture were all destroyed. Mrs. Hiler and the 10-year-old daughter, Anna Margaret, were much bruised, but Mr. Riley, her father, Mr. Hiler and baby Bobbie were unhurt. The family are staying at the home of Mr. Hiler's brother in Defiance. Three people were killed in the little town. Mrs. Hiler, whom we knew best as Agnes Riley, married Mr. Hiler, a bridge contractor while he was here erecting a Brownville bridge. Since living near Defiance they were driven from their home by the flood at the time of the great Dayton disaster.

New shapes received every day. They're stunning creations. Grace Gillespie.—adv.

A Vote for Leonard Wood is a vote for a candidate who does not evade any issue. It is a vote for a man whose backers will continue to support him at the National Convention as long as he remains a candidate. Don't waste your ballot on a complimentary vote for a candidate whose support will be switched to some other candidate now unknown to you.—One candidate whose name is not on the ballot in Michigan, and about whom you consequently will have no opportunity to express an opinion is acknowledged by Republican Leaders to be the strongest opponent Leonard Wood will encounter at Chicago.

Foley's Honey and Tar is the best known and most successful family cough medicine on the market and the following letter is positively true and genuine:

Says "It Acts Like Magic"

Gilbert Fleming, 3911 Budlong Av., Los Angeles, Cal., writes: "I have much pleasure in testifying to the very great benefit my family and I have derived from the use of Foley's Honey and Tar. It positively acts like magic, and to my mind there is nothing on the market [illegible] it. Whenever there are any of our household suffering from heavy colds or bad coughs or hoarseness, we at once get a bottle from our local drug store, and after one or two doses obtain instant relief. Your company deserves great credit for such a valuable production and from our own experience we cannot do otherwise but recommend it to our friends and this we willingly do and will continue to do so."

A Vote for Leonard Wood is a vote for a candidate who does not evade any issue. It is a vote for a man whose backers will continue to support him at the National Convention as long as he remains a candidate. Don't waste your ballot on a complimentary vote for a candidate whose support will be switched to some other candidate now unknown to you—One candidate whose name is not on the ballot in Michigan, and about whom you consequently will have no opportunity to express an opinion is acknowledged by Republican Leaders to be the strongest opponent Leonard Wood will encounter at Chicago.

Why They Are Favored by Farmers Everywhere

For nearly twenty-five years e New Deere Sulky and Gang ows have been the most wide-used of their respective types.

Here is the general reason:

Farmers everywhere have conued to find that these plows e the best and longest seed d-making service.

And here are some specific asons:

—Their genuine John Deere bottoms, made of the best material, tempered perfectly, and shaped exactly right, cut, turn, scour and pulverize to the best advantage. And they outwear any other bottoms.

—Their bottoms reach full depth immediately and stay in the ground at uniform depth while plowing—they make uniformly deep, roomy seed beds.

3—Their Quick Detachable Shares makes changing shares a matter of a few moments. They are strongly reinforced against wear, retain their original shape, and always fit closely.

4—Their forged steel frogs neither bend nor break. Nor do their frames.

5—They pull easily because the wheels carry the entire load—no landside or furrow bottom friction.

6—They have the simplest and most dependable power lift ever placed on a wheel plow.

The unmatched record of these plows and the reasons why they have maintained this record are things you can bank on.

HOME SERVICE WORK IS OF WIDE RANGE

(Continued from Page One.)

would also include resources available for educational opportunities, provisions made by the state, county and village for the care of its citizens. Information concerning the services of the United States Public Health Service, state boards, such as health, welfare and other state commissions, and information about the location and character of state institutions as well as assistance in using such societies as the State Anti-Tuberculosis association and Children's Aid society.

The program of work for families will include not only information but services such as advice and guidance in connection with problems of home management, assistance in adjusting to newer and better conditions civilians whose well-being is threatened by financial embarassment, unwholesome living conditions, loneliness, insufficient or inappropriate employment or low standards of living.

Home service work would also involve helping every child to get a right start in life, befriending boys and girls whose home life does not afford fullest opportunity for development. The Red Cross would not only be the greatest mother, but to the older boys and girls a big brother or big sister, not forgetting those whose youth and vitality may result in a violation of some local ordinance or state law. The mother should be able to turn to the Home Service worker for aid in carrying her burden of household and family. There will be such service as will afford relief to the husband who is facing difficulties, and will bring comfort to the aged.

This work is all done by local people. The Red Cross would send a worker here who would instruct and train a group of probably five, chosen by the people of this community, how the best results are obtained, and the county chapter would act only in an advisory capacity and furnish the funds for cases where financial assistance was needed. In a place like Tecumseh where there is no general organization to lend a helping hand in emergency cases the Home Service work would include immediate steps to bring relief to the family or individual in need of assistance. It would mean aid at once in a case where help was needed immediately and then the case would be investigated and steps taken to put the family on a sounder financial basis. It may be the wage earner was not able to cope with his problems with his present income and a way might be found to secure him more lucrative employment and in that way help him to a higher standard of living. It would be the object of the home service workers to see that there was no overlapping in the aid extended those deserving assistance, and in cases where there is very apparent cause for the needy condition of the family, to remove the cause and in time place the family on a self-supporting basis, thus reducing by one the number of cases where help is constantly needed. In practically every community there are certain people who do not have any compunction against asking and accepting assistance when they do not realy need it. These will also receive the attention of the home service worker and will be convinced that in the future they will plead for assistance in vain.

One of the important phases of the service will be the work done among the children. Cases where the student is not progressing with the lessons as he should will be investigated and if it is found the cause is of a character to be removed this will be done. It may be discovered the child is suffering with adenoids and diseased tonsils and in that case the parents will be informed of the cause of the pupil's backwardness and if they are financially unable to have the necessary operation performed the Red Cross will furnish the money. If a child comes to school underfed or not properly clothed the home conditions will be investigated and if help is needed it will be extended in such a way as to bring the best results. In short, the range of the home service worker's activities will be wide but will always be extended in such a gracious manner and with such good results that once the department's methods are known and understood they will be considered so valuable the community will never desire to dispense with the service.

Steps to bring this department of Red Cross work to the attention of the people of Tecumseh with the hope of establishing it here will be taken in the near future.

"Gets-It"
Got It

For a day or so the corn remains, getting looser and looser and without a twinge from it. Then, it gets so loose that you just lift it right off, without even feeling it, and cast it away. That's how easily and simply "Gets-It" disposes of the corn nuisance.

"Gets-It," the unfailing, guaranteed, moneyback corn remover, costs but a trifle at any drug store. Mf'd by E. Lawrence & Co., Chicago.

Sold in Tecumseh and recommended as the world's best corn remedy by B. J. Pulver and C. A. Wright & Son.—adv.

Red Cedar Posts

THE MOST ECONOMICAL

With fence building time so near it is well to give thought to the kind of material to be used. Like in other things, the cheapest kind of material is not the most economical in erecting good fences.

Tennessee Red Cedar posts are the most practical for keeping your fences in the best of condition. They last many times longer than any other kind and for that reason alone are the most economical. And in outlasting all others, much time is saved, as replacements are necessary only once in many years.

Our Present Prices Surprisingly Low

And our price on these very durable Tennessee Red Cedar Posts is remarkably low just now considering the cost of building material in general.

We have a large supply of these posts at present, but the wise ones, those who want to be sure to get some of these posts, will come at once.

Wire Fence Going Cheap

Those in need of wire fencing should no fail to call on us before making purchases. We have a supply of high grade wire fencing which we will dispose of at an especially low price. You are urged to investigate this proposition before buying the fencing you will need, as we are positive we can save you money.

Our general line of building supplies and our fuel stock is ample at present and your patronage is respectfully solicited.

1920 Buick

Compare the net retail price of other popular, well known six cylinder, five passenger cars of approximate weight with the 1920 Buick. Prices quoted are as listed at the Detroit Automobile Show, the variation in prices being from $135 to $290 higher than Buick prices.

BUICK	$1575.00
Nash	1710.00
Paige	1750.00
Liberty	1756.00
Saxon	1785.00
Studebaker	1785.00
Reo	1848.50
Chalmers	1857.83
Mitchell	1865.00

There are several other cars of approximate weight which list even higher, while cars of much lighter weight such as the Olds, Dodge or Oakland, list close to Buick prices.

EXPLANATION

The explanation is simple. The Buick production basis for 1920 is estimated at 150,000, nearly the approximate total of the above makes combined.

The 1920 Buick is the best buy on the market today. Its yearly depreciation is less than that of any other car.

The new 1920 Buick is positively the best Buick car ever turned out by the Buick Motor Company. We have yet to find one weak point in the new 1920 Buick model. Buy a 1920 Buick. You cannot go wrong.

Tecumseh Home Building Associat'n

OFFICERS ELECTED, BY-LAWS ADOPTED

Articles of Association Signed by Stockholders — First Assessment Collected.

The second meeting of the stockholders of the Tecumseh Home Building Association was held at the Council chamber Friday evening, with two-thirds of the subscribed stock represented.

On the previous evening the board of directors met at the Lilley State bank, when the following officers of the association were elected:

President—B. J. Pulver.

Vice President—Guy E. Belding.

Secretary-Treasurer — E. H. Ahrens.

President Pulver called the stockholders' meeting to order Friday evening.

After roll call the secretary read the minutes of the preceding meeting, which were approved.

R. S. Moore of the committee on by-laws reported that the committee was ready to recommend a set of by-laws, which he read.

The by-laws were again read by section and the seven articles were adopted each by separate vote.

Attorney Rathbun explained the articles of association necessary for incorporation under the state laws and the document was presented for the signatures of the stockholders.

It was moved, supported and unanimously carried that a 10% assessment payable at once be levied.

Manifesting the enthusiasm of the stockholders present checks for the first assessment were handed the secretary and the articles of association signed without delay.

All necessary business being transacted a motion to adjourn was carried.

Just when active building operations will be begun by the board of directors cannot be stated definitely. It may interest readers, however, to know that early action is contemplated.

Republicans Win in Tecumseh Township

ONLY HALF OF VOTERS VISIT POLLS

Women Gain Office of Treasurer and Constable—Gen. Wood Favored as Republican Presidential Candidate, Hoover as Democratic.

A complete Republican victory was the result of the township election Monday, with the majorities ranging from 20 to 357. Two women were elected, Mrs. Louise Cole as treasurer and Mrs. Lura Howard as constable. The new constable promises to clean up some of the dark places of town if backed by the club women as they have signified. Her work will be watched with interest all over the county. Only about half a vote turned out, as all together there were only about as many votes cast as in the days when men held the ballot alone. Yet a fine showing of women appeared. The township election resulted as follows:

In the primary vote the Republicans gave for presidential candidates:

With the returns from Michigan practically complete, the pluralities of the leading candidates of the presidential preference primary are as follows: Senator Hiram Johnson (R) about 45,000; Herbert Hoover (D) 6,000. Late returns have increased slightly the lead of Fred M. Warner for national committeeman, his plurality being about 11,500.

LENTEN SERVICES BRING FRUIT ON EASTER

Musical Most Inspiring But Storm Keeps Many at Home—To be Repeated at the Presbyterian Church Sunday Evening.

It was not a very bright and glorious Easter morn in Tecumseh. In the first place the people had been saddened all the week by frequent deaths in the city. Then on Easter morning they awakened to a snow covered earth. At noon the storm was renewed and a real blizzard raged until into the night.

The churches, however, were beautiful with their gay flowers and foliage, making such a marked contrast to the storm without and typifying the glorious victory over the tomb. At all the churches were given Easter exercises in the morning and about all received new members, resulting from the Lenten services just closed. The Methodist church received 34, the Presbyterian about 20, the Baptist 14 and Friends five.

The day closed with the Easter community musical which has been Tecumseh's custom for several years, when the choirs of the town unite in one splendid concert, with 50 voices. This musical was given at the Presbyterian church, which had been simply but effectively trimmed. The platform was enlarged to accommodate the singers and at either end were banked potted plants, mostly red geraniums in bloom. Above all, from the center of the arch above the choir, was suspended a great white cross.

This choir was directed by Mrs. R. S. Moore. Mrs. Eugene Billings

NEXT MEETING OF THE MONDAY CLUB APRIL 19

Kipling was the theme at the Monday club this week, when Mrs. Ella James was leader. A sketch of Kipling was given by Miss Lucy J. Train and several of his selections were read by Mrs. W. D. Reed and Mrs. C. A. Wright.

There will be no session of the club next Monday, but on April 19 John C. Ketchum will give an address before the organization.

The annual meeting of the Order of the Eastern Star took place Thursday evening. At 6:30 the members enjoyed a pot luck supper, served by Mrs. R. A. Heesen and her committee. The election of officers resulted as follows:

W. M.—Mrs. Ina Abbott.
W. P.—George Hines.
A. M.—Mrs. Manie Snedicor.
Secretary—Miss Nannie Kyle.
Treasurer—Mrs. Blanche Turner.
Cond.—Miss Mildred Boyce.
Asst. Cond.—Mrs. Enna Whaley.

Alternate to Grand Lodge—Mrs. O. B. Lenardson, Mrs. John McIntyre and Harry Abbott.

Miss Kyle holds the unusual record of having been secretary of this lodge 15 years, with never having been absent from a meeting. There were quite a company of Britton and Ridgeway members present.

The new officers will be installed tonight.

Rev. Rex Is Likely To Leave Tecumseh

Presbyterian Pastor Tells Congregation of Attractive Call from Department of City Extension, New York.

At the close of the annual congregational business meeting of the Presbyterian church Tuesday evening, Rev. W. A. Rex, the pastor of the church for six years, explained in detail the opportunity and obligation of a call sent to him from the national board of the new deprtment of city extension of the Presbyterian church. The work is that of surveying and developing the new and growing sections of the rapidly expanding cities. The contract calls for seven years of service, but also provides opportunity for travel and study.

His first work would be in Civic Park, Flint, to which Rev. Rex was called by the state board some time ago but which he declined. The call from the national body is much more attractive and offers better opportunities, both financially and in training, and he will be given ssistants as the work is a large one.

The minister asked his congregation what they would do under like circumstances. None said that he should go, but many said in view of such an opportunity, if they were he they would go, though they regret most sincerely to lose this forceful orator and energetic worker.

Rev. Rex went to Detroit last evening, as he must give his answer in that city today, and he will announce his decision to the congregation next Sunday morning. Tecumseh and Lenawee county loses a prominent man if Rev. Rex decides to take up the larger work, as he has been a hard worker both patriotically and for the Red Cross besides caring for the Macon Presbyterian church, where he preached each Sunday afternoon when possible. All this in addition to his work in a congregation of the size of the local Presbyterian church.

Dr. Bradley is a young Michigan man who is pastor of the People's church in Chicago and is said to be as gifted a speaker as Dr. Gunsaulus. Dr. Bradley is a born orator. He belongs to the class known as "Who is Who in America." If you enjoyed Fletcher last year you can't afford to miss this lecture.

Hard Blows Many At Second Show

Tecumseh Legion Fight Card Gives Genuine Satisfaction—Third to be Staged Soon.

There was real punching at the second of the Tecumseh American Legion boxing shows at the Bradley opera house Wednesday evening and the entertainment gave even more general satisfaction than the first. Many were the comments of approbation at the close of the fight card. It was announced the post would hold a third show early in May.

Elmer Hogan of Flint, welterweight champion of Michigan and Ohio, gave proof in the main go of the evening of his title-winning ability by getting a shade the best of his *encounter* with Barney Griffin of Flint. Both exchanged slashing blows willingly and for ten rounds they walloped each other with vigor.

In the semi-final Charlie McGovern of Flint gave Leslie Winters of Detroit a trouncing, the latter being obliged to take a great deal of punishment.

Sam Consiglio of Detroit and Eddie Marriott of Clinton faced each other in one of the preliminaries, but neither was inclined to step in and mix it very much. In the opening match Glenn Crittenden of Tecumseh and George Metzger of Clinton were the opponents and were about evenly matched.

The attendance was not quite as large as at the first entertainment.

Jimmie Dever of Jackson, who refereed at the initial show, was the third man in the ring again last evening.

EASTERN TIME STARTS HERE SUNDAY MORNING

In response to the plea of Tecumseh merchants and several of the factories, the council at its session Monday evening passed a resolution requesting all the people of this city to adopt the Eastern Standard time during the summer months, the change to take effect at 2 o'clock Sunday morning.

It is hoped, in order to avoid confusion, all will set their clocks ahead one hour at the appointed time.

The local pastors annonuce the churches will be among those to follow the new time schedule this Sunday.

Two bells every morning
I rolled out of the hay,
Just to give the city service;
No competition, I must say.

I never missed one single day
To give service on Sundays too;
Why, I'm the guy that brought it nights
When you all had the flu.

The old phone now is ringing,
"Say, Governor, what's the price?
Well, bring me some anyway,
You have always used us nice."

Ice cheap? Well, I'll say yes.

MONROE K. OF P. TEAM HIGHLY PRAISED HERE

Tecumseh Knights of Pythias have been given evidence why the Monroe lodge has twice been awarded a trophy for efficacy in exemplifying the lessons of this order, for the Pythians from the neighboring city did third rank work for the local knights Thursday evening in a manner to win the highest commendation. In all about 35 from Monroe made the trip to this city, coming by auto, the visitors being heartily greeted and shown warm hospitality while guests of the Tecumseh lodge.

Members of the Monroe delegation began to arrive early in the afternoon, others coming shortly before the meeting of Tecumseh lodge, No. 190, opened. Chancellor Commander Ernest VanVleet, who has been ill, was present but was still too weak to preside, Hugh H. Hanna, jr., a past chancellor, filling this chair. The business of the lodge disposed of, the initiatory work was taken up, the officers of the Monroe lodge occupying the chairs. The degree team of the visiting lodge proved it had won its laurels fairly, for it gave the ritualistic work of the highest rank in Pythianism almost letter perfect and with dramatic emphasis. To this the two candidates, C. A. Stalter and John Hamilton, will testify.

Under the head of good and welfare of the order, the Monroe knights were sincerely thanked and unreservedly praised for their creditable efforts. In respone they expressed the wish that Tecumseh lodge would pay them a visit, and this will probably be done in the not distant future.

Following the lodge meeting a substantial lunch was served and with the passing of cigars a most interesting and pleasurable session of the Tecumseh Pythians was brought to a close.

Death Removes a Popular Merchant

Fred Aldrich, Grocer Here 10 Years, Victim of Pneumonia.

Fred Aldrich, one of the best liked men on the business street, passed away Friday evening after a ten days' illness with pneumonia.

The death of this popular merchant has brought sorrow to many in this city, for he was known as a courteous, friendly man. He was the senior member of the grocery firm of Aldrich & Son, who, in their ten years in the business have built up a remarkably successful trade.

Mr. Aldrich was born 52 years ago in Saline. When but a tiny baby his people moved to Brooklyn and there he grew to manhood and, in 1888 married Miss Minnie Teachout. To them were born the one son, Wilson, who was his father's partner.

The little family lived in Adrian a few years, but for the last 27 years have made this city their home. For a time Mr. Aldrich was in the bakery business, but it is as the grocer the townspeople knew him best. Mr. Aldrich was a member of the K. of P. lodge.

The funeral was a private service, conducted by Rev. W. A. Rex from the home Monday forenoon. The bearers were R. N. Lowe, George Church, O. G. Hunt, Andrew Taylor, Will Westcott and John Hoy. The burial took place in Brookside.

Attending were the aged father, Peter Aldrich, of Brooklyn, Mrs. George Cole, Mr. and Mrs. Clarence Vanderpool of Onsted, Mr. and Mrs. Will Cutter and son, Harold, of Adrian, Mrs. Miller of Toledo, Mr. and Mrs. Chas. Judge and son, Edwin, of Clinton, Mr. and Mrs. Newman Curtis of Brooklyn.

Editorial Comment

For a time it was thought by some of our townspeople that interest and enthusiasm in the home building plan was waning. This, however, was not true, as the second meeting of the stockholders held Friday evening testified. As it seemed unwise to attempt any definite work before actual incorporation the board of directors were awiting the completion of the necessary legal papers and the readiness of the committee on by-laws to report.

Now that the rules regulating the affairs of Tecumseh Home Building Association are about to become legalized and with ten per cent of the stock paid in, the board of directors can feel that they are fully authorized to become active.

Not entirely idle has the board of directors been during the meantime. Suitable locations for new homes have been discussed and options on building lots practically secured.

In fact, everything is working smoothly thus far and the only regret is that not more business men and residents of town are affiliated with the association. It is a movement that clearly spells better living conditions, better business and a better Tecumseh. For the man who makes his money in Tecumseh there is no better investment than to improve his town. No one is expected to donate money—just loan it. Some not yet enrolled in the association have expressed their willingness to join in the movement.

Subscriber the other day hesitated and was in doubt about paying a year's subscription for The Herald in advance, thinking that perhaps the publishers would be unable to secure the necessary print paper to continue to issue. This subscriber had evidently heard about the difficulty in securing the raw material for newspaper making. Thanks to the ready response of hundreds of subscribers to the appeal made several months ago, the publishers were able to lay in quite a supply of print—enough, it was thought, to tide The Herald over the critical winter period. Since then the price of print has again soared, taking leap of about $3.50 per hundred, and still it is difficult to secure a shipment. But we are pleased to announce that enough paper is in sight to keep The Herald, the oldest and best paper in the county, issuing regularly each week. If you owe subscription your prompt remittance will help materially in meeting the next paper bill.

"This seems more like Christmas than Easter" was the remark heard often last Sunday as the people came and went to church during the blizzard. It was hardly propitious weather for the advantageous display of new finery. But then, better days are coming.

How about the membership committee of the Commerce Club? Are they ready to make a gratifying report at the banquet April 13?

Why such a snow storm on Easter morn to discourage the display of many a new bonnet and gown?

Many were the wishes for an oiled business street last week when the high wind swept the dust from the road into the stores, throats and lungs. Everything was reported serene on the oiled thoroughfares.

Tecumseh lost money by not ordering road oil several months ago. It is hoped that a method will be adopted to prevent a repetition of further such losses.

Despite the storm Easter Sunday the church attendance was good. Glad to note that some of our residents have at least the once-a-year church habit.

Did you vote for the winning ticket? The majority of the voters of the township did.

Well, they all will make good, honest officials.

Card of Thanks.

Through The Herald we wish to thus show our appreciation and gratitude for the thoughtfulness and sympathy shown us during and since the death of our husband and father. Inexpressably comforting have been these tokens and especially the great abundance of beautiful flowers.

ASKED TO KEEP THEIR IDENTIFICATION CARD

Former service men, holders of Uncle Sam's war risk insurance, have received from the bureau of war risk insurance an identification card bearing their name and insurance number, for ready reference, such as they carried while in the sevice, states Director R. G. Cholmley-Jones of the bureau in a communication to the Lenawee County Red Cross chapter.

This card will enable the men to give their correct insurance number when communicating with the bureau of war risk insurance, and also serves for identification in case of sickness or accident.

Many of these cards are being returned to the bureau by former service men instead of being retained. The director requests all former service men who received these identification cards to keep them.

Mitchells and Maxwells Lead In Their Respective Classes

A new standard for moderate priced cars was set by the designers of the new Mitchell Six, for they produced the prize creation in master body building. Smooth, silent travel—the outstanding characteristic of the Mitchel chassis—is reflected in every line of the several models of this remarkable car.

All Mitchell bodies, open and closed, are built in Mitchell factories and follow standards set only on the highest priced cars and in the products of the exclusive custom shops. The distinctive appearance of

THE MITCHELL SIX

is the natural result of the high skill and extreme care given to the perfection of every detail of its construction. Mitchell owners appreciate to the full the fine qualities in Mitchell bodies, because of the exceptional comfort and freedom of movement attained in their generous proportions and because of the velvety riding of the Mitchell suspension springs.

To those familiar with the wonderful service record of the new Mitchell Six in the hands of thousands of users little more need be said. Many refinements have been made, such as taper roller bearings in the rear wheels, driving the speedometer from the transmission, improvement in chassis lubrication, and so forth, while new and better manufacturing processes increasing mechanical accuracy in the factory, vastly enhance the simplicity, sturdiness and silence of the chassis. In a word, it is a fit power plant for the superb Mitchell bodies. Together they represent a combination of outward beauty and inward excellence, which in point of distinctive appearance, luxurious riding and satisfactory service, will not be matched save at far higher prices.

MAXWELL TRUCK GOOD INVESTMENT

The purchase of trucks is an investment, and the wisdom of the investment must be judged by the results as shown by the year's operations, not by those of a day or a week.

Maxwell truck service records show, after 13,500 of these trucks had been in service for periods varying from a few months to two and one-half years, that they averaged 99.99 per cent perfect, based on complaints and the quantity of repair parts to keep them in good condition.

This phenominal record has placed the Maxwell truck in a class by itself and compels the attention of prospective purchasers of a hauling motor vehicle.

Ford

THE UNIVERSAL CAR

Surest Thing in the World

Two and two have always made four. There would not be more than three million five hundred thousand Ford cars in daily service—which is just about one-half of all the automobiles in America—if the Ford, as a reliable motor car, did not meet the demands of all classes of people everywhere and under all circumstances.

Two and two have always made four. If the material, the iron and the marvelous Vanadium steel used in the construction of the Ford chassis, were not of the highest quality known to the science of Metallurgy, then the Ford car could not have won its world-wide reputation for reliability.

Two and two have always made four. When replacements and repairs are required on Ford cars, the Ford owner will be wise in bringing his car to our place, because we use only the Genuine Ford Parts, and we have the Ford skilled mechanics, and all the Ford knowledge that goes to maintain the high standard of quality which is original in the Ford car.

When you want a Ford car or a Ford truck, and when you want repairs or replacements for the same, we earnestly solicit your business, assuring you of prompt attention, real Ford service, and economical Ford prices.

Four Complete Operations Every Trip over the Field

Now that farm labor is scarce, it is to your advantage to do your work in the quickest and easiest way, especially when that method will bring even bigger crops than the old.

The planting season is always a busy one, but you will find that the work is accomplished a lot easier if you use a John Deere-Van Brunt Fertilizer Drill. This drill makes horsepower and manpower available for other purposes. In one trip over the field it pulverizes the soil, makes the seed furrows, plants and covers the seed and the fertilizer. And, besides, it increases the crop yield because it does better seeding.

Come in and ask us to show you the **patented** adjustable gate force feed used on Van Brunt Grain Drills. This force feed is the construction that insures even seeding over the entire field. No seed is wasted, and there are no bare spots in the field. The "Van Brunt" does first-class work in any soil capable of being seeded. It does not choke up in mud, gumbo, sticky or trashy soil.

Save extra labor and seed and increase your crop yield by buying a Van Brunt Fertilizer Drill from us.

When in need of feeds we would remind you that we have a complete line and as our prices are always in your favor it is money in your pocket to buy here.

At Indianapolis recently an Overland 4 stock car was driven 5,452 miles *continuously* in seven days and nights, over frozen country roads.

COAL

I believe the coal situation will be bad this summer for several reasons. On account of the severe winter the northwest is all cleaned up; contracts are being made now for large quantities as soon as navigation opens.

Pocahontas is being used so very extensively at the seaports. The government restrictions are off soft coal, the new schedule of prices on hard coal are to be in effect this month. The prices to miners had been unchanged since 1917 until now.

You can readily see all indications point to a great scarcity and much higher prices.

In spring months people do not buy as readily as in fall months and for that reason it will be a little more plentiful and you will get a better price than later. I believe there will be a great shortage late in the fall and next winter and advise the storing of all you possibly can early this spring.

We feel fortunate in having the best of connections for hard coal—the Old Plymouth. Have bought of the one firm since 1912.

Being closely connected with one of the best soft coal mines in Ohio we will be able to obtain the best possible service.

Another theft is added to the mysterious list of the past six weeks. From the home of Mrs. Henry Becker on South Ottawa street was stolen a sum of money and new pair of children's shoes. Mrs. Becker stepped into the home of her neighbor, Mrs. Eugene Service, for a minute Tuesday morning and when she returned home she knew some one had been rummaging, as $5.40 had been taken from her purse and a new pair of children's shoes, size 6, were also missing.

PRESBYTERIAN CHURCH IN FLOURISHING CONDITION

Tuesday evening was held the annual congregational meeting of the Presbyterian church. About 60 enjoyed the pot luck supper at 6:30, the business session following, with H. W. McClure, president of the board of trustees, in charge.

The meeting opened with prayer by Rev. W. A. Rex and the annual reports of the different church organizations were given, showing the church in splendid condition, both financially and in the enthusiasm in the Lord's work. These reports covered the past 17 months since the last annual meeting. The treasurer, Donald F. Wright, reported $6,100 raised, with $5,900 expenditures. He recommended a budget for $5,928 for next year. His recommendation was voted by the gathering. The $300 debt of a year ago was reduced to $100.

The minister's report was most satisfactory. He asserted the Sunday school is in better condition than before during his pastorate, and the finest organization in the church. During the year he has made 751 calls on his parishioners and officiated at 48 funerals and 10 marriages.

The church organizations were represented as follows:

Benevolences—R. M. Moiles.

How One Woman Helped Another

Foley Kidney Pills are bought in every state in the Union by men and women on the recommendation of those who already have been relieved of kidney trouble and bladder ailments by this sterling family remedy. Comparatively little advertising has been done for Foley Kidney Pills, yet they are well known, and those who know their splendid healing properties never accept an imitation or substitute for the genuine Foley.

Pains Banished; Health Restored

"In September, 1913, I was stricken with lumbago and was unable to turn myself in bed. I was under the care of a physician but obtained no relief. A neighbor brought me a half bottle of Foley Kidney Pills; said she had been similarly afflicted and they had relieved her. So I tried them, and after taking three bottles was well and on my feet. I most heartily recommend Foley Kidney Pills. I have never known them to fail."—Mrs. G. H. Eveland, Duncan Mills, Ill.

A WORLD REBUILT

By the Golden Rule not by the rule of Gold

THIRTY denominations of the Church are uniting in a simultaneous campaign in the week of April 25th-May 2nd.

They are uniting because the task before the Church is too great for any one denomination; because there must be no duplication of effort; no waste.

These churches know that the world needs many things; but it needs Faith most of all.

They know that there can be no final solution of our economic problems that is not a spiritual solution, based on the teachings of Jesus Christ and His Golden Rule.

They have had the courage to survey the whole task, and to ask for a budget large enough to sustain (1) the work abroad, (2) the work at home including the church's part in the huge task of Americanization, (3) the colleges and (4) hospitals supported by the Churches, (5) the religious training of the young, and to provide (6) a living wage for the Church's ministers.

The budget is large in the aggregate; yet if each person who loves America would increase his contribution by only a few dollars the whole amount would be easily subscribed.

We face the task of rebuilding the world. Let the cornerstone be a strong and vital church in every American community; and the measuring rod by which the builders build must be the Golden Rule.

United Financial Campaign April 25th to May 2nd

The INTERCHURCH World Movement of North America

Corn Pain Stopped Quick

"Gets-It" Loosens Them So They Lift Off in A Jiffy.

The corn pains cease as soon as a few drops of "Gets-It" reach the corn. It goes out of the hurting business forever.

This Space Vacant
Corn Gone
"Gets-It" Got It

For a day or so the corn remains, getting looser and looser and without a twinge from it. Then, it gets so loose that you just lift it right off, without even feeling it, and cast it away. That's how easily and simply "Gets-It" disposes of the corn nuisance.

"Gets-It," the unfailing, guaranteed, moneyback corn remover, costs but a trifle at any drug store. Mf'd by E. Lawrence & Co., Chicago.

Sold in Tecumseh and recommended as the world's best corn remedy by B. J. Pulver and C. A. Wright & Son.—adv.

Easter at Methodist Church.

Easter was a great day at the Methodist church. The day started with an early morning devotional meeting and breakfast under the auspices of the Epworth League, with Miss Hazel Miller, the president, in charge. The young people at the other churches were invited and the total attendance made a good sized audience for such an early hour. There were violin solos by Mrs. Matthews and Raymond Austin and brief addresses by the four city pastors who co-operate in union meetings. Thirty-three persons sat down to the breakfast and all had a good time.

At 10 o'clock a large audience assembled, nothwithstnding the storm. The decorations were attractive and timely. A background of white on altar rail and choir front was dotted with lilies, while potted lilies and other plants added a touch of beauty. Overtopping all was a large decorated cross giving dignity and finish to the entire scheme.

The program consisted of hymns and an anthem by the choir, which told the stories of Gethsemane, the crucifixion, and the resurrection. Miss Lillian Kennedy rendered a beautiful solo, "Near the Cross Was Mary Kneeling." Mrs. Ella Hodges presided at the organ. Recitation and songs were rendered by the junior and primary departments of the Sunday school.

But the reception of new members was the climax of this great service. The pastor received into church fellowship 34 persons, as follows: One by transfer, 12 on confession of faith into full membership, and 21 into preparatory membership, most of the latter class being boys and girls of the Sunday school from about 10 to 15 years of age. Four adults received the sacrament of baptism. Of the total number received, 16 were men and boys, 18 were women and girls. This large ingathering was the harvest of five months of intensive evangelistic sowing on the part of pastor and people of this church, who are justly gratified over the result.

At the Friends Church.

There were special exercises at the Friends church on Easter Sunday and five new members were received.

The following program was rendered by the Sunday school:

Song by entire Sunday school.

Devotionals—L. D. Kenyon.

Solo—Eyrcle VanWinkle.

Recitation—Nellie Howe.

Recitation—Velma Beaubien.

Duet—Elizabeth Comfort and Edward Escolme. (Chorus by Class 5.)

Exercise, "Christ is Risen"—Anna Hamilton and Edna Johnson.

Recitation—Adeline Poley.

Song, "He is King"—Choir.

Recitation—Hazel Beevers.

Song—Russell Comfort and Edward Escolme.

At St. Peter's Episcopal.

St. Peter's church was prettily decorated in white and green, beautiful blossoms adding greatly to the attractiveness of the edifice on Easter day. Services were held at 7:00 and 11:15 a. m., with children's service at 2 oclock in the afternoon. The vested choir furnished excellent music for the festival and all services were well attended.

At the Baptist Church.

A special sermon and baptism were features of the Easter exercises at the Baptist church, Rev. W. R. Curtis having a forceful discourse. Twenty were baptised and five were received into the church by letter.

MRS. MAY MATTISON HAD RESIDED HERE 38 YEARS

Mrs. Mary Mattison, aged 75 years, was found lying dead in her bed Thursday morning by her daughter, Mrs. Bert Nichols, with whom she resided. Mr. and Mrs. Nichols heard the mother close her bedroom door just before they arose for breakfast, so, thinking her mother was sleeping soundly, Mrs. Nichols did not disturb her until about 6 o'clock. Then she entered the room and the mother lay as if asleep, but it was the long sleep which knows no waking.

Mary Mixer was born in Boston August 5, 1844. With her parents she came to Clinton when a baby. Her mother died soon after and her girlhood was spent in various families. She was married when but 16 to Stephen D. Conger. To them were born four shildren, of whom only the one daughter, Mrs. Nichols, is living. Mr. Conger died some 40 years ago and about two years afterward she married Norman Mattison. After his deth she and the daughter, Inez Mattison, now Mrs. Bert Lanning of Raisin, moved from the farm into town and here she had since lived.

BRADLEY OPERA HOUSE ATTRACTIONS

"A Scream in the Night."

"A Scream in the Night," billed as the newest melodramatic sensation, will be the big special offering at the Bradley opera house next Saturday evening, April 10. "A Scream in the Night" is a man's size punch picture that challenges the curiosity of every man, woman and child in the universe. A drama of primitive nights and modern days, with the secrets of the jungles and the schemes of society forming the background for the most original, powerful story the screen has known.

"A Scream in the Night" is the newest idea—the latest discovery in motion pictures. Departing from the commonplace in plot and action, it delves deeply into the Darwinian theory of the origin of the human race and proves for all time that man alone has the power to reason.

You will see the great experiment of a crazed scientist who attempts to prove that man emanates from monkey, the thrilling spectacle of the girl victim of the plot springing from the tree tops of dark jungles—daring aerial stunts never before seen on the screen; the scores of unexpected situations and sensational climaxes which arise when beautiful Darwa is accused of being but part human on the eve of her marriage to the man who braves the dangers of the jungle to recover her from the bonds of mad desire.

"A Scream in the Night" will make people think and talk. It it the biggest spectacular special, embodying every element of mystery, suspense, romance and adventure yet seen at the Bradley and is produced with a noteworthy cast of popular players headed by dainty Ruth Budd, the screen's daring stunt star as "Darwa."

If you liked the "Tarzan" pictures don't miss "A Scream in the Night."

A screaming Sunshine comedy, "Back to Nature Girls," is the comedy for the evening. Special orchestra, both Saturday and Sunday evening.

Dainty Constance Talmadge Sunday Evening.

Billie Billings, a popular little debutante with loads of money, was well aware that her fiance was a wonderful lover. Oh, how that boy could love. Billie's belief regarding her sweetheart's prowess as a Romeo was further strengthened when she paid an unexpected visit to his office one morning to find a plump little brunette stenographer sitting snugly in his lap. That put the kibosh on men so far as Billie was concerned.

Of course Billie's little heart was broken. But her pocketbook was as healthy as ever so she motored off to a most delightful summer resort where gossiping about the affairs of others, continually wrangling with servants, motor boat wrecks and ants in the dining room served to keep thoughts about one's self to the minimum.

Speaking to the rest of the chair warmers at the resort for the rich, Billie maintained positively that King Solomon might have been pretty bright but that his doctrine of a thousand wives for one man wouldn't go with her at all.

"I want a man who will love no one but me," said Billie. "He mustn't speak to other women. He must be fine, all the time, heart and soul, from tooth to toenail."

And one old maid who had been trying for 26 years to land a husband, stuck her tongue against a false tooth, winked her left eye, which manipulation operated a corrugation of wrinkles, and said wisely:

"There ain't no such animal."

But there was!

And Billie Billings found him, too—but to tell you more of this charming picture would be unfair. See "A Temperamental Wife," with dainty Constance Talmadge as Billie Billings at the Bradley opera house next Sunday evening, April 11, and you will see one of the most entertaining comedy-dramas seen in Tecumseh in many a week.

Usual added attractions and special orchestra.

Mrs. George Dunn Burned to Death

CLOTHING TAKES FIRE FROM RANGE

Husband of 72-Year-Old Victim Suffers in Going to Rescue—Both Were Lame—Mrs. Dunn Long Resident of Vicinity.

Mrs. George Dunn, a highly respected resident of this vicinity all her life, met a terrible death Monday at her home on the Jos. Wilson farm northwest of town, when her clothing caught fire and she was frightfully burned.

While working over her range, a little shawl which he wore over her shoulders caught fire and her clothing was all aflame before she noticed it. For some time she had been very lame, so she could only limp to the sitting room to notify Mr. Dunn. He a few days before had stepped on a nail and was caring for his injured foot when he saw her predicament. Grabbing a broom, he tried to extinguish the fire but instead it spread into the carpet where the burning clothing fell.

He called help and Mrs. Fred Aylesworth, who lives just across the road, ran to his aid. A general call was rung over the telephone line and in no time many came to help the stricken couple. Dr. H. H. Hammel was summoned and, with friends, did all possible to save the sufferer, but death came to her release about 1 o'clock Tuesday morning. Mrs. Dunn was scorched all over the body and arms, two fingers being burned from one hand. In trying to save her Mr. Dunn was burned about his hands and face and has also been suffering from the effects of the smoke he inhaled.

The funeral is to be held from the home of Mr. and Mrs. Fred Aylesworth this afternoon at 2 o'clock.

Mrs. Dunn was 72 years of age, having been born at Manchester and spent her whole life in this vicinity. To comfort the aged father are four children: Mrs. Ed Furgason of Onsted, Mrs. Bert Shea of this village, Will Dunn of Manchester and Fred Dunn of Adrian. Mervin Furgason of this city is a grandson.

Tecumseh's Undefeated Basketball Team

Top row (left to right)—Arlene Gillespie, sub. forward; Jeanette Hall, running center; Frances Alderdyce, jumping center; Margaret Marsh, guard; June Brooks, coach.

Bottom row—Cecile Clark, forward; Helen McIntyre, forward and captain; Marian Harrington, guard.

The accompanying picture shows the undefeated girls' basketball team of the Tecumseh high school. These young ladies won over the never-before defeated team from Battle Creek and all the other schools they have been pitted against. East Lansing may claim the state championship but she declined to meet these speedy misses and whether the Capitol City girls or the local team is rightfully owner of the title has not been settled. Much of the credit for making such a remarkable showing the girls give Miss June Brooks, the physical training teacher, who with unflagging energy has coached them and accompanied them to all games.

Because of the prevalence of influenza, when school was closed several weeks, and due to severe storms, several games had to be cancelled, so the contest at Battle Creek gave the girls only one long trip. The score in this game was 18 to 16. Another victory of which the Tecumseh team is especially proud is when it defeated Olivet in the local gym 27 to 19, as the Olivet organization is one of the fastest in the state.

Some of the other scores were as follows: With Britton, here, 27 to 11; with Adrian, here, 42 to 4; with Morenci, here, 67 to 0; with Britton, in that village, 27 to 12.

Another player should be in the picture, Miss Charlotte Arner, substitute guard, who was out of town when the photo was taken.

First Ball Game Friday Afternoon

Tecumseh High Meets Britton and Close Contest is Expected—Large Aattendance Hoped For.

All doubt that spring is here has been dispelled now, for the first baseball game of the season for the local high school is to be played tomorrow (Friday) afternoon.

Tecumseh will be opposed by Britton high and both teams are determined to make it a fast contest despite the fact it is the opening game for this year.

Encouragement is an important factor in producing a winning team and it is hoped the people of Tecumseh will support their high school nine by attending the games in large numbers and thus cheering their representatives on the diamond to decisive and frequent victory.

Be at the opening game by all means, for a close contest is promised.

STRIKE BEGINNING TO BE FELT IN TECUMSEH

The railroad strike is affecting Tecumseh as all other towns. Only four looms have been running at the American Steel and Wire plant so far this week and they will have exhausted the wire on hand by tonight.

At H. Brewer & Co.'s they have iron and coal enough for five or six weeks and send their finished machines to Detroit by truck.

At the Heesen foundry coal had just been received last week which tides them over nicely, but the strike ties up their output.

The Quaker Oats Co. has felt no serious effect as it has plenty of material on hand and is still shipping out.

Closes Pastorate Here on Sunday

Rev. W. A. Rex Informs Presbyterians He Has Accepted Call to New Work.

Next Sunday morning closes the pastorate of Rev. W. A. Rex in the First Presbyterian church of Tecumseh, so he announced at the service last Sunday morning. He leaves the middle of next week to assume his duties in the city extension department of his church under the authority of the national board, with whom he has a seven year contract. His first work will be at Civic Park, the General Motors Corporation's new addition to the city of Flint, where a Presbyterian church is to be organized and a church building erected.

The beautiful interior of the local edifice is an instance of the preacher's ability in this branch of his work, for the church probably would not have been remodeled but for the efforts, both as a leader and laborer, of Rev. Rex. So when his friends visit him in Flint they will not be surprised to see him in overalls well plastered with lime at work with his men.

He is fully as energetic as a pastor and his people find it very difficult to let him go. But the field of his new work is very wide and he will have an opportunity to demonstrate his full worth in a way impossible in a small town.

The Macon Presbyterians regret his departure as sincerely as do the Tecumseh people, for he has cared for their congregation and held services each Sunday afternoon when possible along with his heavy work here. Probably no minister in the county is better known, as through his patriotic and Red Cross work he has given addresess in about every town in Lenawee. The citizens generally, as well as the church people, have been warm admirers of Rev. Rex and all join in the regret felt for the loss of this brilliant preacher and his estimable wife and family.

The family will not leave until about the middle of June.

ALL MEN REQUESTED TO ATTEND FEAST TONIGHT

It is the earnest request of those interested in a bigger and better Tecumseh that the attendance at the men's banquet at the Grange hall this evening be so large it will tax the capacity of the large dining room. The Commerce Club is promoting the feast but wants it clearly understood it is not exclusively for members of the club, all men of the town and vicinity being invited. The banquet will be served at 6:30.

Liberty Theater Is Loaned the Legion

Underwood-Orr Post Gets Entire Proceeds of Sunday Night's Shows—Requests Large Attendance.

Henderson & Bond, owners of the Liberty theatre, have shown their interest in Underwood-Orr post, American Legion, in a substantial way. They have turned their theatre over to the Tecumseh world war veterans for Sunday night, April 18, the entire proceeds of the evening to go to the Legion.

The present owners of the Liberty theatre, which was formerly the Royal, learned Underwood-Orr post lost money on its recent boxing match and to help make up the deficiency and show they were interested in the future welfare of the local post, made the world war heroes the offer of the use of the movie house next Sunday evening. The profer was thankfully accepted and now all in Tecumseh and vicinity have an opportunity to see a good show and at the same time be aiding the Legion.

Meritorious films are now being shown in the Liberty and with a new projection machine in use the pictures are displayed to excellent advantage. The new owners are exerting every effort to give their patrons the best possible attractions and that their endeavors are appreciated is shown by the constantly increasing attendance.

Sunday evening's shows start at 6:45 and 8:30 and as every ticket sold will be a boost for the Legion, the members of the local post hope for a record breaking attendance.

ENTERTAIN FOR THEIR DAUGHTER AND HUSBAND

Honoring the marriage of their daughter, Miss Caroline Stock, and Earl Harrison, which took place two weeks ago, Mr. and Mrs. John W. Swift entertained a party of about 70 friends at the I. O. O. F. hall Friday evening. Many were present from their neighborhood, northeast of town, and from Ridgeway, the home of Mr. Harrison. Mr. and Mrs. C. A. Stalter furnished the music for dancing and the hosts served a delightful lunch. The bride was the recipient of many handsome and useful gifts. Mr. and Mrs. Harrison will reside on a farm near Ridgeway.

CHARLES MATTIS FOUND DEAD IN HIS CHAIR

Charles Mattis, aged nearly 79 years, was found dead in his chair Saturday forenoon about 10 o'clock. For many years he and his aged wife had resided quietly in their home just northeast of the village. He had always been rugged in health and about the active work of his farm, even the day before his death helping a neighbor in some heavy work, so his demise was the greater shock when his wife found him sitting in his chair with the breath of life gone.

Mr. Mattis was born in Macon in May, 1841, and there he grew to manhood, going with his people to Franklin where he resided until coming to Tecumseh, so his long life was spent in this vicinity. The helpmate of the long married life was formerly Miss Harriett Aten. No children were born to them, the only surviving member of his immediate family being one brother, William Mattis.

The funeral was held from the home Monday afternoon, Rev. C. M. Thompson officiating. The bearers were relatives: Frank Mattis, Charles Mattis, David Hammill, Laverne Hall, Will Boyd and Bert Lanning. There were many relatives from Tipton present. The burial was in Brookside.

JOHN W. SMITH WEDS A MANCHESTER GIRL

Last Saturday the mariage of John W. Smith of this city and Miss Olga C. Braun of Manchester was solemnized at the residence of Rev. Schoen in Manchester. They were attended by Mr. and Mrs. Will Braun. The newly-weds arrived in Tecumseh Tuesday and will begin housekeeping at once.

"Jack," as he is best known among his many friends here, is the son of Deputy Sheriff John B. Smith and served with the 85th in France. He has an excellent position in Brewer's foundry. The bride is the daughter of Mr. and Mrs. Andrew Braun of Manchester and has become quite well acquainted with Tecumseh people through her frequent visits with her cousin, Mrs. Charles Jones.

The congratulations of many friends are theirs.

Grange Protests Eastern Time

Pass Resolutions Condemning City's Action and Ask New Time Be Rescinded.

(Communication.)

Whereas, the recent change in time from central standard to eastern standard time was made without consulting the wishes and convenience of the farmers of this vicinity, but they were utterly ignored;

Therefore, We, the members of Tecumseh Grange, No. 166, Patrons of Husbandry, in regular session assembled, unanimously

Resolved, That we protest against such change in time and request that such action making such change in time be rescinded and that the return be made to central standard time, the legal time of the state and railroads.

Promise Much Fun At "Safety First"

Juniors' Expect to Tickle Large Audiences Thursday and Friday Evenings.

We have the Juniors' word for it that all who attend their play, "Safety First," at the high school auditorium tonight or Friday evening will be forced to laugh as they never did before, as their production is termed a sure shot mirth extractor.

If painstaking and faithful practice count for anything, those to take part in this play have gone the limit in this respect, as they have been preparing for the presentation of their offering in a most thorough manner.

That every [illegible] "Safety First" will marvel at the volumne of action and the rapid fire, fun-produceing lines of the play is the prediction of those who have gained an idea of what is in store for all attending.

Editorial Comment

The change from central standard to eastern time in Tecumseh is responsible for some confusion and a great deal of dissatisfaction. This state of affairs became manifest upon the first day (Sunday) when the change became effective. The dissatisfaction prevails mostly among our farmer friends, and from their point of view they are justified in their objection to the change. The farmer is at the mercy of weather conditions, especially during planting and harvesting time. He must take advantage of every moment of daylight, when the weather is suitable, to prepare his land and sow his seed, and when his home town adopts a time that precludes him from the business and social activities of that town he can not be blamed for feeling that an injustice is worked upon him.

For factory employees and store clerks, where a stipulated number of hours constitute a day, the earlier time has acknowledged advantages, the greatest being the long twilight evenings when garden or other work about the house can be attended to by daylight.

The greatest inconvenience and confusion comes from having two or three kinds of time and with the railroads operating under the central time the situation is without remedy as long as a village or city officially adopts a different time.

During the war period when the government pushed the clock of the nation ahead one hour there was little fault found and everything went along smoothly because there was only one time. State, city or village governments, however, have no control over the railroads as far as operating time is concerned, hence the two times and the confusion caused therefrom.

That the [illegible] of the community are laboring under an erroneous impression is evident from complaints made against the Tecumseh Commerce Club for promoting the adoption by the village of eastern time. To correct this impression The Herald will state positively that the Commerce Club had no part in the matter, the movement originating at the factories.

The situation in the county is not at all enviable. The city of Adrian adopted eastern time and the court house operates under the old central. Hudson tried eastern time seven days and went back to central. Some of the other county villages also adopted the earlier time, while others remained as they were. Thus the county is in a sad mix-up that will be difficult to straighten out until late fall when cities and villages now operating under eastern time will again adopt central.

As the auto season opens up, with more cars in use than ever before, extra precautions should be taken to guard against accidents. To accomplish desired results an educational program should be inaugurated. It has been suggested that the Commerce Club act as sponsors for such a program. Right of ways should be established and thoroughly explained. Main thoroughfares such as Chicago and Evans streets should have preference over cross streets, but the later should also have rights. A thorough educational program on right of way problems may save much property, broken bones and some lives.

Probably the most serious calamity that has befallen the nation, next to the war, is the gigantic strike of railroad switchmen that tied up our great freight transportation systems, placed thousands of men on the idle list and threatened ruin and starvation in all quarters.

Even if the great strike is settled within the next few days (which seems improbable) and normal operations of freight transportation are resumed, the effect of the tie-up will be felt for some time to come.

The people of Franklin township are bound to be up-to-date in the matter of educating the young Franklinites. Two hundred persons attended a mass meeting at Tipton Grange hall called for the purpose of discussing the centralized school and steps have been taken for promoting such an educational system. It is a most worthy movement for Franklin township.

A Well Prepared Seed Bed Produces Bigger Crops

When you can make a better seed bed simply by using a disc harrow that does better work, pulls lighter, and lasts longer, why not do it? We can show you just such an implement—one that can be adjusted instantly to penetrate and pulverize the soil thoroughly its entire width in dead furrows, hard and soft ground, and over ridges, as well as on level land.

Next Saturday, or the first time you are in town, drop in and look at the John Deere Model "B" Disc Harrow which we have set up. Get on the seat and operate the levers. Notice that there is a lever for angling each gang backward or forward so as to make the pull on the horses just right when part of the harrow is working in soft ground and part in hard ground.

And remember to ask us about the third lever. That is the feature you will appreciate because it enables you to give the required pressure to the innerends of both gangs to make the harrow penetrate at the same depth its entire width in dead furrows or over ridges.

We want you to notice also the neat, substantial construction of this harrow. You will readily understand why it lasts longer.

When in need of feeds we would remind you that we have a complete line and as our prices are always in your favor it is money in your pocket to buy here.

Mrs. J. E. Baker of Ridgeway was the guest of Mrs. E. A. Linn Tuesday.

Clyde McDermott of Clinton was the guest of his sister, Mrs. Louis Jones, and family yesterday.

At the meeting of the L. O. T. M. Monday evening the degree was conferred on Mrs. E. E. Howard.

Harry Garey and Effie Covey, both of Jackson, were married at the Baptist parsonage at high noon today.

Rev. and Mrs. C. B. Hawkins of Lansing were in town yesterday. They had attended the Bailey-Binns wedding at Holloway, where Rev. Hawkins officiated.

Mr. and Mrs. Thomas McCann have purchased of Mrs. Jennie Knouase her two-family frame dwelling on North Pearl. They will redecorate and remodel a portion.

Lyle Mangus is lamenting the loss of his new skates. Knowing that he must not skate in the library he carefully laid his skates in the entry and upon looking for them found they had disappeared.

Miss Wilma Nye celebrated a birthday Tuesday. The members of her Sunday school class, with the teacher, Mrs. Hobart Mitchell, surprised her in the evening, bringing a pot luck supper. She was left many pretty gifts.

Miss Ina Binns of Holloway, well known here, where she graduated from the high school, was yesterday married to Charles Bailey, also residing near that village. The ceremony took place in the Holloway Presbyterian church, being conducted by Rev. C. B. Hawkins of Lansing, a former minister of that church.

The Eagles enjoyed a very pleasant social session after their lodge meeting Tuesday night, when over 50 couples danced to music by Coller's orchestra. Among them were Mr. and Mrs. Bert Price and a party of 14 from Jackson, also people from Detroit and Toledo. A lunch was served. Floyd Willnow, Charles Skinner and Lafe Stevenson were the committee in charge.

Mr. and Mrs. Hobart Mitchell enjoyed a visit from the following Sunday: Their son-in-law, Norman Taylor, of Detroit, their daughter-in-law, Mrs. Arthur Mitchell, and little daughter of Saskatchewan, Mr. and Mrs. E. R. Rogers, of Holloway, and John Richard of Adrian. Mrs. Norman Taylor and little daughter, who have visited at this home the past week, returned to Adrian with Mr. Richard for a short visit.

There seems to be no let-up in the scarcity of houses. Mrs. William Willnow, after searching the town thoroughly for a house to rent, has stored her furniture in the West Branch school house and with the three smaller children is living with her son, Floyd, and family until a house can be secured. Miss Thelma, the older daughter, is residing with Mr. and Mrs. Will. Gibson. Mr. Willnow is working in Jackson and has looked over that city as carefully in search of a home for his family, but with no success.

The Misses Elizabeth and Christine Wilson, the two little daughters of Mr. and Mrs. R. V. Wilson, were proud young ladies when on Saturday morning they started for Jackson to spend the day as the guests of the Jackson Citizen Patriot. These girls have cared for their route carefully, with many additions as a result, and the treat was given as a reward to 21 of the paper's carriers. Two movies, a dinner at the American grill and a trip through some of the stores, the "Y" buildings and around Jackson were on the program. The girls arrived home, tired but happy, on the evening train.

Circle No. 1 of the M. E. church is to meet with Mrs. Floyd Heesen Friday at 2:30 p. m. All members please be present.

Mrs. Mary Smeltzer was the guest of honor at a party given at the M. E. church yesterday afternoon, when 50 of her old friends met to greet her and wish her God-speed to her new home at Pittsburg. In the company were several of the neighbors from her farm home. A bountiful pot luck dinner was served, and at its close Mrs. B. Hurry presented Mrs. Smeltzer with a handsome leather purse. Her sister, Miss Clara Bangs, who remained in Pittsburg while Mrs. Smeltzer came to Michigan, was remembered with a loving letter and gift. Mrs. S. W. McClure of Pittsburg was a guest.

A reward of $100 is offered for his apprehension. Mrs. Charles Benedict entertained at dinner Tuesday evening a party of ladies honoring Mrs. Mary Smeltzer, who leaves soon for her new home in Pittsburg. Among the guests were Mrs. Smeltzer, Mrs. S. W. McClure of Pittsburg, Mrs. Adeline Hohdridge, Mrs. F. D. Rector and Mrs. B. J. Rector.

Mrs. McClure has been here assisting her mother, Mrs. Mary Smeltzer, in disposing of her household effects preparatory to moving to Pittsburg to reside. Mrs. Smeltzer will follow after a few days' visit with her old friends.

The Monday club session will be called at 2:30 Eastern time next Monday. A short business meeting will be followed by a talk by Miss Asenath Hosmer on the sponge industry in Florida. Mrs. Morse, the president of the county federation, is expected from Adrian to address the ladies. John C. Ketchum, the prominent Grange worker, will give the third address.

Tecumseh friends have received the news of the marriage last Saturday of Walter Dole, formerly of this city, to Miss Hazel Remsen, the ceremony taking place at the bride's home in Toledo. Mr. Dole is the son of Mrs. Jennie Dole, so well known here, and brother of Harris Dole of Tecumseh. The young couple will reside in Detroit, where the groom is an architectural draftsman.

There was much disappointment in Tecumseh Monday evening when it was learned that Dr. Preston Bradley, who was to give the last in the series of high school lyceum entertainments, could not appear. Word that he would be unable to come was not received until after school had closed, so few were aware that the lecture would not be given. Those in charge of the course showed their resourcefulness, however, as Boy Scouts were stationed at vantage points around the high school, some a block away, to notify those on their way to the entertainment that it could not be held. Dr. Bradley sent word that his sister had passed away that day and he would be unable to fill the date here, being called to Detroit. He was to have lectured on "The United States of Tomorrow."

BRADLEY OPERA HOUSE ATTRACTIONS

"Uncle Tom Without the Cabin."

Next Saturday evening, April 17, the Bradley opera house is featuring the new Mack Sennett comedy, "Uncle Tom Without the Cabin," above the feature picture of the evening, and in a review of this comedy in "Progress Advance" the writer says: "Here is THE comedy. Mack Sennett has been turning out some wonderful laugh-makers during his career as the man behind the cameraman, but in "Uncle Tom Without the Cabin" he comes through with a picture that is worthy of featured prominence on ony theater's program.

Certainly the title, a title that immediately suggests something unusually funny, coupled with Mack Sennett's name and the fact that Ben Turpin (the cross-eyed favorite) appears in the stellar part, should prove a combination that would pack any theater to the doors and everywhere this comedy is being featured packed houses are the rule.

And Mack Sennett never disappoints. The various tricks that are brought to light in the two reels of "Uncle Tom Without the Cabin" again stamp him as a master of his craft.

The famous dog, "Teddy," has one of the principal parts in this big comedy. We all like a real, hard laugh once in a while and you are bound to get it at the Bradley next Saturday night, but you will have to go early to get a seat. That big theatre was packed to the doors last Saturday and people standing waiting for the second show, and next Saturday's big bill will prove an equally big drawing card. Dainty Enid Bennett in "A Desert Wooing" is the five act feature for the evening and with the above comedy and special orchestra the house won't be able to take care of the people trying to get in. Be wise—go early.

Douglas Fairbanks' Sunday Evening.

On Sunday evening, April 18, the greatest actor on the screen, Douglas Fairbanks, will be the main attraction at the Bradley in his latest big feature offering direct from his own studios, "When the Clouds Roll By." In offering this big production to the patrons of the Bradley the management is giving you one of the most expensive pictures yet shown in Tecumseh. No expense has been spared by Fairbanks in the making of this big thriller and you'll never forget the big flood scenes—a real, honest-to-goodness flood.

"When the Clouds Roll By" is a genuine novelty. We have come to expect great things from Doug. Fairbanks; we sometimes wonder where he can possibly get any new ideas from. Yet he comes along with a picture like this and simply carries us off our feet. "When the Clouds Roll By" is so new and original in story and action, so far away from anything that has been attempted before, that we go on record now with the prediction that every laugh-loving, thrill-loving man, woman and child in the vicinity of Tecumseh will be talking about Fairbanks and his latest picture Monday morning.

In addition to the big Fairbanks feature a select comedy will be shown and with the special orchestra, Sunday night's big bill should prove one of the banner attractions at the Bradley in many weeks.

Only Fifty Two Cents Each Church Member

How would YOU like a raise like this?

—and for 34 Years Work.

THAT is the kind of increase in salary the minister has received. His living expenses have risen just as fast and as far as yours.

But he is paid on the average just 52 cents more *per church member* than he was paid 34 years ago.

The Minister Never Fails You

Every officer of the Government with a war message to deliver appealed to the ministers first of all.

But 80% of the ministers receive less income than government economists figure as a minimum for the support of an average family.

When hospitals need money they enlist the support of the ministers—and receive it.

But when sickness visits the minister or the members of his family they must be treated in a charity ward. His pay is less than a day laborer's.

8 out of every 10 ministers receive less than $20 a week—about half the pay of a mechanic.

We Pay Him Half the Wages of a Mechanic

And of these pitifully inadequate salaries, how much do you contribute? Nothing if you are outside the church; an average of less than 3c a day if you are a church member.

All of us share in the benefits of Christian ministers to the community. They marry us; bury us; baptize our children; visit us when we are sick. In their hands is the spiritual training of the youth.

We Are All Profiteers at Their Expense

Part of the Interchurch World program is this—a living wage for every minister of Jesus Christ; an efficient plant, and a chance to do a big man's job.

If you want better preachers, help to pay the preachers better. It's the best investment for your community—and for your children—that you can ever make.

council, this list also being found in official report of the meeting.

The bonds of Village Treasurer Franc S. Gillespie and Village Clerk W. L. Coller were accepted.

There having been a big increase in the cost of installing water taps, the council voted to make the charge for this service $15 until further notice. The old price was $7.

The attention of the trustees was called to the fact the elements had reduced Tecumseh's flag to shreds and the village should have Old Glory at the top of its flag pole. An 8x12 foot flag of good material was ordered purchased.

Street Commissioner Kennedy reported he was having difficulty in getting men to work on the streets at the present wage, saying he feared he would be unable to get help at less than $4 a day. He was directed to get laborers at as low a wage as possible and was authorized to offer $4 if it was necessary.

George Church, representing the Tecumseh Electric Company, submitted a copy of this corporation's franchise, which expired January 6, requesting it be renewed. President Hines called attention to the fact that no contract as to rates to be charged accompanied the franchise and Mr. Church said that would be presented later. He pointed out the franchise merely gave the company permission to string wires, set poles, etc., and that the contract could be acted on later. The opinion prevailed among the trustees, however, that a contract should accompany the franchise, and there being no objection the matter was referred to the lighting committee. Mr. Church was informed the council would meet again next Monday night and he could submit a contract at that time.

After considerable discussion the council decided to buy electric light bulbs direct from the jobbers instead of from the local company, this being expected to result in quite a saving to the village.

A request by Principal Price of the high school that the students be given permission to establish a tennis court in Monument park was granted.

Mention of Monument park brought a worthy suggestion from President Hines. He believed it a proper step to fence off three or four rods around the monument and have this space cared for that the memorial and its surroundings be kept in splendid condition in honor of the fallen heroes.

MACON

Macon Church Notes.

Sunday afternoon was the crowning day of his winter's work to Rev. Wm. Combellack at the M. E. church service and to the Sunday school superintendent, J. E. Smith, when 27 new members were taken into the church, 14 probationers and 13 into full membership.

The egg contest between the boys and girls of the M. E. Sunday school, in which both sides strove to collect the most eggs for the free work in Wesley hospital was won by the girls. Forty-two dozen eggs were collected and the winning side was treated to oranges. But the thoughtful superintendent also treated the boys for their effort.

There will be the regular services at the M. E. church next Sunday. Sunday school at 2 o'clock, followed by preaching services at 3.

There will be services at the Presbyterian church next Sunday. Sunday school will be promptly at 2 o'clock and preaching services at 3. This will be Rev. Rex's last Sunday here for some time, as he leaves Tecumseh soon.

Men's Banquet.

The men's banquet held in the M. E. church parlors the evening of April 6 was an enjoyable affair judging from the amount of handclapping that penetrated to the kitchen. One hundred and nine men marched into the dining room to music by the Britton orchestra and did full justice to a three-course dinner.

Rev. Wm. Combellack, toastmaster, prevented any dull moments and the orchestra enlivened the dinner. Ernest Palmer of Britton was the soloist of the evening and was encored into giving a double portion. Dr. Peter Stair of Detroit then held an attentive audience throughout his address, "A Community's Greatest Fort," after which Prof. Eich of Ann Arbor also delighted the audience by "An Evening With Mark Twain."

The receipts of the evening were $81.

For That Cough After the "Flu"

Lingering colds and coughs that follow the grip or influenza are difficult to overcome, but many such sufferers have found relief in Foley's Honey and Tar.

Wm. Barnes, San Antonio, Tex., writes: "Foley's Honey and Tar is undoubtedly the best cough remedy in the world. I know this is so because I found it to be so. Actual experience taught me. It has been worth $50.00 a bottle to me. Early in the season I had the 'flu,' which left me weak and with a persistent cough. The cough hung on and I became much worried about it. Someone advised me to try Foley's Honey and Tar and I began taking it that night. I have now completely recovered and do not cough at all."

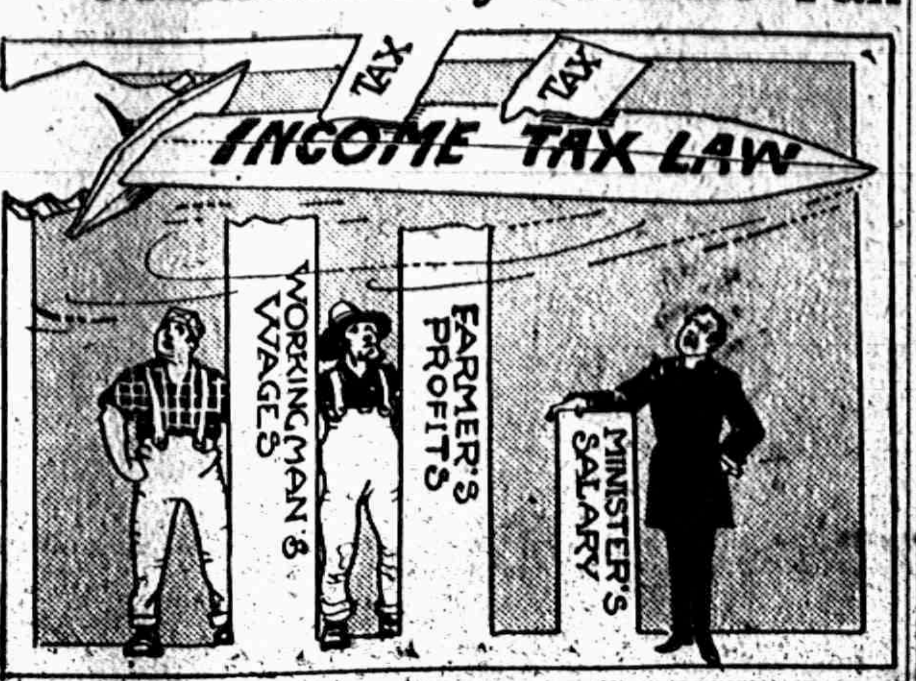
Only 1671 Out of 170,000 Ministers Pay Income Tax



Ministers are exempt from the operation of the income tax law—not through any specific exemption in the law itself but because they do not earn enough money to come within the law's minimum requirement. Out of a total of 170,000 ministers in the United States, but 1,671 receive a big enough salary to be required to pay any income tax.

These incomes were not only pay from churches but included private earnings too. Hundreds of ministers have been forced to engage in some occupation outside of the ministry such as poultry raising, barbering, market gardening, etc., to earn enough to feed and clothe their families. These figures show vividly why the Interchurch World Movement has included increased pay for ministers as one of the chief planks in its forward-looking, five-year program for the expansion of Protestanism throughout the world.

The average salary of the college trained preacher is $937 according to established figures—several hundred dollars less than the average annual earnings of the uneducated worker in some of the leading industries of the country.

A worker in the rubber industry averages $1,526.20 a year. The average for the boot and shoe worker is $1,346; for the chemical worker $1,326.40; the silk worker, $1,179.88; for the paper worker $1,164; and for the wool worker $962.72.

Electricity to Cost 25 Per Cent More

COUNCIL SANCTIONS RAISE IN RATES

Minimum Charge Doubled, But Discount Retained — Franchise and Contract Is for Three Years —Parking Ordinance Amended.

Residents of this city will soon be paying 25 per cent more than in the past for the electrical current they use, as the village council, at its meeting Monday evening, granted the Tecumseh Electric Company permission to increase its rates one quarter over the schedule of prices which have been in force. The vote on authorising the increase was unanimous, all the trustees being present and deciding in the affirmative.

Other matters also came up at this meeting but the franchise and contract of the local electric company were of the greatest importance and took up the most of the time. George Church was present in the interest of the company, while Village Attorney G. Arthur Rathbun attended on behalf of the trustees.

Village President Hines read the contract as presented by Mr. Church and then the matter was discussed at length. The contract, the electric company representative said, was a copy of the old one, with a few alterations. The changes were found to consist of a clause permitting the corporation to make a 25 per cent increase in rates as long as the present high price of coal prevails, the exaction of a 10 per cent penalty in case bills were not paid by the 10th of the month and the raising of the minimum charge from 50 cents to $1 a month.

Contest Results in 135 Advertisements

Hayden Milling Co. Gets Large Return on Publicity Through Columns of Herald.

Conclusive evidence that it pays to advertise in the newspapers was furnished the Wm. Hayden Milling Co. during the past week.

As the result of the ad writing contest, conducted through the columns of The Herald, the millers of 1900 flour received replies from 121 contestants, who submitted a total of 135 advertisements.

In the assortment were advertisements that were of great merit, showing the matter had been given considerable thought. Others were unique in the method of presenting the argument in favor of 1900 flour and the majority of them had some good reason why the product of the Hayden mill should be given preference over other brands of flour.

There were also some humorous incidents in connection with the contest. Every contestant was entitled to a ticket to the Liberty theatre and a number of the younger boys displayed much ingenuity in devising ads to acquire the card which admitted them to the movie show free.

The experience of the Wm. Hayden Milling Company should convince the most sceptical that newspaper advertising, especially if done in The Herald, will bring big returns.

Extravaganza to Be Unique Show

Ladies' Band Will Give Original Production in Hopes of Raising Funds.

Everyone will want to keep Wednesday night of next week open for the home talent extravaganza to be put on at the Bradley opera house under the auspices of the Ladies' Band.

"His Cairo Love" is a musical extravaganza, delineating the trouble of a group of young Americans, shipwrecked on a foreign land. Every line is original, the work of Miss Alma Kloffenstein and Dr. H. H. Hammel and is termed "something different." The songs are absolutely new, selected with care from the hits of the latest shows.

There are 40 in the cast, not especially favorite friends of the authors and directors of the show but each chosen for their especial talent. Many surprises are in store, but it is whispered that those Egyptian deities are little dolls.

The costumes being obtained from the Detroit Costume Co. are unique and extremely charming. The electrical effects as planned will also be no small feature.

This being an original production, the creation of Tecumseh people, and presented by local talent, for the benefit of the Ladies' Band, in which all take much pride, the attendance is expected to be very large, as the prices are low, only 50 and 75 cents. The reserved seats will go on sale at B. J. Pulver's store Monday morning.

EMERY HANHAM DIES, A VICTIM OF TUBERCULOSIS

Emery Hanham, youngest son of Mr. and Mrs. William Hanham, passed away Sunday in the early morning, aged 17 years. In September he began his junior year in the high school, but was in school only a few days when ill health forced him to stay [illegible]. Tuberculosis developed and since he has declined rapidly. Besides the parents, there survive three brothers and three sisters: Andrew Hanham of Aberdeen, Wash., Mrs. Ida Howard of Ypsilanti, Mrs. Ethel Traverse of Detroit, Mrs. Gussie Alderdyce and Roy Hanham of Jackson and Homer at home. The family are mourning the death only two months ago of another son, Earl, who died in a southern army camp.

Emery was a general favorite among his schoolmates and his unfailing courtesy had won him the hearts of many of his elders. The family have the sympathy of the whole community in their double affliction.

The funeral was held yesterday afternoon from the home on Cummins street, Rev. C. M. Thompson, of the M. E. church, of which Emery was an attendant, officiating, it being a private service. The bearers were close friends. Ralph Hodges, Oliver Blum, Lee McAdams, Harry Duncan, Harold Sisson and Lawrence Harrington. Present from out of town were Mr. and Mrs. Henry Howard and son of Ypsilanti, Mrs. Alfred Traverse of Detroit, Mr. and Mrs. Roy Alderdyce and Roy Hanham of Jackson and Mr. and Mrs. Nisle of Manchtster.

Men's Banquet Is A Spirited Affair

WOMEN NOT WANTED IN THE COMMERCE CLUB

Motorists Urged to Obey Parking Laws—Committees Named to Collect Funds for Wednesday Specials—Sprinkling and Oiling Streets Discussed—Plea Made in Behalf of Legion.

More members are wanted by the commerce club, but no women need apply;

All motorists requested to observe parking ordinance and state auto law;

Committees named to look after sprinkling and oiling of streets.

This is a summary of the developments at the men's banquet held by the Tecumseh Commerce club at Grange hall last Thursday evening. The menu was excellent, the attendance large and a pronounced community spirit prevailed.

Rex Family Given Touching Farewell

More Than 250 Attend Bohemian Supper and Final Reception to Departing Pastor and Wife.

No more sincere tribute of appreciation could have been paid Rev. and Mrs. W. A. Rev than the presence of more than 250 of their friends at a farewell reception given in their honor Monday evening at the Presbyterian church. At 6:30 a committee of the Ladies' Aid society served a Bohemian supper to over 200 and many more came for the reception which followed.

John T. Boyce presided at the program of music and speech making, which was truly delightful, given as follows:

Solo—W. S. Dickinson, accompanied by Mrs. F. S. Dickinson.

Trombone solo — Dale Bowen, with the encore, "The Long Trail," accompanied by W. S. Dickinson on the cornet.

Solo, a lullaby—Mrs. E. C. Heilman, accompanied by Mrs. F. B. Wood.

Piano solo—Maxine Wyrill.

Rev. Edw. Escolme, Rev. and Mrs. W. R. Curtis and Rev. and Mrs. C. M. Thompson were present and each minister in his own fashion expressed his appreciation of the departing preacher and his family. They took their chance to spring many jokes on Rev. Rex as he has on them so often, but underneath the raillery one could see the real love and sincere regret at the separation.

Rev. Curtis remarked there would be far more pie material now in this town, a sly jab at Rev. Rex's well known fondness for pie. He also advised the latter that his people would still consider themselves a part of him and glory in the success of his new work in Flint and elsewhere.

Rev. Escolme promised him a hearty welcome back, and Rev. Thompson said that was the first time he had enjoyed such a fine Presbyterian celebration on his birthday. He praised Rev. Rex's fearlessness and leadership and the measure of dependence the other ministers had placed in him.

J. R. Nyland gave Rev. Rex credit for many times during the past six years having done work which should have devolved on the superintendent of schools. That he was always on time, served on committees with vigor and tackled problems "that couldn't be done, but he did it."

R. M. Moiles did not forget to credit Mrs. Rex with being the right hand and loyal helpmate and wished Godspeed to both.

Joseph H. Smith promised the reverend gentleman that Tecumseh and Presbyterians in particular were going to watch his progress and with many kind words for the work accomplished here presented Rev. Rex with a handsome watch and Masonic Chapter charm from his congregation.

Rev. Rex responded with a tribute to his people, saying he was leaving his choicest friends here, but not going far away. He assured them "You have helped me as much as I have helped you and the credit of my success elsewhere can be largely laid to your influence."

Mrs. Smith followed with a few jolly sentences, presenting Mrs. Rex with a beautiful little wrist watch, not forgetting a sum of money to keep it repaired.

Mrs. Rex could only respond with "Thank you," and there was hardly a member of the party with dry eyes.

But Miss Sena Hosmer broke the tension and closed the program with a clever Civil War story and, the formalities over, the balance of the evening was spent in visiting and wishing Rev. and Mrs. Rex a long and happy life with frequent visits back to the "Biggest Little Town on Earth."

FATHER AND DAUGHTER OBSERVE BIRTHDAY

On Wednesday of last week Charles Cornwell and daughter, Thelma, celebrated their birthdays. Mr. Cornwell's brother workmen at the shop had been invited for supper by the good wife as a surprise to him. After the feast they enjoyed themselves smoking and visiting.

Miss Thelma was hostess for a party of [illegible] boys and girls, with a fine birthday cake, the work of Marjorie Lloyd. Mr. Cornwell and daughter received many gifts.

Topics Varied At Community Service

Inter-Church World Movement Discussed, Central Time Favored, Legion Criticized and Rev. Rex Gives Farewell Talk.

Sunday night's community service at the Baptist church was of unusual interest. C. M. Mott, of Adrian spoke on the Inter-Church World movement and Rev. W. A. Rex gave his parting message.

During the opening devotionals Rev. Rex read the chapter from the Book of John which is the theme of the Inter-Church movement, beginning with "I am the vine, ye are the branches." Rev. C. M. Thompson announced that for next Sunday night he hoped to persuade Dr. John Will of Hillsdale, who will preach at the Presbyterian church that morning, to give the address.

As there has been such a confusion of time, Rev. W. R. Curtis asked for a rising vote. He announced an approximate total of 100 for the Central standard time and 60 for the Eastern. Then those living more than a mile from

Look here all you Iceoligists
You may think I am a dip,
I gladly take my pen in hand
To give you all a friendly tip.

I peddled cards around to you
And didn't it say, "Leave it to Gov"?
You all know by this time
Where there's competition there is no love.

You all paid 60 cents per
Didn't Ole Gov. stand at the gate and
And long before your book was gone
Hadn't he made it up in weight?

Our ice we harvest from the old Red pond
Where the water is very pure
Did you ever stop to think
Our ice is free from sewer?

And when your child yells for ice
There's one thing mighty sure,
Could Ole Gov's heart let him throw
Ice frozen from that sewer.

Do you want it in your ice box?
Or knocked off in the street
For some poor, innocent child
To pick it up and eat.

Our house is full of pure ice
And the twins ready to carry
That big red card in your window indicates
Your eats are sanitary.

They will neither buy or sell,
These times you will find no Santa Claus
No matter what they tell.

Juniors' Play Is Very Ably Given

CLASS NETS $300 ON SPLENDID PRODUCTION

Attendance Large at Both Presentations—Cast Composed of All Stars — Specialty Number Makes a Hit.

"Safety First," the play so cleverly put on by the Juniors of the high school Thursday and Friday nights of last week, drew record crowds. At both performances every seat in the large high school auditorium was taken, with the addition of many chairs across the back and at the sides of the room. The ushers were Junior girls with knots of pink and white ribbons, the class colors, on their shoulders. At the intermissions Mr. and Mrs. C. A. Stalter played delightfully.

The cast of characters was as follows:

Jack Montgomery, a young husband in a peck of trouble—Russell Abbott.

Jerry Arnold, an unsuccessful fixer—Roy VanWinkle.

Mr. McNutt, a defective detective—Wendell Cleveland.

Elmer Flannel, awfully shrinking—Edward Nyland.

Abou Ben Mocha, a Turk from Turkey—Julius Welnitz.

Mabel Montgomery, Jack's wife —Julia Ogden.

Virginia Bridger, her young sister—Georgianna Conklin.

Mrs. Barrington-Bridger, their mamma—Alice Whelan.

Zuleika, a tender Turkish maiden—Margaret Marsh.

Mary Ann O'Finnerty, an Irish cook lady—Mabel Allison.

Everyone of these young people took their part splendidly. From Russell Abbott with his charming dance step to Mabel Allison's "For the love o' Mike!" the show was remarkably well presented and caused a continuous series of laughs. The only regret in connection with it is that the auditorium was not larger to permit more to see and hear the excellent production. The class realized $300 as the result of their efforts.

Lawrence Harrington, class '22, and Homer Hanham, class '20, presented a little skit during intermissions which was very funny and added much to the enjoyment of the evening.

WESTMINSTER GUILD TO BE HOST TO THE MEN MAY 4

The home of Miss Asenath Hosmer was opened Tuesday evening for the meeting of the Westminster Guild, the Misses Alice Owen and Marion Bills being assistant hostesses. Owing to the illness of the president, Mrs. Frank Nyland, the first vice president, Mrs. W. A. Rex, presided. During the business session plans were made for the Guild's annual gentlemen's evening, to be held at the church May 4.

At the study session further chapters of the book, the "Crusade of Compassion," were discussed, Dr. Pauline Bredow telling of the Philippines and Mrs. Vera Hodges of the work in the near east. Refreshments were served after the program.

Maps Out a Plan For Oiling Streets

L. E. Temple Urges Those Wanting Dust Preventive Spread to Act Now, as Oil is Going Up.

Leon E. Temple, having been named at the men's banquet last Thursday evening to be in charge of the oiling of streets in the residence sections of Tecumseh, has mapped out the plan to be followed, which is like this:

When the residents of a block decide they want the street in front of their homes oiled they will select their own chairman, who will be directly responsible. This chairman will determine how many gallons of oil will be needed and will call on Mr. Temple, through whom the dust-laying fluid will be ordered. When the order is placed Mr. Temple will present a bill for the same to the block chairman, who will pay for the oil at once, he collecting the cost from the residents of the block pro rata. Mr. Temple will see to it that the oil-spreading wagon owned by the city, and which is furnished free, is available when the fluid arrives, so the work may be done as expeditiously as possible.

This method, Mr. Temple believes, will work out satisfactorily, but he advises those who expect to have their streets oiled to get busy at once, as the price of the dust preventive is steadily advancing. Those who act at once will also have the advantage of a dustless street practically all this summer instead of only part of the year.

Confidence is the basis of all banking.

People will not part with their savings unless they have confidence in the institution which is to receive them.

Because of its past record of 27 years' successful banking, because of the character and experience of the men behind it, and because of the close supervision given by the State and Federal governments, the people of Tecumseh have confidence in the Tecumseh State Savings Bank.

Present resources over $1,000,000.00.

The steady growth of this bank is evidence of the regard in which it is held as a safe place in which to deposit money.

This strong bank invites your account. We issue both Savings Books and Certificates of deposit.

Editorial Comment

Sunday, May 2, the Protestant churches of Tecumseh will make a united canvass of this city and contiguous territory. The object of this canvass is to give every individual of the community an opportunity to help support the churches of Tecumseh. It is not the intention of the committees to demand or urge, but to present to every person of the community an opportunity to give — to help finance the churches of Tecumseh.

The plan is a continuation of the community program adopted by the churches last fall. Committees will be appointed next Sunday by the various churches and the members of these committees will meet at the Baptist church next Wednesday evening for instruction. The canvass will be systematic and the members of the committees will represent the different denominations. Pledge cards will be presented and people can make their contributions to the church they favor. The pledge cards will also contain a place for gifts for the Inter-Church World movement.

The churches of Tecumseh are worthy of the support of every individual claiming residence in this vicinity. Just now the churches are asked to raise more money than ever before and to meet their obligations they must have the help of all the people. Plan to remain at home Sunday, May 2, to receive the committee. Meet the question face to face and if you are not inclined to help support the institutions so essential to community welfare inform the committee of that fact.

Tecumseh seems to be just a little backward in taking up the road oiling proposition in a manner that will give the best satisfaction to the largest number of people. The method used last year will never make Tecumseh a dustless city or even relieve residents on the main thoroughfares used so much in the summer time by automobilists.

Judging from remarks made at the Commerce club banquet, both by members and the president of the village, the same method is to be used this year. This method we can safely predict will prove inadequate and unsatisfactory because it is not the right system. Road oiling is a public improvement. It is health insurance inasmuch as it prevents disease germs from being carried with the dust—the greatest conveyor of germs. As a public improvement the work should be done legally by ordinance. It should be so contrived that one lonesome owner of property cannot prevent the oiling of an entire block. The council controls sidewalk building and the care of shade trees on boulevards; why should it not also control the laying of the dust on our thoroughfares? The people residing on main traveled roads are not responsible for the heavy traffic that raises clouds of dust, forbidding the opening of doors and windows in homes or the free use of porches and lawns as Sunday resting places. Such streets should be oiled first and a plan to carry out a suitable oiling program should be adopted by our council.

Granting the Tecumseh Electric company a 25 per cent increase in electric current rates cannot be considered an injustice to the average consumer, considering the advanced price in coal, material and labor since the last contract was made. In vetoing the 10 per cent penalty for delayed payment the council acted wisely. People do not believe in the fine systems of the dark ages, and it is much wiser to stimulate memory with a discount for promptness. The raise of the minimum rate from 50c to $1.00 per month the company deserves. The meters and their maintenance cost money and the convenience of electric current in any home is worth $1.00 per month whether that amount of current is used or not. Considering the times the new franchise does not seem unfair.

Not a few of the banqueters at the feast given by the Commerce club last Thursday evening were disappointed because the recent change of time did not come up for discussion. That the change giving us two kinds of time creates some dissatisfaction is quite evident from the vote called for at the community service Sunday evening and the resolutions adopted by Tecumseh Grange at a meeting last week.

From a canvass made by Mayor Hines Monday it seems that the business men are also divided upon the question, mainly because the train and mail service continue on Central time. The Herald can only suggest that if the question should be reconsidered we as business men especially keep in mind the best interests of the community. We should not consider merely our own selfish inclinations but that which serves the community best.

"Community Club" to take the place of "Commerce Club" is not such a bad suggestion. While the latter name would carry with it perhaps more prestige in business transactions with outside interests, the suggested substitute name might imply a larger, more far-reaching organization. But no matter what the name, boys, keep the organization a live one and if not a member become identified at once.

CAMBRIDGE GIRL THE BRIDE OF HARRY DEWEY

The wedding of Harry Dewey of this place and Miss Agnes Egan, youngest daughter of William Egan of Cambridge, was solemnized at St. Joseph's Catholic church in Cambridge Tuesday morning, Rev. Fr. Hackett officiating. The attendants were Miss Muriel Dewey of Detroit, niece of the groom, as bridesmaid, and Mark Egan, brother of the bride, as groomsman. The wedding march was played by Mrs. William Ayers of Springville.

The bride wore navy blue silk with picture hat, her sole ornament being a string of pearls. She carried white roses. Miss Dewey wore a navy blue suit with hat to match and she also carried a boquet of white roses.

Following the ceremony, which was witnessed by only the immediate families, a four-course breakfast was served at the bride's home by Mrs. Howard Ambler and Miss Ella Egan, sisters of the bride. Guests were present from Detroit, Wyandotte, Jackson and Brooklyn, among them the groom's mother, Mrs. A. Dewey, of Tecumseh.

After a trip to Detroit and other points, the couple will return to Tecumseh, where the groom works his mother's farm west of town. Both young people are popular in this vicinity and their many friends extend congratulations.

SCHOOL NOTES.

On account of the inclemency of the weather Friday the opening game of the baseball season between Britton and T. H. S. was postponed.

Miss Hildreth Gasner of Adrian, formerly a member of the Junior class here, visited school Friday and attended the Junior play.

The Junior play was very successful, both financially and from a dramatic standpoint. The comedy itself was unusually good and was ably presented by the several members of the cast. The Junior class is under obligation to Mr. Laidlaw, Miss Donaldson, Miss Brooks and Mr. Price for their untiring efforts in directing and making the play a success; also to Mr. and Mrs. Stalter for their excellent music.

A list of the teachers who are going to remain here next year was published in last week's paper, but we failed to see the name of our science instructor among them. We hope that by this time he has decided to stay, and that the school board has decided to pay the Price. We are sure we echo the sentiments of all and trust he will not accuse us of throwing boquets to "help him through the heat."

Here are a few good turns submitted by some of our Boy Scouts: "Took my mother's bank deposit." "Fixed a hole where some one might fall in so that they couldn't." "Went up town and built a fire for mother." "Filled my dad's radiator." "Stopped a baby from being burned." "Got in the coal and took out the ashes." "Helped a man get in the water." "Helped a man find a house he couldn't find."

Our school was saddened Monday by the announcement of the death of Emery Hanham, which occurred Sunday morning. Emery was very popular with his schoolmates and a member of the basketball team last year. Had health permitted him to remain in school he would now have been a member of the Junior class.

The Senior English class is reading "Idylls of the King" by Tennyson.

The French I class is studying the book, "LaBelle France," which is a story of two Americans traveling in France.

Mr. Laidlaw attended a conference at Lansing of all the agriculture teachers of the state last week end.

The Farm Crops class has finished farm crops and is beginning orcharding.

Charles Bumpus is a new pupil in the second grade.

The pupils of the sixth grade drawing class are making bird booklets.

Alva Frazier is a new pupil in the first grade.

Sure Death to Corns

"Gets-It" Makes 'Em Lose Their Grip and Lift Off Painlessly.

The first thing "Gets-It" does when it lands on a corn or callus is to snuff out the pain. Then it shrivels the corn or callus and loosens it.

Your Old Corn Field Can Again Be Made to Produce Big Corn Crops

You can make fields that have been repeatedly cropped to corn again produce the old-time yields. The remedy is not expensive and consumes no time. It is applied successfully and extensively under similar conditions in many sections.

Stop in our store the first chance you get and ask us about applying fertilizer at the same time the corn is planted. We can show you a corn-planter which, besides dropping the desired number of kernels in each and every hill, is equipped with a fertilizer attachment that successfully distributes any standard fertilizer. It drops the fertilizer without any choking up or bridging of fertilizer in the hopper, and it does not let the fertilizer come in contact with and fire the seed.

Don't overlook the "accurate planting" features of this planter—the instant variable drop. A kick of the foot and the drop can be changed to 2, 3 or 4 kernels per hill, as desired. A push of the foot lever and the planter changes instantly from hill-dropping to drilling, or back to hill-dropping, and you don't have to get off the seat nor touch the seed plates to make these changes.

Pea-planting attachment can also be furnished. It plants peas at the same time both corn and fertilizer are dropped.

TOPICS VARIED AT COMMUNITY SERVICE

(Continued from Page One.)

the corporation were asked to raise their hands and it was evident on which side the farmers stood.

C. M. Mott of Adrian, who is an undertaker, was then introduced. He completed his introduction by saying his business was to cover up the mistakes of the doctors. He is heartily enthusiastic in regard to the Inter-Church World movement and carries his audience with him. He dwelt on the great work which is ahead of the movement but was confident of the result, saying it is as sure of accomplishment as we were of getting rid of the saloon. "You never made a dollar the Lord did not give you and you owe him 10 per cent of all you make."

As this was Rev. W. A. Rex's last appearance at the community services he was invited by Rev. Curtis to give a parting message. Rev. Rex styles himself as one of the new missionaries in the Inter-Church World movement, as he goes into the city extension department of the New Era work of the Presbyterian church, which is part of the movement. He spoke feelingly of the fellowship he had enjoyed with the ministers of the town. The three weeks Lenten services just closed he regarded as the greatest phase of the community services. He advocated a community church picnic and the daily vacation Bible school. The speaker censored the American Legion for calling upon the people of Tecumseh to show their patriotism by attending a Sunday night picture show in opposition to the community service. Mr. Rex further stated that he knew who were the patriotic people of Tecumseh during the war period. Ninety per cent of the patriotic activities were conducted by church people. Therefore it seems a shame and disgrace, he said, to appeal to the patriotism of these church people to attend a Sunday night benefit picture show.

Rev. Rex closed by inviting Tecumseh people to visit him in Flint.

The ministers present upheld Rev. Rex in his criticism of the Legion.

March 20, 1920.

Editors The Herald:

My attention was called last evening to an article in an evening paper headed "Legion and Ministers at Odds in Tecumseh." There will not be a meeting of the Legion for some days and as I am one of the few members who are responsible for the picture show, I will ask the privilege of making an explanation in your columns.

In the first place the ministers may be at odds with the Legion, but the Legion is not at odds with the ministers.

Now, the boys came home last year and organized our post of the American Legion and we have not received, asked or hinted for the assistance from the people of this community which has been given in many other towns in this vicinity. We have tried to make our own way, but it has been hard work. Many have assisted us in our entertainments to raise money and to them we are deeply grateful. Last Tuesday evening two gentlemen, newcomers in this town, came to us with the first offer of real substantial help we have received. They offered us the receipts from their picture show for Sunday and they did it with so much kindness and courtesy that personally I would have considered myself an ungrateful pup if we had refused the offer.

Our advertisement was hastily written on Wednesday afternoon and bore the words: "Go and prove you are with us," and was published in the last issue of The Herald. These words, however, did not appear in the posters sent out by Messrs. Henderson & Bond. We supposed that the Sunday picture show was an established institution here and possibly to our shame, we did not even consider the churches, especially as many of us belong to churches which do not frown on well conducted Sunday amusements, and this advertisement was directed at those who might otherwise have selected some other place of entertainment.

It seems to me that Mr. Rex draws a pretty far fetched conclusion in calling our advertisement a challenge to the church, and inferentialy to 90 per cent of the subscribers to the Liberty loans and patriotic funds. We are proud of the position which the spirit and leadership of this town placed it in all these drives and we are proud of the work done by the women in their Red Cross rooms. Many of our boys have been through experiences that have radically affected their outlook on life and they have come home changed into far better citizens than they had been, and personally I am very proud of the manner in which they have conducted themselves in Tecumseh. But we are not yet adjusted to things as they are, and I would ask all of your readers not to jump at hasty conclusions at anything we may do or say.

Thanking you for this privilege, I remain

Yours very truly,
R. K. Anderson.

ELECTRICITY TO COST 25 PER CENT MORE

(Continued from Page One)

When President Hines pointed out this practically meant a 35 per cent increase in rates at one jump Mr. Church admitted it, but contended the company must have it or it would be operating at a loss. He asserted the company furnished service in 1918 at a loss of about $1,000. Last year, by strictest economy, the concern made a little money, but not enough for the large sum invested, he declared. He told the council no improvements or repairs to speak of were made last year, but this condition could not continue, and to keep the service at its best $20,000 would have to be spent this year. This could not be done at the present rate. The water power used furnishes less than half the current needed, Mr. Church explained, and the coal required to operate the plant last year cost about $10,000. In speaking of the 25 per cent coal clause the electric company official said he had given the rate problem much study and believed this plan would solve it to the best interest of all concerned, saying it protected the current user and the company. Under this method, if coal goes higher the patrons of the company help pay the additional cost and if the price drops below what it is now the rate for electricity is lowered, so that the rate might change from month to month.

Trustee Pulver voiced the opinion the people should know what rate they are paying, pointing out the electric company would be inviting a lot of trouble if it adopted a variable rate. Mr. Church replied if the council preferred a flat rate, it could be arranged, his object in seeking an early settlement of the question being that the company might know what it could expect, as contemplated improvements in the service depended on the result of the franchise and contract agreement.

The view of Mr. Pulver was endorsed by Trustee Moore, who considered it highly important the people know what rate they are paying.

All the aldermen agreed the company was entitled to a raise in rates, realizing it could not operate with the same revenue it could a few years ago because of the great increase in the cost of everything, but none of them seemed willing to accept the contract as presented. The trustees also were of the unanimous opinion the minimum charge of 50 cents a month was too low, and were in favor of doubling it, but a 25 per cent increase and a 10 per cent penalty for non-payment of bills by the 10th of the month was considered too large an advance.

Mr. Church held out a long time for the penalty clause, saying it was many of those who had to pay only the minimum rate who were the most frequent in failing to settle by the stipulated time, and the bill was too small to warrant any great expense in making collection. He finally agreed to again offer a 10 per cent discount if the 25 per cent coal clause was granted and all reference to horse power rates be eliminated from the agreement.

After some further discussion Trustee Moore moved the company be granted a franchise and contract for three years with a flat 25 per cent increase over the rates in force under the old contract, the minimum charge be raised to $1 and all reference to horse power rates be omitted. Trustee Pulver seconded the motion and when it was put to a vote every councilman answered yea. The franchise and contract, in their new form, will be presented at the next meeting of the council.

The old rate was 9 cents, the increase making it 11¼, but with the discount the rate will be 10 cents. The company has about 700 meters in service in this city.

Another question to be brought up that was of more than passing interest was the parking ordinance, which now provides vehicles must be headed straight in toward the curb. It was voted to amend the ordinance, directing vehicles be parked on the right side of the street and at an angle of 45 degrees.

Rural mail carriers were granted permission to park their autos in front of the postoffice for a short time daily so they can load in their mail. "No parking" signs will be placed there to keep others away.

A petition from interested tax payers requested water service on Brown street from Union west to the terminus of Brown street. It was referred to the committee on water.

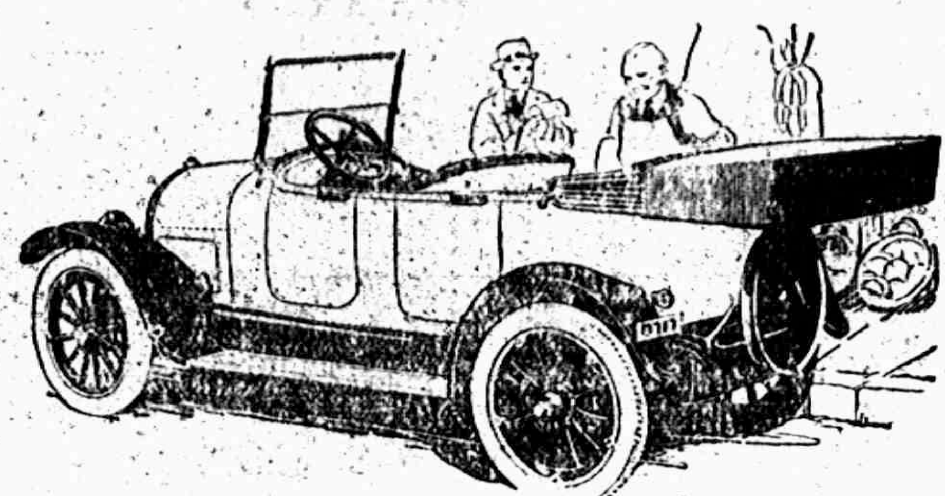
Pleasure for the Family



A few days ago one of the many customers to whom we have sold used cars called on us and told us about the pleasure he and his family have had from the used car we sold him last summer for $450. How they could enjoy the evenings and Sundays instead of sitting on the porch and watching their friends drive by!

An automobile is not considered a luxury now, but a necessity. Everyone should have some change from their daily work. The farmer must have a faster method to get him to and from the farm.

It is a wrong idea that used cars are worn out cars. Of course some parts have become somewhat worn, and lead the owner to believe it is completely worn out. We take these cars, and under our careful supervision, replace these worn parts and offer for sale a used car that has years of use.

Call on us and we will take you for a ride in the car that appeals to you; a car that we can give you deferred payments on if you wish; making it easy for you to pay for.

All kinds of cars will be very scarce within thirty days. Our suggestion is to call at once while we still have a good, desirable used car that will please your whole family.

Adrian College Students Adopt Overalls

An Adrian dispatch to a Detroit daily says:

"By the terms of a pledge signed here Monday by Dr. Harlan L. Feeman, president of Adrian college; by most of the faculty members and by practically all the male students, the school this morning was to take on the appearance of a factory. All the signers, at a meeting, pledged to begin wearing overalls as a blow at the high cost of other clothing. Co-eds have not signed a pledge yet."

When a college professor has so little grey matter in that wart that sets above his shoulders, comes out and leads his students into forming an Overall club, he ought to be kicked out of the county by the men who wear overalls. No club can buy overalls of us and our prices will remain at $1.75 and $2.25 a pair.

Just Where and How Is the Money to be Spent?

A businesslike Answer to a businesslike Question

THIRTY denominations cooperating in the Interchurch World Movement have budgeted their needs. No business could have done it more scientifically.

They have united to prevent the possibility of duplication or waste. At least a million dollars will be saved by the fact that thirty individual campaigns are joined in one united effort.

Each denomination has arranged its budget under six main heads:

1 FOR THE CHURCH'S WORK AT HOME. A score of items come under this head. Consider only one. Five and a half million people in the United States cannot even read and write the English language. Who is to carry forward this vast work of Americanization if the church does not?

2 FOR HOSPITALS AND HOMES. Every year thousands of men and women seriously ill are turned away from Church hospitals because of lack of room. The children's homes are compelled to turn away more children than they can receive.

3 FOR HIGHER EDUCATION. Of the 450,000 American students in institutions of higher grade, one-half are in institutions founded and supported by the Churches. Many of these institutions have had no great endowment campaigns, but their needs are just as pressing as the needs of larger schools; and you have only to read their list of alumni and alumnae to measure the value of their contribution to America.

4 FOR RELIGIOUS TRAINING. At least 12,000,000 children and young people under 25 years of age are entering American life without any religious training at all. Remembering the faith of Washington and Lincoln, do you think that America will continue to produce Washingtons and Lincolns if faith dies out of the hearts of its youth?

5 FOR THE CHURCH'S WORK ABROAD. Influenza came first from the Orient thirty years ago; nearly all plagues are Oriental plagues. So long as China has only one physician to every 400,000 people the Orient will continue to be a menace. So long as one-third of the babies of India die before their second year our own babies are not safe. A Christian doctor or teacher sent abroad is working for America as truly as though he worked at home.

6 PREACHERS' SALARIES. The preacher is called the "forgotten man," and well he may be. Eight out of ten preachers are paid less than $20 a week!

Each denomination has its own detailed budget, and will administer its own funds. Your pastor has copies of the budget: examine them for yourself. In the week of April 25th-May 2nd you will be given your opportunity to help. You can do it with the full satisfaction of knowing that every dollar of your gift has its post assigned to it in advance.

Every dollar for better America and a better world. When your church calls on you give—and give with your heart as well as your pocket-book.

MANY HEAR CLOSING SERMON BY REV. REX

A great crowd attended Sunday morning's service at the Presbyterian church to listen to the last sermon by their popular pastor, Rev. W. A. Rex.

Following the opening devotionals there was held a congregational meeting when the annual canvass for the church funds was started. Jos. H. Smith acted as chairman of the meeting and a pulpit committee was appointed as follows: F. B. Wood representing the congregation; R. M. Moiles, the Session; Mrs. S. W. Boyce, the Sunday school; Mrs. F. D. Rector, the New Era committee, and J. R. Nyland, the trustees.

In Rev. Rex's closing message to his people he used the text, "And they rehearsed the things that happened on the way." He said: "Every sermon should be a farewell sermon, for we never know what a week will bring forth. We are leaving in the finest of spirit and hope to be invited back frequently." He made his talk neither "taffy or epitaphy," but did advocate some good things for the future work. He wished to see a memorial bronze tablet on the church wall placed in "the memory of John ——— and wife" in appreciation for a new heating system, for no memorial would be more gratefully received. He also desired to see the endowment fund already started increased, more social equipment and more than one salaried worker, either here or in foreign lands. A more commodious manse will also be necessary if the next preacher has a larger family.

He asked his people to remember that his first and last address have been of the Great Master, that he was only leaving to be able to do more for Him. "You'll have to have hope, for doubt is close at your heels. Let your thought be for things belonging to Christ. I go to rehearse the things of Him, to do the things in the new field better than in the old."

He closed with a touching tribute for the faithful wife, saying: "Much more credit than you dream for the success of this pastorate is due the lady of the manse."

MEN'S BANQUET IS SPIRITED SESSION

(Continued from Page One)

the Ladies' Guild of St. Peter's Episcopal church were eagerly attacked.

When the pie had been disposed of Harold Lowry sang to the great pleasure of the banqueters and was prevailed upon to give an encore. His accompanist was Mrs. Ella Hodges.

The gathering was called to order by the president of the Commerce club, John R. Nyland. He declared the organization had been misnamed, and instead of being called a commerce club it should have been termed a community club. He explained it was not exclusively for retail merchants, pointing out half of the retailers of the city are not members. Mr. Nyland asserted shopmen and farmers are also desired as members and urged all who had the best interests of Tecumseh at heart to affiliate with the organization. At present the club has about 50 members and the president called attention to the fact not much could be accomplished with so small a representation from such a large community.

The first matter to be taken up was the housing corporation, B. J. Pulver, president of the Tecumseh Home Building association, being called upon to tell what had been accomplished. Mr. Pulver informed his hearers all of the preliminary steps had been taken and incorporation papers sent to the secretary of state, but no reply had been received by him. He reported options had been secured on lots and plans for the proposed houses were about to be selected. That there is great need for more homes in this city and stock in the association is still being offered for sale, was again brought to the attention of the business men.
